

National Drug Usage Data

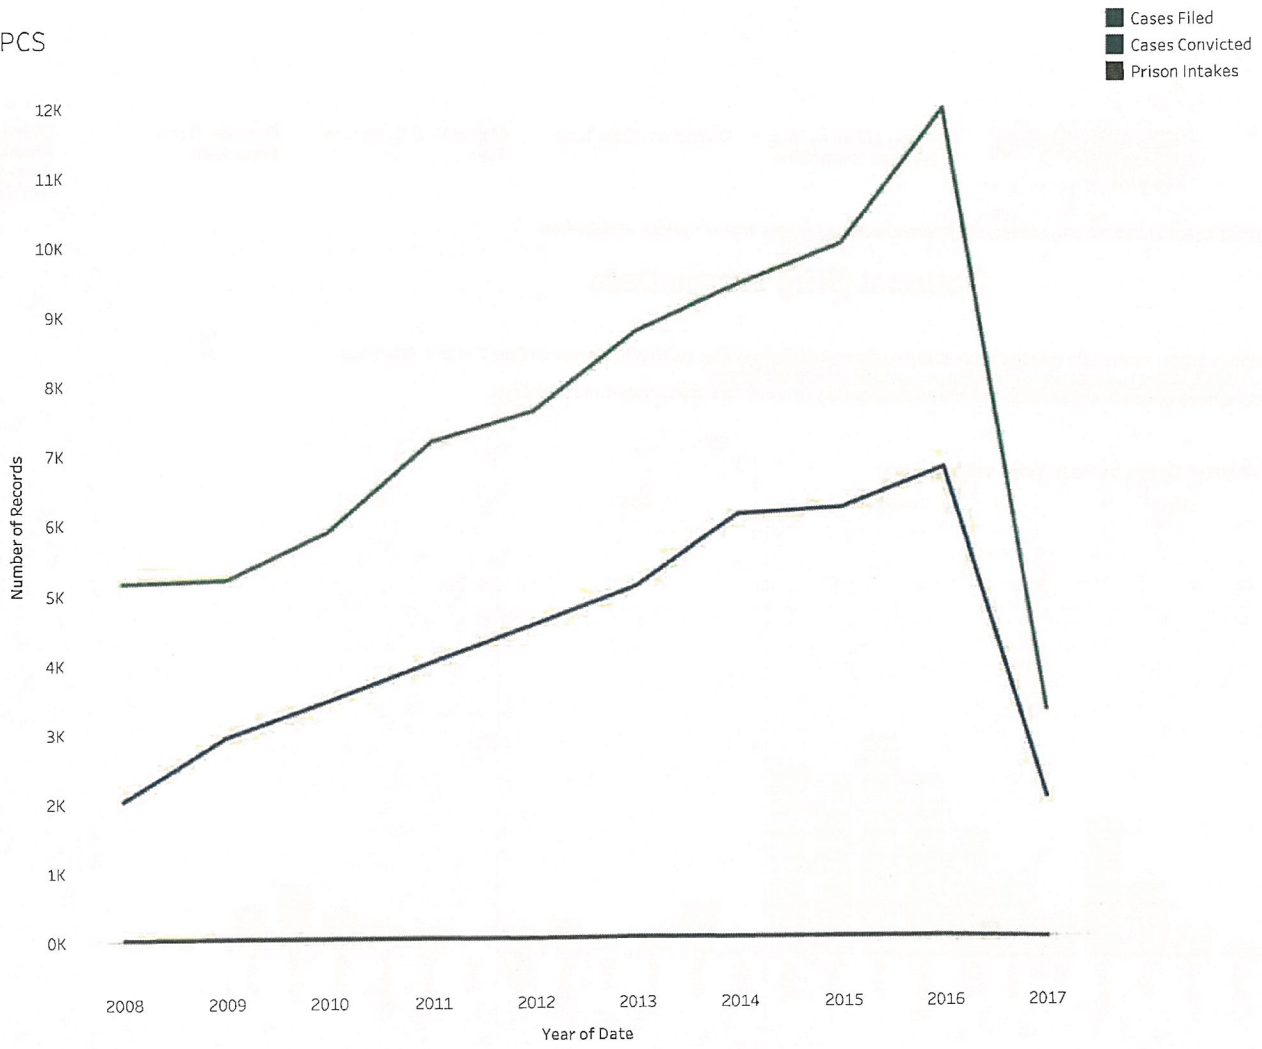

This page displays annual survey data collected by SAMHSA on national drug usage from the National Survey on Drug Use and Health, see <http://www.samhsa.gov/data/population-data-nsduh/reports?tab=38> for more information. It is broken out by drug type, race and ethnicity, and age group, allowing you to compare usage across these categories.

Estimated Self-Reported Felony Convictions by Count

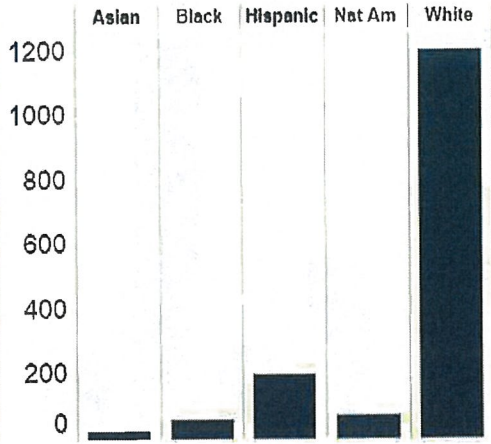

Racial and ethnic data identified in our state data system underrepresents some groups. The data displayed here uses a method that attempts to compensate for that, see our report online for more details. When we do this the numbers for Hispanic and Native American increase significantly, while those labeled as White decrease.
