Capital Outlay

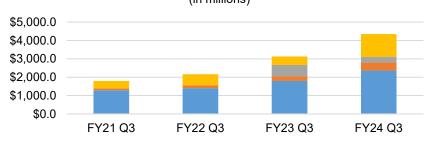

Quarterly Report, April 2024

Outstanding Capital Funds at \$4.5 Billion

At the end of the third quarter of FY24, outstanding capital outlay balances totaled an estimated \$4.5 billion across roughly 4,600 projects. The unspent funds include projects authorized by the Legislature (\$2.4 billion), projects funded through severance tax bond earmark programs (\$431.6 million), supplemental severance tax bonds for public school construction (\$1.4 billion), and special appropriations to capital projects (\$308.9 million). The last figure represents uncommitted and unspent funds from \$977.4 million in special appropriations from 2021 and 2022. Attachment A

Chart 1. Capital Outlay Balances, FY21 Q3 - FY24 Q3 (in millions)

- Public School Capital Outlay Fund
- Uncommitted and Unspent Special Appropriations (21SS/22RS)
- ■Earmark Funds
- Capital Projects Authorized by the Legislature

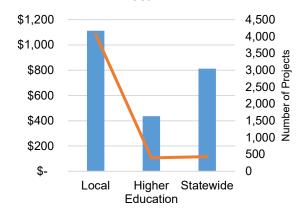

Key Points

- Public sector construction demand will continue to remain high with an additional \$2 billion in capital outlay from the 2024 session coming online.
- Nearly 800 active projects with estimated balances totaling \$268 million carry 2024 reversion dates. However, about 200 of these were reauthorized in the 2024 session, with estimated balances totaling \$71 million.
- Since the first quarter of FY24, roughly \$400 million in balances on projects authorized by the Legislature was spent or reverted (14%), about \$40 million in earmark program funds were spent (9%), about \$200 million in 2021/2022 special appropriations were spent or encumbered (20%), and the balance in the public school capital outlay fund increased by about \$200 million (17%).
- Local projects account for about 4,000 of the active projects underway in the state and \$1.1 billion of the unspent funds.

LFC QUARTERLY REPORTS provide analysis on the progress of capital appropriations.

Data is derived from the Department of Finance and Administration, state and local entities, and the Budget Formulation and Management System. Outstanding balances reported in this memo reflect reported expenditures as of April 2024 and do not include encumbered but unspent funds, with the exception of balances reported for special appropriations.

- General Obligation Bonds
- Severance Tax Bond
- Earmark Funds
- Other State Funds

2024 Capital Appropriations

In total, the Legislature authorized nearly \$2 billion in new funding for capital projects during the 2024 session.

- Senate Bill 275 authorizes \$1.4 billion from the general fund, severance tax bonds, and other state funds for state, higher education, local, and transportation projects.
- The general obligation bond bill authorizes \$289.6 million for higher education, senior center, and library projects.
- The severance tax bond earmark programs will see another round of historically large distributions in 2024, with \$124.6 million to the water project fund, \$62.3 million each to the colonias and tribal infrastructure funds, and \$34.6 million to the housing trust fund.

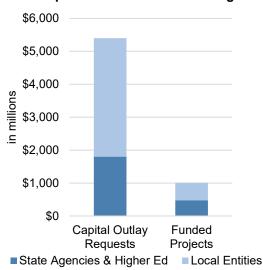

Demand for Capital Outlay Exceeds Available Funding

Requests for direct appropriations from legislators and the governor far exceed available funding, even in these years of historic surplus. In the 2024 session:

- Local entities requested \$3.6 billion in direct appropriations from House and Senate members.
- Available general fund dollars for local requests from the House, Senate, and Governor was about \$526 million – or just 15 percent of requests.

This gap continues to result in piecemeal funding to projects. Approximately 45 percent of 1,400 general fund projects in the 2024 capital bill received 50 percent or less of requested funds, with \$178.4 million appropriated to 642 projects for which \$1.5 billion was requested. Given the large funding gap for those projects – \$1.3 billion – their success is likely to depend on community willingness and capacity to effectively leverage capital outlay with other funding sources.

Chart 4. 2024 Capital Outlay Requests vs. Available Funding

Major 2024 Legislation to Improve Capital Outlay

Support for Project Development and Completion

The significant gap between requests and available funds, along with the practice of earmarking funding for individual legislators and the governor, undermines the state's ability to use surging revenues to efficiently complete projects that represent the greatest needs or would produce the most public benefits. Local projects are not consistently vetted for need or readiness and often receive only piecemeal funding. Piecemeal funding can contribute to project delays and increase overall costs.

