

NEW MEXICO PUBLIC REGULATION COMMISSION PRESENTATION TO THE SCIENCE,
TECHNOLOGY, AND TELECOMMUNICATIONS COMMITTEE, TUESDAY, NOVEMBER 5, 2019

Background Data for Exhibits to Commission's July 30, 2019 Report to the Legislature Case
No. 17-00311-UT, SB 53 Reporting¹.

1. Page 5 of the report references Exhibit C, a summary of CenturyLink QC's performance with regard to quality of service standards for the years 2015 and 2018. The 2015 data was filed with the Commission January 29, 2016 in compliance with NMAC 17.11.27.8, Annual Mid-Size Carrier Quality of Service Report. The 2018 data was supplied by CenturyLink QC as Appendix B to CenturyLink QC's February 25, 2019 Filing in Case No. 17-00311-UT, *Response to Order Requiring CenturyLink QC to Provide Information in Accordance with Staff Recommendations and Request for Protective Order*.
2. Page 6 of the report references Exhibit E, a summary of CenturyLink QC's outage reporting for years 2015 to 2018. That information was compiled from Staff emails and submitted by Staff in Case No. 17-00311-UT on June 17, 2019, *Staff Response and Affidavits Regarding Requested Information by Commission*.
3. Page 6 of the report references Exhibit F, CenturyLink QC employment numbers for the years 2015 through 2018. CenturyLink QC provided the background data to that Exhibit in two spreadsheets that were originally filed with the Commission confidentially in Case No. 17-00311-UT on July 8, 2019, *Notice of Filing Confidential Appendices*. Those were later determined to be non-confidential by the Commission.

¹ The rest of the exhibits to that report display the actual information given by CenturyLink QC, and were not derived from more detailed underlying information leading to the information in those exhibits.

Significant Update :

On December 18, 2018 at ~10:45 a.m. (MST), CenturyLink became aware of an ALI service disruption that may have impacted multiple states.

Resolution : CenturyLink quickly partnered with its NG911 vendor to assess and resolve the issue and all services restored at 11:38 a.m. (MST). While we understand that 911 calls were processed during the event, some calls may have been mis-routed or

delivered without ALI.
