

### LFC Solvency Framework for June 2020 Special Session

- 1. Summary Narrative (1-2)
- 2. Overall Framework (3-4)
- 3. Section 4 High Level (5)
- 4. Other Spending Changes (6)
- 5. General Fund Agency Detail (7-10)
- 6. Specials & Information Technology (11-17)
- 7. Sweeps List (18)
- 8. Public Schools & Higher Education (19-30)
- 9. Revenue Estimate June (31-37)
- 10. Federal Funds (38-40)
- 11. FTE Counts & Vacancy Rates (41)
- 12. Pay and Insurance Costs (42)
- 13. PERA Solvency (43)
- 14. Road Fund Framework (44-45)
- 15. GFFS for Framework (46-48)
- 16. Local Government CARES Act State/Local Relief Fund distribution options (49-53)
- 17. Capital Outlay Voids Framework (54-61)
- 18. NMFA Transfers Framework (62)
- 19. Executive Capital Outlay Swaps List (Informational Only) (63-67)
- 20. Draft Solvency Bills (Separate Handout)

### **Special Session Update**

June 10, 2020

#### **General Fund Revenue Outlook**

- On June 10, state economists reported a revised general fund revenue estimate for FY20 through FY22. Compared to the April update, the forecast is close to the mid-point of the April range.
- The baseline revenue estimate is a "U shaped" recovery scenario with a deep initial decline and significant economic recovery by year-end. A pessimistic scenario has an "L-shaped" recovery with greater job losses and slower recovery.
- The FY21 New Mexico oil price outlook is \$31/bbl; FY21 oil production is predicted at 255 million barrels down 28 percent; FY21 job losses in the L shaped scenario are 9 percent with 14 percent unemployment.
- The state was pretty well positioned to withstand severe economic and fiscal stress with expected FY20 general fund reserves at 26.7 percent. However, in hindsight, 7.5 percent general fund appropriations growth for FY21 was excessive.
- FY20 general fund revenue is expected to fall about \$375 million below forecast. FY21 general fund revenue is expected to fall \$1.98 billion below the December forecast.

### **Solvency Measures**

- Given time and health constraints, the LFC staff framework for a special session in June focuses on simple, straight forward, moderately austere options for FY20 and FY21. These include:
  - o Drawing reserves to 12 percent ending FY21;
  - o Cutting a portion of 2020 special appropriations;
  - o Switching some general fund capital appropriations including transportation to debt financing;
  - o Paring back or eliminating new general fund initiatives that are likely not sustainable in FY22;
  - o Reducing the 4 percent across the board pay increase by 3 to 4 percent, perhaps leaving enough to cover higher benefit costs and maintain take home pay;
  - o Sanding most FY21 general fund appropriations 2 to 4 percent with the smaller reduction for schools, health and Medicaid; and
  - o Using Federal Funds, especially the \$1.25 billion stimulus fund, to temporarily reduce general fund spending.
- This approach will achieve general fund FY21 recurring savings of approximately 5 percent.
- The framework assumes passage of Federal legislation or regulatory changes to provide flexible use of \$1.25 billion stimulus funding; contingent language could allow use of more general fund reserves if this doesn't materialize.
- Significant non-recurring options remain available for FY22, notably capital outlay voids or swaps and use of the early childhood trust fund.

•	The Executive and Legislature will use the July to December period to develop additional recurring and non-recurring spending and revenue options needed for consideration at the 2021 Legislative Session.

Footnotes

School Year 2020-20	21 Preliminary Unit Value = \$4,758.10
School Year 2019-20	20 Final Unit Value = \$4 602 27

FY20 OpBud	FY21 OpBud	Legis. Staff Scenario
------------	------------	--------------------------

- 1 Contingent on enactment of legislation.
  2 Includes \$3.8 million in unit losses from Laws 2019, Chapters 206 and 207 (SB1 and HB5) and \$6.4 million from 45% of projected unit losses from declining membership.
- Language authorizing K-5 Plus funds for ELTP and providing flexibility for programs in FY21.

