MEMORANDUM

TO: New Mexico Legislators

FR: Frances Ramírez-Maestas *FRM*

RE: SUMMARY OF PUBLIC EDUCATION-RELATED LEGISLATION PASSED BY THE 49TH LEGISLATURE, 1ST SPECIAL SESSION (after executive action)

This memo and the attached materials provide an overview of legislation from the 1st Special Session of the 49th Legislature related to public school support and other education-related appropriations, after executive action.

On October 17, 2009 the Governor issued an Executive Proclamation (see Attachment 1) calling the 49th Legislature into special session to address FY 09 and FY 10 budget shortfalls. For FY 09, the proclamation requested consideration of the use of the state's reserves to meet FY 09 obligations. For the state's FY 10 budget, the Governor's proclamation prescribed 10 measures for the Legislature's consideration and excluded "any other measures that would alter existing taxation and/or revenue enhancement structures." The proclamation also prohibited "measures reducing salaries or raising tax rates, reducing or eliminating tax credits, rebates, exemptions, or deductions, or imposing new taxes."

Overall, the 2009 Legislature, in special session, passed eight bills and one joint memorial. Seven of these bills were signed into law, two with partial vetoes and one was pocket vetoed. As a package, these bills addressed solvency issues for FY 09 and FY 10 that had been identified by the Legislative Finance Committee (LFC). According to the LFC, in October 2009, the FY 09 budget exceeded appropriations by \$214 million. For FY 10, the LFC projected a shortfall of approximately \$650 million. The following

material outlines legislative action in the special session, after Executive action, for each respective fiscal year:

FY 2009

CS/HB 6, *Transfer Reserves to General Fund for 2009*, (Laws 2009, 1st Special Session, Ch. 3, partial veto) transfers \$225 million from the operating reserve to the appropriation account of the General Fund to meet FY 09 obligations.

FY 2010

CS/HB 6, *Transfer Reserves to General Fund for 2009*, (Laws 2009, 1st Special Session, Ch. 3) also permits the Governor, with State Board of Finance approval, to transfer from the Tax Stabilization Reserve to the appropriation account of the General Fund up to \$115 million to meet FY 10 shortfalls.

HB 3a, with emergency clause, *Fund Transfers & Appropriation Voids*, (Laws 2009, 1st Special Session, Ch. 2, partial veto) transfers \$108.3 million to the General Fund from various state funds and voids \$1.2 million appropriated in Laws 2008.

HB 16, *Reduce Legislative Appropriations*, (Laws 2009, 1st Special Session, Ch. 4) reduces by 5.3 percent the General Fund appropriations in Laws 2009, Chapter 1 (the Feed Bill) for permanent legislative offices, including the staff office of the Legislative Education Study Committee, and requires the Legislative Council to determine the reduction of each legislative agency.

CS/HB 17 & 33a, *Reduce 2009 General Fund Appropriations*, (Laws 2009, 1st Special Session, Ch. 5, partial veto) reduces General Fund appropriations in Laws 2009, Chapter 124 (*General Appropriation Act of 2009*) by various amounts; appropriates cash balances from the Tobacco Settlement Program Fund; appropriates emergency supplemental funding for public schools in FY 10; appropriates \$29 million from the Public School Capital Outlay Fund to the New Mexico Public School Insurance Authority to pay or reimburse school districts and charter schools for property insurance premiums; and requires the Legislative Council Service, the Legislative Finance Committee, and the Department of Finance and Administration to review General Fund unexpended capital outlay projects and identify \$150 million of voidable projects to be submitted for consideration of the 2010 Legislature.

NOTE: As passed by the Legislature, CS/HB 17 & 33a, would have reduced the State Equalization Guarantee by approximately 4.0 percent but would have offset 2.0 percent of this reduction with \$45.5 million from federal education stabilization dollars. The Governor vetoed the federal fund offset; however, in his veto message the Governor indicated that he “will be distributing federal education stabilization funds in a timely manner to offset HB 17/33’s cuts to public and higher education.” These actions may require the Secretary of Public Education to reset the FY 10 unit value of \$3,862.79. Table 1 outlines the final effects of CS/HB 17 & 33a on public school support and related appropriations, after executive action.

SB 24a, with emergency clause, *School District Flexibility & Insurance*, (Laws 2009, 1st Special Session, Ch. 6) contains the appropriation and provisions for property insurance payment and reimbursement to school districts and charters school that are included in CS/HB17 & 33.

