9	
10	AN ACT
11	RELATING TO HIGHER EDUCATION; ADDING REQUIREMENTS FOR THE
12	LICENSURE OF MEDICAL SCHOOLS.
13	
14	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:
15	SECTION 1. A new section of Chapter 21 NMSA 1978 is
16	enacted to read:
17	"[NEW MATERIAL] MEDICAL SCHOOL LICENSURE REQUIREMENTS
18	A. Prior to issuing or renewing a license to
19	operate a medical school in New Mexico, the higher education
20	department shall require a medical school to:
21	(1) obtain executed agreements from at least
22	five different clinical affiliates in New Mexico that have
23	inpatient bed capacity of one hundred fifty or more licensed
24	beds;
25	(2) obtain the required number of executed

agreements and faculty credentialed appointments from New Mexico-based preceptors as defined by the medical school applicant's programmatic accreditor; and

- (3) demonstrate the medical school's ability to facilitate the creation of new graduate medical education programs within New Mexico. At a minimum, the medical school applicant shall demonstrate and provide documentation that the medical school applicant is the procuring cause for the creation of at least one first-year resident position in New Mexico for every ten students in the medical school applicant's initial approved class size. The documentation shall include evidence that the graduate medical education program submitted its application to the accreditation council for graduate medical education for approval.
- B. The higher education department shall maintain an appeals process for medical schools in New Mexico that have had a license denied by the higher education department.
 - C. As used in this section:
- (1) "clinical affiliate" means a hospital, physician office, ambulatory care center, surgical center or health department;
- (2) "executed agreement" means an agreement signed by the designated medical school official and designated official of the institution providing access for medical students to clinical rotations and education;

- (3) "faculty credentialed" means the process by which the medical school ensures that the physicians providing clinical education have the required education, training and licensure to practice medicine;
- (4) "graduate medical education" means any type of formal medical education pursued after receipt of an allopathic or osteopathic physician degree. Graduate medical education includes internship, residency, subspecialty and fellowship programs, in all fields of medicine and surgery, recognized by and enabling state licensure in New Mexico;
- (5) "medical school" means a tertiary educational institution, or part of such an institution, that teaches medicine and awards a professional degree for physicians and surgeons, including a bachelor of medicine, bachelor of surgery, doctor of medicine or doctor of osteopathic medicine;
- (6) "preceptors" means licensed, practicing allopathic or osteopathic physicians who, under a faculty appointment with a medical school, mentor medical students and provide clinical education for core and elective clerkship rotations;
- (7) "procuring cause" means the verification that the medical school initiated and facilitated a third-party health care organization to develop, fund and implement a new graduate medical education residency program; and

(8) "programmatic accreditor" means, for
allopathic physicians, the liaison committee on medical
education and for osteopathic physicians, the commission on
osteopathic college accreditation."
