54%

Housing services

42%

Jobs & Training

BARRIERS TO STABILITY

Being a part of the community at large is more difficult because of social isolation

Housing “second” (or further down)

Sometimes that requires time in treatment

Income discrimination (understanding landlord’s risks)

There is effectively zero available housing opportunities with assistance

Family trauma unaddressed

-
-
-

The Hive

Chaves County Community Service Center

A collaborative where **multiple agencies and organizations** can have space to provide direct services to vulnerable populations

Address co-morbidities of mental illness, substance use disorders, chronic health conditions and prolonged social dislocation

Expand crisis response to include a **navigation/engagement center** for the most vulnerable and unsheltered people

Provide a physical location and **housing**

PARTNERS TO DATE

CHALLENGES

We face an immediate and urgent lack of financial support

A less scattered approach to funding? Coordination (a one-stop)

Funding does not really address startup/operating runway

Build capacity for grant writing and reporting

Great programs are everywhere -- collaboratives amplifies everyone's efforts and blends funding sources

THANK YOU

Dan Jennings