The absence of a state entity responsible for coordinating capital outlay with other available funding sources and assisting local entities in accessing those funds has exacerbated these delays. Chapter 10 enacts an LFC endorsed bill (House Bill 232) to create such a coordinating entity as a division within the Department of Finance and Administration. The Infrastructure Planning and Development Division will absorb some functions of the Local Government Division and be charged with improving the outcomes of capital spending through the creation of a streamlined system for coordinating funding sources, administering capital outlay funds, and providing increased support to communities with limited capacity to develop projects, seek funding from local, state and federal sources, and manage projects to completion.

Debt Capacity and Long-Term Revenue Issues

House Bill 253 (Chapter 56) addresses two significant long-term risks to the capital outlay program:

- the potential negative impact of soaring debt capacity to the state's bond ratings; and
- the long-term decline of dedicated capital outlay revenues from taxes on oil and gas.

The bill amends the Severance Tax Bonding Act to reduce maximum long-term debt capacity from the severance tax bonding program and distribute any cash savings to a new capital development and reserve fund.

The bill also authorizes the Board of Finance to convert any excess cash available in the severance tax bonding fund at the end of FY24—up to \$500 million—into a one-time distribution to the new fund. The reserve fund will make annual distributions equal to 5 percent of its average year-end value over the previous three years. The initial FY24 infusion could provide a significant boost to the growth of the reserve fund and, by extension, to the annual distributions from the fund that will be available to the Legislature for appropriation to capital projects.

Source: LFC files

Over time, distributions from the reserve fund will at least partially replace severance taxes as a dedicated revenue source for capital outlay, with the potential to increase total future funding available for capital projects. While the reserve fund is growing and distributions are still modest, the impact to bonding available for capital appropriations from limits on long-term debt capacity could be mitigated by funding capital outlay with a mix of bond proceeds and general fund.

Development Fund (w/\$500 million seed funding in FY24) \$450.0 \$400.0 \$350.0 \$300.0 \$250.0 \$200.0 \$150.0 \$100.0 \$50.0 \$0.0 ٢٠٠٥ ^٢٠٥ ^٢٠٠ Distributions

Chart 5. Estimated Annual Distributions from Capital

Staff Interim Work

- Increased oversight of and reporting on the outcomes of capital spending through additional evaluation work, with a particular focus on project types related to broader LFC policy priorities. Areas of focus identified by staff include roads, water, housing, recreation, and infrastructure related to strategic economic sectors.
- Local project spotlights will be provided to the committee for interim meetings to provide additional insight into the challenges and successes of the capital program.
- Continued collaboration with DFA on the launch of the Infrastructure Planning and Development Division.
- Continued work with legislative and executive branch stakeholders to consider implementation of an earlier deadline for local capital outlay requests.

\$1 Million and Greater Report - Attachment A

LFC's \$1 million and greater report for the third quarter of FY24 provides updates on 767 active or recently closed projects with appropriations totaling \$3.6 billion.

For the next quarter, the state is transitioning back to the CPMS reporting system from BFM while DFA pursues development of a new reporting system with appropriations provided during the 2024 session.

The 117 blue-rated appropriations (see Table 2) reported as complete or fully expended this quarter include:

- Department of Agriculture building renovations;
- UNM campus infrastructure improvements;
- Phase 2 of the CYFD children's wellness center construction;
- Full disbursement of \$100 million from the public school capital outlay fund for CTE, pre-k, maintenance and school security;
- Elephant Butte delta channel improvements;
- Albuquerque Balloon Fiesta Park access improvements;
- Albuquerque / Bernalillo County regional emergency communications infrastructure;
- Gallup public safety building construction;
- Carlsbad relief route construction;
- Vado wastewater system extension; and
- New Mexico School for the Arts dorm and cafeteria construction.

The 264 red-rated appropriations (see Table 3), indicating no activity, no or minimal reporting, recent reauthorization, significant challenges or delays, or significant unspent funds, include:

- Santa Fe magistrate court construction;
- Statewide senior center general obligation bond packages from 2020 and 2022;
- Santa Fe executive office building;
- Simms Building renovation;
- CYFD therapeutic group home appropriations;
- Albuquerque Sawmill & Old Town street and pedestrian route improvements;
- Albuquerque sports stadium & multi-use convention center construction;
- Albuquerque performing/visual arts center construction;
- Santa Fe Midtown infrastructure improvements;
- Roswell air center improvements;
- Silver City senior / veteran / youth facility;
- Lea County courthouse renovation; and
- 32 higher education projects.

Earmark Funds

The status of projects funded through the Water Trust Board (**Attachment B**), the Colonias Infrastructure Board (**Attachment C**), and the Tribal Infrastructure Fund (**Attachment D**) are summarized in the respective attachments.

Authorized But Unissued Projects (Attachments E and F)

Attachment E provides a list of projects authorized by the Legislature for which severance tax bonds have not yet been sold. Attachment F provides a list of projects for which general funds have not been released. Projects may be stalled due to lack of audit compliance or readiness to proceed. Currently, \$9.4 million in STB project funding is authorized but unissued and \$30.1 million in 2023 general fund project appropriations is unissued.
