# NEW MEXICO HIGHER EDUCATION DEPARTMENT

***Fostering spaces for student success in academics and beyond.*** The New Mexico Higher Education Department's mission is to provide financial, academic, and policy oversight and support to New Mexico's public higher education institutions and our formal community partners for the purpose of promoting efficiency, accountability, and, most importantly, student success.

A photograph of two young women sitting on wooden bleachers. The woman on the left is a Black woman with her hair in a bun, wearing a dark jacket and olive green pants, holding a laptop. The woman on the right is a white woman with dark hair, wearing a grey button-down shirt and dark pants, holding a book. In the background, another person is visible sitting on the bleachers. A semi-transparent blue rectangle is overlaid on the center of the image, containing the text 'DATA COLLECTION PROCESS' in large, bold, dark blue capital letters.

# DATA COLLECTION PROCESS

## The Department is the central point for statewide federal funding data

The Department serves as the central repository for statewide federal funding data for all public colleges and universities, as well as tribal colleges and universities.

Federal funding data is fluid and subject to daily updates. The figures presented today reflect data as of **October 3, 2025.**

# FEDERAL IMPACT GUIDANCE AND DATA COLLECTION

- **Guidance Issued:** Memos distributed to all higher education institutions on May 27, 2025, and September 10, 2025.
- **Reporting Requirement:** All public and tribal colleges and universities, as well as special schools (New Mexico Military Institute, New Mexico School for the Deaf, and New Mexico School for the Blind and Visually Impaired), must submit bi-weekly updates.
- **Data Collection Method:** Each institution maintains its own Excel tracking workbook via OneDrive or Dropbox, ensuring a living document that can be updated continuously without re-entry.
- **Standardization:** All institutional workbooks are identical in structure, supporting consistency and comparability statewide.

# INDIRECT COST IMPACTS BY SECTOR

As of October 3, 2025 - Cancelled grant, decrease in project budget, program suspension, project delay, project termination, and stop work order

The overhead that supports the grant's research but cannot be directly tied to a specific project, such as a portion of the costs for building maintenance, utilities, administrative services, and the use of shared equipment. These are often referred to as Facilities & Administrative (F&A) costs and are essential for the university's overall operation and its ability to support research.

FINANCIAL AID

# FINANCIAL AID IMPACTS

# POTENTIAL FINANCIAL AID IMPACTS

**New Mexico will not see major effects until next year. Because most undergraduates benefit from the Lottery and Opportunity Scholarships, borrowing levels are comparatively low. The greatest impact is expected among graduate students, who rely more heavily on federal loans.**

Note: These outcomes reflect national projections. It remains too early to determine full impacts on New Mexico students and institutions.

Impact Area	Description & Examples	Likely Consequences
<b>Reduced Access to Graduate or Professional Programs</b>	Elimination of new Grad PLUS loans (starting July 2026) and tighter borrowing caps for graduate students.	Fewer financing options; possible decline or delay in graduate enrollment.
<b>Higher Costs or Greater Debt Burden</b>	Fewer repayment/forgiveness plans and potential loss of subsidized loans.	Larger monthly payments, longer repayment periods, higher lifetime debt.
<b>Greater Reliance on Private Loans</b>	As federal options narrow, students may turn to private lenders lacking federal protections.	Higher interest rates and less flexible repayment options, particularly for lower-income borrowers.
<b>Reduced Flexibility for Borrowers</b>	Possible limits on deferment or forbearance for unemployment or hardship.	Increased risk of default for borrowers facing income or employment shocks.
<b>Institutional Effects</b>	Shrinking access to loans could reduce enrollment and strain institutional finances.	Budget pressure and service reductions at smaller or lower-resourced colleges.
