# 2018 New Mexico Educator Vacancy Report\*

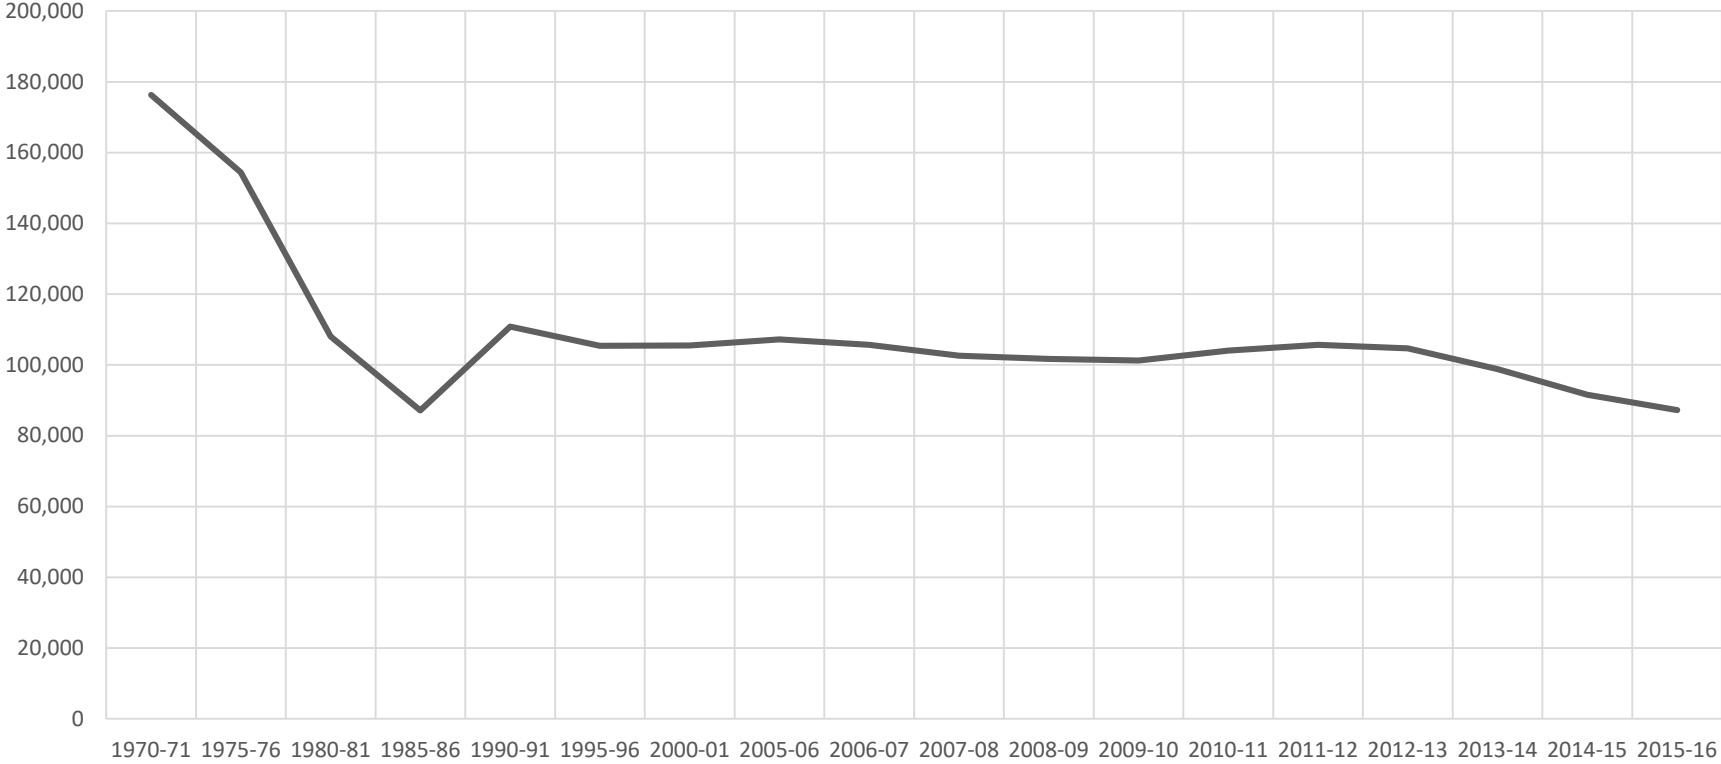

\*Each section of the pie chart contains two numbers. This first states the number of vacancies per region. The second states the percentage of the whole that *n* represents.

