

Santa Ana Pueblo Department of Education

**After-School
Academic Support
Programs**

Program Overview

SADE's after-school programs provide **tutoring, academic support, and enrichment activities** that help students **strengthen skills, stay engaged in learning, and achieve academic success** beyond the regular school day.

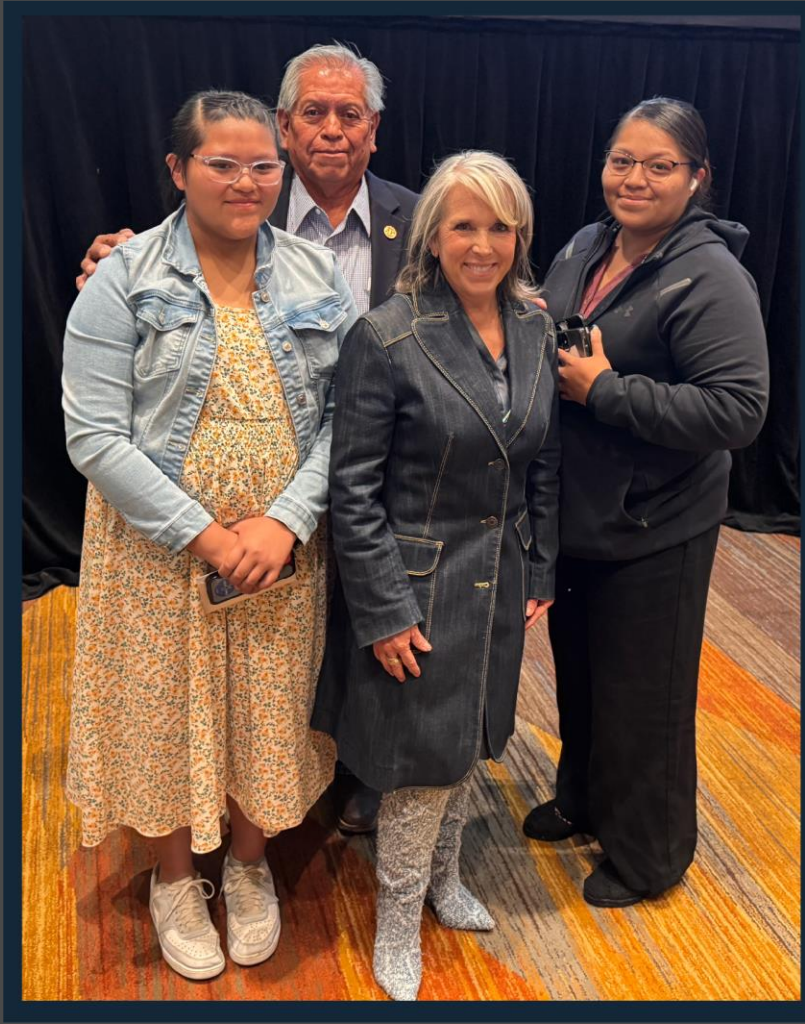

Tutoring Team & Student Support System

SADE tutoring team includes certified K–12 teacher, liaisons, student interns and virtual support through e-Tutor World. Our Special Education Specialist supports IEP students and families.

Liaison team analyzes student data (grades, attendance, behavior, assessments) to help tutors target learning gaps and our student's social-emotional needs.

Outcomes leading to improved College and Career Readiness goals and opportunities.

Family Engagement

SADE prioritizes **meaningful family engagement** by sharing student performance data with parents, fostering a **collaborative approach** to student success. Our goal is to **empower families** to actively support advocacy and student learning.

Academic Outcomes & Impacts

Program evaluation data demonstrates strong effectiveness of SADE's after-school model and consistent student growth across multiple indicators:

- 100% of participants improved in math and/or reading
- Participants maintain GPAs 0.5 points higher than peers
- Increased academic engagement and confidence
- Improved college and career readiness

Special Education Support & Coordination

SADE's **Special Education Specialist** plays an important role in strengthening student support services by helping to **identify learning gaps** and coordinating **targeted interventions** and **community presentations** with families, tutors, and school staff. A major goal is to **reduce the stigma** that is often associated with Special Education.

- Assists families in understanding the IEP process and special education terminology
- Provides **guidance and support** during special education meetings and discussions
- Helps coordinate **academic supports** and student **interventions**
- Delivers **trainings and presentations** on special education topics for the community

Program Strengths

SADE's after-school programs utilize a **data-driven system** led by our liaison team to help guide instruction and ensure supports are **targeted and effective**.

- Data guides instruction and interventions
- Supports are **individualized** to student needs
- Tutors are **highly qualified**, including special education expertise
- Integrates **academics, social-emotional support, and family engagement**

In 2026 Santa Ana seniors have achieved a 100% graduation rate!

Thank You For Listening!

SADE's after-school programs demonstrate that targeted, data-driven support combined with qualified staff, family engagement, and culturally responsive services can successfully close learning gaps, improve student achievement, and advance educational equity for our students at the Santa Ana Pueblo.