SB 29, with emergency clause, *General Fund Projects to STB Projects*, (Laws 2009, 1st Special Session, Ch. 7, partial veto) voids approximately \$124.5 million in General Fund capital outlay projects authorized in previous years, including approximately \$4.7 million in education-related projects; and authorizes severance tax bonds to be issued for the purpose of funding the projects whose General Fund dollars were reverted.

SJM 1, *Hold Tribal People Harmless on Medicaid Cuts*, requests that Native American tribes, nations, and pueblos be held harmless from cuts to Medicaid funding or programs.

Finally, the 2009 Legislature in its special session also passed SB 25, *School District Cash Balance Transfers*. The bill would have allowed school districts to make temporary cash transfers to their operational accounts of unexpended revenue from a tax imposed pursuant to the *Public School Capital Improvements Act* (SB 9) as long as none of the money were used for salaries and the district repaid the transferred amount by FY 16 according to a repayment schedule approved by the Public Education Department. However, the bill was pocket vetoed.

Governor Bill Richardson Acts on Budget Bills; Signs Executive Order Mandating Responsible Spending Cuts

Governor Sets 5 Mandatory Furlough Days

SANTA FE – Governor Bill Richardson took a number of aggressive steps today to help balance the state budget. The Governor signed legislation, while vetoing irresponsible budget cuts that would have cut critical health services, closed prisons and jeopardized protection for kids.

After taking final action on the special-session legislation, Governor Richardson signed an Executive Order that sets five furlough days for state employees and further cuts state agency budgets by an average of 7 percent for the budget year.

The Governor's budget action, combined with his efforts to save \$150 million by freezing capital outlay projects, will put the state on a responsible path toward balancing the current-year budget.

"Since the session ended, I have heard from hundreds to New Mexicans, including many legislators – who want me to exercise my veto pen to preserve those services," Governor Richardson said. "I understand and share their concerns, particularly in light of the previous budget cuts.

"However, it would be fiscally irresponsible to simply veto this bill and wait for the Legislature to meet again in January – more than half-way through the fiscal year. "Instead, I am signing an Executive Order today that directs more responsible budget cuts across state government."

Governor Richardson took the following action on legislation:

SIGNED

- HB 6 Transfer Reserves to General Fund
- HB 16 Reduce Legislative Appropriations
- SB 24 School District Flexibility and Insurance

SIGNED WITH LINE ITEM VETOES

- HB 17 Reduce General Fund Appropriations
- SB 29 STB Auth. for Capital Projects

Pocket Veto

- SB 25 School District Cash Balance Transfers

Governor Richardson's Executive Order spells out his plan for state agencies:

EXECUTIVE ORDER 2009-044

ORDER CONCERNING FISCAL YEAR 2010 BUDGET GAP; REQUIRING STATE AGENCIES TO REDUCE FISCAL YEAR 2010 OPERATING EXPENDITURES; REQUIRING THE FURLOUGH OF STATE EMPLOYEES; DIRECTING THE PUBLIC EDUCATION DEPARTMENT AND HIGHER EDUCATION DEPARTMENT TO TAKE STEPS NECESSARY TO RESTORE FURTHER CUTS TO PUBLIC AND HIGHER EDUCATION

WHEREAS, Governor Richardson called the Legislature into special session in order to address the State's fiscal year 2010 budget shortfall;

WHEREAS, even if fully implemented, the so-called solvency bills passed during the First Special Session of the Forty-Ninth Legislature were insufficient to bridge the budget gap;

WHEREAS, among other shortcomings, the solvency bills failed to cut capital appropriations or effectively use supplemental severance tax bonding capacity;

WHEREAS, Section 2(A)(4) of the House Appropriations and Finance Committee Substitute for House Bills 17 and 33 ("HB 17/33"), as amended, sought to impose deep, aggregate cuts of 7.6% to the already reduced operating budgets of State agencies under the control of the Governor;

WHEREAS, implementing such cuts would likely have caused dangerous and unacceptable harm to core services;

