March 29, 2006

Dear Fellow Legislators:

The most important responsibilities of any 30-day legislative session are the adoption of two major spending proposals – the state budget and the capital outlay package. Strong energy-related revenues have become a familiar element in this effort. But, equally familiar, is the concern that the volatile source of these strong revenues requires a cautious approach in the development of the state budget. With economic forecasts showing a steep decline in growth in coming years, this cautious approach was even more important this year.

The LFC budget recommendation, the starting point for the development of the budget, was a particularly strong starting point this year. In anticipation of the forecasted slowdown, it emphasized existing commitments, particularly those to public school reforms, over new programs. It recognized that some state agencies face chronic problems with providing basic services.

Nonetheless, flush state coffers and an ambitious executive brought a predictable profusion of worthy and less-worthy initiatives and proposals. By necessity, debate on many of these complicated issues must continue next year.

As passed, the spending plan reasonably funded ongoing government operations, addressed most of the executive's capital and budget initiatives and included funding for important projects in members' districts. After significant vetoes, mostly of legislator-proposed projects, it leaves general fund reserves at 10.5 percent.

This document is a review of the fiscal impact of the Legislature's action during the regular session of 2006. It also includes a summary of the state's financial situation. Such a review provides us with a useful summary of financial legislation as well as a tool for thoughtful analysis.

I want to thank the staff of the Legislative Finance Committee for their efforts in putting together this report. The committee staff once again performed effectively and professionally and I believe you will find this report valuable.

Sincerely,

A handwritten signature in cursive script that reads "Lucky Varela".

**Recurring General Fund Spending as a Share of Personal Income**

\* Indicates forecasted personal income figures and budgeted appropriation amounts.  
Source: LFC Files and UNM BBER

**Energy-Related Revenue Share of Total General Fund**

\* Forecasted  
Source: LFC Files

**FY07 Recurring General Fund Revenues: \$5.2 Billion**

Source: Consensus Revenue Group Jan 2006 (adj. for 2006 legislation)

The enacted general fund budget for FY07 is balanced and provides sufficient funding for priority state-financed services. General fund reserves remain exceptionally strong.

**Reserve Balances (% of Recurring Appropriations)**

Estimated revenue growth in FY07 relative to the recurring FY06 budget (“new money”) was an extraordinarily strong \$483 million. The growth in revenues has been broad-based with significant strength showing in gross receipts and income taxes as well as energy-related revenues. Strong revenues enabled recurring general fund spending to grow by \$406.5 million, or 8.6 percent, over the FY06 operating budget. By way of comparison, nominal spending growth between FY95 and FY06 averaged 5.7 percent. Additionally, general fund spending as a share of total personal income in the state was just above 8.5 percent, remaining roughly constant over the past 10 years.

State general fund reserves in FY07 are expected to reach \$537.4 million, 10.5 percent of recurring appropriations. The high 10.5 percent reserve level in large part reflects legislators’ concerns about the risks associated with revenue growth that is dependent on volatile oil and natural gas prices. In FY06, energy-related revenues exceeded 20 percent of general fund revenue and contributed more than 50 percent to the growth in FY06. These volatile revenues are expected to return to the historical average of about 15 percent of general fund revenue for the next few years. The general fund financial summary detailing revenues, appropriations and reserve levels is shown in Appendix A.

FY07 appropriations reflect the Legislature’s and the executive’s shared budget priorities: education and health care. Overall, education comprised 60 percent of FY07 general fund spending, with 45 percent allocated to public schools and 15 percent to higher education. Similarly, education spending absorbed much of the budget growth. Other spending areas largely grew at about the rate of inflation. Health and human services appropriations, half of which is Medicaid, were 24 percent of all appropriations.

**Capital Outlay and Vetoes.** Following final passage of the General Appropriation Act (House Bill 2 enacted as Chapter 109) and Chapter 110 (Senate Bill 415), it was reported by LFC that the general fund

capital outlay target was approximately \$400 million in order to maintain general fund reserves at 10 percent. In fact, Chapter 111 (House Bill 622) appropriated \$531 million general fund for capital outlay. Further, Chapter 111 (House Bill 622) included \$84 million of contingent appropriations to the State Engineer for water settlements. Although the State Engineer indicated it was unlikely to spend the settlement money in 2007, DFA nevertheless “booked” the contingent appropriations. Consequently, DFA reported general fund reserves prior to executive action of approximately 5 percent.

The executive reported \$255.9 million of appropriation vetoes including \$20 million for endowed chairs that did not pass because enabling legislation did not pass and \$75 million for the Indian water settlements. Of the remaining approximately \$161 million general fund appropriation vetoes, \$42 million were capital outlay in Chapter 111 (House Bill 622), \$101.5 million in the General Appropriation Act and \$17.9 million in Chapter 110 (Senate Bill 415). The table below presents the most significant vetoed items.

**Public and Higher  
Education Accounts for 60  
Percent of the FY07  
Budget Appropriation**

**The General Appropriation Act and Companion Appropriation Bills.** The General Appropriation Act (GAA) has FY07 recurring general fund appropriations of \$5.07 billion. With Chapter 1 (House Bill 1, also known as the feed bill), FY07 recurring appropriations total \$5.084 billion, up \$393 million, or 8.4 percent, from the current year's operating budget (see Appendix E). The spending level is \$10 million higher than the LFC recommendation and \$7 million less than the executive recommendation. Chapter 110 (Senate Bill 415, also known as House Bill 2 Junior) has \$26 million recurring appropriations for FY07. Chapter 99 (House Bill 337) appropriates \$3.8 million for seven new judges and related costs.

*Public Education.* GAA increases spending on public education by \$161 million, or 7.6 percent. School employee pay will rise 5 percent, with an additional 4.5 percent for educational assistants. An additional \$6.8 million is appropriated to implement the \$45 thousand minimum salary for Level 3 teachers. The bill also includes \$13 million to boost the employer contribution for retirement by 0.75 percent, \$8 million for pre-kindergarten (half to the Public Education Department and half to the Children, Youth and Families Department) and \$21 million for the employer share of insurance.

*Higher Education.* The general fund appropriation for higher education will increase by \$51 million, or 7.3 percent. This includes 4.5 percent pay raises plus 0.75 percent for retirement. The appropriation fully funds workload, boosts the formula factor for science at two-year schools and provides \$2 million additional recurring funding to the University of New Mexico Health Sciences Center.

*Health and Human Services.* GAA appropriates \$629 million for the Medical Assistance Division. This represents a \$63 million, or 11.1 percent, increase. The base growth is \$29 million, provider increases are \$15.6 million and program expansions total \$18 million. Expansions include outreach for children and Native Americans, expanded pre-natal coverage, and certain income disregards for eligibility determination.

The Health Department general fund appropriation is up \$11.3 million but also includes an additional \$9 million of tobacco settlement revenue. In addition, Chapter 110 (Senate Bill 415) includes \$5 million for the Health Department. The appropriations include \$2.5 million for school-based health centers, \$5 million for additional developmentally disabled waiver services, \$1.5 million to expand the family/infant/toddler program, \$1.25 million for provider rate increases, \$1.6 million for the hepatitis C initiative, \$777 thousand for a methamphetamine treatment initiative, and \$1 million for rural health clinics.

**Special Appropriations  
for Public Schools Total  
\$38 Million**

*The Children, Youth and Families Department.* The general fund appropriation combined with Chapter 110 (Senate Bill 415) appropriations represents a \$23 million, or 16 percent, increase for the Children, Youth and Families Department (CYFD) over the FY06 operating budget. The appropriations include increases for protective services, \$1.8 million to expand childcare eligibility, \$1 million for home visiting and \$3 million for domestic violence services.

*Public Safety.* The general fund appropriation to the Department of Public Safety will increase \$2.7 million, or 3.6 percent, to \$77 million and includes an additional \$1.2 million from the road fund. The Corrections Department appropriation will increase \$23 million, or 10.9 percent, to \$237 million. It includes an additional \$900 thousand for 15 probation officers as well as \$5 million to convert Springer to an adult facility no later than January 1, 2007.

**Agency Compensation.** GAA provides for an average compensation increase of 5 percent effective July 1 for all state employees. Law enforcement personnel receive an additional 5 percent and judges an additional 2.4 percent. Chapter 110 (Senate Bill 415) provides an additional \$2 million for law enforcement officers bringing their raises to 16.4 percent. An additional 3 percent increase for probation officers, who are experiencing a 50 percent annual turnover rate, was vetoed.

**Special and Supplemental Appropriations.** GAA provides significant special appropriations (FY06 and FY07) for higher education: \$49 million for a need-based scholarship endowment fund, \$15 million for equipment at the UNM Health Sciences Center and \$5 million for performance funding to boost persistence and graduation rates. Special appropriations for public schools total \$38 million, including \$6 million for schools in need of improvement, \$3 million for library materials, \$2 million for physical education, and \$2 million for school breakfasts. Other significant special appropriations are \$7 million for the Job Training Incentive Program, \$3 million for police vehicles and \$11 million for information technology. Supplemental appropriations for agencies to complete FY06 are \$23.7 million, including \$10 million for the Corrections Department and \$4.1 million for CYFD.

Vetoes of special appropriations include \$60 million for repair of university buildings and \$6.3 million for holding school districts harmless for mandated salary increases related to the three-tier minimum salary schedule.

**Executive Initiatives.** Following sometimes lengthy budget hearings for every agency in the House Appropriations and Finance Committee, the executive had opportunities to seek additional funding in the Senate Finance and Conference committees. Concerns regarding base funding shortfalls for the Environment, General

Services and Health departments were addressed. An LFC analysis indicates that, of an estimated \$78 million for FY07 initiatives requested by the executive, \$60 million were included in GAA or Chapter 110 (Senate Bill 415) (see Appendix H).

**Legislation Affecting Revenues.** Bills that impact general fund revenues are summarized below and in Appendix B.

Chapter 78 (House Bill 358) increases the film production tax credit to 25 percent of qualified expenditures through tax year 2008 and to 20 percent thereafter. The previous credit was 15 percent with a 5 percent New Mexico Filmmakers credit. The fiscal impact, which will primarily impact the state's corporate income tax, is estimated at \$1.8 million in FY07. If the credit, which has no cap on the amount, is successful in drawing films and television shows to New Mexico, the impact could be significantly higher.

Chapter 25 (House Bill 365) immediately repeals the controversial nursing home bed surcharge enacted during the 2004 legislative session. Repealing the daily bed surcharge reduces general fund revenue by \$6.7 million in FY06 and \$20.9 million in FY07. About \$4.3 million of the FY06 and \$13.5 million of the FY07 revenue loss will be due to reduced federal Medicaid matching payments resulting from HSD's reduction of nursing home provider reimbursement rates. About \$700 thousand of the FY06 and \$2 million of the FY07 revenue loss will be due to reduced payments from New Mexicans who currently pay the surcharge out of pocket.

Chapter 39 (House Bill 583) amends the Gross Receipts and Compensating Tax Act to clarify that receipts from licensing property for use in New Mexico are subject to taxation. It also narrows the definition of "property" to exclude patents, trademarks and copyrights. This bill responds to a preliminary New Mexico Supreme Court decision on the case *KMART Corporation v. Taxation and Revenue Department of the State of New Mexico* and prevents the loss of \$13 million per year in gross receipts tax revenues.

Chapter 103 (House Bill 497) increases the minimum annual distributions from the fire protection fund (FPF) to be received by municipal and county fire districts. Because the FPF reverts to the general fund at the end of a fiscal year, general fund revenues will decrease by \$6.5 million in FY06 and by \$7.2 million in FY07.

Chapter 93 (Senate Bill 269) creates a new personal income tax credit for the purchase and installation of a solar thermal or photovoltaic system in a residence, business or agricultural enterprise. In the near term, the credit will cost less than \$1 million but will rise to its maximum of \$5 million with increased adoption of solar technology.

***Net Impact from***

***Revenue Legislation:***

***FY06: -\$14.4 Million Recurring***

***FY07: -\$13.0 Million Recurring***

***FY08: +\$7.5 Million Recurring***

Other revenue bills include new deductions from the gross receipts tax base for health facility construction, for counselors, therapists and social workers, and a change in the vendor discount rate for purchasing cigarette tax stamps, which will provide revenues for the newly enacted rural county cancer treatment fund. The Taxation and Revenue Department is now allowed to contract for the collection of owed taxes, which will increase revenues. The State Treasurer will be able to enter into tri-party repurchase agreements, which will increase investment income.