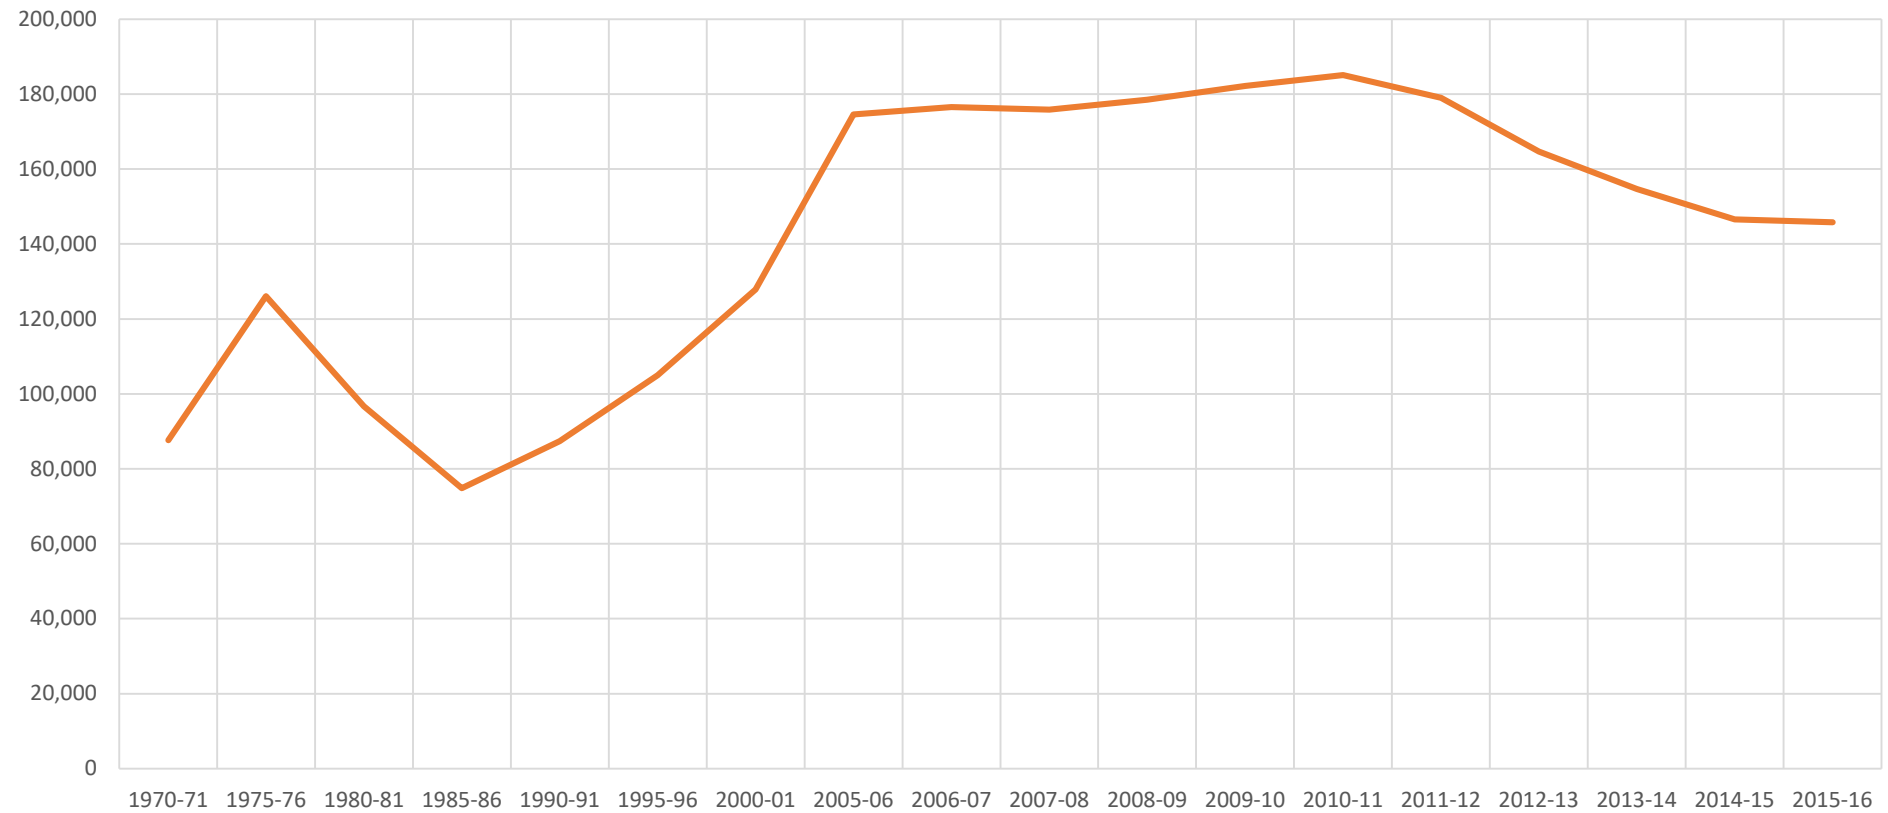

## Nationally...

- 2015: less than 1 of 10 Americans pursuing a college degree majored in education
- 2016: only 4.6% of entering freshman wanted to major in education
