New Mexico Judicial Branch FY 2019 Unified Budget Legislative Agenda

... courts owe their preeminence in no small measure to statesmen who have looked past the politics of the moment and have supported a strong, independent, and impartial Judiciary as an essential element of just government and the rule of law.

MESSAGE FROM CHIEF JUSTICE JUDITH NAKAMURA

Dear Governor Martinez and Members of the New Mexico Legislature,

Our New Mexico Constitution vests governmental power in three distinct branches and provides that no branch "shall exercise any powers properly belonging to either of the others." In this tripartite structure, the Judicial Branch has no authority over how state funds are generated or what funds are directed to the courts. Yet, we are asked to perform a function essential to democratic, constitutional self-governance: ensure the rule of law.

The Judicial Branch is not immune from the fiscal challenges we have all faced for nearly a decade. We have and will continue to evaluate every aspect of how we do business to ensure that we are operating efficiently and effectively with the resources available to us. But we would be remiss in our responsibilities if we did not convey to you what we need to operate and the impact on our courts and the public if those needs are not met.

The Judiciary's budget is a sliver of the state's overall operating budget, just 2.63% in FY2018. The budget request presented here falls short of our true need. Employing our exhaustive budget process, our Budget Committee heard testimony from every judicial unit regarding their FY2019 budget needs. The Committee recommended a budget request of \$184,652,800, which was further scrutinized by the Chief Judges' Council. Recognizing the state's budget realities, the Council further reduced the budget requests to \$175,446,200, a 9.6% increase over the Judiciary's FY2018 budget.

Our FY2019 request is as notable for what it does not include as for what it does. There are no requests for new programs or to restore programs eliminated due to previous budget reductions. There are no requests for new judges or requests to add staff to individual courts. Instead, we have requested **base budget funding** necessary to adequately operate existing programs, fill authorized positions, and reduce vacancy rates impeding services. And, **workforce investment funding** necessary to reduce our turnover rate, recruit and retain competent and capable employees, and attract and retain judges with experiences reflective of our caseloads.

The maintenance of a strong and independent judiciary is a necessary component of a functional State government. We look forward to working together with you, the members of our co-equal branches of government, on behalf of all New Mexicans.

Sincerely yours,

Judith K. Nakamura

SIGNIFICANT ACCOMPLISHMENTS

Jury and Language Access Services. Due to a Court ordered reduction in the mileage rate paid to judicial branch employees and jurors, implementation of a new jury management system, and the support of the Legislative and Executive branches, FY2018 appropriations appear to be sufficient to fund juries and language access services for the first time since FY2011. Additionally, the jury management system was implemented within budget and ahead of schedule and jurors are being paid the statutorily required minimum wage for the first time since FY2009.

Magistrate Lease Reductions. To date, the Magistrate Division has successfully renegotiated 27 of its 47 leases and is in ongoing negotiations with the remaining 20 landlords. Elimination of automatic escalation clauses and reductions in lease rates have resulted in annual savings thus far of \$113,234.95.

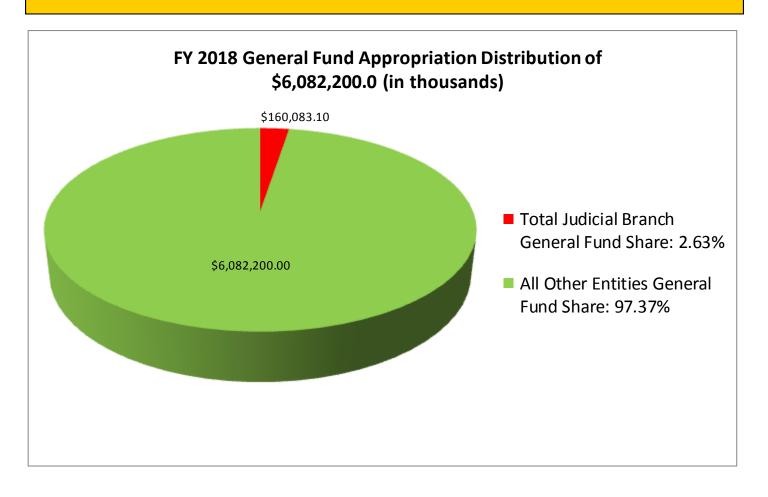

Technology. With implementation of the Odyssey case management system in the Supreme Court and the Court of Appeals, all state courts are now operating on the same unified case management system. This is the first statewide application of a unified case management system in the nation. The Supreme Court and Court of Appeals joined the district courts in accepting e-filed pleadings and documents, streamlining court processes and procedures and improving operating efficiencies.