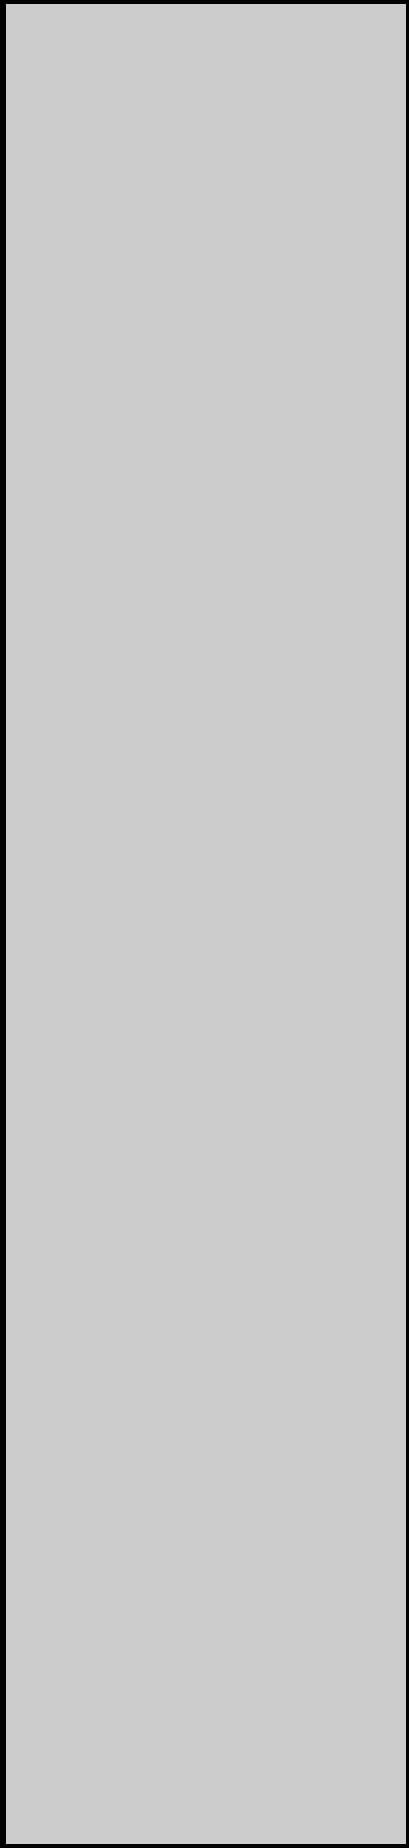

**Fiscal Year 2008 Outlook.** The Consensus Revenue Group estimates that FY08 revenues will only grow by 0.9 percent, or \$46 million. While most revenues are expected to grow in FY08, income taxes and energy-related revenues are forecast to be less in FY08 than in FY07. Personal income tax growth is expected to slow to less than 1 percent as the top bracket rate phases in to 5.3 percent for the first half of the fiscal year and 4.9 percent for the second half. Personal income taxes have historically grown by about 6 percent. Corporate income taxes are expected to decline with oil and gas revenues. In FY05 and FY06, corporate income taxes have been much higher than usual in part due to national trends but also largely due to the increased revenues from the oil and gas industry.

Historically, expenditures have grown by just over 5 percent. The growth rate has been as high as 9.3 percent and as low as 0.6 percent. Baseline expenditure growth based on population and inflation measures is projected to be 4.5 percent in FY08.

There are already \$44 million in committed spending increases in FY08:

- Corrections – Springer (\$3 million)
- Corrections – Contingency (\$2 million)
- Education Retirement Board (\$20.3 million)
- Public Schools – Three-Tier Teacher Pay (\$18 million)
- Public Schools – Principals (\$1 million)

With no additional growth in other programs, FY08 expenditures will be 0.8 percent higher than FY07. Assuming other programs grow by 4.5 percent, this suggests that the total growth in FY08 is going to be 5.3 percent.

Both the Legislature and the executive recognize these fiscal realities and have enacted a budget that carries \$122 million of recurring revenue surplus into FY08. Combining this surplus with the projected revenue growth of \$46 million leaves \$168 million in new money for FY08. This will enable an additional 3.3 percent growth in expenditures. Combined with the general fund reserve level of 10.5 percent going into FY08, the fiscal picture looks sound and responsible.

**2004-2005 Adequate Yearly Progress All Schools**

Source: Public Education Department

**School Designations Statewide**

Source: Public Education Department

Public education continues to be a high priority for the Legislature and received considerable support in 2006. Appropriations contained in GAA for fixed costs and insurance costs for school districts to meet “open the door” expenses, increased compensation for staff, and other related recurring appropriations to the Public Education Department amount to approximately \$2.3 billion, an increase of \$163.6 million, or 7.7 percent over FY06. This amount represents a record increase for public education (see Appendix J).

**School Improvement and Student Achievement.**

The state continues to struggle with the achievement gap among different groups of students. The achievement gap exists primarily as a result of the state’s high poverty rate and the disparity in the quality of teachers. To help the Public Education Department (PED) address this issue and meet the requirements of the federal No Child Left Behind Act (NCLB), the Legislature in 2006 chose appropriations that increased funding for existing programs over those that established new programs. The increased funding will support advanced placement courses, beginning teacher mentorship, family and youth resource support, and the GRADS (Graduation, Reality, And Dual-role Skills) program. It will also expand pre-kindergarten and kindergarten-plus programs, as well as truancy and dropout prevention initiatives.

Of particular interest are appropriations of approximately \$8.4 million for the school improvement framework, \$6 million special appropriation and \$2.4 million for FY07 in categorical support. The department requested this funding to implement an intervention program based on high-quality professional development, provide technical assistance to districts, principals and teachers, support non-Title I schools, support collaboration initiatives, extend the school day and school year for selected schools, provide leadership incentives, provide short-cycle assessments, and implement preventive measures to keep schools out of the school improvement cycle.

**Three-Tiered Teacher Licensure.**

To retain and attract highly qualified teachers and to provide incentives for teachers to pursue ongoing professional development, the Legislature continued the implementation of the three-tiered teacher licensure program with sufficient funding to implement the \$45,000 minimum salary for level 3A teachers. The FY07 appropriation will complete the fourth year of a five-year rollout for the salary structure.

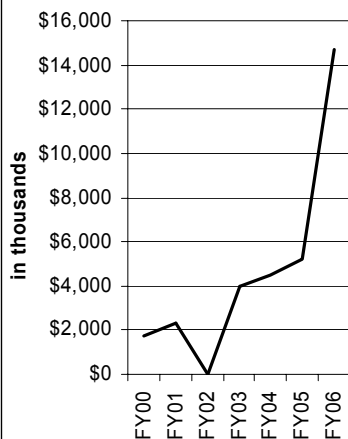

In FY06, the distribution of \$51.8 million to schools for implementation of the three-tier program was made outside of the state equalization guarantee distribution to address concerns raised by

### Three-Tier General Fund Appropriations

Source: LFC Files

### Enrollment Growth Funding Increases

Source: LFC Files

school districts. For FY07, the \$51.8 million, as well as an additional \$6.8 million, will be distributed through the formula because schools have now had time to make appropriate adjustments to their budgets. The final phase of the program is scheduled to be implemented in FY08 when the minimum salary for level 3A teachers will climb to \$50,000 at an estimated cost of \$16.8 million.

A positive outcome of the three-tier implementation has been the decline in the number of teachers on waivers. Currently 3.8 percent of teachers are teaching under a waiver, down from 15.7 percent when the career ladder was implemented.

**Other Compensation and Benefits.** In addition to funds provided for the three-tier minimum salaries, the General Appropriation Act provides funding for an average 5 percent salary increase for all educational employees other than educational assistants, who will receive an average 9.5 percent salary increase. These increases are effective the first full pay period after July 1, 2006. Language contained in GAA requires school districts and charter schools to provide salary increases to teachers before implementing the level 3A minimum salaries.

To meet the provisions of Laws 2005, Chapter 273, which addresses the unfunded actuarial liability of the educational retirement fund, sufficient funding is provided for the three-quarter percent increase in the employer contribution. The Legislature also provided \$21.2 million to offset school district increased insurance costs.

**Enrollment Growth.** Based on initial enrollment growth projections received from PED using budgets submitted by school districts, LFC recommended \$16.5 million for enrollment growth in the FY07 budget. However, 40<sup>th</sup>-day enrollment indicated unit levels well below projected numbers. While this is not extraordinary, analysis of enrollment trend data indicates a downward trend in certain student demographics. After consulting with LFC, the Legislative Education Study Committee (LESC), and PED, the Legislature appropriated \$12 million to accommodate student growth in FY07. Additionally, the Legislature appropriated \$5 million in emergency supplemental funding for unforeseen costs, including growth.

**Education Reform Initiatives.** The Legislature provided \$7.9 million in recurring funding for projects previously funded as nonrecurring. These include advanced placement, kindergarten-plus, pre-kindergarten, summer professional development institutes, and truancy and dropout prevention. In addition, \$23.5 million is provided in nonrecurring funding from the “education lockbox,” part of the appropriations contingency fund, for a number of educational reform initiatives. These include \$6.6 million for assessment and test development, \$2 million for breakfast for elementary students, \$2.5 million for computer-based math and on-demand student and

***New Mexico Pre-K Initiative***

1. ***Invests in what is best for children in New Mexico***

classroom information access, \$2 million for elementary physical education and anti-obesity programs, \$750 thousand for parental training and involvement and domestic violence curriculum, \$1.5 million for pre-kindergarten start-up costs, and \$6 million for the school improvement framework. The Legislature is likely to face requests for recurring funding in future years and should seek performance data for the initiatives.

Chapter 110 (Senate Bill 415) also provides \$799 thousand for other related educational initiatives including a new Math and Science Bureau at PED (\$250 thousand), school wellness policies (\$150 thousand), the reading material fund (\$100 thousand), and the Cyber Academy at Rio Rancho High School (\$172 thousand). An additional \$913 thousand to PED for school initiatives was vetoed.

**Pre-Kindergarten.** While pre-kindergarten is in its first year of implementation and with substantive evaluation data not yet available, the Legislature expanded its support of the program with an appropriation of \$4 million to PED and an additional \$4 million to CYFD. Language contained in GAA would have required quarterly reporting from the agencies; however, the language was vetoed. LFC expects to hold hearings during the interim to determine the effectiveness of the program and whether continued expansion is warranted.

An additional \$4 million in capital outlay funding is contained in Chapter 111 (House Bill 622) to construct, equip and furnish pre-kindergarten classrooms.

**Charter Schools.** Chapter 94 (Senate Bill 600) creates the Charter School Division at PED and allows for dual chartering by either local districts or the Public Education Commission (PEC). Further, state chartered schools are required to become individual boards of finance, which makes charter school financial operations generally equivalent to school district operations.

The Public Schools Capital Outlay Oversight Task Force will study statutory provisions governing the funding of charter school facilities, transportations costs, and other capital outlay issues and report to the LFC, LESC and the governor by November 1, 2006.

**Public School Capital Outlay.** Chapter 95 (Senate Bill 450), the Public School Capital Outlay Omnibus Bill, makes a number of changes to the capital outlay process. Of significance:

1. Statutory caps on school district and charter school cash balances are raised to 5 percent for those school districts and charter schools with current program costs in excess of \$200 million or more to as high as 15 percent for those with program costs less than \$5 million.

**Public School Capital  
Outlay Allocations  
State Portion Only  
FY00-FY06**

Source: LFC Files

2. The creation of the new school development fund to provide for certain one-time costs associated with the first year of operating a new school.
3. The extension of the lease payment assistance program through 2010 and an increase in annual appropriations from \$4 million to \$7.5 million to fully fund the \$600 per membership (MEM) assistance amount.
4. The creation of a local share advance program to provide funding upfront for the full costs for schools in high growth areas. The provisions require a district to repay its share of funding, including direct legislative appropriations, prior to receiving any future Public School Capital Outlay Council (PSCOC) awards. Future awards for eligible projects will be used to offset the district's share.

For FY07, approximately \$100 million will be available for the state match for school construction projects; \$90 million was appropriated in Chapter 111 (House Bill 622) for loans to high-growth schools.

**Funding Formula Task Force.** The Funding Formula Study Task Force was established in 2005 to provide a comprehensive review of the public school funding formula, including public expectations, statutory requirements and recommendations on possible changes to the formula. Chapter 56 (House Bill 42) extends the life of the task force until December 15, 2007, and adds a member from a statewide teacher organization. GAA includes a special appropriation of \$500 thousand for the task force.

Statewide hearings revealed the formula's training and experience (T&E) factor as the single greatest issue. The existing index does not reflect the impact of the three-tier minimum salary schedule on school district budgets. The task force will consider this issue.

**State Equalization  
Guarantee Unit  
Value**

Source: LFC Files

**Comparison of Funded Workload for Higher Education**

Source: LFC Files

Post-secondary education also continues to be a high priority for the Legislature and received considerable support in 2006. Total FY07 recurring appropriations for post-secondary education are \$759.2 million. Compared with the original FY06 operating budget, the FY07 increase was \$52.8 million, or 7.5 percent (see Appendix K).

**Workload.** The Legislature fully funded workload changes at post-secondary institutions under the “base-plus-incentive” funding formula model whereby the base of prior year funding is adjusted to reflect changes in enrollment, the mix of courses offered, pay raises, and changes in fixed costs. However, Section 11 of the General Appropriation Act sands all Section 4 general fund appropriations for state agencies with appropriations greater than \$5 million. The funding level assumes institutions will raise tuition in FY07 by 3 percent and provides for another year of the phase-in for branch campus status of University of New Mexico-Taos and the first-year of formula phase-in for branch campus status for Eastern New Mexico University-Ruidoso.

The higher education appropriation provides \$582 thousand to phase in the funding formula technical correction for science courses at two-year colleges at the same level as comparable courses at four-year institutions. Additionally, it provides significant funding expansions for athletics at New Mexico State University, New Mexico Highlands University, Western New Mexico University and Eastern New Mexico University.

The Legislature provided \$9.6 million for the higher education institutions to continue funding for special projects initiated in Chapter 34, Laws 2005 (the 2005 version of House Bill 2 junior). The Higher Education Department (HED) shall develop performance criteria and outcomes and report on financial accountability to ensure efficient funding allocation. Note that \$2.7 million of these funds will flow through the Higher Education Department.

The Legislature provided a significant compensation package for higher education employees. First, the Legislature provided general fund appropriations equivalent to a 4.5 percent increase in wages and salaries of both faculty and staff. As well, the Legislature provided funding for the second year incremental cost of 0.75 percent for the Educational Retirement Board. The executive vetoed the pre-funding of the third year of the incremental cost of the employer share of ERB contributions of \$5.7 million provided through the Higher Education Department for transfer to the ERB. In Section 4, the executive also vetoed \$250 thousand provided by the Legislature to Northern New Mexico College for faculty salary adjustments.

