The Opportunity for Fusion in New Mexico

- Shifting New Mexico from an oil and gas superpower to an energy superpower
- Energy justice
- Commercialize lab tech invented in New Mexico...into companies building from New Mexico
- Spinoff startups and supply chain companies

How New Mexico can become the home for Fusion and Advanced Energy Startups

- Be the most **capital efficient** environment for startups to build from
- Have the **talent base** that startups need to hire quickly and execute
- **Move quicker** than any other state, particularly around **permitting**
- Make **fusion companies eligible** for existing tax incentives that New Mexico offers other high tech and research companies
