Note for Families

If your student is enrolled in a school that has earned two "F" grades in the last four years, state law allows you to transfer your child to a school with a higher school grade. Please call (505)-827-6909 to learn more. For information about other schools in your community, please visit the School Grading web page at <http://aae.ped.state.nm.us/SchoolGrading.html>.

School Improvement

School Improvement

School growth (Value-Added Modeling) compares overall student performance from year to year and considers the progress of all students whether or not they are proficient.

	<i>Reading</i>	<i>Math</i>
Growth Index	1.01	1.02
Points	4.22	4.23

Growth can be negative or positive. When it is positive, the school performed better than was expected when compared to other schools with the same size, mobility, and prior student performance.

Student Growth

Every student's prior test scores are used to estimate how they should have performed this year. Their academic growth is considered within two groups, the lowest-performing 25% of students and the higher-performing students (75%).

- Above Zero** This group performed higher than expected.
- Near Zero** This group performed as expected based on their academic history.
- Below Zero** This group performed below expectations, and students are falling behind when compared to their peers.
