  - Building Construction Tech

Think of academies as where your major focus of electives and job interests live- similar to choosing a major in college. You may still have interests and take a few classes in another academy, and that would be like a choosing a minor in college.

- **Indicate Career Cluster**
  - Indicates Career Pathway within the Career Cluster

Not shown are the suggested classes within the cluster.

See the **Course Sequencing Guide** for recommended

Remember that the core graduation requirements cross all of the academies/ clusters/ pathways.

There are also electives that could fit into all of the academies.
