

Grazing Practices that Support Landscape Health

Regenerative Agriculture

Sustainable Agriculture

Climate Smart Agriculture

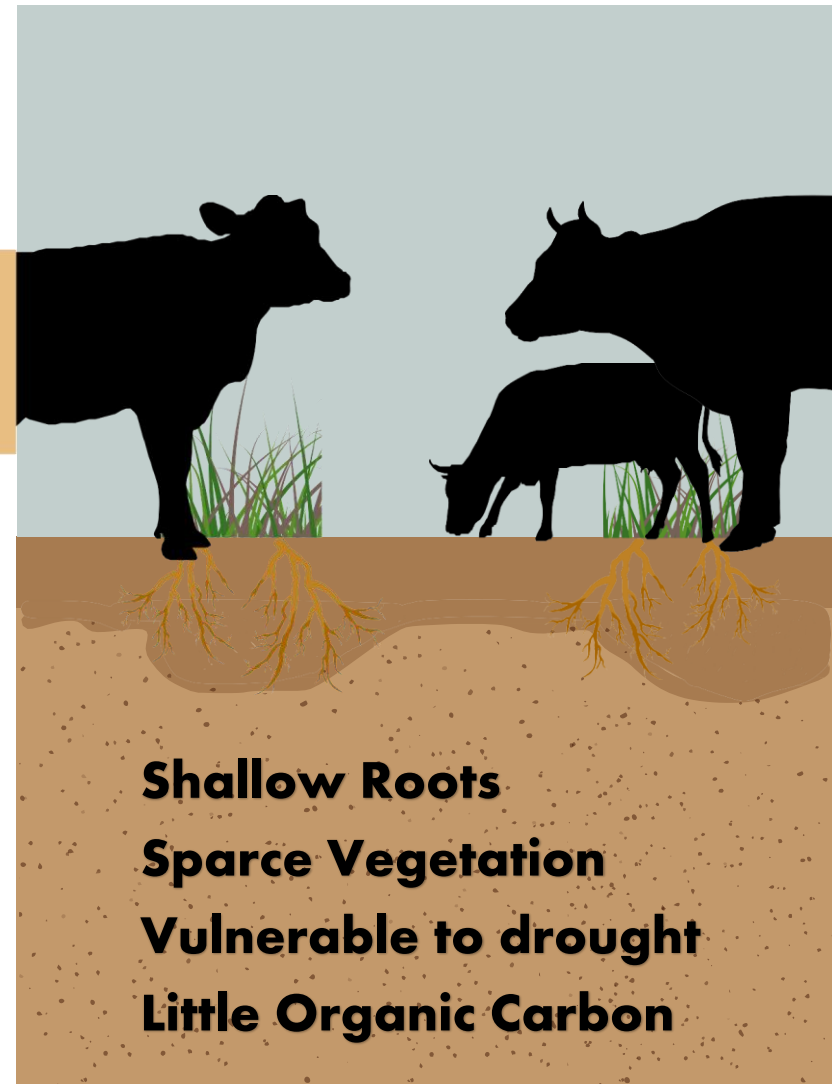

Focus on soil health

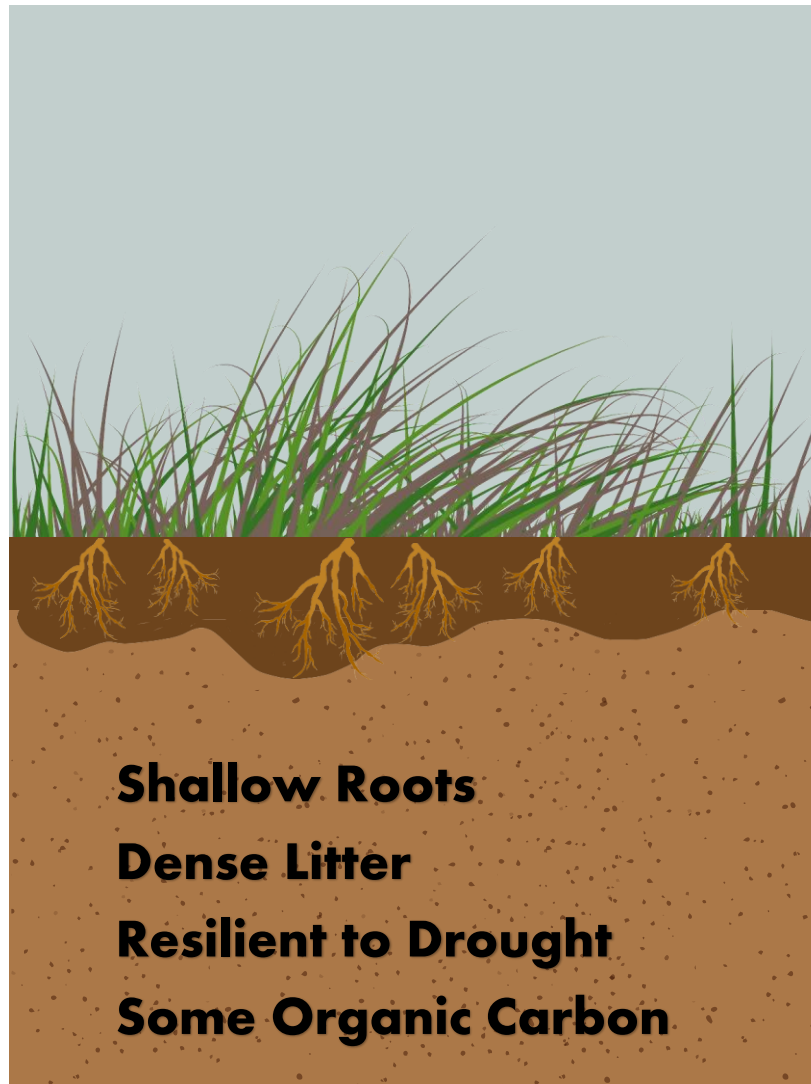

Working Lands
CONSERVATION

Grazing Management = Soil & Landscape Health

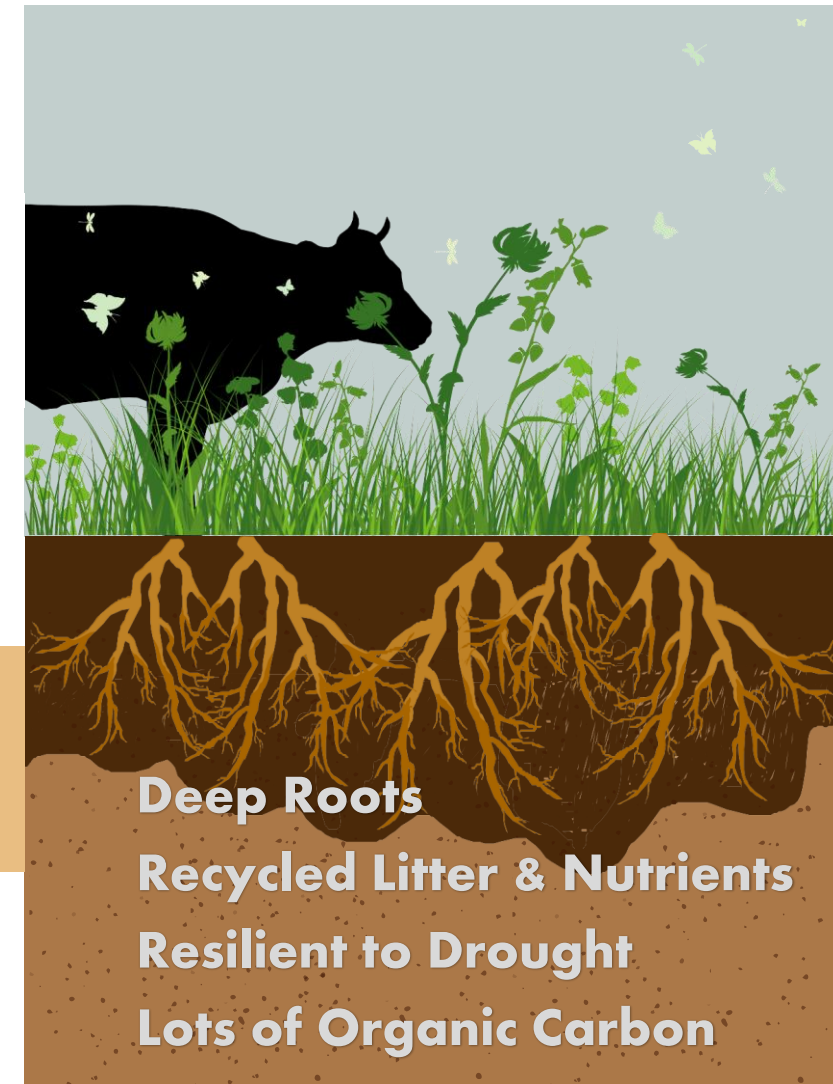