Alternative Dispute Resolution. At the request of the Supreme Court, the Statewide ADR Commission is developing recommendations to implement legislation passed during the 2017 Session which gave the Courts an additional mechanism for funding alternative dispute resolution services. The Court has requested that the recommendations expand the efficient delivery of quality ADR services statewide.

Criminal Justice Coordinating Councils. In October, 2016 the Supreme Court ordered the convening of local criminal justice coordinating councils in each judicial district to identify criminal justice system problems. Courts in all thirteen judicial districts are engaged with their justice partners to identify systemic improvements to improve public safety and ensure the fair adjudication of criminal cases.

Implementation of Constitutional Amendment. In July, 2017 the Supreme Court issued rules to implement the constitutional amendment approved by voters in November, 2016. The Court continues to work with its justice partners and its sister branches of government to develop court processes and procedures that protect the rights of the parties and the public.

JUDICIAL BRANCH SHARE OF FY2018 GENERAL FUND APPROPRIATIONS

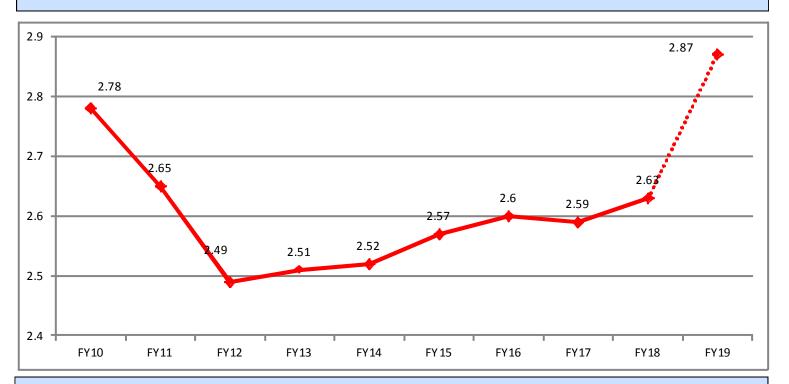

FY 2018 Recurring General Fund Appropriation

JUDICIAL BRANCH GENERAL FUND APPROPRIATIONS AS A PERCENTAGE OF TOTAL STATE GENERAL FUND APPROPRIATIONS

If the Judicial Branch's request for FY 2019 of \$175,446.2 is fully funded, it still represents only approximately 2.87% of the expected FY2019 General Fund appropriations of \$6.1 billion.

