SUMMARY

Synopsis of SFC Substitute for Senate Bill 246

The Senate Finance Committee Substitute for Senate Bill 246 (SFC/SB246) reauthorizes 253 capital projects authorized in previous years from various funds. Reauthorizations of capital outlay projects range from changing the administering agency or the original purpose of the project, extending the reversion date, or expanding the purpose of the original project. This bill contains an emergency clause and would become effective immediately on signature by the governor (*List of reauthorizations attached*).

FISCAL IMPLICATIONS

SFC/Senate Bill 246 reauthorizes projects funded with severance tax bonds, the general fund, and other state funds. The reauthorization of funds contained in this bill does not require new capacity and are a nonrecurring expense to the general fund (GF), severance tax bond (STB) fund, or other state funds (OSF). Any unexpended balances remaining at the end of the fiscal year as designated in the bill shall revert to the originating fund three months after the reversion date.

Section 2(C) of the bill provides that the balance of appropriations made from the general fund or other state funds to the Indian Affairs Department or the Aging and Long-Term Services Department for a project located on lands of an Indian nation, tribe, or pueblo shall revert to the tribal infrastructure project fund.

For the reauthorizations contained in this bill, "unexpended balance" is defined as the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties. All remaining balances of an appropriation from the GF or OSF shall revert three months after the reversion date for the unexpended balance.

SIGNIFICANT ISSUES

Reauthorized projects in the bill were originally appropriated between 2012 and 2023. Table 1 demonstrates the purpose(s) for which projects in SFC/SB246 are reauthorized:

Table 1. Purpose of Reauthorizations in SFC/SB246

No. of Projects	Reauthorization Purpose
6	Change Agency and Change or Expand Purpose
14	Change Agency; Change/Expand Purpose and Extend
25	Change or Expand Purpose
181	Extend Time
27	Extend Time and Change of Purpose
253	TOTAL

The number of projects proposed for reauthorization in SFC/SB246 is near the number of reauthorizations requested in 2023, with more than three-quarters requesting an extension of time for the expenditure of funds. The need for expenditure extensions may reflect projects were not ready to start or may have been delayed due to labor and supply shortages and cost escalations. Reauthorization requests from state agencies and higher education institutions require approval by the Department of Finance and Administration before inclusion in the bill. The project sponsor approves local reauthorization requests.

ADMINISTRATIVE IMPLICATIONS

The state agencies, state institutions, and tribal institutions to which bond proceeds are directed are responsible for monitoring the projects funded within the bill to ensure compliance with the New Mexico Constitution and laws. The oversight by the agencies includes all financial transactions and reporting.

WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL

Funds authorized to projects requesting time extensions with 2024 reversion dates would revert to the originating funds. Funds for projects requesting reauthorization for a change of purpose or change of agency are unlikely to proceed and would revert at the date specified in the previous legislative authorization.
