# Amount Received

	<u>Revenues</u>	<u>Expenses</u>
FY2023	\$765,393.45	Planning use of \$
FY2024	\$201,750.53	Expanding Phase
FY2025	\$283,673.99	\$275,000
	<u>Projected Revenue</u>	<u>Budgeted</u>
<u>Expenses</u>		
FY2026	\$300,000	\$438,624

# Utilized in expansion of:

## Programing in support of MOUD Treatment

- Matrix Program
- Re-entry Programming
- Re-entry services

## Medications in support of MOUD

- Zub Solv (Induction for withdrawal)
- Sublocade (Long acting Buprenorphine)
- Naltrexone/Vivitrol
- LPN dedicated to MAT

## MOUD partnerships

- New Mexico Treatment Services (Methodone)

# Leveraged Initiatives Taken

**Grant-funded planning:** In November 2023, the County received a Bureau of Justice Assistance (BJA) grant to plan for expanded MOUD services, which was awarded through the **Building Bridges Program**. Future planning included enhancing reentry programs which links individuals with post-release services. This resulted in us becoming a peer site for other facilities.

**Health Partnerships:** In partnership with Presbyterian Medical Services (PMS), the County is participating in a HRSA-funded initiative to establish medical services for individuals prior to release from SFCADF—ensuring access to continued medical, dental, and behavioral care.

**Recovery Housing:** A contract with a local nonprofit, which supports the R.I.S.E. House, a recovery residence for graduates of the Matrix program to promote more successful re-entry into the community.

**Employment Pathways:** Innovate and Educate partnership is intended to provide enhanced job opportunities for Matrix graduates, connecting them with County employment opportunities, as well as other employers.

# Leveraged Initiatives Taken Continued

**Re-entry Fairs:** SFCADF now hosts quarterly re-entry fairs to connect incarcerated individuals with community providers such as Santa Fe Recovery, NAMI-Santa Fe, Engage, and Life Link. These events help address post-release needs like housing, employment, and healthcare to reduce recidivism and overdose risks.

**Regional Collaboration:** Santa Fe County participated in a community forum in Rio Arriba to share strategies and coordinate on opioid settlement fund priorities.

**Public Awareness:** In Fall 2024, Santa Fe County proudly co-sponsored the **Fentanyl Summit**, hosted by Bernalillo County. The event drew stakeholders from across the state. County Manager Greg Shaffer delivered opening remarks, emphasizing collaboration and innovation in tackling fentanyl-related challenges.

**Crisis and Detox Services:** The County continues to support La Sala Crisis Triage Center, which provides detox, crisis stabilization, and behavioral health support.
