**RE:** **Summary of Public School-Related Legislation Passed by the Forty-Seventh Legislature, First Session, 2005 (*after executive action*)**

---

The enclosed materials represent an overview of the 2005 legislative action related to public school support and other public school-related legislation – ***after executive action***.

Several education issues appeared to dominate the 2005 legislative session, including adequate funding to “open the school doors,” pre-kindergarten, the solvency – or lack thereof – of the Educational Retirement Fund, employee compensation, continued implementation of the next phase of the three-tiered licensure minimum salaries, and other educational reforms enacted by the 2003 Legislature.

This year, the Legislature passed two general appropriation acts: CS/HB 2, et al., as amended (Laws 2005, Chapter 33), which contains the funding for public school support and for the Public Education Department (PED); and CS/SB 190, as amended (Laws 2005, Chapter 34, nicknamed “House Bill 2 Junior”), which includes a number of public school-related appropriations. The Governor signed each bill with a partial veto.

The 2005 Legislature focused its efforts on providing operational dollars “above the line” for public schools by putting as much money as possible into the Public School Funding Formula, which includes the dollars necessary for public schools to operate. By resisting the Executive’s recommendation – which included more Program Cost credits than were justified and no funding for increases in insurance and fixed costs – the Legislature was able to avoid passing along to school districts an initial deficit of approximately \$40.0 million for school year 2005-2006.

Table 1 provides a summary of public school support and related appropriations in CS/HB 2, et al., as amended. For FY 06, the Legislature appropriated more than \$2.1 billion in public school support, an increase of approximately \$132.3 million, or 6.7 percent, over the FY 05 appropriation – the greatest increase in new dollars designated for education since the 2001 legislative session. Also included in this appropriation bill is an additional \$19.2 million to fund PED and recurring education-related appropriations and \$23.8 million in special nonrecurring appropriations. Educational reform initiatives are identified with an asterisk.

The FY 06 statewide program cost of approximately \$2.0 billion represents an increase of \$124.6 million, or 6.5 percent, over the appropriation for the current school year. Among the initiatives included in the program cost were sufficient dollars to fund enrollment growth and increases for insurance and fixed costs, as well as:

- a mandated 1.25 percent salary increase for school employees other than those teachers who are receiving the \$40,000 minimum salary and the 0.75 percent increase in the employer's contribution to the Educational Retirement Fund for FY 06;
- the final year of the three-year phase-in of elementary fine arts programs in accordance with current law (funding will be based on a .05 cost differential and on a .8 FTE, meaning that children should be exposed to fine arts for 80 percent of the school day); and
- the minimum salary for levels 2 and 3-A teachers to implement the third year of the five-year phase-in of the three-tiered licensure system. In addition, language is included in CS/HB 2, et al., as amended, to ensure that every district and charter school will have sufficient dollars to provide the required minimum salary at these two levels.

To set the preliminary unit value, the Secretary of Public Education called a meeting on April 4, 2005 that included Representatives Rick Miera and Luciano "Lucky" Varela and staff from the LESC, the LFC, DFA, and the Office of the Governor. By consensus, the group agreed on an initial unit value of \$3,165.02, an increase of \$96.32, or 3.14 percent, over the FY 05 final unit value. To comply with the language in the appropriation bill, the unit value calculation excludes the \$51.8 million which PED will allocate after verifying the amount needed by each school district and charter school to pay for the minimum teacher salaries. Without this adjustment, the unit value would have increased by approximately \$179.31, or 5.8 percent. The \$51.8 million, however, will remain in the FY 07 program cost.

Table 2 summarizes additional public school-related appropriations in "House Bill 2 Junior," including approximately \$7.1 million to PED and about \$4.4 million to other state agencies, after executive action, for various programs, including an additional \$950,000 to DFA for pre-kindergarten services. Please note that all appropriations in "Junior" have been "sanded" (which means an across-the-board reduction) by 5.0 percent.

Table 3 provides a summary of direct capital outlay appropriations to PED and other agencies for public school-related projects. CS/HB 885, as amended, with emergency clause (Laws 2005, Chapter 347, partial veto), appropriates (after executive action) more than \$103.0 million for public school capital outlay needs, including \$24.9 million in nonrecurring General Fund dollars, more than \$16.1 million in Severance Tax Bonds, and \$62.0 million in Short-term Severance Tax Bonds.

Two other initiatives related to capital outlay were CS/SB 455, as amended (Laws 2005, Chapter 274) and CS/HB 510, as amended (Laws 2005, Chapter 221). CS/SB 455 addresses a number of concerns raised during the pilot year of implementation of the statewide, standards-based process for funding public school capital outlay needs. Among its provisions, this measure increases the *Public School Capital Improvements Act* (also known as “SB 9” or the “two-mill levy”) state guarantee amount from \$50 to \$60 per mill per unit beginning in FY 06 and provides \$600 per student for districts and charter schools to use toward lease payments for their facilities. CS/HB 510, requires all charter schools to eventually be in public buildings and to meet statewide adequacy standards on the same schedule as all other public schools.