With respect to special schools, GAA included funding for conversion of teachers to the three-tier schedule and made a technical adjustment for the New Mexico School for the Blind and Visually Impaired to bring building renewal and replacement funding to 40 percent, in line with other higher education institutions.

**Workforce Training.** The General Appropriation Act includes funding to continue to address workforce needs, including \$600 thousand for high-skills training and \$5.7 million for adult basic education programs. The lump-sum appropriation for nursing programs for FY07 is \$3.5 million, up \$1.5 million from appropriations in previous years. The general fund appropriation to the Higher Education Department includes \$400 thousand for dental hygiene programs and \$100 thousand for dental residencies. The general fund appropriation for the New Mexico Mathematics Engineering Science Achievement (MESA) program is increased by \$70 thousand in FY07 to \$984.4 thousand. MESA promotes educational enrichment for middle and high school students from historically under-represented ethnic groups and, in partnership with schools and universities, prepares these students for college careers in mathematics, engineering, science, and related fields. Finally, the Legislature continued funding for Engaging Latino Communities for Education (ENLACE) initiated with Laws 2005, Chapter 34 (Senate Bill 190), \$95 thousand through the University of New Mexico and added \$200 thousand through the Higher Education Department.

**Special Appropriations.** The Legislature provided a number of significant special appropriations to higher education in Section 5 of the General Appropriation Act, including a \$20 million special appropriation for building renewal and replacement. The Legislature additionally appropriated \$5 million for performance funding for public, post-secondary institutions that meet or exceed performance targets for freshmen enrollment, persistence, and graduation rates, including minority students; however, the executive vetoed accountability reporting requirements for action planning and reporting of recruitment, enrollment, retention, and graduation rates for minority students included in Section 4. The Legislature appropriated \$2 million for a national consortium of higher education institutions that provides a national scale infrastructure for research and experimentation in networking technologies and applications.

**Financial Aid and Tuition.** Section 5 of the General Appropriation Act provided \$49 million of nonrecurring funds to the college affordability endowment fund for the College Affordability Act, a new need-based student financial aid program. The College Affordability Act provides for a new program to “encourage New Mexico students with financial need to attend and complete educational programs at public, post-secondary educational institutions in New Mexico.” Based on the 2005 authorizing legislation, interest income from the endowment fund is to be split between the endowment fund and the

***The Legislature appropriated \$49 million of nonrecurring funds to the college affordability endowment fund for the College Affordability Act, a new need-based student financial aid program.***

scholarship fund until the corpus of the endowment reaches \$250 million. Section 4 of the General Appropriation Act provides \$213.8 thousand for Senate Bill 190 projects (or Knowles legislative scholarships) and an additional \$500 thousand increase for the New Mexico Military Institute to enhance its legislative scholarship program. The Legislature also provided \$300 thousand for the new public service law loan repayment program, as well as \$138 thousand for the Western Interstate Commission for Higher Education dental program. Tuition and fees were defined in separate, enacted legislation to address the recent re-designation of fees by certain institutions.

**University of New Mexico Health Sciences Center.** The Legislature provided a significant investment package to address the cost of uncompensated care and salary needs at the UNM Health Sciences Center (HSC), including \$1 million from the general fund for instruction at the medical school accompanied by an additional \$1 million from tobacco settlement program funds. It also continued \$735.9 thousand from Laws 2005, Chapter 34, (Senate Bill 190) principally for the combined bachelor's/doctorate degree (BA/MD) program. Of the higher education 4.5 percent compensation increase, approximately \$4.7 million is for faculty and staff at UNM HSC. The UNM nursing program will also be eligible to apply to HED for funding from the \$3.5 million of general fund appropriations for the nursing program, up \$1.5 million from appropriations in previous years. Net general fund reductions of \$4.4 million for UNM HSC were completely offset by the use of tobacco settlement program funds. Significant nonrecurring investments in UNM HSC were provided in GAA, including \$10 million for patient care equipment, \$5.5 million for cancer center equipment, and \$1.25 million for the out-of-county indigent fund.

**Chapter 110 (Senate Bill 415).** A total of \$5 million in higher education special projects were funded in Chapter 110 (Senate Bill 415). These appropriations support, to name a few, the BA/MD program at the University of New Mexico (\$727 thousand), Latin American student recruitment at the University of New Mexico, children's mentoring programs, the Children's Hospital at UNM, UNM family development, dental hygiene initiatives, allied health programs, nursing, water research, middle school agricultural science initiatives, NMDA dairy inspection and sampling, aerospace engineering degree program, chile and pecan industry initiatives, web-based teacher licensure, adult basic education in Ruidoso, MESA programs, cave and karst research and teacher education initiatives of Northern New Mexico College.

## HEALTH AND HUMAN SERVICES

**Medicaid General Fund and Total Expenditures  
(in millions)**

Source: Department of Health

As expected, Medicaid continues to dominate the total appropriation at over \$600 million from the general fund. However, the Department of Health appropriation from the general fund grew to over \$290 million. The entire Health and Human Services sector appropriation from the general fund was over \$1.2 billion, up from \$1.1 billion the previous year, an increase of over \$100 million for the second consecutive year.

**Medicaid.** The consolidated FY07 Medicaid program appropriation in GAA and in Chapter 110 (Senate Bill 415) totals \$629 million (see Appendix N). Approximately \$12 million of this appropriation is required by a reduction in the federal medical assistance participation (FMAP) rate from 72.58 percent in FY06 to 72.14 percent in FY07. An additional \$33.8 million was passed for the following expansions or initiatives:

- \$5.2 million for provider increases,
- \$4.5 million to change recertification from six months to 12 months,
- \$3.7 million for an income disregard program that effectively expands eligibility,
- \$4.6 million to expand outreach for children,
- \$1 million for program expansion on the Navajo Nation;
- \$500 thousand to expand child dental programs,
- \$950 thousand to increase Medicaid payments for dental services,
- \$9.45 million to increase Medicaid payments for physicians, and
- \$3.9 million for expanded pre-natal coverage.

An additional \$101 million of other state funds was appropriated, along with \$50.2 million of transfers, making \$776.1 million available for federal match. Included in the total is \$1.3 million from the tobacco settlement program fund. Chapter 110 (Senate Bill 415) appropriates another \$3.9 million from the general fund for prenatal coverage. When coupled with the federal match the total estimated program expenditures will rise to \$2.8 billion.

GAA contains \$1.7 million and Chapter 109 (Senate Bill 415) another \$1 million for a total of \$2.7 million for a health insurance premium assistance program for those not eligible for Medicaid to be developed and administered by the Medical Assistance Division. When administration expenses of \$9.2 million are included, the Medical Assistance Division appropriation from the general fund rises to \$629.4 million – including the Chapter 110 (Senate Bill 415)

contribution – from the FY06 level of \$566.6 million, an increase of \$62.8 million, or 11.1 percent.

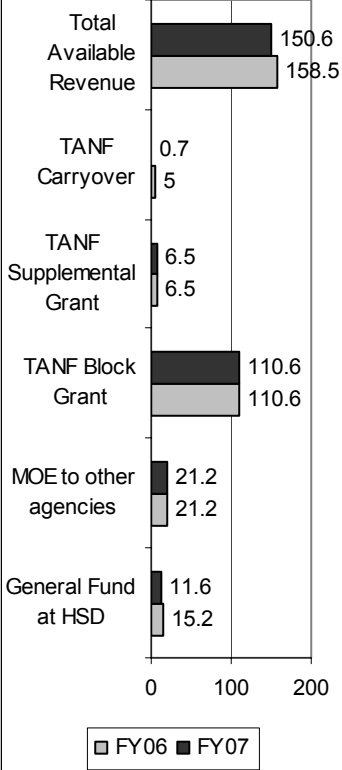

To facilitate the health insurance premium assistance program, Chapter 2 (Senate Bill 267) provides that HSD may, by rule, provide medical assistance, including assistance in the payment of premiums for medical or long-term care insurance, to children up to the age of 12 if not part of a sibling group, children up to the age of 18 if part of a sibling group that includes a child up to the age of 12, and pregnant women who are ineligible for public assistance under the federal act. It is important to note that the statute does not include income criteria for eligibility.

**Other Healthcare Initiatives.** The 2006 session addressed a variety of issues related to healthcare access, reducing the number of uninsured New Mexicans and uncompensated care. Included in the Medicaid program appropriation is approximately \$6 million from the general fund for continuation and expansion of the State Coverage Insurance (SCI) program. SCI was implemented July 1, 2005, and is available to individuals who have not voluntarily dropped health insurance in the last six months and to employers who have not voluntarily dropped health insurance to their employees in the last 12 months. Eligibility is based solely on income at up to 200 percent of the federal poverty level. The \$6 million general fund appropriation is enough to fund the 10,000 participant HSD goal for FY07 in addition to the UNM Hospital (UNMH) program.

The Health Insurance Alliance (HIA) is a consortium of private insurers created in 1994 by the Legislature to provide increased access to voluntary health insurance for small businesses, self-employed, and qualified individuals. Currently 10 private insurers participate. Chapter 3 (House Bill 24) creates a link between HIA and SCI by assuring that an employer offering the State Coverage Insurance (SCI) or some similar federal or state program, to its employees may also offer coverage through the Health Insurance Alliance (HIA). This bill simply codifies that an employer may take up health insurance for its employees from a federal and state income-tested plan as well as from HIA. The change makes private health insurance expansion through these programs more attractive by allowing tiered programs offered by the same employer. As a lead agency in the insurance initiative, the Human Services Department's goal is for the Alliance to increase coverage from 5,200 lives in FY05 to over 13,000 by the end of FY07.

**University of New Mexico Hospital and Other Healthcare Providers.** In July 2005, Governor Richardson initiated, through the University of New Mexico Board of Regents, a special, statewide University of New Mexico Hospital summit to address issues related to UNMH. One outcome was recognition of an uncompensated care burden of approximately \$44 million at the hospital in FY05, based on a generally accepted methodology to determine such shortfalls. The

**Temporary Assistance for Needy Families FY05 vs. FY06 (dollars in millions)**

Source: LFC Files

Legislature in 2006 passed appropriations and policy initiatives that could result in approximately \$30 million of revenue; however, about \$9 million is jeopardized by an executive veto of a requirement allowing UNMH to enroll up to 8,000 SCI program participants. In addition, Chapter 9 (House Bill 274) permits the governing body of Bernalillo County to enact an ordinance imposing an additional one-sixteenth percent increment of county health care gross receipts tax for support of indigent patients. It is estimated this increment would total over \$11 million annually and presumably could be funneled to UNMH and address the uncompensated care.

While UNMH may have the highest uncompensated care level of any New Mexico institution, the problem is common for many medical providers and puts burdens and pressures on the entire medical industry. Initiatives to expand health care insurance coverage, often referred to under the umbrella term Insure New Mexico, should reduce the level of uncompensated care and lessen this burden on individual providers. In addition, with fewer uninsured, the demands on county indigent funds should diminish, allowing for other uses of the monies or relief of the county tax on citizens.

**Temporary Assistance for Needy Families.** As shown in the sidebar, Temporary Assistance for Needy Families (TANF) funding in FY07 will decline \$7.9 million, with \$4.3 million resulting from a reduction in availability of prior-year federal carryover and a \$3.6 million reduction in the general fund appropriation to HSD. Most of the reduction is absorbed on the expenditure side by lower anticipated cash assistance need (see Appendix O). As in FY06, some of the programs previously funded by TANF, such as early childhood development programs at PED, teen pregnancy programs at PED, full-day kindergarten at PED and adult protective services at the Aging and Long-Term Services Department (ALTSD) (\$10.3 million total), received direct appropriations to the agency from the general fund.

The challenge for TANF is to continue high-quality services in the face of decreasing real funding from the federal government. The recently passed federal reconciliation bill maintains TANF at its current annual funding level but adds more stringent work participation requirements and changes the caseload reduction credit so it will be more difficult to achieve. HSD anticipates higher costs associated with the new requirements, and with no additional funding, it will be difficult to maintain all programs at the current level. The bill adds a new penalty of up to 5 percent for a state's failure to establish or comply with procedures for counting and verifying work activities. The federal appropriation level has not increased since the inception of the current program configuration in 1996. Without an inflation factor, the real value of the block grant has fallen by at least 15 percent over the years. These changes will be in place for FY07 and will create additional difficulties for an already challenged program.

**Number of Projected School Based Health Centers and Clients Served**

Source: Department of Health

**Tobacco Settlement Funds.** Over the initial 25 years, the master settlement agreement between the participating states and the tobacco industry will result in an estimated \$1.2 billion distribution to New Mexico. Prior to FY04, half of each year’s distribution was invested in a permanent fund and the remaining half made available for appropriations from the tobacco settlement program fund. Section 6-4-9 NMSA 1978 diverts all of the tobacco settlement payments from the tobacco settlement permanent funds to the general fund through FY06. Beginning in FY07, the diversion will cease and 50 percent will again be diverted to the permanent fund and the other half to the program fund for appropriation. For FY07, the Legislature appropriated \$14.9 million from the program fund (see Appendix P).

**Rural Primary Health Care Centers.** Twenty-five non-profit, community-based primary care organizations and local governmental clinics receive support under the state Rural Primary Health Care Act (RPHCA). Collectively these clinics serve 275,000 New Mexicans at 135 medical, dental, and school-based health clinics in 31 counties. According to the federal Health Resources and Services Administration *Uniform Data Report*, in 2004, the 14 federally funded health centers lost \$2.4 million. GAA contains \$850 thousand above the FY06 operating budget level for Rural Primary Health Care Centers. Additionally, Chapter 110 (Senate Bill 415) contains \$143.8 thousand for the centers.