Over grazing

No grazing

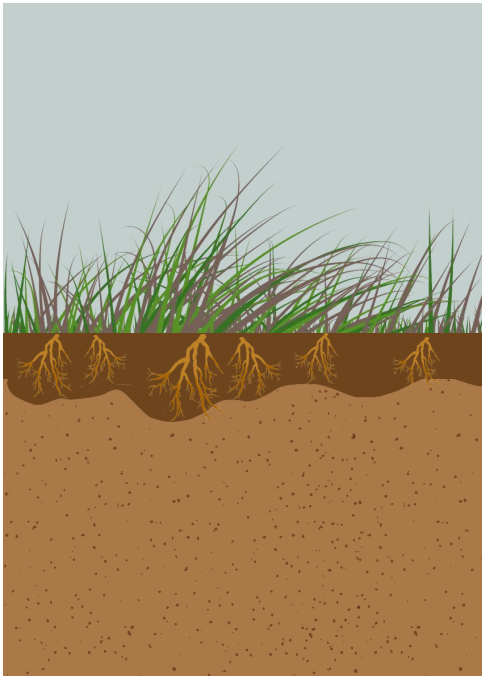

Managed grazing

New Mexico Example

No grazing

Managed grazing

Grazing Principles

INTENSITY

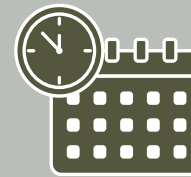

Number of livestock

TIMING

When livestock graze

DURATION

How long livestock graze

REST

How does landscape recover when principles applied?