- Expanded opportunities for women, who comprise 77% of teaching field
  - 1970 – 71: 36% of all bachelor's degrees awarded to women were in education
  - 2014 – 15: 7% of all bachelor's degrees awarded to women were in education
- Diminished view of job security (e.g. NMTeach; Great recession 2007 - 2012: 250,000 teaching positions lost)
- Teachers' weekly wages are 23% lower than those of other college graduates
- Teaching is now perceived as a poor investment for a college education: Low pay, job insecurity, low status

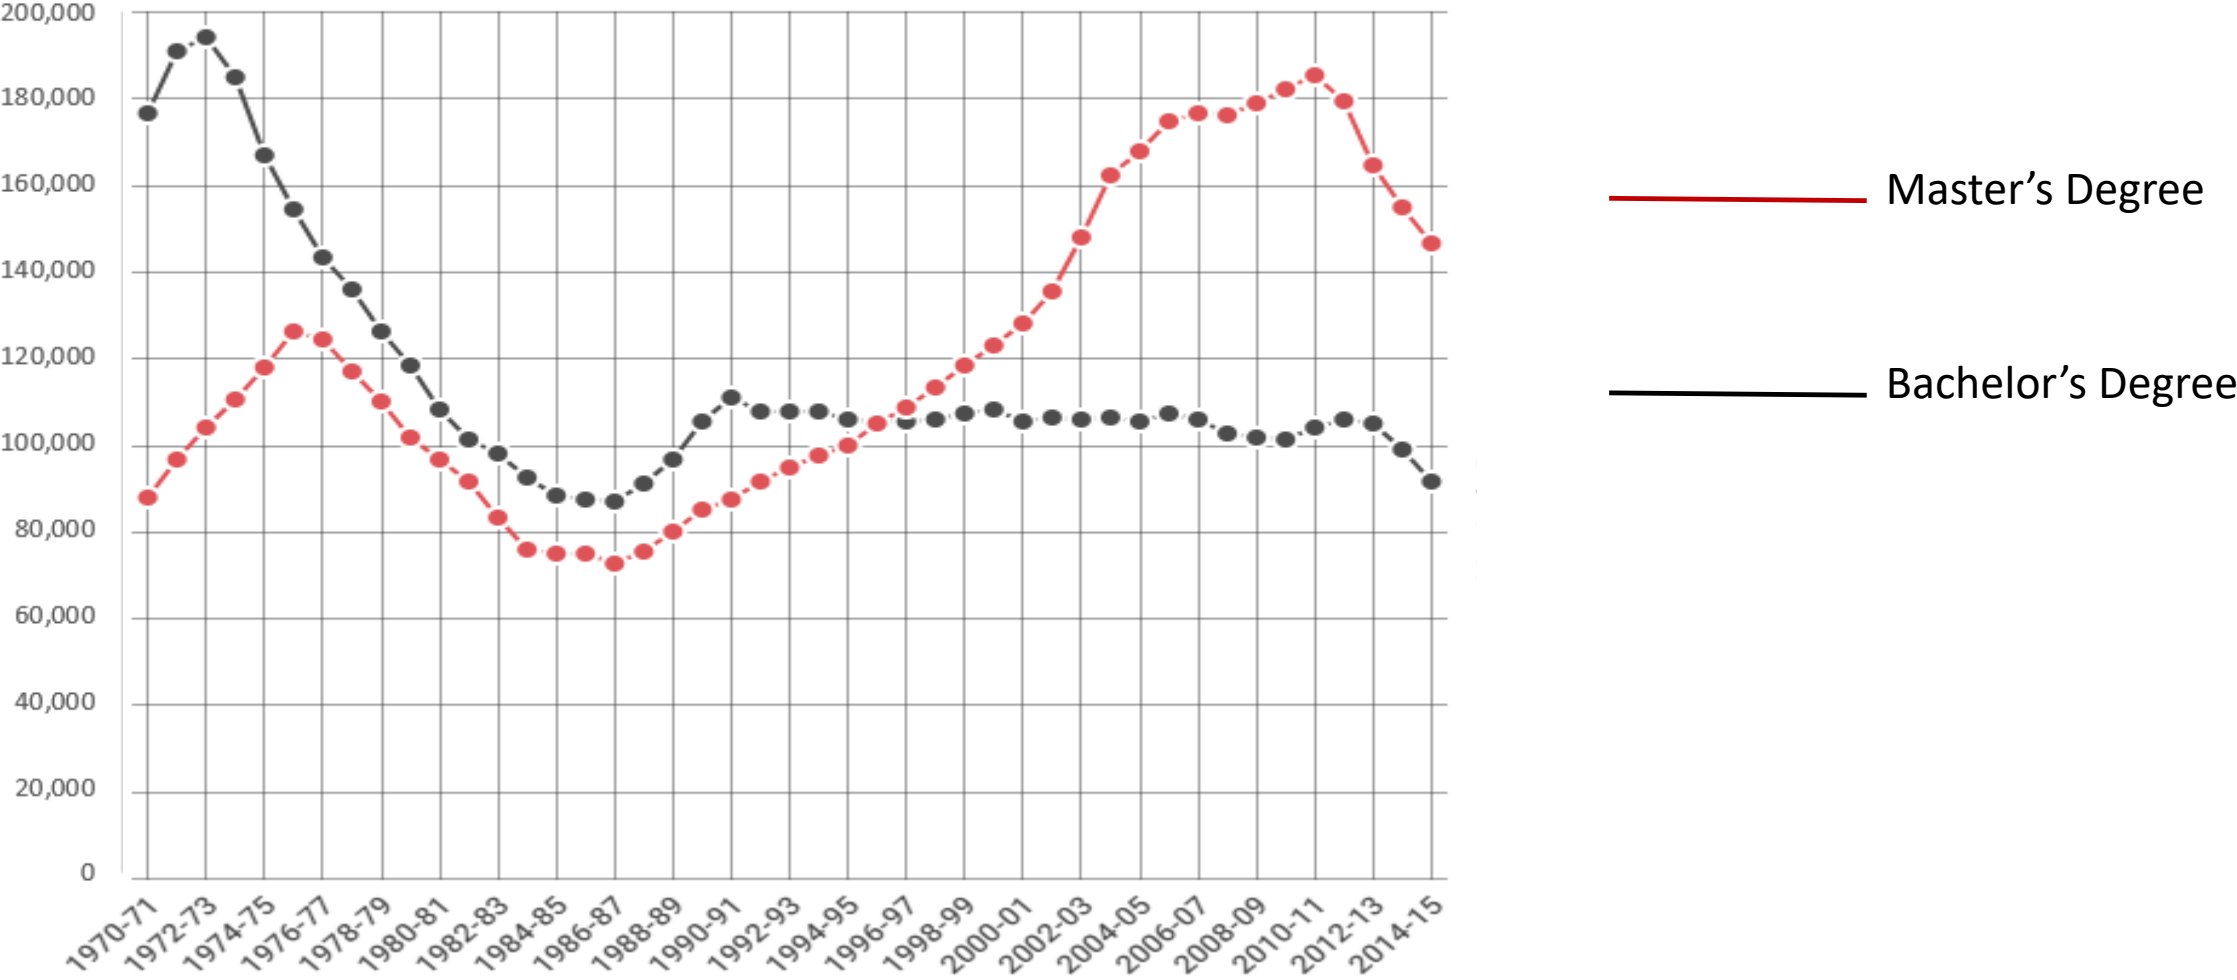

**NATIONALLY: Number of Bachelor's Degrees in Education Conferred,  
1970-71 to 2014-15**