Judicial Branch Percent of State General Fund Appropriations FY 2010 - FY 2018

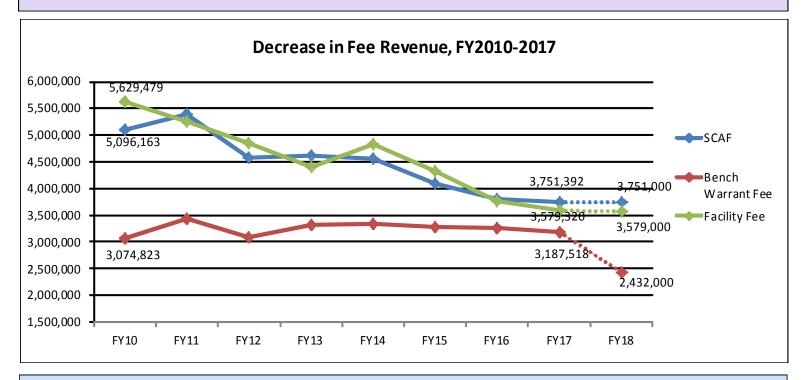

Judicial Branch General Fund Growth FY 2010 - FY 2018

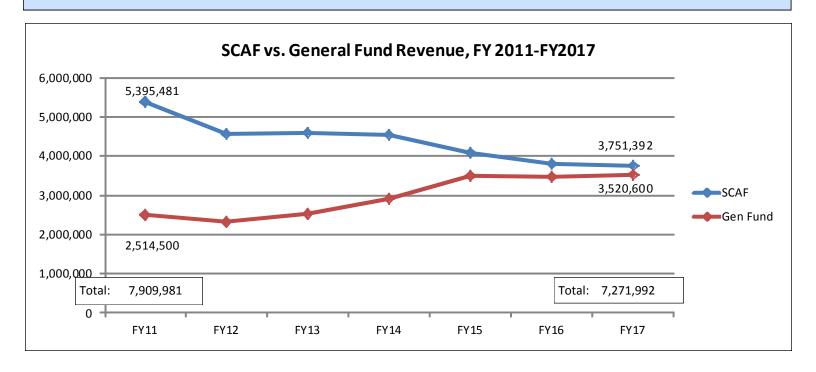

DECREASES IN REVENUE

Courts should not be expected to rely on fee revenue for ongoing operating expenses. *See, 2011-2012 Policy Paper: Courts are Not Revenue Centers, Conference of State Court Administrators*. Declining fee revenues have contributed to increased supplemental requests for the Magistrate Courts as well as a reduction in technology services.

All technology recurring funds are from the Supreme Court Automation Fee (SCAF) and general fund. In FY2018, the Judicial Information Division had 8.1% less total revenue than in FY2011.

UNIFIED BUDGET SUMMARY: BASE BUDGET FUNDING AND WORKFORCE INVESTMENT TOTAL INCREASE \$15,363,000

Judicial Branch FY2019 budget priorities:

- Base budget funding necessary to adequately operate existing programs, fill authorized positions, and reduce vacancy rates to reasonable levels.
- Workforce investment funding to reduce high turnover, recruit and retain capable employees, and attract and retain judges with diverse experience reflecting the courts' caseloads.

Base Budget Increase for Basic Court Operations = \$9,793	3,700
 ⇒ Supreme Court, Court of Appeals, Statewide Entities ⇒ District and Metropolitan Courts ⋄ Operational costs for existing programs ⋄ Fill authorized employee vacancies; reduce the average vacancy rate to 4% 	\$ 418,200 \$ 4,827,400
 ⇒ Magistrate Courts ♦ Reduce vacancy rate from 16.67% to 9% ♦ Address GF shortfalls and loss of fee generated revenue: * Supplementals: FY2018 request \$550,000, FY2017 request \$1,233,000 * Facility fees FY2011 to FY2017 -\$1,680,680 * Bench warrant fees FY2011-FY2017 -\$239,791 	\$ 1,366,800
 ⇒ Statewide Automation Program ♦ Replace lost SCAF funds - FY2017 - \$637,989 LESS than in FY2011. The SCAF fundal balance has declined from \$2,233,789 at the end of FY2011 to \$460,017 at the endof FY2017, a decline of -\$1,773,772, or -79.4% ♦ Add three FTEs for a statistician and two Helpdesk positions 	
 ⇒ AOC Administrative Services and Special Court Services ♦ Increase in Court-Appointed Attorneys - \$462,800 ♦ Water Adjudication personnel - \$300,000 ♦ Administration to reduce vacancy rate - \$232,500 ♦ GSD rate increases - \$686,000 	\$ 1,681,300

BASE BUDGET REQUESTS FOR EXISTING COURT OPERATIONS: \$6,612,400

Supreme Court, Court of Appeals, and Statewide Entities	\$ 418,200
District and Metropolitan Courts	\$ 4,827,400
Magistrate Courts	\$ 1,366,800

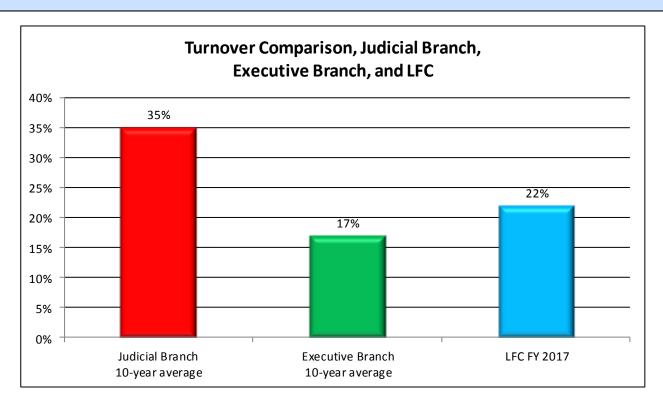

Eighty-five percent of the Judiciary's general fund appropriation is used to pay personnel costs. In order to meet these costs during lean economic times, the Judicial Branch has relied on vacancy savings to cover routine operating expenses and keep our doors open. This practice has taken a toll on our employees and our infrastructure, has resulted in reduced services to the public, and is no longer sustainable.