WHEREAS, the Administration concluded that the cuts called for in Section 2(A)(4) would likely have (i) severely compromised the ability of the Children, Youth, and Families Department to investigate child neglect and abuse cases and take kids into protective custody, putting kids at risk and jeopardizing federal funding to the State; (ii) forced the Department of Health to temporarily close some public health offices and reduce services at school-based and rural primary care clinics, which provide services to citizens with few (if any) other treatment options; and (iii) resulted in the closure of two adult correctional facilities, resulting in hundreds of prisoners being released early with inadequate supervision and employees being put out of work;

WHEREAS, to avoid such unacceptable results, the Governor this day vetoed Section 2(A)(4) of HB 17/33;

WHEREAS, the Richardson Administration recognizes the need to responsibly and meaningfully reduce agency expenditures as part of a package of solvency measures that completes the job started in the First Special Session of the Forty-Ninth Legislature;

WHEREAS, the expenditure restrictions imposed in this Executive Order will result in savings that will, along with other measures to be proposed by the Richardson Administration during future legislative sessions, bridge the budget gap while maintaining adequate levels of services and a prudent level of budget reserves; and

WHEREAS, the fiscal year 2010 budget shortfall is so severe that solvency measures unfortunately must include the furlough of state employees.

NOW, THEREFORE, I, Bill Richardson, Governor of the State of New Mexico, by virtue of the authority and responsibility vested in me by the Constitution and the laws of the State of New Mexico, do hereby order the following:

iii. Agencies may not encumber or expend more than the expenditure amount in its SBD-approved expenditure plan for any given category.

iv. By 5:00 p.m. on November 25, 2009, agencies shall, as necessary, submit to DFA's Financial Control Division and Contracts Review Bureau the necessary documentation to reduce outstanding encumbrances to bring them in line with their expenditure plans.

v. DFA is authorized and empowered to take such other action as may be necessary or advisable to effectuate or enforce the requirements contained in or developed pursuant to Section 1 of this Executive Order, including deadlines. Without limiting the generality of the foregoing, DFA may in appropriate cases extend the deadlines contained in this Section in writing.

2. Furloughs.

A. Immediately, the Chief of Staff for the Office of the Governor shall:

i. notify the unions with collective bargaining agreements covering employees at agencies subject to Section 1(A) or Section 1(B) of this Executive Order of the need for furloughs and discuss those furloughs with the unions;

ii. develop a furlough plan that:

a. is limited to those agencies subject to expenditure restrictions under Section 1(A) or Section 1(B) of this Executive Order;

b. is consistent with Regulation 1.7.10.8 NMAC;

c. limits the number of required furlough days, which, if possible, should be no more than five (5) days during fiscal year 2010;

d. to the extent practicable and advisable, given the needs of individual agencies, schedule furlough days in a manner that least affects the provision of services to the public;

e. provides a process for limited exceptions based upon public safety, welfare, and cost-effectiveness; and

iii. seek approval of the furlough plan from the State Personnel Board in accordance with Regulation 1.7.10.8(A) NMAC; and

iv. oversee agency implementation of the approved furlough plan.

B. Agencies subject to the approved furlough plan shall implement the plan.

C. The State Personnel Director shall issue necessary or desirable guidance to affected agencies to implement the approved furlough plan, which guidance shall help agencies avoid overtime or other liabilities during the weeks when the furlough is effective.

3. **Non-Compliance with Section 1 or Section 2.** DFA shall report to the Office of the Governor any agency that fails to comply with the requirements, including deadlines, of Section 1 or Section 2 of this Executive Order. The head of an agency, including a board or commission, that fails to comply with any of the requirements of Section 1 or Section 2 of this Executive Order shall be held accountable for the non-compliance.

4. **Agencies Not Under Gubernatorial Control.** Agencies not under Gubernatorial control and whose fiscal year 2010 operating budgets were not reduced in the First Special Session of the Forty-Ninth Legislature are respectfully requested to impose expenditure restrictions that will result in administrative operating budget savings of approximately three percent (3%). These agencies include the Public School Insurance Authority, Educational Retirement Board, Public Employees Retirement Association, Public School Facilities Authority, Retiree Health Care Authority, State Commission of Public Records, and Martin Luther King, Jr. Commission.

5. **Recalculation of Fiscal Year 2010 Support Restoration Subgrants.** In order to offset the reductions to public and higher education contained in HB 17/33 and pursuant to Executive Order 2009-035, the Public Education Department and Higher Education Department are directed to expeditiously:

A. calculate the amount of each local educational agency's and public institution of higher education's fiscal year 2010 Support Restoration Subgrant; and

B. This Executive Order shall take effect immediately and shall remain in effect until such time as it is rescinded by the Governor.