Chapter 89 (Senate Bill 229) established a rural county cancer treatment center fund that is a beneficiary of the cigarette tax revenues. The first project funded will be the Gila Regional Medical Center Cancer Treatment facility.

**Hepatitis C.** GAA contains \$1.7 million for the hepatitis C collaborative health services project, Extension for Community Health Outcomes (ECHO), managed by the Department of Health (DOH), the Corrections Department and the UNM HSC. Chapter 110 (Senate Bill 415) appropriates \$150 thousand to UNM for this purpose. DOH has committed to serving 5,000 hepatitis C clients through this program in FY07.

**School-Based Health Centers.** Currently, DOH runs 34 school-based health centers. Half of the centers serve urban communities and the other half serves rural communities. DOH has committed to expand to 68 school-based health centers by the end of FY07 serving 11,000 students. School-based health centers provide an accessible location in schools where students can receive a wide variety of medical and behavioral health and preventive care services. GAA and Chapter 110 (Senate Bill 415) include \$2.5 million to expand the number of centers.

**Methamphetamine Treatment.** Because more than 200 illegal methamphetamine laboratories were discovered by New Mexico law enforcement in 2004 and additional treatment and prevention services are needed for New Mexicans of all ages, GAA includes \$650 thousand for methamphetamine treatment, and Chapter 110 (Senate Bill 415) includes \$121 thousand for these services.

**Mental Health.** GAA includes \$500 thousand from the general fund for the expansion of mental health programs, \$250 thousand to establish a mobile crisis team to work with law enforcement, and \$250 thousand for residential and non-residential transitional treatment or temporary day beds for court-ordered jail diversion. Another \$1.5 million for inpatient assessment and treatment for individuals in protective custody or 30-day involuntary civil commitment suffered a veto.

**Provider Rate Increases.** GAA includes \$1 million for developmental disabilities Medicaid waiver providers and \$250 thousand for non-Medicaid mental health service providers. This is an increase of almost 5 percent for the mental health service providers. However, these items were vetoed.

**Sex Offender Treatment Program.** GAA, Section 5, includes \$200 thousand and Chapter 110 (Senate Bill 415) \$659 thousand for the Sex Offender Treatment Program (STOP) at the Behavioral Health Institute at Las Vegas. The \$659 thousand will fully fund 24 additional beds at the institute and the \$200 thousand will allow the only residential treatment center for six months of sex offender treatment to provide additional services.

**Developmental Disabilities Medicaid Waiver.** GAA includes an additional \$5 million for direct developmental disabilities Medicaid waiver services in FY07. Additional budget adjustment authority language allows the department to transfer up to 5 percent (\$3.5 million) of the direct services funding into the department's budget for administration; however, language with the appropriation indicating the department must serve 250 additional clients per month over the average number served per month in FY06 was vetoed, eliminating accountability to expand services.

**Medically Fragile Medicaid Waiver Waiting List.** GAA includes \$729.5 thousand from the general fund to eliminate the medically fragile Medicaid waiver waiting list. This number is based on a waiting list of 75 clients at a total cost of \$37,408 per client annually.

**Statewide Trauma Care.** Based in part on the findings reported in the "New Mexico's Trauma Care Crisis 2006," \$4.7 million was appropriated for trauma services in the state. GAA contains \$2.7 million for trauma services, of which \$1.3 million is dedicated to the

University of New Mexico Hospital. Chapter 110 (Senate Bill 415) contains \$2 million for trauma services statewide.

**Telehealth.** Chapter 110 (Senate Bill 415) appropriates \$190 thousand for planning and program development for telehealth. GAA, Section 5 appropriates \$750 thousand for a telehealth pilot project. The \$190 thousand should coordinate with the business plan required by GAA.

**Aging Network.** GAA includes \$3 million from the general fund to increase direct community senior services in the aging network program of the Aging and Long-Term Services Department (ALTSD).

**Subsidized Child Care.** The Legislature increased funding for the Children, Youth and Families Department's, (CYFD) subsidized childcare program by appropriating \$1.4 million to expand childcare eligibility. Income eligibility is a key component of the welfare-to-work program. An additional \$1.3 million was appropriated for childcare provider rate increases. The childcare program enables parents to pursue employment and education opportunities that will allow them to grow both educationally and economically.

The total subsidized childcare program is estimated to be \$78 million with \$32.2 million from the TANF program, \$31.3 million from the childcare development grant, \$13.5 million from general fund, and \$900 thousand from other state funds. This level of funding will serve approximately 24,000 children.

**Home Visiting.** The executive's "Year of the Child" initiatives included a \$500 thousand expansion of the home visiting pilot program, bringing the total program funding to \$1 million. The Legislature in 2005 funded a pilot home visiting program that CYFD developed into a light touch "Welcome Baby" program. Just prior to the legislative session, CYFD proposed switching the programming of the pilot to a more intensive, well-focused, medical model program that serves a targeted population with professionally trained and degreed staff. A recent change in management at CYFD has stalled the implementation of the new model.

The Los Alamos Laboratory Foundation received \$1 million to fund a "First Born" home visiting program modeled after a program in Silver City. The foundation has been successful in raising charitable donations to pilot a program in northern New Mexico.

**Domestic Violence.** Statewide domestic violence programming received \$4.4 million from the Legislature, which includes \$2.6 million from TANF and \$1.5 million from the general fund for programming at CYFD and \$334 thousand for programming in judicial districts.

Additionally, \$2.6 million was appropriated in Chapter 110 (Senate Bill 415) for statewide domestic violence programming: \$2.3 million for programming at CYFD and \$257 thousand for judicial districts. Statewide domestic violence shelters received \$4.3 million in capital outlay funding.

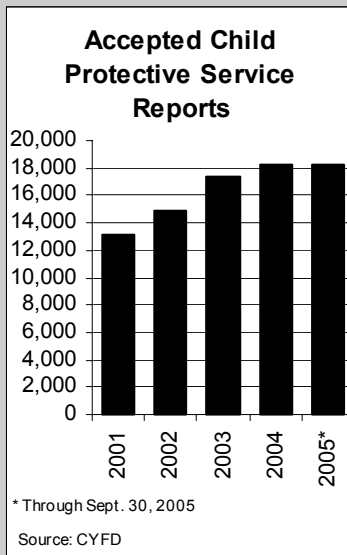

**Regional Services Act.** The Legislature appropriated \$1 million to the regional juvenile services act grant fund to replace federal Juvenile Justice and Delinquency Prevention (JJDP) Act funds that support “continuum” programs in 10 sites throughout the state. The purpose of the continuum is to encourage local juvenile justice reform and develop graduated sanctions and services, such as electronic monitoring, day and evening reporting centers, intensive community monitoring of juveniles released from detention, and restorative justice. A key component of the continuum is the creation of a strong local juvenile justice board that has the court, district attorney, law enforcement, juvenile probation and parole officers, the schools, faith and business communities, youth, and many other representatives.

**Protective Services Program.** The Legislature appropriated an additional \$8.6 million over the FY06 operating budget for the Protective Services Division (PSD). Fifty percent of the increase, or \$4.4 million, replaces federal funds from Title XIX for targeted case management and Title IV-E for foster care and adoptions. These programs have come under stricter federal oversight and review not only in New Mexico but also across the country. The federal funding reduction is projected to continue and CYFD may need another substantial funding increase in FY08.

Also included in the appropriation increase to PSD is \$547.5 thousand for a rate increase for foster and adoptive parents. Foster and adoptive parents have not had a rate increase since 1994. This rate increase will fund an additional payment of \$50 to \$75 per child per month, dependent on the caseload when the increase is implemented.

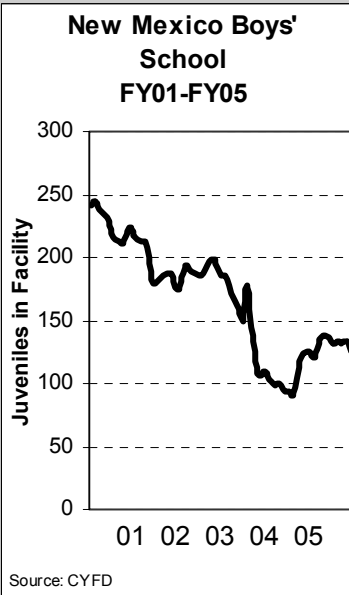

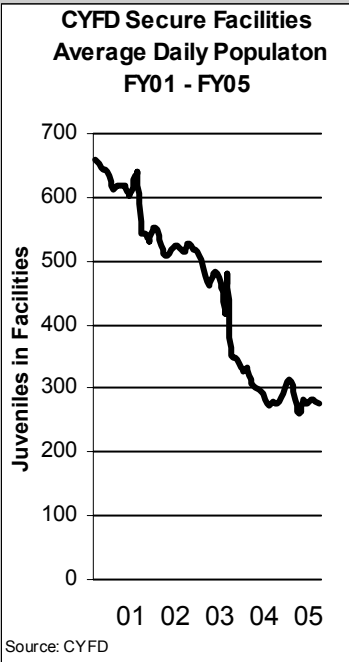

Another item included in the appropriation increase to PSD was the funding for the Joseph A consent decree of \$1.6 million. Over the years the Joseph A consent decree has been funded with nonrecurring funds in the General Appropriation Act, even though a portion of these funds were known to be recurring. The Legislature recognized this amount as the recurring piece that provides an ongoing level of support to maintain CYFD's ability to place hard-to-place children in adoptive homes in a timely manner.

**Juvenile Justice Program.** The appropriation for the Juvenile Justice Division is almost \$3 million greater than the FY06 operating budget, including \$200 thousand for gang intervention, \$300 thousand for vocational training in detention facilities, and \$1 million for front-end, community-based services such as multi-systemic therapy (MST), family functional therapy (FFT), juvenile community corrections

services, juvenile probation and parole officer (JPPO) recruitment and professional training.

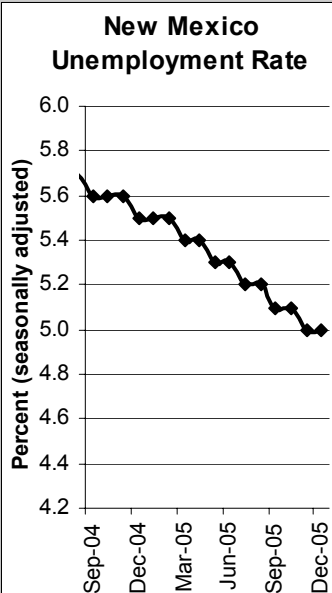

Much debate centered on the transfer of the detention facility in Springer to the Corrections Department for use as a low-security adult detention facility. Ultimately, the Legislature funded a half year of operations in each of the departments for the Springer facility with CYFD vacating the facility no later than December 2006. The juveniles presently located in Springer will be redeployed to the other CYFD detention facilities as well as some housed in county facilities until the overall population decreases through attrition. The elimination of the excess juvenile detention facility capacity will free up funds to help CYFD continue to move toward front-end, community services. Additionally, some of the budget will be used to address deficient services areas identified by the American Civil Liberties Union.

## LABOR AND WORKFORCE DEVELOPMENT

Source: NM Department of Labor

Source: NM Department of Labor

Labor and workforce development received significant support from the Legislature in 2006 with a 270 percent increase reflecting \$2.3 million from the general fund for the Labor Department to replace federal funds and \$1.5 million for the Office of Workforce Training and Development.

**Temporary Assistance For Needy Families.** The Legislature appropriated \$11.7 million of TANF funds for job training, including \$1.4 million to the Commission on the Status of Women (CSW) for the Teamworks program and \$500 thousand to the Aging and Long Term Services Department (ALTSD) for the gold mentor program. To improve the coordination and oversight of the entire TANF job training program, three programs were consolidated.

With the goal of having the Office of Workforce Training and Development (OWTD) coordinate all job training, especially in the central region where CSW and ALTSD have a presence, the bundling gives the Human Services Department flexibility during the transition of the New Mexico Works into the workforce system.

**TANF Participation Rate Change.** During the legislative session, Congress passed a major restructuring of the work participation requirements in the TANF program. The new work requirements impose expensive and unfunded new requirements and severely limit the flexibility of the TANF block grant. Effective October 1, 2006, New Mexico will be required to meet a 50 percent participation rate for all families receiving assistance and a separately calculated 90 percent participation rate for two-parent families, with each rate adjusted downward for any caseload decline that occurs after 2005 for reasons other than changes in eligibility rules.

Under a 1996 federal law, a state's required participation rate was determined by the rate listed in the law, adjusted downward by a "caseload reduction credit." The caseload reduction credit allowed for an adjustment downward by the number of percentage points by which the state's caseload fell below 1995 levels for reasons other than changing eligibility rules. Under the new rule, the benchmark year is 2005. New Mexico will no longer receive credit for lowering the caseload from those in 1995.

Also under the 1996 law, states were free to assist two-parent families in separate state programs not subject to TANF participation rate requirements. Now the rates will be calculated based on the combination of families receiving TANF assistance and families receiving assistance in state-funded separate state programs (part of the maintenance of effort requirement).

***The General Appropriation  
Act funds the Family  
Opportunity Accounts  
with a special  
appropriation of \$1.5  
million to the Office of  
Workforce Training and  
Development.***

Combining the state-funded and federally funded programs in the participation rate calculation and the elimination of the caseload reduction credit will mean that New Mexico may have to restructure the job training program or face a possible penalty of \$5 million or more.

**New Mexico's One-Stop System.** OWTD received a special appropriation of \$500 thousand for start-up and infrastructure for the one-stop service centers. New Mexico has been slow to implement the one-stop concept and only recently opened the first comprehensive one-stop site in the eastern region of the state. One-stop centers provide services with case managers well-versed in each of 16 federal programs and aspects of eligibility.