   Language requiring an average 0.5% salary increase for staff above a \$40 thousand salary and average 1.5% increase for staff below a \$40 thousand salary.
- 5 Includes appropriations from the public school capital outlay fund (PSCOF).
- 6 Includes appropriations from the educator licensure fund.
- 7 Includes \$50 thousand from Laws 2019, Chapter 278 (SB 536), and \$200 thousand from Laws 2019, Chapter 279 (HB 548).
- 8 Includes \$200 thousand for GRADS and \$3.5 million for prekindergarten from TANF.
- 9 Does not include the Section 8 appropriation for a salary increase for PED personnel or federal CARES Act ESSER set-aside.
- 10 Includes appropriations from the public education reform fund (PERF).
- 11 Includes language transferring \$1 million to the Indian Affairs Department for bilingual education and curriculum development for Native American English language learners.

#### LFC Framework: FY21 Public Education Section 5, 6, and 7 Appropriations

The staff recommendation reduces large appropriations in nonrecurring sections (e.g., special and supplemental appropriations) throughout the bill, including appropriations from the public education reform fund, which could be used to offset cuts to public schools in FY22 and subsequent years. The recommendation further applies reductions to appropriations with duplicative or related appropriations.

The overall public education recommendation prioritizes appropriations that address distance learning and key findings in the *Martinez-Yazzie* lawsuit court case (e.g. at-risk increases, extended learning time, K-5 Plus) and limits expansion of new, small initiatives, which the court found could divert resources away from evidence-based programs. The following list illustrates adjustments and considerations for nonrecurring, public education-related appropriation reductions:

Statewide Special Education Convening		OpBud	Scenario	FY21 Adjustment
		\$750.0		New appropriation (Relates to lines 3, 64, 67, 68)
Career Technical Education Fund	\$2,000.0	\$2,000.0	\$2,000.0	Flat with FY20 expenditure level (Lines 77, 85)
Educator Evaluation System	\$1,000.0	\$1,000.0	\$1,000.0	Statutorily required (Line 69)
Standards Based Assessment R&D	\$2,000.0			
Sufficiency Lawsuit Fees	\$1,250.0	\$750.0	\$750.0	<\$1 million, Ongoing legal costs related to the Martinez-Yazzie education lawsuit
Emergency Supplemental	\$1,000.0			
Dual-Credit Instructional Materials	\$500.0			
Cyber Security and Data Systems		\$500.0	\$500.0	<\$1 million, Prioritized, given transitions to online learning (Line 36)
Instructional Materials	\$26,500.0	\$4,500.0		SEG appropriation sufficient for expenditure levels (Lines 16, 36)
Teacher Residency Pilot	\$1,000.0	\$2,000.0	\$1,000.0	Flat with FY20 expenditure level, partially covers HB92 (Line 68)
Statewide Real-Time Data Management System		\$1,144.6	\$1,144.6	Prioritized, given need for streamlined accountability
Grants Management System		\$1,558.4	\$1,558.4	Prioritized, given need for streamlined accountability
Educator Preparation Program Integrated Data Exchange System		\$254.3	\$254.3	<\$1 million, Prioritized, given need for streamlined accountability
Culturally and Linguistically Diverse Instructional Material and Curriculum Development		\$9,000.0	\$1,000.0	New appropriation, costs for development centers overestimated (Lines 3, 16, 22, 36, 55, 64)
Early Literacy Summer PD		\$875.0	\$875.0	<\$1 million (Lines 19, 66)
Teacher Placement and Support in Hard-to-Staff Areas		\$1,000.0		New appropriation (Lines 3, 17, 36, 68)
Summer Extended Learning for Native American Students and Small Schools		\$5,000.0		SEG appropriation sufficient for expenditure levels (Lines 3, 10, 11, 22, 36, 55, 64)
K-12 Plus Pilot and K-5 Plus Transition		\$30,000.0		Base SEG appropriation sufficient for expenditure levels (Lines 3, 11, 36)
School Improvement Grants		\$2,933.1		New appropriation (Line 36)
National Board Certification Grants		\$500.0	\$500.0	<\$1 million, Covers HB102 (Line 68)
School Panic Buttons		\$1,595.0	\$1,595.0	Prioritized, related to student safety (Line 3)
Biliteracy Framework Study		\$100.0	\$100.0	<\$1 million (Line 65)
Grow Your Own Teachers Act		\$500.0	\$500.0	<\$1 million (Line 68)
School Budget Transparency Website		\$6,000.0	\$3,000.0	Duplicative appropriation for SB96 (\$3 million appropriation not stripped from SB96)
Facilities and Maintenance (PSCOF)		\$18,867.0	\$18,867.0	USDE Impact Aid ruling will redistribute \$67 million of SEG payments to Impact Aid districts (Line 22)
TOTAL	\$35,250.0	\$90,827.4	\$34,544.3	