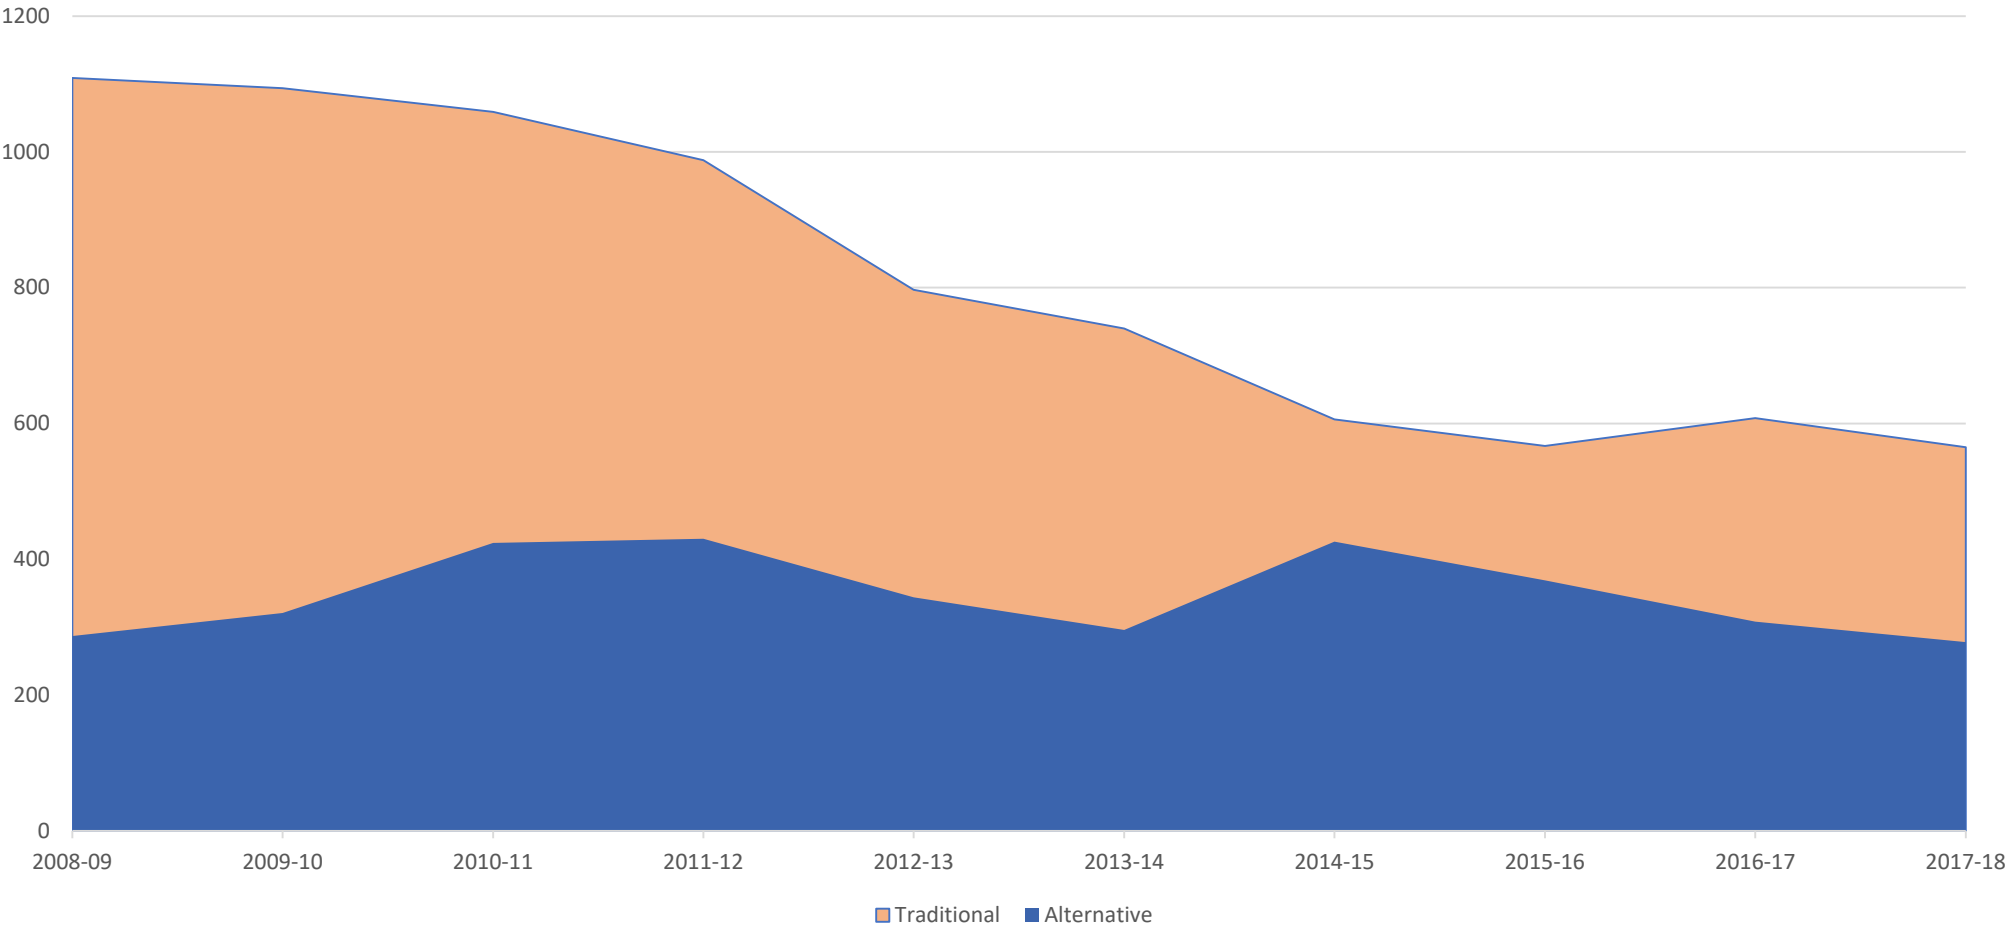

## NATIONALLY: Number of Master's Degrees in Education Conferred 1970-71 to 2014-15

Number of Bachelor's and Master's Degrees in Education Conferred, 1970-71 to 2014-15
