LFC PANEL BRIEFING

New Mexico Made

Advanced Manufacturing and the CAMINO Collaborative Campus

Tracy Hartzler
CNM President
thartzler@cnm.edu
505-224-4415

Julie Heinrich
CEO, Heinrich
Consulting Group
jaheinrich@gmail.com
505-385-5075

Kurt Phinney
Palladium Diagnostics

Key Partners:

Supported by an Advanced Manufacturing Working Group

ALBUQUERQUE
PUBLIC SCHOOLS

**SANDIA SCIENCE &
TECHNOLOGY PARK**

**Sandia
National
Laboratories**

Industry, Economic Development & Government

- New Mexico Consortium
- Dekker Design
- Go-Station
- Santa Fe Innovation Hub
- NM Manufacturing Extension Partnership
- Aerovironment
- New Collar AI
- Yearout Mechanical
- NTx Bio
- Kairos Power
- BlackVe
- Titan
- Mantis Space
- Up Abundance
- Albuquerque Regional Economic Alliance
- PNM
- Securin
- EDD
- Workforce Solutions
- Bernalillo County
- City of ABQ

Education

- APS
- CNM
- UNM
- NM Tech
- NMSU
- UTEP

Labs

- Los Alamos National Labs
- Sandia National Labs

The Opportunity

The CAMINO Collaborative Campus

A Strong Case Study

**Oak Ridge National Lab
Manufacturing Demonstration
Facility (MDF)**

Advanced Manufacturing **Strengthens New Mexico**

Statewide Initiative

- **Statewide collaborative** spanning northern, eastern & southern NM
- **Connects national labs, colleges, universities & industry partners**
- **Builds capacity** in manufacturing, aerospace, energy & national security
- **Creates statewide pathways** from education to high-demand careers

Extending the Sandia Science & Tech Park

The Land

CNM's CTIED— An Anchor Facility on the Campus

Innovative Workforce Model: K–12 to PhD

NEW MEXICO'S GROWTH OPPORTUNITY AREAS

Advanced manufacturing is the throughline that supports and accelerates all priority growth opportunity areas for New Mexico

ADVANCED ENERGY

- Solar/ photovoltaics
- Wind
- Geothermal
- Hydrogen and biofuels
- Fusion and nuclear
- Oil and gas
- Microgrid and grid management
- Remediation and adaptive reuse (produced water, carbon sequestration)

QUANTUM TECHNOLOGIES

- Quantum sensing and navigation Quantum security/ encryption
- Quantum/hybrid computing platforms
- Quantum-enabled analytics and modeling applications

AEROSPACE & DEFENSE

- Aerospace systems testing and demonstration
- Suborbital launch platforms
- Unmanned systems and remote sensing
- Satellite platforms and components
- Directed energy systems

EMERGING GROWTH AREAS + EXISTING NM MANUFACTURING

- Biosciences
- Agriculture, water and ecosystem technology
- Semiconductors
- Electronics
- Defense
- Advanced materials

< < < ADVANCED MANUFACTURING > > >

Informed by the [State of NM Science & Tech Roadmap, 2025](#)

NEXT STEPS

	Aug. 5, 2026	CNM Board Meeting—Approval of Supporting Resolution	
	Aug. 5, 2026	APS Board of Education Approval of Disposition of Surplus Property	
	Sep. 9, 2026	Economic Forum—CAMINO Collaborative Presentation	
	Sep. 15, 2026	NM Board of Finance CAMINO Collaborative Presentation— Informational	
	Fall–Winter 2026	NM Board of Finance & APS Board of Education Approval of Ground Lease	
	Spring 2027	Sandia Science & Technology Park Master Plan Build Out	
	Summer 2027	Center for Technical Innovation & Entrepreneurial Development Facility 100% Construction Drawings