#### **CARES Act – K-12 Funding**

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) allotted \$207.6 million to New Mexico through the Education Stabilization Fund (ESF). ESF helps entities continue paying employees and contractors during disruptions or closures related to coronavirus and provides three education funds for states as follows.

New Mexico Education Stabilization Funds (in millions)	Amount
Governor's Emergency Education Relief Fund	\$ 22.3
Elementary and Secondary School Emergency Relief Fund	\$ 108.6
Higher Education Emergency Relief Fund	\$ 76.8
Total State Education Stabilization Funds	\$207.6

Elementary and Secondary School Emergency Relief (ESSER) Fund: ESF provides \$108.6 million to local educational agencies (LEAs) to address the impacts of COVID-19. PED has one year to award funds, and any unallocated funds will be redistributed to other states. LEAs must receive 90 percent of the distribution, or \$97.7 million, and PED can withhold up to 10 percent, or \$10.9 million for related emergencies. LEAs or PED must provide ESSER funds to nonpublic schools to ensure all students receive equitable educational services. LEAs may use ESSER funds for:

- Activities authorized by federal education law,
- COVID-19 response systems and procedures,
- School leader support,
- Activities to support unique student populations<sup>1</sup>,
- Training on sanitation and minimizing infections,
- Supplies to sanitize and clean facilities,
- Planning during long-term closures,
- Educational technology for students,
- Mental health services and supports,
- Extended learning, and
- Other activities that are necessary to maintain the operation and continuity of services

Governor's Emergency Education Relief (GEER) Fund: ESF provides \$22.3 million to the governor to help LEAs, institutions of higher education (IHEs), and other education related entities address the impacts of COVID-19. Similar to ESSER funds, the governor will have one year to award GEER funds. GEER funds should be used to provide emergency support for educational services and ensure on-going functionality to:

- LEAs deemed by PED most significantly impacted by COVID-19,
- IHEs deemed by governor most significantly impacted by COVID-19, and
- Any education-related deemed by governor as essential<sup>2</sup>.

<u>Higher Education Emergency Relief (HEER) Fund</u>: ESF provides \$76.8 million for IHEs to address impacts of COVID-19. Up to 50 percent of HEER funds, or \$38.4 million, can be used to cover costs associated with significant changes to the delivery of instruction<sup>3</sup>. And at least 50 percent of HEER funds should provide emergency financial aid grants to students for expenses related to the disruption of campus operations.

Maintenance of Effort (MOE): To use ESSER and GEER funds, the state must maintain funding support for K-12 and higher education in FY20 and FY21 above the average of the three prior years (FY17, FY18 and FY19). For New Mexico, this average is \$3.7 billion. The FY21 appropriation for K-12 and higher education is \$4.3 billion, \$642 million (or 15 percent) above the MOE requirement (i.e. the maximum amount that can be reduced and still comply). This MOE requirement can also be waived<sup>4</sup>.

<sup>&</sup>lt;sup>1</sup> Low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population

<sup>&</sup>lt;sup>2</sup> Essential activities include: carrying out emergency educational services, the provision of childcare and early childhood education, social and emotional support, and the protection of education-related jobs

<sup>&</sup>lt;sup>3</sup> Except for pre-enrollment recruitment activities, endowments or capital outlays related to athletics, sectarian instruction, or religious worship.