C. This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the State, its agencies, instrumentalities, or entities, its officers, employees, or agents, or any other person.

Governor Bill Richardson Announces Budget Balancing Task Force

RECEIVED

NOV 13 2009

LESC

SANTA FE-Governor Bill Richardson today announced he has formed a task force to study a variety of proposals to help balance the State's budget. The task force will thoroughly review and scrutinize new revenue options as well as seek public input on the options before the regular legislative session gets underway in January.

"Our revenue has taken a major hit from the global economic crisis, and we've responded by taking bold action to cut state spending to offset those losses," Governor Richardson said. "But moving forward we must also take a serious look at options to increase our revenue in ways that allow us to maintain our competitive advantage and address New Mexico's long-term financial health."

Governor Richardson appointed Rick Homans, Secretary of the Taxation and Revenue Department, to chair the task force that consists of more than 40 New Mexicans representing a wide range of industries, education, labor and other non-profit organizations. *(A complete list of members is attached to this press release.)*

The task force will hold its first public meeting on Monday, November 16th from 1 pm to 5 pm at the Santa Fe Community College. Additional meetings will be scheduled in Albuquerque, Farmington and Las Cruces.

The group has set up a web site (www.nmrevenueoptions.com) which will provide copies of meeting agendas, presentations and a way for members of the public to provide input to the group. A portion of each meeting will also be set aside for public comment.

SECRETARY OF STATE

State of New Mexico

Office of the Governor

Governor

November 9, 2009

HOUSE EXECUTIVE MESSAGE NO. 3

The Honorable Ben Luján and
Members of the House of Representatives
State Capitol Bldg.
Santa Fe, New Mexico 87501

Honorable Speaker Luján and Members of the House:

I have this day SIGNED

HOUSE BILL 3, as amended, with emergency clause

enacted by the Forty-Ninth Legislature, First Special Session, 2009, except the following item or items, part or parts, which I hereby veto pursuant to the authority granted me in Article IV, Section 22 of the Constitution of New Mexico:

On page 1, I have vetoed all of line 25, and on page 2, I have vetoed all of line 1. The audit fund's balances are insufficient to support the proposed \$500,000 transfer to the general fund.

On page 2, I have vetoed all of lines 7 through 9, which would have transferred \$500,000 from the domestic violence offender treatment or intervention fund to the general fund. Preventing domestic violence has been a priority of my Administration. Hard economic times can increase the prevalence of domestic violence. With demand for these services potentially increasing, now is simply not the time to reduce funding for domestic violence programs.

On page 2, I have vetoed all of lines 10 through 11, which would have transferred \$3 million from the enhanced 911 fund to the general fund. New Mexico's \$888,893 federal grant for enhanced 911 would have been terminated had this transfer occurred. Funding losses of this magnitude would have affected the long-term viability of the enhanced 911 fund, dangerously undermining the State's ability to enhance and maintain its emergency response capabilities.

House Executive Message 3
November 9, 2009
Page 1 of 2

On page 4, I have vetoed all of lines 2 through 3, which would have transferred \$800,000 from the trail safety fund to the general fund. This program has just started. Depriving it of funds at this time would have unacceptably impeded the program's progress.

On page 4, I have vetoed all of lines 23 through 25, which would have transferred \$250,000 from the children, youth and families pre-kindergarten fund to the general fund. Every day brings fresh evidence of the individual and social dividends that pre-kindergarten investment yields. Like the proposed transfer from the public pre-kindergarten fund, which I have also vetoed, this transfer is not necessary.

On page 5, I have vetoed all of lines 24 through 25, and on page 6, I have vetoed all of line 1, which would have transferred \$1,450,200 from the public pre-kindergarten fund to the general fund, for the reasons stated above.

Respectfully yours,

Bill Richardson
Governor

HOUSE EXECUTIVE MESSAGE NO. 5

The Honorable Ben Luján and
Members of the House of Representatives
State Capitol Building
Santa Fe, New Mexico 87501

Honorable Speaker Luján and Members of the House:

Times such as these challenge leaders to put aside pork-barrel politics, consider all options, and deliver creative, complete solutions. I admire much of the work and the dedication of our citizen legislators, who put aside personal pursuits and remuneration to selflessly serve the public during the special session. The truth is, however, that we did not completely meet the challenge.

