

STRENGTHENING COMMUNITIES

One Family at a Time

INTENTIONAL. TRANSFORMATIONAL.

ADULT LEARNING

Our adult learning workshops offer well-rounded programs that combine education, career development and social-emotional learning. We help parents “fine-tune” skills to support their child’s education while also growing personally and professionally.

AFTERSCHOOL LEARNING

Our afterschool and family engagement activities creatively reinforce what students learn in school and help develop life skills. We use an innovative approach to make education fun and effective, while building important skills to shape future leaders academically, emotionally and socially.

COMMUNITY ENGAGEMENT

Our community events, like resource fairs, literacy events, Youth Leadership Summits, Town Hall meetings and Relationship Building workshops, help people grow, connect with others and feel more empowered.