Judicial Branch Vacancy Rate as of October 2017 = 13.84% (251 vacant perm/term out of 1813 FTE)

- ⇒ The state's two largest courts have vacancy rates of 15.88% (Second Judicial District Court) and 14.43% (Bernalillo County Metropolitan Court), accounting for 103 vacant positions in the Albuquerque courts alone.
- ⇒ Magistrate Courts vacancy rate = 17.12%
- ⇒ Magistrate warrant enforcement clerks 29.36%

High Turnover

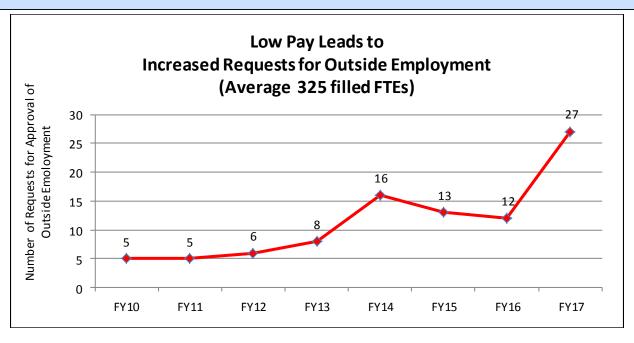

⇒ Employee exit interviews indicate that the stress and overwork associated with understaffing are contributing to the Judiciary's high turnover rate. The FY2017 statewide turnover rate was 27% and the Judicial Branch's 10-year turnover rate is well above that of the Legislative and Executive branches.