The 2005 Legislature also gave a great deal of attention to restoring the Educational Retirement Fund to solvency. With a number of proposals under consideration, SB 181, as amended (Laws 2005, Chapter 273), increases the employer contribution (which is currently at 7.6 percent) by 0.75 percent each year over a seven-year period to a total of 13.9 percent and increases the employee contribution (which is currently at 7.6 percent) by 0.075 percent each year over a four-year period to a total of 7.9 percent.

Several bills signed into law this year will have a direct effect on school district operations. For example, CS/HB 337 (Laws 2005, Chapter 170), the *Pre-Kindergarten Act*, creates a voluntary pre-kindergarten pilot program for four-year-olds throughout the state. With a total appropriation of nearly \$5.0 million, this new law will allow school districts to develop and offer preschool programs. HB 139 (Laws 2005, Chapter 314) amends graduation requirements in the *Public School Code* to add one-half unit of New Mexico history and to reduce the number of elective units from eight to seven and one-half, beginning in school year 2005-2006. CS/HB 1091 (Laws 2005, Chapter 291) removes the requirement that school districts budget for capital outlay an amount of their state aid equal to 20 percent of the federal and local revenue for which the state takes credit and, beginning in school year 2006-2007, bases the calculation of program units on the average of the prior year 80<sup>th</sup> and 120<sup>th</sup> day memberships.

One LESC-endorsed bill that did not pass was HB 286, as amended, which, among other provisions, would have amended the *School Personnel Act* to implement a phase-in of minimum annual salaries for principals and assistant principals based on a responsibility factor (instead of school size) and would have delayed implementation of the minimum salaries until school year 2006-2007. Although current statute requires implementation of minimum salaries for principals beginning with school year 2005-2006, SB 662, as amended (Laws 2005, Chapter 316), includes language delaying implementation of current statutory minimum salaries for school principals until school year 2007-2008.

**LANGUAGE IN**

**CS/HB 885, as amended, with emergency clause (Chapter 347 (partial veto), Laws 2005)**

Short-term Supplemental Severance Tax Bonds--Public School Capital Outlay" ...in fiscal year 2005, the state board of finance may issue and sell severance tax bonds with a term that does not extend beyond the fiscal year in which they are issued in an amount not exceeding sixty-two million dollars (\$62,000,000) when the public school capital outlay council certifies by resolution the need for the issuance of the bonds. The proceeds from the sale of the bonds are appropriated to the public school capital outlay fund for the purpose of making awards of grant assistance for correcting deficiencies in the roofs of public school facilities and for a roof repair and replacement initiative pursuant to the Public School Capital Outlay Act; provided that no severance tax bonds shall be issued pursuant to this section:

- A. until all other severance tax bonds and supplemental severance tax bonds to be issued in fiscal year 2005 have been issued; and
- B. unless the balance in the severance tax bonding fund as of the date that the bonds are issued is greater than the sum of:
  - 1. the debt service on the supplemental severance tax bonds to be issued pursuant to this section;
  - 2. the debt service scheduled to be paid during the remainder of the fiscal year on all outstanding severance tax bonds and supplemental severance tax bonds; and
  - 3. the amount necessary to meet all principal and interest payments on outstanding bonds payable from the severance tax bonding fund on the next two ensuing semiannual payment dates" (Language in CS/HB 885, as amended, with emergency clause).

##### REVERSION CLAUSE

**CS/HB 885, as amended, with emergency clause (Chapter 347 (partial veto), Laws 2005)**

**Severance tax bonds:**

"If an agency has not certified the need for the issuance of bonds for a particular project, including projects that have been reauthorized, by the end of fiscal year 2007, the authorization for that project is void.

"Before an agency may certify for the issuance of severance tax bonds, the project must be developed sufficiently so that the agency reasonably expects to:

1. incur within six months after the applicable bonds have been issued a substantial binding obligation to a third party to expend at least five percent of the bond proceeds for the project; and
2. spend at least eighty five percent of the bond proceeds within three years after the applicable bonds have been issued.

"Except as otherwise provided in this section or another section of this act, the unexpended balance from the proceeds of severance tax bonds issued for a project, including projects that have been reauthorized, shall revert to the severance tax bonding fund as follows:

1. for projects for which severance tax bonds were issued to match federal grants, six months after completion of the project;
2. for projects for which severance tax bonds were issued to purchase vehicles, heavy equipment, educational technology or other equipment or furniture that is not related to a more inclusive construction or renovation project, at the end of the fiscal year following the fiscal year in which the severance tax bonds were issued for the purchase;
3. for projects for which severance tax bonds were issued to purchase emergency vehicles or other vehicles that require special equipment, at the end of the fiscal year two years following the fiscal year in which the severance tax bonds were issued for the purchase; and
4. for all other projects for which severance tax bonds were issued, within six months of completion of the project, but no later than the end of fiscal year 2010.

"Except for appropriations to the capital program fund, money from severance tax bond proceeds provided pursuant to this act shall not be used to pay indirect project costs. "...[Unexpended balance]' means the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties" (Language in CS/HB 885, as amended, with emergency clause).

