

February 2, 2026

House Appropriations and Finance Committee substitute for House Bills 2 & 3 2026 General Appropriations Act

Summary

The House Appropriations and Finance Committee substitute for House Bills 2 and 3 (HB2) would increase recurring spending by \$294.5 million, or 2.7 percent over the current fiscal year budget, and has over \$2.6 billion in nonrecurring spending projects and fund transfers. Totals include the feed bill for legislative agencies and session costs. The bill contains significant investments in communities across New Mexico and continues to build on the state's strong fiscal position, despite economic headwinds confirmed by the consensus revenue estimating group forecast. Overall, with planned spending from the general fund that would supplement the capital outlay package, the HAFC recommendation would leave general fund reserves at 30 percent and more cash in the operating reserve to weather further deterioration should revenues decline in FY27.

HB2 spending focuses on New Mexico's economic prosperity and personal earned income growth, access to high quality and affordable healthcare, and initiatives to improve quality of life, while providing sufficient resources to sustain the basic operations of government services despite broader economic uncertainty. The bill includes \$300 million as part of a package to fully fund a new University of New Mexico medical school building (total state cost of \$540 million), which would double this important educational endeavor that. When combined with other healthcare workforce appropriations, a newly opened UNM critical care hospital tower and future outpatient facility will make for a premier medical education program in the Southwest. The appropriation would also help fund a new research and interdisciplinary building at New Mexico State University and improvements for quality of life for student life and housing projects across the state.

Economic Prosperity and Personal Earned Income Growth

HB2 provides a coordinated set of appropriations designed to boost the state economy in areas where New Mexico has a competitive advantage and build on existing strengths and investments in education to give New Mexicans the tools to increase knowledge and skills to obtain higher wages. The bill boosts performance-based formula funding for higher education and overall recurring funding by almost 4 percent, or \$52 million, continues and increases support for free tuition and fees for students pursuing undergraduate degrees in higher education, provides for targeted funding for new evidence-based career and technical education and high school innovation supports totaling \$45.6 million, and includes an additional \$10 million for apprenticeships. Investments focus on boosting educational attainment levels from high school to trades to postsecondary degrees.

The bill also invests in "two-generation" strategies to support families while they work or attend school or training by providing affordable childcare assistance and expanded early prekindergarten for 3-year-olds. New Mexico has moved into a universal early childhood system with education and care services for children from birth to age 5 available regardless of family income.

HB2 includes almost \$180 million of specific Economic Development Department projects focused on expanding and strengthening business opportunities, while continuing to support the large tourism industry in the state. The bill includes a number of projects to help spur and build on the development of a quantum computing economy, including \$32 million in match funding for a large federal research grant, faculty and research team endowments, additional space and start-up costs for entrepreneurs and new businesses to co-locate research efforts, and \$40 million for performance-based research and development grants and an alternative strategy to tax credits. Other items support strengthening New Mexico's position in the research and development field, particularly aerospace and defense, with \$32 million for upgrades to university research labs in addition to economic development projects.

Access to High Quality and Affordable Healthcare

In addition to supporting a new expanded medical school, the bill seeks to support the expansion of medical doctors and other providers and includes \$25 million for loan repayment assistance, provides recurring raises to UNM medical residents and fellows, provides for home down payment assistance for UNM residents of \$1 million, and appropriates \$24 million for rural residencies and rotations of graduate medical students in hospitals, clinics, and other care settings outside of New Mexico's urban centers.

HB2 implements higher employer subsidies for public employees and provides public schools with an additional \$74 million to cover 80 percent of school employee healthcare and another \$43 million for higher premiums, resulting in improved take-home pay. This builds from last session's effort to do the same for state employees, with the recurring cost of that initiative and higher cost of premiums built into each agency's base budget.