OWTD has worked with the eastern and central workforce boards to open the first of a series of one-stop centers. Some one-stop centers have effectively partnered and co-located economic development organizations, the chamber of commerce, community colleges and domestic violence shelters to provide TANF, Adult Basic Education (ABE), Workforce Investment Act, or Wagner Peysner services.

**Family Opportunity Accounts.** Chapter 96 (House Bill 112) authorizes the creation of family opportunity accounts (FOAs), which build on the individual development account concept authorized in 2004.

Family opportunity accounts are interest-bearing savings accounts that can be matched 2:1 or 3:1 up to \$2,000 with public and private sources for the purpose of purchasing of a home, starting or expanding a micro-enterprise, paying for college or vocational school tuition, or purchasing a vehicle to work. Recipients must complete a financial literacy course. The goal is to provide opportunities for low-income families to build assets and help themselves break the vicious cycle of poverty.

GAA provides OWTD with a \$1.5 million special appropriation to fund the family opportunity accounts.

In the 2006 session, the Legislature addressed several critical needs of public safety agencies, including increasing pay for state police officers, changing the state police disciplinary policy on administrative leave, and funding for prison population growth.

**Department of Public Safety.** The Legislature appropriated a total \$133.6 million to the Department of Public Safety (DPS), of which \$77 million is from the general fund. The appropriation includes \$9.7 million from the state road fund to the Motor Transportation Division (MTD).

In GAA, Section 8, the Legislature appropriated \$3.1 million to provide an average 10 percent salary increase to commissioned officers of MTD, the Special Investigation Division and the State Police Division. Chapter 110 (Senate Bill 415) includes \$2 million for salary increases for commission officers of DPS, which equates to an average 6 percent increase. (For additional details, see the section on compensation.)

Currently, statute allows state police officers to remain on paid administrative leave pending disposition of an appeal. This has resulted in state police officers receiving paid administrative leave for as long as three years while their cases progress through the legal system. Chapter 11 (House Bill 594) allows DPS to terminate state police officers prior to the employee exercising their appellate rights.

In GAA, Section 5, the Legislature appropriated \$300 thousand for processing DNA samples for felony arrests.

**New Mexico Corrections Department.** The total FY07 appropriation for the New Mexico Corrections Department (NMCD) is \$258.4 million, of which \$237.1 million is from the general fund, for an 8.5 percent increase over FY06. The appropriation includes \$33 million to provide healthcare services for inmates and \$69.9 million to pay for inmates housed in private facilities.

The appropriation should cover an average of 6,926 inmates in FY07 based on the projected inmate growth rate of 2.9 percent. Currently, the design capacity of NMCD's correctional facilities is 6,227 and the operating capacity of these facilities is 6,712. The FY07 appropriation provides for an additional 75 beds for Camino Nuevo to house low-security female inmates and 200 beds for Springer to house low-security male inmates. The Springer facility will transition from CYFD to NMCD gradually in the fall of 2006.

Chapter 82 (Senate Bill 21) addresses prison overcrowding by

Source: NMCD

amending a section of law regarding the award of earned meritorious deductions to state inmates. It increases the number of maximum earned meritorious deductions from eight to 30 days per month for non-violent offenders confined for parole revocations excluding absconding and commission of a new felony offense. It also authorizes the award of earned meritorious deductions to non-violent offenders during the first 60 days of receipt by the Corrections Department. The New Mexico Sentencing Commission estimates this will free up an additional 81 beds in correctional facilities.

The Legislature appropriated \$900 thousand to add 15 full-time probation and parole officers. Currently, the average standard caseload is 106 for probation and parole officers. Also, the Legislature passed and the governor vetoed a supplemental salary increase of 3 percent for probation and parole officers.

GAA, Section 6, includes a supplemental appropriation of \$10 million for budget shortfalls in FY06. As of January 31, 2006, NMCD was under-budgeted by 145 inmate beds.

**Homeland Security Funding.** In FY07, DPS will receive \$25 million from the federal homeland security grant through the federal Office of Domestic Preparedness. Currently, the Office of Homeland Security is not authorized under statute and legislation (House Bill 413) to create the office failed.

**Public Service Law Loan Repayment Act.** The higher education financial aid appropriation includes \$300 thousand to the public service law loan repayment program, created without funding by Laws 2005, Chapter 83. The program will provide legal education loan repayment assistance for attorneys employed in public service and earning less than \$45 thousand annually. Assistant district attorneys and public defenders are eligible.

**NM Water Uses

Source: State Engineer

In the General Appropriation Act, the Legislature increased recurring general fund support for natural resources agencies by \$3.4 million. These appropriations include funding to support the Energy, Minerals and Natural Resources Department for state park expansion and revitalization, fire prevention and remediation activities in the Healthy Forests Program, and expansion of environmental protection initiatives in the Oil and Conservation Program. The appropriations also support water compact compliance and active water resource management initiatives by the State Engineer and Interstate Stream Commission, dam rehabilitation and maintenance projects by the State Engineer and the Department of Game and Fish, and public lands remediation efforts by the State Land Office.

**Water.** Faced with continued drought projections, as well as sustained demands on the state’s limited water supply, the Legislature devoted particular attention and resources to water issues and compact compliance activities. The Legislature appropriated \$1.5 million for legal and technical contractor support to address the federal Endangered Species Act and the national Environmental Policy Act as they relate to water and state water rights; \$771.4 thousand to maintain hydrology groundwater measurement activities in support of active water resource management and drought-related measurement and conservation activities; \$1.5 million in support of joint funding agreements between the Interstate Stream Commission and federal agencies for the maintenance of areas adjacent to Elephant Butte and Caballo reservoirs and to perform water salvage activities in the Rio Grande; \$900 thousand for the water administration technical engineering resource system; and \$20 thousand to fund a drought summit in order to pursue potential drought mitigation strategies. Additionally, the Legislature appropriated \$1.5 million from the general fund to support the conversion of 34 employees in the Office of the State Engineer from term to permanent status.

Chapter 77 (House Bill 633) establishes the Pecos River Basin Land Management Fund that consists of appropriations, grants, donations or bequests to the fund, and all revenues, such as those received from grazing or other uses, to offset land maintenance costs associated with the Interstate Stream Commission’s acquisition of land with water rights, rights to the delivery of water, or the construction and management of augmentation well fields in the lower Pecos River Basin.

Chapter 41 (House Bill 683) authorizes the New Mexico Finance Authority (NMFA) to make loans or grants from the Water Project Fund to political subdivisions for eligible projects on terms and

***In support of water-related projects the Legislature appropriated \$40 million to the Water Trust Fund.***

conditions established by the Water Trust Board and the New Mexico Finance Authority.

Chapter 42 (House Bill 792) amends the Water Project Finance Act to allow NMFA to make loans or grants to qualified entities for interstate water projects that directly benefit New Mexico and would allow projects not wholly within the boundaries of the state to receive funding from the Water Project Fund, thus increasing the number of projects eligible to receive funding from the Water Trust Board. The funding for such projects may also increase the availability of funding from other sources, most notably from other states and the federal government. GAA appropriated \$40 million to the water trust fund.

**Energy.** The Legislature addressed environmental enforcement activities by appropriating \$100 thousand for information technology maintenance and equipment in the Oil Conservation Division, as well as authorizing six additional term employees in the Oil and Gas Conservation Program to be funded by \$332.8 thousand from the oil reclamation fund. To support alternative energy initiatives, \$250 thousand was appropriated for a biomass renewable energy project: the conversion of dairy cattle manure into methane.

Chapter 59 (House Bill 22) provides assurances for the plugging of abandoned oil and gas wells by adding a well-specific plugging insurance policy option to ensure wells are plugged and abandoned in compliance with the rules of the Oil Conservation Division.

Chapter 102 (House Bill 687) adopts rules that require that each mine operator prepare an emergency notification plan for its operations and establish and maintain the mine accident emergency operations center as the primary state government communications center for dealing with mine accidents. It additionally requires mine operators to notify the mine accident emergency operations center within 30 minutes of ascertaining the occurrence of an accident in or about a mine or with machinery connected to a mine.

**Public Space.** The Legislature continued its support for state parks activities throughout the state. The Cerrillos Hills and Shakespeare Ghost Town projects received a \$1 million appropriation for land acquisition, planning, and development. Additionally, a \$1.7 million appropriation made in 2004 for nonrecurring capital costs associated with expansion of existing state parks and the costs associated with new state parks was extended through FY07 and expanded to include the Cerrillos Hills and Blackwater Draw projects.

Also extended through 2007 was a \$1.8 million appropriation made in 2004 for land acquisition, planning and construction, and operational costs at Mesilla Valley Bosque State Park and a \$300 thousand appropriation made in 2005 for acquisition and planning at Shakespeare Ghost Town State Park. The Legislature also funded an

***The Legislature passed  
several bills supporting  
environmental protection  
initiatives.***

expansion of four permanent employees in the state parks program.

In response to the state's continuing drought, three additional permanent employees were funded in the Healthy Forests Program to address wildland fires, wildland/urban interface fire prevention, and fire-related forest health issues, while \$500 thousand was appropriated to the Commissioner of Public Lands for trust land remediation.

Chapter 22 (House Bill 536) provides for higher civil damages that may be recovered by the state for the unlawful wounding, killing, or possession of trophy animals as designated by the State Game Commission.

**Environment.** The Legislature passed several bills that will enhance compliance with enforcement actions of the New Mexico Department of Environment (NMED) and will generate minor additional revenues for that agency and the general fund.

Chapter 61 (House Bill 23) allows NMED to take air quality violators to district court to collect civil penalties if the violators default on a compliance order. The court could suspend or revoke permits and assess civil penalties not to exceed \$25 thousand per day for noncompliance.

Chapter 100 (House Bill 410) allows NMED to enter into voluntary fee agreements with businesses generating hazardous wastes that would include all currently required fees and potentially other revenues. This provides greater flexibility to finance cleanup operations and to increase fees to address specific needs of facilities such as the Los Alamos National Laboratory.

Chapter 60 (House Bill 438) empowers NMED to oversee mutual domestic water consumers associations and to levy civil penalties up to \$250 per day for noncompliance.

Chapter 62 (House Bill 494) creates a "brownfields cleanup revolving loan fund" composed of money from federal Environmental Protection Agency grant repayments of loans and interest. Income accruing on the balance of the fund is to be used by NMED to make secured and unsecured loans or grants from the fund to eligible participants for the purpose of financing remedial actions and other approved activities at abandoned or underused industrial, commercial, or agricultural sites or on abandoned or underused residential property. NMED reported that the agency has received a \$1 million grant that will be deposited in the new fund.

The Legislature increased by 14 percent the base operating budget of the Economic Development Department, primarily for the Film Office, the Mainstreet program, and new recurring funding for the Economic Development Partnership. More significantly, however, the Legislature appropriated more than \$125 million in nonrecurring funds for economic development initiatives, including the spaceport, a rodeo association headquarters and programming, film training and facilities, Mainstreet improvements, and incubators. In addition, the executive's commuter rail initiative moved forward.

**Commuter Rail.** GRIP legislation provided for reconstruction and improvement of the Interstate 25 (I-25) corridor from Belen to Santa Fe to accommodate public transportation elements, including commuter rail. In a joint partnership between the department and the Mid-Region Council of Governments (MRCOG), NMDOT is approaching commuter rail in two phases: Belen to Bernalillo, with an estimated completion of late spring to early summer 2006, and Bernalillo to Santa Fe, with an estimated completion date in late 2008. Track access has been negotiated with Burlington Northern Santa Fe Railroad with the state purchasing the track between Belen and Trinidad, Colorado, for \$75 million. The total cost for commuter rail is estimated to be \$393 million with Governor Richardson Investment Partnership (GRIP) funding accounting for \$318 million of this amount.

The Legislature throughout the session expressed concern over the dramatic increase in projected costs for the commuter rail project and NMDOT's failure to present a detailed business plan with an assessment of projected revenues and operational expenditures. Additional concern was expressed that these increased costs for commuter rail, while being absorbed by GRIP, might adversely impact other GRIP projects and future Statewide Transportation Improvement Program (STIP) projects. Accordingly, within the General Appropriation Act the Legislature limited the total amount of expenditures authorized for commuter rail at \$393 million.

**Spaceport.** New Mexico continues to lead several states in attracting the speculative but potentially rewarding personal spaceflight and space tourism industries. Following the announcement that Virgin Galactic would locate its headquarters in New Mexico, the Legislature passed two significant bills to finance the construction of the \$225 million Southwest Regional Spaceport in southern New Mexico.

Chapter 111 (House Bill 622) appropriates \$100 million over three years to the Spaceport Authority to plan, design, construct, furnish, and equip the spaceport. The severance tax bond appropriation is

contingent on the completion of an environmental impact statement (EIS), Federal Aviation Administration (FAA) licensure, and certification that final construction cost estimates do not exceed \$225 million.

The Regional Spaceport District Act, Chapter 15, (House Bill 473) allows municipalities to impose a regional spaceport gross receipts tax, with 75 percent of revenues dedicated for the Spaceport Authority and 25 percent for municipal spaceport related activities. The tax is subject to voter approval, and revenue estimates range from \$30 million to more than \$200 million, depending on the size of the tax increment and the number of communities in the regional spaceport district.

In related items, Chapter 14 (House Bill 89) abolished the Office of Space within the Economic Development Department (EDD) and authorized the transfer of its 3 FTE and budget of about \$260 thousand to the Spaceport Authority. The Spaceport Authority, established in the 2005 session, is an independent agency, administratively attached to EDD. Chapter 10 (House Bill 835) gives the State Investment Council (SIC) authority to invest up to \$20 million in an aerospace company pursuing a NASA contract to replace the aging space shuttle.