While a good start, the fiscal year 2010 solvency bills passed during the special session did not completely bridge the budget gap. This was partly due to the Legislature's failure to put aside pork-barrel politics and void past capital appropriations. Many of those appropriations were hard to justify during times of plenty, either because they were not fully funded, not well-planned, or addressed only a marginal need. In these hard times, where core services face deep cuts, such appropriations simply cannot be justified. The Legislature also failed to duly consider the executive proposal to use supplemental severance tax bonds, which will be paid off by fiscal year end, to provide general fund operating revenue in the current fiscal year. This resulted in our trying to do a challenging job without all of the available tools.

This backdrop frames my primary objection to the House Appropriations and Finance Committee Substitute for House Bills 17 and 33, as amended ("HB 17/33"): Section 2(A)(4). That section would have reduced the operating appropriations to state agencies under my control by an aggregate of seven and six-tenths percent. Respectfully, Section 2(A)(4) is not a model of legislative draftsmanship. It would have raised substantial implementation and interpretation issues that could have engulfed my administration in controversy and potential lawsuits at a time when our focus needs to be on bridging the budget gap.

Those real issues aside, the bottom-line is that, with almost half the fiscal year gone, that cut, which amounts to approximately \$125 million, is simply too deep. Implementing it would have

House Executive Message 5

Page 1 of 4

caused dangerous and unacceptable harm to core services. For example, the ability of the Children, Youth, and Families Department to investigate child neglect and abuse cases and take kids into protective custody would likely have been severely compromised, putting kids at risk and jeopardizing federal funding to the State. The Department of Health would have likely been forced to temporarily close some public health offices and reduce services at school-based and rural primary care clinics, which provide services to citizens with few (if any) other options. Two adult correctional facilities probably would have been closed, resulting in hundreds of prisoners being released early with inadequate supervision and employees being put out of work.

Cuts this deep could only be justified if all other responsible options had been exhausted and we still came up short. As explained above, however, that is not the case. Consequently, I have vetoed Section 2(A)(4) of HB 17/33 in its entirety.

That does not mean, however, that I am postponing meaningful restrictions on the expenditures of agencies under my control. Today I issue an executive order that imposes such restrictions while maintaining core services at acceptable levels. These expenditure restrictions will result in general fund savings that will, along with other measures that I will propose to the Legislature, bridge the budget gap while maintaining adequate levels of services and a prudent level of reserves.

My other objections to HB 17/33 are largely constitutional.

Parts of it sought to impermissibly intrude into the Executive managerial function. Section 11 attempted to control the content of the fiscal year 2011 Executive budget recommendation. Section 2(B) tried to mandate that the vetoed appropriation reductions in Section 2(A)(4) be implemented first through cuts to the salaries and benefits of exempt employees at agencies under the control of the Governor. I strongly object to the Legislature's continuing efforts to unconstitutionally reserve onto itself close powers of supervision and micromanagement.

HB 17/33 also contains parts that would, if enacted, nullify substantive law and/or create general legislation, practices precluded by Article IV, Section 16 of the New Mexico Constitution. Of particular concern is the Legislature's continuing efforts to enact reporting requirements and institute other means of Legislative oversight beyond what exists in substantive law. The Legislature's efforts to override substantive law by limiting emergency supplemental distributions to small, rural school districts is as misguided as it is unconstitutional. As a matter of basic fairness, students in a financially needy district should not be penalized because their district is urban or large.

The Legislature has also attempted to assert control over state fiscal stabilization funds awarded to the Governor by the federal government. Our Supreme Court, however, has clearly ruled that such federal funds are beyond the Legislature's appropriation power. In addition, the Legislature's proposal to simply deposit government services funds into the general fund would have raised substantial compliance issues under the federal American Recovery and Reinvestment Act of 2009, which requires the State to specifically account to the federal government on how every dollar was spent and the impact the spending had on jobs. Depositing

the federal money into the general fund to fund all State operations would have precluded the State from complying with these stringent reporting requirements. I have vetoed the offending provisions as a matter of principle. Concerned citizens should know, however, that I will be distributing federal education stabilization funds in a timely manner to offset HB 17/33's cuts to public and higher education.

Finally, HB 17/33 would have denied the New Mexico Computing Applications Center of needed seed funding. The Center will ultimately be self-sufficient. But it needs State funding during these critical early days to get to that point.