HB2 allocates over \$254 million for a variety of health coverage initiatives, including \$224 million through subsidies for people on the New Mexico health exchange that would otherwise lose the expiring federal subsidies for no- or low-cost premiums. Backfilling federal enhanced no- or low-cost premium subsidies for individuals with incomes above 400 percent of the federal poverty—intended to be temporary coming out of the pandemic—is proving expensive and potentially unsustainable if Congress does not come to a resolution.

HB2 reallocates recurring savings in Medicaid due to lower enrollment to help strengthen quality and access to care, including rate increases for nursing homes, in-home personal care services, residential care services for people with developmental disabilities, and the cost of increased use of services in behavioral health after massive rate increases over the past couple of years. Within income support, costs to administer health and food supplemental benefits increased due to the federal budget reconciliation act shifting more administrative costs to states and implementing more frequent eligibility checks, resulting in additional staffing needs. HB2 increases the Income Support Program budget by \$30 million, or 32 percent, and related costs in Program Support by \$16 million, or 44 percent higher than FY26.

Quality of Life

The bill appropriates a significant portion of funding to a wide range of projects broadly intended to improve quality of life in New Mexico, including natural resources, water security, energy generation and grid modernization, housing, safe households and communities, and upgraded amenities.

Natural Resources. The general fund recurring budget provides outsized increases for the Energy, Minerals and Natural Resources Department (\$4.1 million or 9 percent), Office of the State Engineer (\$1.4 million or 4 percent), and Environment Department (\$2.2 million or 6 percent).

Significant natural resources projects are contained in HB2, such as \$100 million for land or interest in land for the creation, expansion, or restoration of public land, which includes up to \$30 million to match federal funds to recover lands damaged by natural disasters, such as in and around Ruidoso. Another \$15 million is appropriated to the Office of Natural Resources Trustee for land restoration projects, \$20 million to clean up uranium mines, \$15 million for river stewardship, and \$5 million to clean up other contaminated sites. The bill includes \$2 million for aquatic endangered species and hatcheries at the Department of Wildlife and a \$2 million expansion of recurring funding for state parks, in addition to funding for upgrades to parks in the capital outlay framework.

Water Security. HB2 includes significant investments in a range of water-related projects, including new sources of water, upgraded drinking water systems, and complying with water agreements. The bill includes a \$100 million transfer to the water project fund to supplement bond earmarks for shovel-ready water projects statewide and \$15 million for the wastewater facility loan fund. HB2 supports additional opportunities for water supply with \$40 million for the strategic water supply program and \$22 million to New Mexico Tech for aquifer mapping. The bill also provides

additional funding of \$22.5 million for compliance projects for the lower Rio Grande, \$7 million for middle Rio Grande projects, and \$15 million for the strategic water reserve fund and sets aside another \$10 million for nontribal projects as part of pending Indian water rights settlements in Congress.

Energy. HB2 includes \$25 million to complete community energy generation projects, \$10 million to develop geothermal energy projects, \$10 million for grid modernization, and \$5 million for low interest loans to local governments implementing renewable energy projects.

Upgraded Community Amenities, Housing, and Transportation. HB2 funds a multipronged strategy for housing projects, including \$30 million for infrastructure for affordable housing through the housing development revolving fund, \$30 million in direct investment in local affordable housing projects, including transitional housing, \$30 million in supplemental funding for the housing trust fund programs, and \$5 million for rental assistance. The appropriation for the higher education major capital fund includes funding for replacing or expanding student housing at universities across the state and student life projects with cost-sharing requirements.

HB2 provides for several appropriations to improve community amenities, including \$10 million for new hiking and biking trails, \$3 million for outdoor equity grants, \$2 million for rural libraries, and \$3 million for upgraded amenities around military bases.

HB2 includes \$200 million for local transportation projects and state maintenance and road construction funding. The bill provides for rural air service subsidies as well.