<sup>&</sup>lt;sup>4</sup> The secretary may waive MOE requirements for states that have experienced a precipitous decline in financial resources

#### **MEMORANDUM**

TO: Senator John Arthur Smith, Chair, Legislative Finance Committee

Representative Patricia Lundstrom, Vice Chair, Legislative Finance Committee

FROM: Staff Economists of the Legislative Finance Committee, Taxation and Revenue Department,

Department of Finance and Administration, and Department of Transportation

THRU: Acting Secretary Deborah Romero, Department of Finance and Administration

Secretary Stephanie Schardin Clarke, Taxation and Revenue Department

Director David Abbey, Legislative Finance Committee

CC: Members of the Legislative Finance Committee

**SUBJECT:** Consensus Revenue Estimating Group – June 2020 Special Session Revenue Update

Governor Michelle Lujan Grisham has called a special legislative session for June 18, 2020 to address the ongoing effects of the novel coronavirus that causes COVID-19. To assist lawmakers in this process, the Consensus Revenue Estimating Group (CREG) – comprised of economists from the Legislative Finance Committee (LFC), the Department of Finance and Administration (DFA), the Taxation and Revenue Department (TRD), and the Department of Transportation (DOT) – reviewed the expected fiscal and economic impacts of this public health crisis and measures taken to contain the spread of the virus, as well as changes in global energy markets.

This memorandum summarizes the work and conclusions of the CREG and contains an updated consensus revenue forecast for fiscal years 2020 through 2022. However, there remains considerable uncertainty surrounding the potential outcomes for employment and various tax and revenue collections. In the following week, state economists will receive a report of collections of income and gross receipts taxes for the month of April 2020. Because April was the first full month of closures for non-essential businesses, this data may provide additional insight on the depth of the revenue decline for FY20. As such, the CREG may provide an update to FY20 revenues in a subsequent memo prior to the start of the 2020 special legislative session.

**June 2020 Consensus General Fund Recurring Revenue Outlook** (in millions)

	<b>FY20</b>	<b>FY21</b>	<b>FY22</b>
December 2019 Consensus <sup>1</sup>	\$7,776.4	\$7,870.5	\$7,925.6
June 2020 Adjustments	(\$439.0)	(\$1,979.0)	(\$1,705.0)
June 2020 Consensus	\$7,337.5	\$5,891.5	\$6,220.5
Change from Prior Year	-8.4%	-19.7%	5.6%

Based on the June 2020 forecast update, spending adjustments or reserve authorization will be required in the upcoming special session to balance the FY20 budget. In FY21, without any changes, general fund revenues and reserves would be insufficient to meet recurring appropriations, with general fund ending balances projected to be negative 8.8 percent at the end of FY21.

Absent any changes, "new money," defined as projected recurring revenues for FY22 less FY21 recurring appropriations, is estimated at negative \$1.4 billion for FY22.

While this forecast weighs all currently available information, the actual outcomes for the state's finances will depend on a variety of factors: the epidemiological path of the virus, the strategies for reopening the New Mexico

<sup>&</sup>lt;sup>1</sup> December 2019 consensus estimate adjusted for 2020 legislation

and U.S. economies, the time it takes consumer confidence to rebound, the effect of business closures on the long-term viability of New Mexico's businesses, the degree to which temporary layoffs become permanent, and the impact of global oil supply and demand on oil prices and the associated effect on the state's oil production.

**Baseline Assumptions and Inputs.** The CREG modeled potential revenue impacts using the latest macroeconomic forecasts for the U.S. and New Mexico economies from IHS Markit, Moody's Analytics, and UNM's Bureau of Business and Economic Research (BBER). A comparison chart of the economic indicators informing the projections is attached to this memo.

The macroeconomic forecasts by IHS Markit and Moody's Analytics show the national economy entering recession in the first quarter of 2020 as restaurants, theatres, resorts, airlines, retail outlets, personal services, home and vehicle sales, sporting events, and other activities began shutting down in March. Unlike most recessions, which are caused by either a demand or supply-side shock, national and state economies face an unprecedented economic event causing both supply and demand shocks simultaneously.