**REVERSION CLAUSE**

**CS/HB 885, as amended, with emergency clause (Chapter 347 (partial veto), Laws 2005)**

**General fund and other fund reversions:**

"Except as otherwise provided in this section or another section of this act, the unexpended balance of an appropriation made in this act from the general fund or other state fund, including changes to prior appropriations, shall revert to the originating fund as follows:

1. for projects for which appropriations were made to match federal grants, six months after completion of the project;
2. for projects for which appropriations were made to purchase vehicles, heavy equipment, educational technology or equipment or furniture that is not related to a more inclusive construction or renovation projects, at the end of the fiscal year following the fiscal year in which the appropriation was made for the purchase;

**SELECTED PUBLIC SCHOOL-RELATED LANGUAGE**  
**GENERAL APPROPRIATION ACT OF 2005**  
**CS/H 2 et al., as amended (Chapter 33 (partial veto), Laws 2005)**

**OTHER EDUCATION (Section 4, I)**

The general fund appropriation [\$381,600] to the public education department for the core curriculum framework includes one hundred thirty-one thousand six hundred dollars (\$131,600) for teacher professional development on teaching advanced placement and pre-advanced placement courses through a joint powers agreement with New Mexico highlands university.

The general fund appropriation to the public education department for the Family and Youth Resource Act shall fund family and youth services pursuant to the Family and Youth Resource Act.

The general fund appropriation to the public education department for teacher loan for service shall be transferred to the commission on higher education.

**PUBLIC SCHOOL SUPPORT (Section 4, K)**

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of the public education department. The secretary of the public education department shall establish a preliminary unit value to establish budgets for the 2005-2006 school year and then, upon verification of the number of units statewide for fiscal year 2006 but no later than January 31, 2006, the secretary of the public education department may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution includes fifty-one million eight hundred thousand dollars (\$51,800,000) to implement the forty thousand dollar (\$40,000) minimum salary for level two and level three-A teachers. To allocate to each school district and charter school the amount needed to provide the required minimum salary for all eligible level two and level three-A teachers, the secretary of the public education department shall establish a unit value for fiscal year 2006 without including the fifty-one million eight hundred thousand dollars (\$51,800,000) in the calculation. After verifying the amount needed by each school district and charter school, the secretary of the public education department shall use the fifty-one million eight hundred thousand dollars (\$51,800,000) to adjust program cost to allocate the verified amount to each school district and charter school.

The secretary of the public education department, in collaboration with the department of finance and administration office of educational accountability, shall ensure all level two and level three-A teachers receiving salary increases under the three-tiered minimum salary have been evaluated under the tiered licensure evaluation system and have the professional competencies of level two and level three-A teachers. The secretary of the public education department shall withhold from the public school district distribution funding for minimum salaries for any teacher that has not been evaluated. ~~The secretary of the public education department shall report the findings to the legislative education study committee and legislative finance committee by July 1, 2005.~~

The general fund appropriation for the state equalization guarantee distribution includes one million nine hundred thousand dollars (\$1,900,000) for raising the minimum salaries of educational assistants to twelve thousand dollars (\$12,000) effective July 1, 2005. If House Bill 137 or similar legislation of the first session of the forty-seventh legislature is enacted, the one million nine hundred thousand dollars (\$1,900,000) will be applied to the implementation of the tiered licensure system for educational assistants. **(HB 137, did not pass)**

To fund elementary fine arts programs for fiscal year 2006, the public education department shall distribute the general fund appropriation based on a cost differential of .05 multiplied by a 0.8 full-time-equivalent MEM.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

For the 2005-2006 school year, the state equalization guarantee distribution contains sufficient funding for school districts implementing a formula-based program for the first time. Those districts shall use current year membership in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenues pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et seq., and formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Prior to the approval of school district and charter school budgets for fiscal year 2006, the secretary of the public education department shall verify that each local school board is providing a one and one-quarter percent salary increase for teachers not receiving an increase as a result of the three-tiered minimum salaries, all instructional staff and all other certified and noncertified employees, and bringing all level two and three-A teachers and those teachers moving from level one to level two to a minimum salary increase of forty thousand dollars (\$40,000).

The general fund appropriation to the state equalization guarantee distribution includes six million two hundred fifty-two thousand five hundred dollars (\$6,252,500) for a one and one-quarter percent salary increase for teachers not receiving an increase as a result of the three-tiered minimum salaries and two million three hundred eighty-one thousand nine hundred dollars (\$2,381,900) for instructional staff and five million three hundred seventy-two thousand seven hundred dollars (\$5,372,700) for all other certified and noncertified employees effective July 1, 2005.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2006 from appropriations made from the general fund shall revert to the general fund.

The general fund appropriation for the transportation distribution includes sufficient funding to provide a one and one-quarter percent salary increase for transportation employees effective July 1, 2005.

The general fund appropriation for the transportation distribution includes sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

Any unexpended or unencumbered balance in the supplemental distributions of the public education department remaining at the end of fiscal year 2006 from appropriations made from the general fund shall revert to the general fund.