Safe Households and Communities. HB2 boosts recurring general fund appropriations for the Children, Youth and Families Department by almost 5 percent, or \$13 million, and includes separate pilot funding for Protective Services and Juvenile Justice. Corrections Department and Public Safety Department general fund appropriations increase almost \$12 million and \$6 million, respectively, and HAFC boosted funding for district attorneys by about \$5 million, or 4 percent. Other nonrecurring public safety appropriations include funding for intelligence-led policing, criminal justice date system integration, vehicles and body-worn cameras, and extension of significant prior-year investments in local law enforcement workforce supports.

Other General Government.

HB2 funds the primary election and general elections that will occur in 2026 at \$15 million each, negating the need for the Secretary of State to dip into the general fund after the appropriations process to replenish the election fund. A variety of other election integrity appropriations are also included in both the base budget and special appropriations.

HB2 includes a 58.7 percent increase for the Department of Information Technology (DoIT) to support the Cybersecurity Office. Additionally, nonrecurring funding provides \$21 million for cybersecurity initiatives at executive agencies, schools, and local government. HB2 also includes reauthorization of previously appropriated unspent funding supporting cybersecurity and broadband. Additionally, Section 7 includes over \$44 million in funding for new and existing information technology programs at state agencies and reauthorizes select previously appropriated unspent funds.

Reserves.

HB2, combined with general fund subsidies for capital outlay and HB1, would leave general fund reserves at 30 percent of recurring appropriations at the end of FY27. Importantly, the financial plan moves reserves toward having more liquid cash in the operating reserve should revenues not materialize and counts fewer restricted accounts in the reserve calculation. The largest amount of reserve funding would still be in the tax stabilization reserve. Reserves estimates total \$3.3 billion.

2026 HAFC HB2 - Technical Corrections

Section	Agency	Agency Code	General Fund	OSF	ISF	Corrections\Language\Notes
1	4 SOS	370				Addresses distribution of catch-up clean (CUCU) up spreadsheet GF add of \$776.7 thousand clarifying \$83.5 thousand is intended to support cybersecurity for a total of \$657.8 thousand in 400s. Corrects typo in supporting bullet to reflect \$118.9 thousand in 300s instead of \$118.0 thousand in 300s.
2	4 RLD	420				Add standard language to manufactured housing program identifying other state funds as mortgage regulatory funds.
3	4 OSE	550				Update language in litigation and adjudication program to match funding in PS&EB/ISF line.
4	5 2nd DA	252	\$ (750.0)			CUCU item was listed at GF to bring total to \$2 million but should have been listed as ISF as the source is from the Consumer Settlement Fund.
5	5 DFA	341				For the \$30 million housing development revolving fund item add "including five million dollars (\$5,000,000) for tribal housing infrastructure
6	5 OSE	550				Change language to reflect executive recommendation on \$10 million dollar Indian water rights settlement item.
7	5 HED	950				Agency move: moving CUCU item 80 (\$1.5 million) on partnership with a college of osteopathic medicine from NMSU to HED as existing item was at HED and not NMSU.
8	5 UNM	952				Remove CUCU language only item #84 for rural residencies and residency rotations. Duplicate language already in HCA.
9	7 GCB	465				CUCU item #11 for GCB already executed in Section 7 of HB2.
10	Higher Education 11 Major Projects Fund					Update contingency language to reflect contingency as House Bill 8.
11	12 ONRT		\$ 668			CUCU item #22 on ONRT authorization for use of trustee fund balance should be in BAR instead of Section 4 as listed on the CUCU sheet. Adds new bar: the office of the natural resource trustee may request budget increases from other state funds from the natural resources trustee fund, including up to seven million dollars (\$7,000,000) for outdoor recreation and quality of life projects in San Juan county.
12	Total		\$ (750.0)	\$ -	\$ 750.0	

Note: Separate from listed items analysts may need to correct typos (e.g. misspellings, adjust amounts slightly, from shown (\$0.1) due to rounding or to adjust language to conform with HB2 style. Nonrecurring FY's may need to be adjusted for these or existing HB2 appropriations to maintain reserves at target levels.