BASE BUDGET REQUESTS FOR EXISTING COURT OPERATIONS: \$6,612,400

The Cost of Turnover

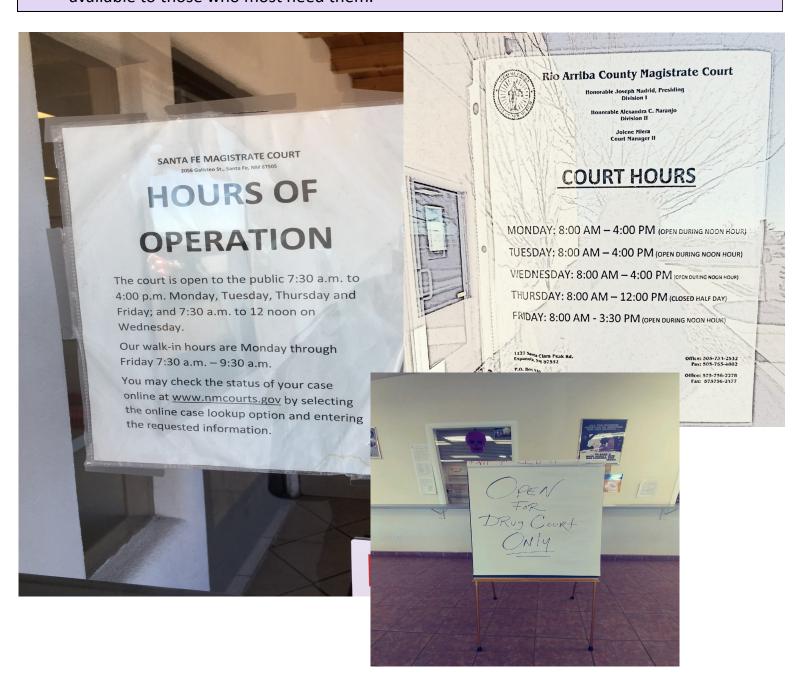

- ⇒ The 2016 Executive Branch estimated cost of employee turnover is \$42,620 per position filled.
- ⇒ The Judicial Branch conservatively estimates the average cost of employee turnover at \$21,450 per position filled.
 - These estimates take into account separation, vacancy, replacement, and training costs but do not include less tangible costs including time lost in training new employees to bring them to full capacity.
- ⇒ The FY2017 Judiciary turnover rate was 27%, with 419 separations from an average of 1,580.5 filed FTEs. If the FY2017 rate had been 20%, it would have required filling 316 positions. The difference is a requirement to fill 103 additional positions above 20% at a cost of \$21,450 per position, or \$2,209,350.
- ⇒ Over the last decade, if the Judiciary had achieved a 20% turnover rate instead of 35%, it would have realized an estimated \$5,834,400 in annual savings.
 - Judiciary FTEs = 1813 (without judges)
 - ♦ Average turnover 35% = 635 FTEs
 - \diamond Cost of average turnover = 635 x \$21,450 = \$ 13,620,750
 - \diamond Cost of turnover if reduced to 20% = 363 x \$21,450 = \$7,786,350
 - ♦ Savings from reduced turnover = \$ 5,834,400
- ⇒ Requests for outside employment for employees of the Magistrate Courts and AOC have increased by 69% from FY2014 to FY2017, mostly from employees paid less than \$50,000. Requests since FY2014 total 68, or 20.9% of filled FTE workforce.

BASE BUDGET REQUESTS FOR EXISTING COURT OPERATIONS: \$6,612,400

Impact on the Public

- ⇒ Reduced Access to Courts
 - Magistrate courts: All Magistrate courts have reduced hours and 28 of 46 courts have reduced their hours a half-day or more a week due to staff shortages.
 - District courts: 2nd Judicial District (Albuquerque) clerk's offices are only open to the public from 10 a.m. to 2 p.m. due to staff shortages.
 - Reductions in Services: Vacancies in court-operated self-help centers, child and family mediation programs, drug court programs, and other specialty courts have reduced services available to those who most need them.

AOC BASE BUDGET FUNDING FOR INFORMATION TECHNOLOGY, COURT APPOINTED ATTORNEYS, AND ADEQUATE STAFFING: \$2,195,300

In addition to the Magistrate Court budget, AOC manages budgets for Statewide Automation (IT), Court Services, and Administration. Sixty-percent (60%) of the non-magistrate requested budget increases are for technology. The remaining requests are for court appointed attorneys in abuse and neglect proceedings and to address AOC staffing shortages.

Information Technology

\$1,500,000

Critical Function: Services provided by the Judicial Information Division (JID) are essential to Judicial Branch operations and funding for JID is a critical priority for FY2019.

- ⇒ JID maintains and operates:
 - the only statewide uniform case management system in the country for all trial and appellate courts;
 - a unique statewide video network that saves inmate transportation costs and enhances public safety through video arraignments;
 - an electronic filing system for all district court civil cases and appellate cases; and
 - ♦ a Help Desk that responds daily to multi-level technology inquiries from courts and the public.

Declining Resources:

- \Rightarrow JID fee revenue declined -30% from FY2011-FY2017, a loss of \$1,644,089.
- ⇒ GF appropriations to JID increased \$1,006,100 from FY2011-FY2017 but the loss in fee funding left JID with \$637,989 LESS total funding in FY2017 than in FY2011.

Impact:

- ⇒ Limitations on public access to court records.
- ⇒ Inability to generate reports/data from the Odyssey case management system.
- ⇒ Inability to provide e-filing in criminal cases.
- ⇒ Delays in responding to court and public requests for data assistance.

Court Appointed Attorneys

\$462,800

Low pay continues to challenge the ability to obtain and retain contract attorneys to represent children and families in child abuse and neglect cases.

- ⇒ 15% reduction in contract attorneys in FY2017.
- ⇒ General Fund request of \$462,800 provides minimum increases for contract attorneys, supports a social worker model as a best practice on a pilot basis, and provides for non-contract attorneys otherwise funded through supplemental requests.
- ⇒ Supplemental funding: FY2017, \$450,000; FY2018 request \$250,000.

AOC Vacancy and Retention

\$532,500

Increase of 2.4% to reduce vacancy rate from 7% to 4% and retain employees paid from declining other state funds (federal grants) (\$232,500) and fund water rights adjudications (\$300,000).