**Film.** New Mexico continues to pursue the development of the film and media industry in the state by heavily subsidizing film and media productions. The film production tax credit was increased to 25 percent of qualified expenditures in Chapter 78 (House Bill 358). The bill eliminated the 5 percent New Mexico filmmakers credit and reduces the 25 percent credit to 20 percent at the end of the 2008. GAA and Chapter 110 (Senate Bill 415) boost the recurring operational budget of the Film Office at EDD by 40 percent and add 2 FTE. Large nonrecurring appropriations include \$4 million in Chapter 111 (House Bill 622) for “media production, education and training facilities, programs and initiatives statewide.” Combining these programs and appropriations with the wage reimbursement available through the Job Training Incentive Program and zero-interest loans from the State Investment Council, and filming in New Mexico becomes extremely attractive to production companies. The incentives have contributed to the growth in film and media productions in the state, but a comprehensive review of the cost and benefits of these incentives has not been performed.

**Job Training Incentive Program Total Awards (FY03 - FY05)**

Source: EDD FY05 Final Quarterly Report

**Job Training Incentive Program (JTIP).** GAA appropriates \$7 million to the development training fund, from which JTIP operates. For the first time, the appropriation is contingent on JTIP adopting a “claw-back” provision. There have been instances of companies closing their operations in New Mexico after receiving state funds for training their employees. The contingency clause is designed to ensure the state has a mechanism to retrieve grants from companies that do not fulfill a specified term of operation in the state.

**Tax Increment Financing.** Chapter 75 (House Bill 462), the Tax Increment for Development Act, gives communities the ability to develop particular districts using the incremental revenues that derive from the development. If a district is formed, the district can pledge any additional revenues received over a base amount to district-specific development and infrastructure. The incremental revenues are gross receipts taxes and property taxes. This type of financing is in use in many other states with mixed results. In most states, the legislation specifically refers to blighted areas but the New Mexico legislation makes no distinction.

A district can be established in either a county or a municipality. The incremental revenue from gross receipts taxes defined in the bill is derived from the revenue associated with either the county or the municipality. In other words, if a district is approved by a municipality, the county revenues are not affected. This is not the case with property tax, which will impact municipalities and counties regardless of the body that approved the district. School districts are not included in the definition of “governing body” and so the property taxes that will go to these entities will not be affected. The district must be approved by the governing body (i.e., county or municipality) so the district should fit into their master infrastructure plans for parks, streets, etc.

*During the last two legislative sessions, 15 new judgeships have been statutorily created: 11 district judges, two metropolitan court judges, and two magistrate judges.*

In their FY07 budgets, the courts received increased funding for base budgets, additional personnel, new judgeships, and drug courts for every court. The greater of the executive or legislative base budget recommendations were adopted and, for district courts, additional funding was added. The courts will have an 8.5 percent general fund increase when all 2006 operational funding bills are considered. (See Appendix Q.)

**Drug Courts.** Drug courts received strong financial support from the Legislature both in GAA and in Chapter 110 (Senate Bill 415). GAA replaces \$1.2 million in lapsing federal and local funds with general fund dollars. New programs were funded in both the 7<sup>th</sup> and 9<sup>th</sup> districts. Although Chapter 110 (Senate Bill 415) includes funds for a new family drug court in the 4<sup>th</sup> Judicial District and expanded programs in the 2<sup>nd</sup>, 6<sup>th</sup>, and 11<sup>th</sup> districts, all district-specific funds were vetoed except \$57 thousand for the 2<sup>nd</sup> District. Some \$257 thousand in discretionary drug court expansion funds were appropriated to the Administrative Office of the Courts (AOC) in Chapter 110 (Senate Bill 415), and will be distributed based on recommendations by the Court’s Drug Court Advisory Committee. New general fund appropriations for drug courts in FY07 total \$1.8 million.

**Judgeships.** Chapter 99 (House Bill 337) creates seven new judgeships and funds associated costs for the courts, district attorneys and public defender. The new judgeships are in the 5<sup>th</sup>, 13<sup>th</sup>, 9<sup>th</sup>, 11<sup>th</sup> and 3<sup>rd</sup> judicial districts. The bill also includes a judge for the Bernalillo County Metropolitan Court. Each judgeship package includes three support staff: a bailiff, a court monitor, and a trial court administrative assistant.

**District Attorneys and Public Defender.** FY07 general fund appropriations to the district attorneys are \$48.4 million, including \$239 thousand in recurring appropriations in Chapter 110 (Senate Bill 415). Section 4 of the General Appropriation Act accounts for most of the 4.8 percent general fund increase, including \$1.3 million and 20.5 FTE in base expansion (see Appendix S). General fund appropriations to the Public Defender Department (PDD) in the General Appropriation Act increased by \$2.8 million, or 8.6 percent, to \$35.2 million for FY07. The executive vetoed \$500 thousand to increase contract attorney fees as well as language restricting the use of contract attorney fees for drug cartel case defense.

**District Court Facilities Funding Responsibility.** Despite the statutorily established responsibility for each board of county commissioners to “provide adequate quarters for the operation of the

district court, including juvenile probation services, and provide necessary utilities and maintenance service for the operation and upkeep of district court facilities” (Section 34-6-24 NMSA 1978), \$5.9 million in capital funds for district court facilities are included in Chapter 111 (House Bill 622). In many cases, the purpose of these funds is to plan, design, and construct or renovate these district facilities. Other appropriations address the furnishing or renovation of existing facilities. An additional \$1 million is appropriated for undesignated projects and may be used for district or statewide court facilities.

**Court of Appeals.** The Court of Appeals is appropriated \$1.2 million towards the planning, design, and construction of a Court of Appeals building on the UNM campus. UNM has committed a site adjacent to the university’s law school. The appropriated amount is approximately 10 percent of the estimated cost for the entire project.

**Special Appropriations.** The district attorneys and Public Defender Department (PDD) will also benefit from a \$150 thousand appropriation to the New Mexico Sentencing Commission (NMSC) to continue its mandate to conduct a comprehensive workload assessment of the adjudication portion of the criminal justice system, to include the courts, district attorneys, and PDD. The appropriation will supplement the \$200 thousand appropriated to NMSC in the 2005 session. Other special appropriations include \$250 thousand to the Administrative Office of the District Attorneys for a case management system maintenance agreement and \$250 thousand to PDD for litigation expenses related to drug cartel case defense.

The Legislature increased recurring general fund support for general government agencies by \$7.2 million or 4.8 percent.

**GSD Rates.** During the interim, the members of the Legislative Finance Committee and staff of the General Services Department indicated concerns that cash balances in state risk funds – particularly the public liability fund – were being drawn down too rapidly. The FY07 appropriations largely eliminated use of fund balance in state risk funds in FY07. State agency premiums for liability coverage would increase an average 92 percent in FY07; these premiums were heavily subsidized through appropriation of fund balance in FY06. Premiums for other risk funds would not increase on average. Contingency language requiring the implementation of the Information Technology Office’s rate recommendations was vetoed.

In the adopted FY07 budget, employee premiums for group health insurance would increase by 8 percent for participants in the Presbyterian and Cigna healthcare plans and by 5 percent for participants the Blue Cross/Blue Shield healthcare plan, reflecting to some degree the restructuring of the plans to provide incentives for preventive medicine and disincentives for expensive services. Premiums for dental, life, vision, and legal insurance would not increase.

**Taxation and Revenue Department.** The Legislature provided new funding and authorization for 13 FTE in the Audit and Compliance Division for additional revenue collection efforts. Six new auditors will focus on business tax compliance, two more will perform additional oil and gas desk audits, and five term employees will pursue additional federal royalty collections. The state anticipates an additional \$4.3 million in revenue in FY07 from these activities.

**Motor Vehicle Division.** For the second consecutive year, the Legislature invested in improvements at MVD. The executive pursued a new initiative to centralize the issuance of drivers’ licenses, titles, and registrations and improve individual tax identification number (ITIN) license compliance. The Legislature appropriated \$790 thousand in recurring funding for the project in Chapter 110 (Senate Bill 415). GAA contains \$1.5 million in nonrecurring appropriations for the purchase of new equipment and its installation in MVD offices. The bill also contains \$2 million in data processing appropriations for MVD network and software upgrades.

**Regulation and Licensing Department.** The Legislature added \$1.2 million to the Construction Industries and Manufactured Housing

*To address integrity concerns, the Legislature mandated the use of paper ballots for all statewide elections.*

Program in the Construction Industries Division budget to fund new construction inspector positions. This amount funds 17 new construction inspectors and their associated costs such as vehicles, gas and maintenance, furniture, and technology.

**Payday Loans.** Legislation for increased payday loan restrictions and licensee-oversight did not pass, despite the introduction of five bills, one in the House and four in the Senate. One bill (House Bill 409), passed the House with a 63-4 vote majority, and passed two Senate committees but was not considered on the Senate floor. This proposed law would have established interest rate caps for payday loans within three amount ranges.

**Methamphetamine Legislation.** Chapter 16 (House Bill 211) was one of several bills introduced with the intent to reduce methamphetamine production and use in New Mexico. This new law makes psuedoephedrine a controlled substance that can only be legally distributed by a licensed pharmacist, intern, or technician and limits the quantity that can be purchased. Customers buying products containing psuedoephedrine without a prescription will be required to produce a driver's license or other government-issued photo identification that indicates the individual's date of birth.

**Election Reform.** In the 2006 session, the Legislature mandated the use of paper ballots for all voting systems in all elections held statewide pursuant to Chapter 43 (Senate Bill 295). Funding for the paper ballot mandate is included in Chapter 111 (House Bill 622), where \$11 million is appropriated for the Secretary of State to purchase the 2,060 voting systems statewide necessary to meet the paper ballot mandate. These funds will be used to purchase one vote tabulator for each of the state's 1,420 precincts, 533 vote tabulators for early voting sites, 46 absentee voting systems and 61 backup vote tabulators. In addition, \$3.8 million in FY06 and \$2 million in FY07 in federal Help America Vote Act (HAVA) funds will be used to supplement the \$7.4 million it will cost to purchase 1,479 voting systems to fulfill federal mandates improving access for disabled and language minority voters. The cost of acquiring the infrastructure necessary for meeting the state mandate for paper ballot elections while still meeting the federal HAVA mandates increased from \$6 thousand per precinct to \$10 thousand per precinct.

**Special Appropriations.** GAA includes \$2.6 million in special appropriations to the Secretary of State for costs associated with the 2006 primary and general elections and for those associated with the unfunded election reform mandates authorized by Laws 2005, Chapter 270. Of these mandates, the most significant and costly is the requirement that the Secretary of State print and issue voter identification cards to voters by the 2006 general election.

# COMPENSATION, BENEFITS AND PENSION REFORM

**The Legislature appropriated funds to provide an average 16.4 percent salary increase to commissioned officers of the Department of Public Safety.**

The Legislature continues to recognize competitiveness in *total compensation* as being critical to attract and retain employees. Total compensation is inclusive of direct compensation, or pay for time worked, as well as indirect compensation, inclusive of benefits, paid leave, and retirement (all paid by the state).

All legislative, judicial, district attorney, classified, and exempt employees are provided an average salary increase of 5 percent, subject to satisfactory job performance. An additional 3 percent increase proposed by the Legislature for probation and parole officers, librarians, library assistants, and library technicians was vetoed as were additional increases proposed for livestock and meat inspectors.

Commissioned officers of the department of public safety (state police, motor transportation, and special investigation officers) will receive average salary increases totaling 16.4 percent. The General Appropriation Act provides for 10 percent and Chapter 110 (Senate Bill 415) provides for an additional 6.4 percent. These increases are to correct compaction and market competitive issues within the department.

All public education employees will receive a salary increase of 5 percent with educational assistants receiving an additional 4.5 percent salary increase to address market conditions. Higher education employees will receive an average salary increase of 4.5 percent.

**Public Employee Health Care.** Double-digit increases in health-benefit costs continue to impact public and private sector budgets. For 2006, the Segal Company is predicting cost increases of approximately 12 percent for healthcare plans and 14 percent for prescription drugs. In New Mexico, three state agencies currently administer healthcare plans for more than 135,000 state and municipal employees, teachers, and retirees. The Retiree Health Care Authority, General Services Department, and Public School Insurance Authority received a total appropriation of \$619 million for health benefits in FY07, a 10.2 percent, or \$57.3 million increase over FY06.

Including the FY07 request, the average yearly increase over five years in health expenditures for the three state agencies is 11.1 percent, slightly less than the medical and prescription drug average yearly increase of 12.5 percent calculated from Segal Company health plan cost survey data. Contributing factors to moderate growth in New Mexico's costs are higher use of low-cost generic prescription drugs, as well as medical plan changes such as co-pay increases and implementation of co-insurance in some plans.

**Educational Pension Fund Solvency.** Legislators continue to have a high level of interest in the solvency of the educational retirement fund (ERF). The 2006 session featured an attempt to provide extra funding towards ERF solvency as well as a number of bills targeted to improve ERF solvency.

Chapter 272, Laws 2005, (Senate Bill 181) will improve the actuarial solvency of ERF by increasing employer and employee contributions to the fund. The employer contribution will increase by 5.25 percent over seven years (a 0.75 percent increase per year) which will take the employer contribution from 8.65 percent in FY05 to 13.9 percent in FY12. The employee contribution will increase 0.075 percent per year for four years, which will take it from 7.6 percent in FY05 to 7.9 percent by FY09. The estimated recurring cost of the employer contributions over seven years is approximately \$150 million.

