

Girls in *FIRST* continue to show significantly greater impacts on STEM measures than boys

Impacts on STEM-Related Outcomes for Male and Female *FIRST* Team Members

Note: Values on the chart represent the differences in outcomes between *FIRST* participants and students of the same gender in the comparison groups (i.e., the difference in scores between males in *FIRST* and males in the comparison group and between females in *FIRST* and female comparison students). All differences are statistically significant at $p=0.05$ or less. The impacts for girls in *FIRST* are significantly greater than those for boys.