Before

September 2021

After

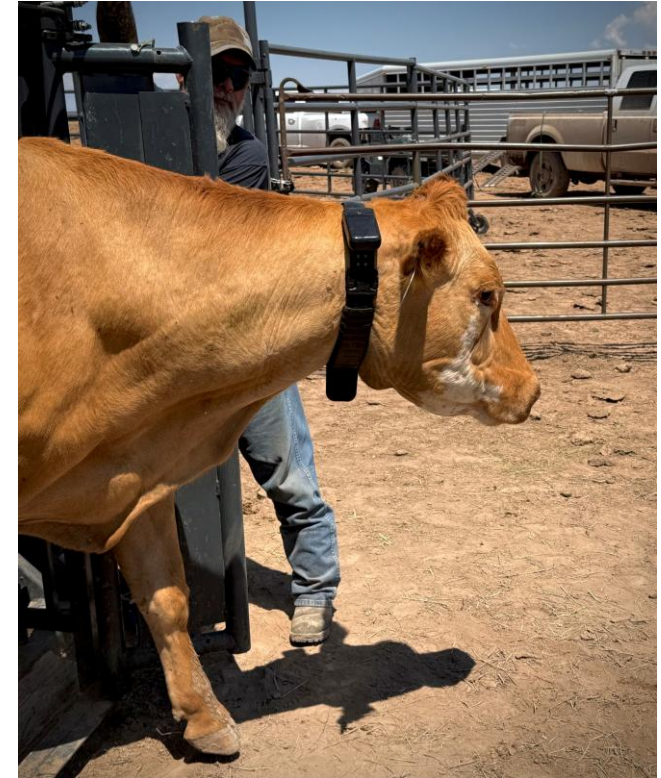

September 2022

September 2023

Rio Grande del Norte Monument Project

- Multi-stakeholder partnerships
- New management tools spurring innovation

What's going well in New Mexico:

- **Multi-stakeholder partnerships**
- **New management tools spurring innovation**
