

National External Diploma Program Competencies by NEDP Performance Tasks and College and Career Readiness Standards

The National External Diploma Program® (NEDP) is a performance-based assessment that assesses high school level skills in applied life and work contexts. Each performance task assesses core academic skills of reading, writing and /or math in a manner in which the skills are applied in real life at home, in the community, or at work.

The NEDP competencies are organized into the following three (3) foundation competency areas:

- 1. Communication and Media Literacy
- 2. Applied Math/Numeracy
- 3. Information and Communication Technology

These foundation competencies are assessed in seven (7) functional life and work context areas:

- 4. Cultural Literacy
- 5. Health Literacy
- 6. Civic Literacy and Community Participation
- 7. Geography and History
- 8. Consumer Awareness and Financial Literacy
- 9. Science
- 10. Twenty-First Century Workplace

A nationally representative group of Subject Matter Experts (SMEs) and consultants for the high school diploma program have assisted CASAS in aligning the competencies and performance tasks with the College and Career Readiness (CCR) Standards. Since the NEDP is applied performance, reading for information and drawing inferences from complex texts is a major focus.

Application of core standards and reading for information in the assessment crosses over multiple NEDP foundation competencies as well as one or more of the seven functional competency areas. For example, the core standards related to "citing strong and thorough textual evidence to support analysis of what the text says explicitly" as well as "making inferences drawn from the text", are aligned with performance tasks such as those listed below.

- Evaluate sample credit reports for impact on individuals seeking a loan.
- Interpret scientific articles for findings based on factual evidence.

The core standards related to "integrating and evaluating multiple sources of information presented in different media or formats (e.g., visually, quantitatively) as well as in words in order to address a question or solve a problem", are aligned with performance tasks such as those listed below.

- Compare credit card statements to determine the most advantageous credit card offer for a specific situation.
- Analyze services of a several social service agencies and making the best selection for a specific need.
- Compare multiple sources of job information to select career planning goals.
- Provide supporting evidence to show how geographic features of a state affect economic factors.

The competencies demonstrated by NEDP Candidates are shown in Table 1, column one. The performance assessment tasks that assess mastery of the competencies are listed in column two of Table 1.

Table 2 displays the NEDP Competency Areas that address the College and Career Readiness Standards. This information provides NEDP sites and state and local school boards key information on how NEDP assesses the College and Career Readiness Standards within the NEDP Competency Framework.

NEDP Competencies As Assessed by NEDP Performance Tasks Table 1

	NEDP Competency	NEDP Performance Tasks (competency)
1	Communication and Media Literacy	
1.1	Read informational texts (e.g., documents, manuals, websites, news articles, and texts in academic areas) and: a) identify and analyze central ideas and supporting details; b) interpret and navigate the organizational structure; c) examine assumptions, arguments, and conclusions; d) make inferences to broaden comprehension; e) discern orientation or point of view; and f) assess the effectiveness of the presentation (e.g., comprehensiveness, clarity, format, language use), citing strong and thorough textual evidence to support analysis.	○ Included in all competency areas
1.2	Read and analyze a set of ideas and sequence of events in literary texts (e.g., short story) and: a) identify and analyze themes and central ideas; b) evaluate literary elements, such as theme, plot development, setting, conflict, and characterization; c) make inferences; and d) evaluate the author's choice of point of view, use of language, style and expressiveness, and use of literary devices, citing strong and thorough textual evidence to support analysis.	○ Reading Literature (1.2)
1.3	Write to:	o Reading Literature (1.2)
	 a) present, explain and examine information and ideas; b) state a position, with clear and coherent supporting arguments; c) describe experiences and events, real or created; and d) express thoughts, feelings and emotions, using writing techniques, organizational structures, word choices, English language conventions, and styles of expression that are effective and appropriate to the purpose. 1.7	Distinguish fact from opinion, and fact from point of view in media messages and presentations (e.g., news, political and consumer advertisements)		 Analyze Social and Political Media Messages (1.7)
1.8	refere (e.g., identi	fy and practice responsible and informed research using credible noce sources, including proper citation of textual information product and job search information, online media messages, fication of risks associated with the transfer of electronic data, and ures one can take to protect the security of electronic data)	 The US Bill of Rights (6.5) The US Legal System (6.5) Understanding Plagiarism and Citation Guidelines (1.8)
2	Appli	ed Math/Numeracy	
2.1	Numb	pers Sense and Operations	
	2.1.1	Understand and use the operations of addition, subtraction, multiplication and division with positive and negative numbers including decimals, percentages, and fractions.	 NEDP Math Diagnostic and throughout
	2.1.2	Solve problems in realistic situations, including multi-step problems.	o Credit Cards (8.3)
	2.1.3	Use estimation and mental arithmetic (e.g., estimate tax on a purchase).	o Consumer Products (8.1)
	2.1.4	Compare and convert between fractions and percentages including those from graphic representations (e.g., 21 % of total budget can be approximated by what fraction?).	o Pay Stubs (10.6)
	2.1.5	Understand and use the number relationships represented by rates, ratios, and proportions (e.g., increase the number of servings in a recipe).	Credit Cards (8.3)Consumer Loans (8.3)Household Budgets (8.5)
2.2	Alge	bra	
	2.2.1	Represent relationships in mathematical situations with tables, graphs, and equations (including variables, exponents and negative numbers).	Credit Cards (8.3)Consumer Loans (8.3)
	2.2.2	Simplify expressions and solve equations and/or inequalities with one variable, and explain the process of reasoning.	Savings Accounts (8.4)Net Worth and Personal Debt (8.5)
	2.2.3	Analyze and solve systems of equations using two or more variables and explain the process of reasoning (e.g., compute interest rates, profit-loss projections).	Savings Accounts (8.4)Net Worth and Personal Debt (8.3, 8.5)
	2.2.4	Interpret and use rates of change from graphical and numerical data (e.g., average temperature change over multiple years).	o Net Worth and Personal Debt (8.3, 8.5)
2.3	Geo	metry and Measurement	
	2.3.1	Apply and use both customary U.S. measurements and metric systems of measurement and convert units as required (e.g., 3.5 feet = 42 inches, 1,100 meters = 1.1 kilometer).	Measurement to Inform Purchases (8.5)
	2.3.2	Solve problems involving two-dimensional objects (e.g., size of angles, perimeters and areas of polygons and circles).	o Measurement to Inform Purchases (8.5)
	2.3.3	Evaluate reports based on data that solve problems involving use of three-dimensional objects (e.g., volumes of cylinders, pyramids, prisms, spheres).	Measurement to Inform Purchases (8.5)
	2.3.4	Use the concept of similar figures to create and interpret scale drawings (e.g., blueprints and maps).	Measurement to Inform Purchases (8.5)