Progress towards improving the actuarial solvency of ERF can be measured by two major actuarial benchmarks: the funding ratio and the amortization period of the unfunded actuarial liability. On June 30, 2005, the educational retirement fund funded ratio (assets as a percentage of liabilities) was 70.4 percent, down from 91 percent in 2001. Generally, a funded ratio of at least 80 percent is considered satisfactory. The Governmental Accounting Standards Board (GASB) standard for the amortization period for the unfunded actuarial liability is 30 years. On June 30, 2005, ERB's funding period was infinity. Assuming the actuarial and demographic assumptions hold, including investment return of 8 percent on pension assets, the contribution increases implemented by 2005 legislation will bring the educational retirement fund within the 30 year GASB standard by FY11. The fund will meet the 80 percent target for funded ratio in FY19.

GAA included an extra \$19.3 million (\$13.6 million for public schools and \$5.7 million for higher education) to double the employer contribution increase planned for FY07. Doubling the contribution increase in FY07 would have eliminated the need for a contribution increase in a future year when the state could have less funding available than this year. In addition, the extra funding would help ERF reach solvency targets one year earlier: the GASB 30 year standard would be met by FY10 and the 80 percent funding ratio benchmark would be met by FY18. However, the governor vetoed this extra funding.

**Educational Retirement Fund: Projection of Unfunded Actuarial Liability (millions)**

Source: ERB

Actuarial Benchmark	FY 2005 Actuarial Study December 2005	Actuarial Impact of GAA Funding for 1.50% FY07 Employer Increase
Reach 80% Funded Ratio	FY 2019	FY 2018
Meet GASB Standard: Amortize unfunded actuarial liability within 30 years	FY 2011	FY 2010

Two other bills that specifically sought to improve ERF solvency were Senate Bill 541 to increase educational employee contributions to the ERF and Senate Bill 206 to adjust educational retirement eligibility for future employees from the current rule of 75 (age plus years of service) to a rule of 80. Both of these bills died in committee. In addition, House Bill 100 and House Bill 300 sought to restrict the retiree return-to-work programs for educational as well as state and municipal employees. These bills also died in committee.

# INVESTMENTS IN INFRASTRUCTURE

**House Bill 622  
by Funding Source  
Total: \$718.1 million**

- Severance Tax Bond Proceeds (STB)
- General Fund (GF)
- Other State Funds\*

\*Other state funds include the Miners' Trust Fund, State Road Fund, and Educational Retirement Funds.

Source: LFC Files

High oil and gas prices provided for record levels in severance tax bond capacity, general obligation bond capacity, and the general fund resulting in more capital funding for New Mexico's infrastructure needs. The Legislature adopted, and the governor signed, two major capital outlay bills authorizing nearly \$852 million for infrastructure projects statewide.

## Severance Tax Bond, General Fund and Other Funds Bill.

Chapter 111 (House Bill 622) authorizes \$718.1 million for 3,040 projects that will have a significant impact on the state's economy and the public health and safety of the state's citizens. The authorized expenditures in the bill include \$215.8 million from severance tax bond proceeds (STB); \$487.7 million from the general fund (GF); \$9 million from the appropriation contingency fund (ACF) for the Pecos River Compact settlement (contingent on at least 95 percent of existing appropriations to implement settlement being expended or encumbered by end of FY07) and \$5.6 million from other state funds (Miners' trust fund, state road fund, and educational retirement funds).

**Capital Bill (HB 622)  
Line Item Vetoes  
(dollars in millions)**

- House GF
- House STB
- Senate GF
- Senate STB
- Governor GF

Source: LFC Files

**Capital Outlay by Category**

Following the passage of both the General Appropriation Act and Chapter 110 (Senate Bill 415), \$410.9 million remained available for one-time capital outlay expenditures, while still leaving the reserve levels at 10 percent. The House and Senate together expended \$192.7 million from the general fund balances, while the governor expended \$335.9 million, thus dropping the reserve levels to approximately 7.3 percent. Further, the House authorized "contingent" appropriations to the Indian water rights settlement fund totaling \$75 million, which may have potentially dropped the reserve levels to below 6 percent if the proposed contingencies were met.

Citing the need to raise the reserve levels, the governor vetoed 812 projects totaling approximately \$127.4 million from the capital bill. The vetoed items total \$117.3 million, which includes the \$75 million in contingencies, from the general fund and approximately \$10.1 million from STB capacity. It should be noted that vetoed projects authorized from severance tax bond capacity do not impact the general

**H/S/G Vetoes  
(dollars in millions)**

Source: LFC Files

fund reserve levels. Of the 112 legislators, only two House members were spared from the governor’s veto pen. The governor vetoed 10 of his own projects totaling \$2.1 million.

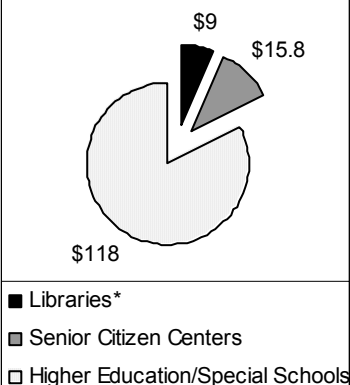

According to Executive Message 140, the vetoes targeted those projects the governor indicated were “local community responsibilities, those that lacked full funding or sound planning or those that conflicted with strategic priorities.” The majority of the vetoed projects in Bernalillo, Chaves, Lincoln, Otero, Roosevelt, San Juan, San Miguel, Sandoval and Valencia counties were for public school educational technology, books, and athletic fields; higher education facilities and equipment; and public facility renovations. Curry County lost funding to purchase an ambulance, while Dona Ana County lost funding for several public safety vehicles.

	Legislative			Governor		State	Other State	Veto	Total
	House	Senate	Statewide*	Local	Statewide	Agencies	Funds	Amounts	
General Fund	92.3	92.4	18.3	118.3	155.7	62.0	-	(42.3)	<b>496.6</b>
Severance Tax Bond	75.7	75.6	-	31.6	43.0	-	-	(10.0)	<b>215.8</b>
Other Funds	-	-	0.1	-	-	-	5.5	-	<b>5.6</b>
<b>Subtotal</b>	<b>168.0</b>	<b>168.0</b>	<b>18.4</b>	<b>149.9</b>	<b>198.7</b>	<b>62.0</b>	<b>5.5</b>	<b>(52.4)</b>	<b>718.1</b>

\* General Fund includes \$9 million for Pecos Settlement

Of the \$718.1 million authorized in the capital bill, 107 projects with a dollar value of \$1 million or more totaling \$379 million were authorized by the governor and the Legislature for capital expenditures (Appendix V). These large amounts suggest a greater prospect that the projects will be completed in a timely manner.

**General Obligation  
Bond Funding and  
Project Type  
Total: \$142.8 million**

\*Public libraries, higher education libraries, and public school libraries.  
Source: LFC Files

Chapter 111 (House Bill 622) contains significant appropriations for operating and capital outlay costs related to economic development, including \$4.6 million for business incubators and other economic development facilities, \$300 thousand for a feasibility study for a National Football League franchise in New Mexico, \$18 million for rodeo facilities to establish a Professional Rodeo Cowboys Association Headquarters and Rodeo Hall of Fame in New Mexico, \$5 million for infrastructure for Cannon Air Force Base pending a new mission, \$5 million for tribal water projects, \$5 million for infrastructure improvements in *colonias*, \$1 million for locomotive upgrades and repairs for the Cumbres and Toltec Scenic Railroad, and \$4 million for film production facilities and programs.

**General Obligation Bond Bill.** Chapter 108 (Senate Bill 301) authorizes the sale of general obligation bonds totaling approximately \$142.8 million. Issuance of general obligation bonds requires approval by the electorate in the November 2006 general election. The three bond issues are \$15.8 million for senior citizen center

infrastructure and equipment statewide; \$9 million for libraries statewide (public libraries, public school libraries and academic libraries); and \$118 million for higher education and special school infrastructure and renovations.

**New Mexico Finance Authority Significant Issues**. The Legislature passed significant capital outlay legislation impacting NMFA.

Chapter 67 (House Bill 197) clarifies the purpose for which certain revenue bond proceeds authorized by the Legislature in 2005 may be used by the Department of Health (DOH) for its facilities. During the interim it was determined by the Board of Finance, based on advice by the Attorney General, that the provisions passed in 2005 were too narrowly defined to allow the bonds to be used for DOH purposes.

Chapter 63 (House Bill 233) authorizes NMFA to make loans from the public project revolving loan fund (PPRF) to 140 qualified entities for infrastructure projects statewide. Legislative authority is void if a qualified entity does not notify NMFA by the end of FY09 of its desire to pursue a loan from the fund.

Chapter 69 (House Bill 275) authorizes NMFA to provide financial assistance from the economic development revolving fund to qualified entities for 44 projects, subject to detailed analysis and final approval based on specific terms and conditions set by NMFA. The fund was capitalized with a \$10 million appropriation in 2005 for the “Smart Money” loan participation program. NMFA indicates the funds will attract an estimated \$31 million from private lenders and an estimated \$30 million in private equity and the funds are projected to generate over 1,800 direct and indirect jobs and \$656 million in new wage income over the next 10 years.

Chapter 64 (House Bill 277) amends the Statewide Economic Development Finance Act to authorize NMFA to form, operate, own or co-own one or more nonprofit or for-profit qualified community development entities for the purpose of participation in the federal New Markets Tax Credit Program. The authorization allows NMFA to apply for and obtain one or more allocations of new markets tax credits, market and sell qualified equity investments, make qualified low-income community investments, and take all actions necessary or convenient to carry out the purposes of the qualified community development entity or to participate in the federal New Markets Tax Credit Program. According to NMFA, a successful application to the New Markets Tax Credit Program will generate a flow of private investment capital into New Mexico. The program is suited to private business financing for business facility development mezzanine finance structures, and commercial real-estate development, such as redevelopment of blighted commercial districts, and has been used to finance construction of charter schools throughout the nation.

Chapter 65 (House Bill 290) provides authority for NMFA to make loans for projects not exceeding \$1 million without specific authorization by the Legislature. According to NMFA, this provision will streamline the current two-step approval process that results in NMFA providing interim financing for such projects and then adjusting interest rates when the projects is given final approval following the legislative authorization. The proposed changes were not recommended by the New Mexico Finance Authority Oversight Committee. The amendments reduce direct legislative involvement and accountability in the small loan approval process. Other provisions change the title of the “executive director” of NMFA to “chief executive officer”: expand “qualified entities” to include nonprofit foundations and other support organizations affiliated with a public university, college, or other higher education institution; extend the sunset provision providing legislative authorization for “urgent” economic development projects from 2006 to 2009; and allow for money in PPRF to capitalize other programs authorized by law such as the Energy Efficiency Bonding Act and State Building Bonding Act bonds.

Chapter 41 (House Bill 683) authorizes NMFA to make loans or grants from the water project fund to 30 political subdivisions for certain water projects.

**New Mexico Mortgage Finance Authority (MFA) Significant Issues.** The General Appropriation Act appropriates \$750 thousand to the Income Support Division of the Human Services Department for homeless programs administered by MFA and appropriates \$800 thousand to expand the weatherization assistance program for low-income homes statewide.

House Joint Resolution 8, a proposed constitutional amendment, would allow the state and local governments to provide or pay for the cost of land, buildings, or necessary financing for affordable housing projects.

Chapter 111 (House Bill 622) appropriates \$1 million for disbursement by MFA pursuant to the Affordable Housing Act for infrastructure projects, including land and buildings, and appropriates \$625 thousand to renovate, expand, and improve infrastructure for low-income rental housing to be managed by the Albuquerque Mental Health Housing Coalition.

**Transportation.** The Legislature approved a budget of \$806.4 million for the Department of Transportation, of which \$15.2 million was earmarked for a 100 percent state funded construction program. The state road fund’s unrestricted revenues for FY07 are forecast at \$13.5 million, or 3.7 percent.

The implementation of the \$1.6 billion GRIP reconstruction and

**GRIP Program Plan Expenditures**

Based on 1st bond issuance of \$737 million.

Source: NMFA and NMDOT

improvement program of almost 1,000 miles of highway continues with \$325 million in projects being awarded and an additional \$14 million being obligated for engineering, design, and right-of-way. The programmed projects for GRIP extend from federal fiscal year 2004 to federal fiscal year 2009. In FY07 the department will spend \$154.5 million on debt service.

The Legislature failed to pass an initiative of the governor that would have established a GRIP II program with severance tax bond funding for local and tribal governments. Following the passage of House Bill 622, no additional bonding capacity was available for the program. The proposal sought bonding authority for \$50 million per year for 5 years. The first year would have used \$25 million for transportation infrastructure improvements for the approved spaceport project. The other projects outlined were developed by the NMDOT in concert with the regional transportation districts and represented an effort to prioritize statewide needs.

Legislative appropriations through the computer systems enhancement fund total \$11.7 million, \$11 million from the general fund and \$750 thousand from other state funds. Included in these appropriations were mission-critical projects at the Taxation and Revenue Department and the governor's initiative of \$4.8 million for Wire New Mexico. Contingency language requires all information technology (IT) projects, including non-system replacement or enhancement, to follow the information technology commission certification process and use the Wire New Mexico infrastructure.

The governor vetoed projects totaling \$4.9 million, including a university enterprise system that would have reduced annual software licensing fees to universities and created standardization; the New Mexico law enforcement telecommunications system that allows all law enforcement agencies to communicate with each other and access state and national criminal information; and planning for a consolidated museum and gallery management system.

Section 5 of the General Appropriation Act has special appropriations of \$5.9 million for non-system development or enhancement projects including \$2.5 million for a computer-based mathematics instruction program, third-year membership fees to Lambda Rail, high-speed university telecommunications consortium infrastructure, and \$750 thousand for telehealth equipment. Language requiring the use of available infrastructure for telehealth was included in the appropriation in order to take advantage of the state's consolidation effort, but was vetoed.