My vetoes remedy these deficiencies.

I have this day SIGNED

Given the State's critical financial situation it would be imprudent to provide continued severance tax bond funding to capital projects that have made little to no progress using their original general fund appropriations, which in some cases are several years old. Many of the general fund capital appropriations contained in this bill were for projects that were identified by state agencies as having made little to no progress since the date of the original appropriation. There is no reason to believe that providing new severance tax bond appropriations with extended expiration dates will result in immediate progress given the history of these particular projects.

For this reason, I am vetoing certain severance tax bond appropriations for projects that meet the following criteria:

- General fund capital appropriations that lack legally binding third-party contracts are vetoed without the impairment of any third-party contracts.
- General fund capital appropriations for projects that were deemed inadequately funded and unable to be initiated or completed were vetoed so that the State can put available severance tax bonding capacity to immediate use in the upcoming Legislative Session.
- Certain general fund capital appropriations, although worthy and justified when originally appropriated, have stagnated for various reasons and are not prepared for implementation.
- General fund capital appropriations for projects that have constitutional concerns.

My capital outlay projects were subject to the same level of review, and I have vetoed several appropriations for my own projects in order to put our limited state funds to the best possible use.

In vetoing the severance tax bond appropriations for these projects, I am freeing up an additional \$11.6 million in severance tax bonding capacity, which will be available for appropriation during the 2010 Regular Session.

Respectfully yours,

Bill Richardson
Governor

12 WHEREAS, the proposed cuts were not discussed in a
13 formal way with the tribes; and

14 WHEREAS, Governor Bill Richardson's Executive Order
15 2005-04 promised that tribal consultation would be held in
16 such cases; and

17 WHEREAS, the human services department is bound by the
18 state-tribal consultation policy announced by the governor
19 and is required by the federal stimulus act, the American
20 Recovery and Reinvestment Act of 2009, to consult with
21 federally recognized tribes on any medicaid plan amendments,
22 waiver requests and proposals that are likely to have a
23 direct impact on Indian health programs and Native American
24 medicaid beneficiaries; and

25 WHEREAS, the health care that most tribal people in New

1 Mexico rely upon is severely underfunded, and the federal
2 Indian health system is experiencing a shortage of

5 WHEREAS, in the year 2000, the per capita income on the
6 Navajo Nation was one-third of the per capita income of the

8 sixty-nine dollars (\$7,269) per year; and

9 WHEREAS, the unemployment rate on the Navajo Nation has
10 doubled from twenty-five and six-tenths percent in 2000 to
11 fifty and one-half percent in 2007; and

12 WHEREAS, it is well documented that American Indians and
13 Alaska natives suffer the most egregious health disparities
14 compared with the rest of the population of this country; and

15 WHEREAS, the federal government's spending for health

17 prisoners; and

18 WHEREAS, federal funds for tribal health services
19 require no state matching funds; and

20 WHEREAS, Navajo Nation President Joe Shirley has written
21 a formal request to the medical assistance division

23 tribal health cuts; and

24 WHEREAS, any cut whatsoever to medicaid expenditures for
25 the chapters of the Navajo Nation; the pueblos; the Jicarilla

1 Apache Nation; and the Mescalero Apache Tribe will have a
2 significant and disparate impact on a very vulnerable system
3 of health care delivery;

4 NOW, THEREFORE, BE IT RESOLVED BY THE LEGISLATURE OF THE
5 STATE OF NEW MEXICO that any cuts made to medicaid funds or
6 programs in New Mexico in the first special session of the
7 forty-ninth legislature exempt tribal medicaid funds or
8 programs; and

9 BE IT FURTHER RESOLVED that, rather than making cuts to
10 Indian health service and tribal facilities, the state should
11 consider a Native American carve-out program similar to the
12 carve-out or opt-out program used for the state coverage
13 insurance opt-out; and

14 BE IT FURTHER RESOLVED that no major changes be made to
15 tribal health services delivery or funding absent a formal
16 tribal consultation with New Mexico's twenty-two tribes,
17 nations and pueblos, as mandated by the governor's Executive
18 Order 2005-04 and the provisions of the federal stimulus
19 bill; and

20 BE IT FURTHER RESOLVED that copies of this memorial be
21 transmitted to the governor, the secretary of human services,
22 the medical assistance division of the human services