WORKFORCE INVESTMENT—EMPLOYEES: \$3,004,800

Recruit and retain employees by supporting career progression and increasing pay.

⇒ Compa-ratio minimum progression

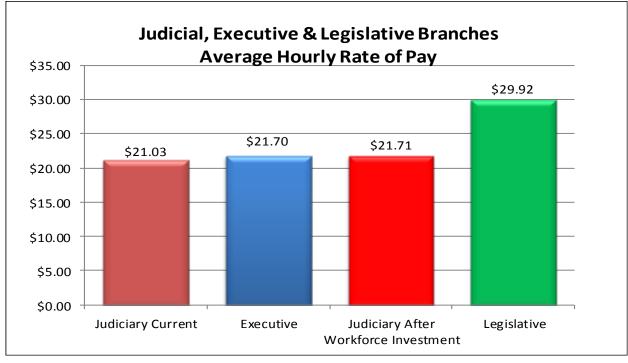

3 years 90%; 6 years 95%; 10 years 100% \$ 1,410,600

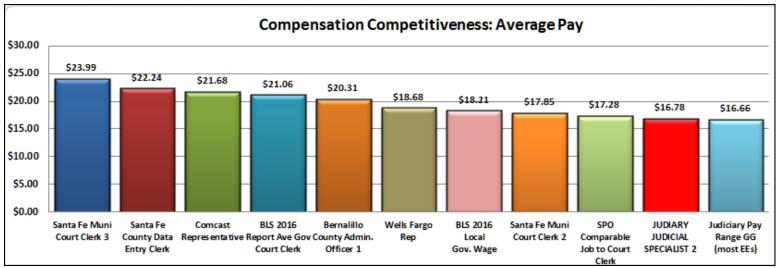

⇒ At-will judicial staff \$ 187,700

⇒ Employees 3% increase \$ 1,406,500

Pay

- \Rightarrow Judicial Branch pay is not competitive with either state government or the private sector
 - Average compa-ratio in pay ranges with most employees:
 - * Judiciary clerks: 88% (467 employees)
 - SPO pay band 65: 103.5% (2,342 employees)

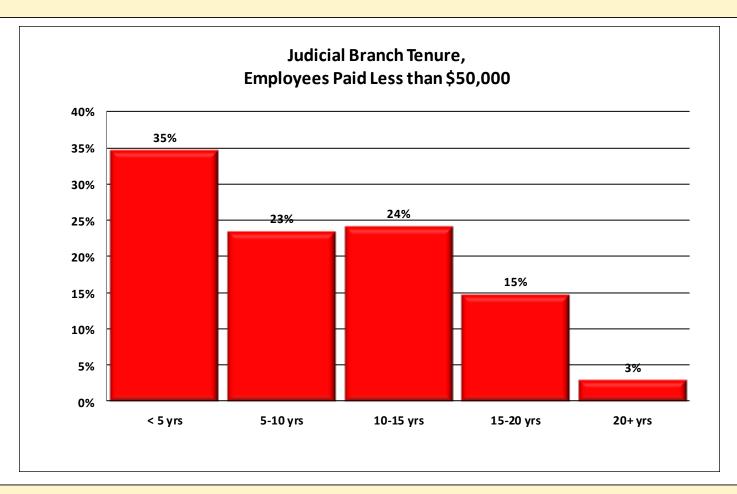

WORKFORCE INVESTMENT—EMPLOYEES: \$3,004,800

Career Progression

- ⇒ Implement a career progression plan by advancing staff through their pay range compa-ratio at regular intervals of 3, 6, and 10 years to stem the loss of experienced employees.
- ⇒ The majority of Judicial Branch staff consists of those paid less than \$50,000 who support court operations in clerks' offices.
 - ♦ Excessive turnover results in 35% of these employees having less than 5 years tenure with the Judiciary.
 - 82% of these employees achieve tenure of more than 10 years but only 18% stay beyond 15 years.

- ⇒ High turnover in court staff combined with stagnant career progression results in the loss of many experienced and highly qualified staff after 10 years with the Judiciary.
- ⇒ Many take jobs with state, county and municipal employers where they are paid more and where their retirement plans continue to build on the benefits vested while working for the Judiciary.