## BUDGET ADJUSTMENT REQUESTS

### **Agencies with Other Financing Uses Transfer Authority in FY06**

*District Attorneys, Administrative Office of District Attorneys, State Investment Council, Educational Retirement Board, Public Employees Retirement Association, Energy Minerals and Natural Resources, Health, Public Safety, and Higher Education.*

### **Agencies with Program Transfer Authority in FY06**

*Economic Development, Labor, Corrections, Public Safety, and Transportation*

### **Agencies with Several Unauthorized Government Exempt Postions**

*Attorney General, State Fair, Cultural Affairs, Labor, Health, Children, Youth, and Families, Transportation.*

**Review of FY07 BAR Authority.** In FY07 agencies have category budget transfer authority to move funds among personal services and employee benefits, contractual services, and other categories. Because of concerns in prior years that agency transfers into other financing uses were being used to transfer funds to other agencies in possible violation of appropriation law, the Legislature continues to restrict transfer authority in and out of other financing uses. For FY07, only the agencies listed in the sidebar have specific authority to move funds in and out of other financing uses.

The Legislature also clarified the ambiguity surrounding the 5 percent budget increase language, specifying agencies are authorized to increase budgets up to 5 percent of internal service funds/interagency transfers or other state funds appropriation *by program* contained in Section 4 of the General Appropriation Act, as opposed to the full internal service funds/interagency transfers or other state funds appropriation. Transfer authority between programs has been very limited and agencies with this authority are listed in the sidebar.

**Transfers into Personal Services and Employee Benefits.** As of the October 24, 2005, Table of Organizational Listing, the State Personnel Office has identified 734 unauthorized FTE in 47 state agencies. Sixty-three of these unauthorized FTE are "GovEx" employees, governor-appointed exempt employees, spread across 24 agencies. The agencies with the highest number of "GovEx" unauthorized employees are the Office of the Attorney General and Health and Transportation departments, each with five, and the Cultural Affairs Department, with seven. Over the past year, LFC has become increasingly concerned that state agencies are using budget adjustment requests to circumvent the appropriation process and transfer appropriations from direct services funding to personal services and employee benefits to accommodate these FTE. This subject was discussed during the 2006 session during appropriation hearings as well as extensively in the media. LFC will continue to examine this issue during the interim.

(1) Totals may not add due to independent rounding.

(2) FY06 Non-recurring includes -\$106.2 million for PIT rebates and -\$1.2 million to exempt rebates from state taxes. This was previously reported as recurring.

(3) FY06 Non-recurring revenue is reduced by a \$40 million estimate for refunds associated with the Kmart Supreme Court case.

## APPENDIX D: ECONOMIC INDICATORS

	<b>FY2005</b>	<b>FY2006</b>	<b>FY2007</b>	<b>FY2008</b>
	<b><u>Actual</u></b>	<b><u>Jan. 2006</u></b>	<b><u>Jan. 2006</u></b>	<b><u>Jan. 2006</u></b>
		<b><u>Estimate</u></b>	<b><u>Estimate</u></b>	<b><u>Estimate</u></b>
<b><i>NATIONAL ECONOMIC INDICATORS</i></b>				
US Real GDP Growth (% , SAAR)	3.6	3.6	2.8	2.9
US Inflation Rate (CPI, %, SAAR)*	2.9	3.0	1.8	2.0
Overnight Yield (%)**	2.2	4.2	4.8	4.8
<b><i>LABOR MARKET AND INCOME DATA</i></b>				
NM Non-Agricultural Employment Growth (%)	2.0	2.1	2.4	1.7
NM Personal Income Growth (%)***	6.4	6.9	6.0	5.5
NM Wage & Salary Growth (%)				
NM Private Wages & Salaries Growth (%)	7.8	6.7	5.5	5.1
<b><i>CRUDE OIL AND NATURAL GAS OUTLOOK</i></b>				
Oil Price (\$/barrel) Gross Sales Value	\$44.00	\$58.00	\$55.00	\$53.00
Taxable Oil Sales (million barrels)	63.5	62.0	60.8	59.5
Gas Price (\$ per thousand cubic feet) Gross Value	\$5.80	\$7.50	\$6.10	\$5.80
Taxable Gas Sales (billion cubic feet)	1,550	1,527	1,504	1,481

\*CPI is all Urban.

\*\*Overnight Yield = Federal Funds Rate

\*\*\*Personal Income growth rates are for calendar years.

**APPENDIX F: GENERAL APPROPRIATION ACT VETOS**

Code	Agency	General Fund	OSF/ISIA/FF	Language Only	Veto Description
	General Provisions			X	Language requiring agencies to meet certain criteria in order to budget federal funds in FY07
	General Provisions			X	Language limiting the maximum number of FTE as specified in the GAA or other acts of the second session of the 47th legislature
333	Taxation and Revenue Department			X	Language requiring LFC review of TRD reorganization plan
341	Department of Finance & Administration	(60.0)			For a forum on regional planning issues in the Espanola basin
341	Department of Finance & Administration			X	Language requiring LFC review of transfer from general fund operating reserve to BOF emergency fund for critical emergencies
350	General Services Department			X	IT program appropriations contingent upon implementation of recommendations of the rate study of the CIO
355	Public Defender Department	(500.0)			Increase fees for contract attorneys
355	Public Defender Department			X	Language stating that general funds and other state funds shall not be used to increase expenditures related to drug cartel case defense
508	NM Livestock Board	(373.2)	(227.6)		Salary increases for livestock and meat inspectors
550	State Engineer			X	Language making appropriation in contractual services category contingent upon report to LFC on contractor's purposes and performance compliance
624	Aging and Long-Term Services Dept	(75.0)			For project management and operating expenses of the existing 2-1-1 information and referral system and expansion into new areas
630	Human Services Department	(312.5)			To match with federal funds to maximize the graduate medical education and indirect medical education payments through medicaid
630	Human Services Department			X	Language requiring HSD to authorize 8,000 participants in the state coverage insurance program administered by UNM Hospital
630	Human Services Department				Language reducing appropriation to medical assistance division if a bill passes that repeals the nursing home bed tax
630	Human Services Department	(1,000.0)			\$750.0 for medicaid obstetrician rate increases and \$250.0 for medicaid behavior health provider increases
630	Human Services Department			X	Language requiring HSD to provide DFA and LFC with quarterly reports on TANF expenditures and MOE expenditures
665	Department of Health	(300.0)			To review and monitor a public health and social service delivery program for low-income and indigent residents in Bernalillo county
665	Department of Health			X	Veto on the word "additional" funds for regional emergency medical services programs
665	Department of Health	(1,750.0)			\$250.0 to provide a rate increase for non-medicaid mental health service providers and \$1,500.0 for inpatient assessment and treatment of individuals who are under protective custody or 30 day involuntary civil commitment
665	Department of Health			X	Language requiring LFC review of disbursement of \$2 million approp contingency funding and plan for behavioral health services program that enhances direct mental health and substance abuse treatment and prevention services in schools
665	Department of Health			X	Language requiring DD services for 250 additional clients over the average number served per month for fiscal year 2006
665	Department of Health	(1,000.0)			Rate increase for developmental disabilities medicaid waiver providers
665	Department of Health				\$5 million from the appropriation contingency fund for additional developmental disabilities medicaid waiver services in local communities to move clients off the waiting lists
665	Department of Health			X	Language requiring DOH to provide DFA and LFC with quarterly reports on the expenditures of the trauma services funds matched with federal medicaid funds
690	Children, Youth and Families Department			X	Language requiring quarterly report to LFC regarding outcomes of home visiting program
690	Children, Youth and Families Department		(50.0)		Federal funds to continue disproportional minority students by the juvenile justice advisory committee
690	Children, Youth and Families Department			X	Language requiring CYFD and PED to provide LESC and LFC with quarterly reports on implementation of pre-kindergarten program
924	Public Education Department	(13,555.0)			Accelerated ERB contribution
924	Public Education Department			X	Language requiring PED to contract with a nonprofit organization
924	Public Education Department				Language requiring CYFD and PED to provide LESC and LFC with quarterly reports on implementation of pre-kindergarten program
950	Higher Education Department	(5,708.1)			Accelerated ERB contribution
950	Higher Education Department			X	Language requiring HED to report to PED, DFA, LFC and Governor on performance data for recruitment, enrollment retention and graduation rates for Native American and Hispanic students

**APPENDIX F: GENERAL APPROPRIATION ACT VETOES**

Code	Agency	General Fund	OSF/ISIA/FF	Language Only	Veto Description
964	Northern New Mexico College	(250.0)			Faculty salary adjustments
966	Santa Fe Community College			X	Language requiring LFC to review certification that mill levy revenues are inadequate to meet workload funding requirements
	<b>TOTAL SECTION 4</b>	<b>(24,883.8)</b>	<b>(277.6)</b>		
111	Legislative Council Service	(120.0)			Study examining universal health coverage for all New Mexicans
305	Attorney General		(100.0)		Terminal leave costs
350	General Services Department			X	Veto on incorrect citation portion of reauthorization
418	Tourism Department	(100.0)			Marketing study in the NM Magazine program to expand magazine readership
418	Tourism Department			X	Language requiring report to LFC on results of collaboration with state parks division to maximize statewide advertising efforts
418	Tourism Department			X	Language requiring report to LFC on results of collaboration with cultural affairs to maximize statewide advertising efforts
449	Board of Nursing		(20.0)		For a task force to evaluate the licensing of military hospital corpsmen as nurses in New Mexico
550	State Engineer			X	Language making appropriation contingent upon the state engineer collaborating with LFC to conduct an information technology audit of water administration technical engineering resource system
665	Department of Health			X	Language making appropriation contingent upon DOH submitting a business plan to LFC and IT commission for telehealth services and telecommunication infrastructure
705	Department of Military Affairs	(100.0)			For a national guard convention
924	Public Education Department	(2,000.0)			For continued implementation of a computerized learning system
924	Public Education Department			X	Language requiring PED to report quarterly to LESC and LFC regarding program expenditures and outcomes for school improvement framework
924	Public Education Department	(6,300.0)			For the transition to the three-tiered licensure system
924	Public Education Department	(2,000.0)			For transfer to the state support reserve fund
924	Public Education Department			X	Language earmarking appropriation for school library fund from the "lockbox"
924	Public Education Department			X	Language requiring PED to provide a report to LESC on the teacher development fund
950	Higher Education Department	(60,000.0)			One-time supplement for infrastructure improvements of institutions based on facilities condition index
950	<b>Higher Education Department</b>				<b>Faculty endowment fund - vetoed language related to failed contingency (LFC books first action - failed contingency rather than veto action)</b>
952	University of New Mexico	(100.0)			For the center for regional studies

Change from FY06 (b)	\$58,815.6	\$52,753.4
<b>Grand Total Higher Education</b>	<b>\$765,255.7</b>	<b>\$759,193.5</b>

(a) Excludes GAA Section 11 (c) reductions.

(b) The DFA and LFC FY06 general fund operating budgets differed by \$1,273 thousand.

On December 20, 2005 DFA reclassified \$1,249.3 for NMIMT special projects and \$23.8 for NMDA specialty crops from nonrecurring appropriations to recurring appropriations in FY06 originally funded in Laws 2005, Chapter 34 (Senate Bill 190). LFC FY06 operating budget was based on information provided by DFA on November 7, 2005 and therefore did not include these projects as recurring appropriations.

(a) Excludes GAA Section 11 (c) reductions.

(b) The DFA and LFC FY06 general fund operating budgets differed by \$1,273 thousand.

On December 20, 2005 DFA reclassified \$1,249.3 for NMIMT special projects and \$23.8 for NMDA specialty crops from nonrecurring appropriations to recurring appropriations in FY06 originally funded in Laws 2005, Chapter 34 (Senate Bill 190). LFC FY06 operating budget was based on information provided by DFA on November 7, 2005 and therefore did not include these projects as recurring appropriations.

Senate Bill 415 as amended by HAFC includes:  
 2nd DA: \$75 for DWI prosecution;  
 5th DA: \$50 for meth drug education program;  
 6th DA: \$50 for a domestic violence victim advocate;  
 8th DA: \$19.5 for the Taos County Family Justice Center; and  
 9th DA: \$45 for the Newman project, a senior citizens safety program.

House Adopted Action is based on adoption of the higher (LFC or Executive) base recommendations and recommended expansion including:  
 1st DA: \$187.7 (4 FTE) for a child abuse prosecutor, and to fund First Lady's initiatives for domestic violence;  
 2nd DA: \$143.1 (1.5 FTE) for the prosecution of crimes against children;  
 5th DA: \$233.5 (3 FTE) for a victim advocate coordinator, senior trial attorney and a secretary;  
 6th DA: \$71.3 (2 FTE) for additional domestic violence victim advocates (a First Lady's initiative);  
 7th DA: \$103.5 (2 FTE) for a secretary and financial specialist;  
 9th DA: \$117 for personal services and employee benefits;  
 10th DA: \$74.4 (1 FTE) for a Sr. trial attorney;  
 11th (San Juan) DA: \$71 (1 FTE) for a deputy DA to prosecute drug crimes;  
 11th (McKinley) DA: \$54.4 (1 FTE) for a victim advocate;  
 12th DA: \$79.1 (1 FTE) for an attorney in Lincoln County;  
 13th DA: \$140 (4 FTE) for an advocate/investigator for the First Lady's initiatives for domestic violence, and additional administrative staff; and  
**AODA: \$239 thousand for necessary IT upgrades.**  
**TOTAL: \$1.3 million (20.5 FTE) expansion.**