WORKFORCE INVESTMENT—JUDGES: \$2,564,600

Increase pay by 9.9% as recommended by the Judicial Compensation Commission (JCC) to attract and retain diverse and experienced judicial candidates. According to the JCC, low pay has discouraged experienced lawyers with diverse practice backgrounds from seeking judicial office.

Pay

- ⇒ New Mexico judicial salaries are the lowest in the nation
 - ♦ Supreme Court 50 out of 51
 - ♦ Court of Appeals 40 out of 40 (not all states have Courts of Appeals)
 - District Courts 51 out of 51
- ⇒ Judicial contributions to retirement are the fifth highest in the nation
- ⇒ New Mexico Supreme Court Justices are paid \$131,174, which is:
 - ♦ 8.6% below the average pay of New Mexico lawyers
 - ♦ 60% less than the average partner in a law firm (\$210,502); and
 - ♦ 41% less than the average solo practitioner (\$184,457).
- ⇒ Some New Mexico county attorneys, city managers, and law school deans earn more than District and Court of Appeals judges and Supreme Court justices

Judicial Diversity and Experience

- ⇒ 48% of District and Metropolitan court judges have been on the bench for 6 years or fewer
- ⇒ Between 2010-2016, a majority of all applicants had more than half of their experience in government service, including 37% who had between 75-100% of their experience in government.

Despite reductions in lease payments FY2018 from FY2017 of more than \$100,000, fee revenue loss continues to require supplemental funding to meet lease costs. FY2018 supplemental need (\$550,000) is \$683,000 less than FY2017 supplemental appropriation provided in HB1 during the special session (\$1,233,000).	\$ 550,000

^{*} Includes 22 hearing officers

In FY2017, civil cases made up 74% of new and reopened cases in district courts. From FY2014-FY2017, criminal cases in district court declined by 5.4% (1,831), but civil cases increased 4.8% (4,289).

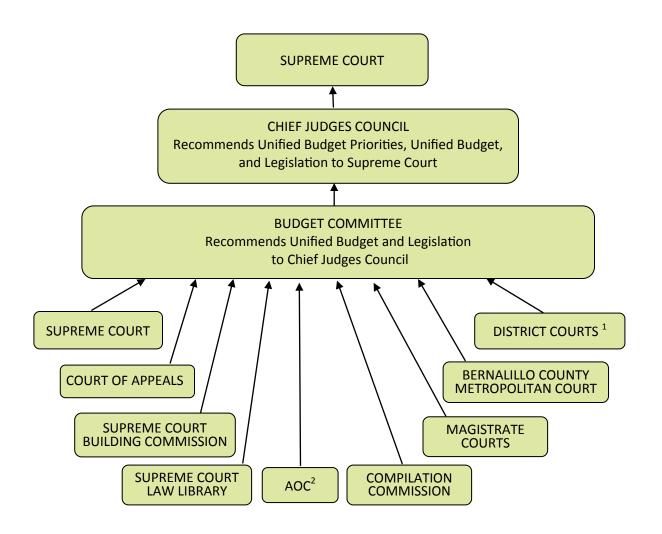

JUDICIAL BRANCH APPROVED LEGISLATION 2018 SESSION

Liquor Excise Tax Sunset	Amend Section 7-1-6.40 to remove July 2018 sunset, amend distribution to 50%, directing 45% to Local Government Division, directing 5% to AOC for drug courts and distributing AOC funds to a newly created nonreverting drug court fund. AOC's 5% for drug courts replaces current set-aside of \$1,600,000 from Local Government Division distribution.			
Consolidated Appropriation for Supreme Court, Supreme Court Building Commission, and Supreme Court Library	Provides for a consolidated appropriation and budget for the Supreme Court, the Building Commission, and the Library, and redefines the Building Commission to consist of the justices of the Supreme Court, to reduce audit costs, comply with auditor best practices recommendations, and achieve operational efficiencies.			
Sex Offender Probation Review	Amends Section 31-20-5.2 to require the Corrections Department to notify the District Attorney to petition the district court to review the terms, conditions, and duration of a sex offender's supervised probation with the frequency required by the statute (initially 2.5 years after release for DOC facility).			
Guardianship Commission ("Commission") Proposals	Proposals pending.