Although rapidly evolving economic conditions place significant uncertainty on the depth and duration of the decline, both IHS Markit and Moody's forecasts expect recovery to begin in the third quarter as states relax their restrictions. Recovery, however, is expected to be gradual, and forecasts show the economy could take years to reach pre-pandemic levels.

Widespread business closures and associated layoffs are expected to cause significant declines in personal income tax and gross receipts tax (GRT) revenues. Low oil prices and declining production will significantly reduce severance tax revenues, federal royalty payments, and GRT collections from drilling activity. Other revenues, including corporate income tax, motor vehicle excise tax, gaming excise tax, and tribal revenue sharing, are also expected to decline. Receipts from internet sales is a bright spot for New Mexico's finances, as revenues were outpacing original estimates before the spread of the virus and stay-at-home orders increased online shopping activity.

As an energy-producing state, New Mexico's finances are highly susceptible to changes in commodity prices and produced volumes that affect all of the state's major revenue sources, including severance taxes, federal royalty payments, gross receipts tax, and personal income tax.

IHS Markit and Moody's forecasts anticipate a prolonged period of low oil prices that has already led Permian basin oil producers to drastically cut investment plans and shut-in wells. This market contraction will be particularly detrimental to general fund revenues. Nearly 70 percent of revenue growth from FY18 to FY19 was tied directly or indirectly to growth in the oil and gas industry, and current low oil prices and associated drilling and production declines could eliminate a significant portion of recurring revenue for years to come.

In April 2020, New Mexico's unemployment rate was 11.3 percent, according to the U.S. Bureau of Labor Statistics (BLS). However, this data was collected in mid-April, and since unemployment claims have continued to grow, the BLS figure may not have captured the extent of employment declines that month. BBER's May 2020 New Mexico forecast projects employment declines will continue through the third quarter of 2020, after which the state is expected to have small employment gains through mid-2021 and a stronger recovery through 2022. However, BBER's baseline forecast projects New Mexico's employment levels will not recover to pre-recession levels until 2025.

Stress-Testing. Recognizing the considerable risks to the forecast, the CREG performed a stress test of the revenue estimate, the assumptions and results of which are shown in Attachments 3 and 4. Notably, even under an optimistic scenario of faster-than-expected recovery in employment and oil prices, FY22 revenues could still be about \$930 million below the December 2019 consensus revenue estimate. Under a pessimistic scenario of a prolonged recession and another collapse in oil prices, FY21 and FY22 recurring revenues could both come in about \$2.4 billion below the December 2019 estimate.

June 2020 CREG Forecast Sensitivity Analysis – Outcomes and Assumptions									
	Baseline (Consensus Forecast)	Pessimistic	Optimistic						
Potential Outcomes that Cause Scenario	<ul> <li>New U.S. COVID-19 infections taper by third quarter, but consumer spending hard hit in second quarter.</li> <li>Phased reopening of the economy is underway, but this will slow curtailment of the pandemic, discouraging many consumers from resuming previous spending habits and thus slowing recovery in consumer spending.</li> <li>April 2020 was the trough of economic activity, with recovery underway thereafter.</li> <li>Large, broad-based layoffs in April, with recovery beginning in May with the easing of restrictions, but takes 4 years for employment to recover to pre-pandemic levels.</li> <li>Fiscal stimulus prevents even steeper declines but does little to stimulate demand.</li> <li>Monetary policy ensures normal functioning of financial markets.</li> </ul>	<ul> <li>Economy experiences an even larger, longer hit to production, employment, and income.</li> <li>Slower recovery of consumer spending than in the baseline.</li> <li>Potential for reopening of the economy and "social distancing fatigue" to result in second wave of COVID-19 in the fall of 2020.</li> <li>Federal fiscal and monetary policy fails to stimulate demand, and business fixed investment faces a more prolonged contraction.</li> <li>Major industry impacts cause irreparable harm to businesses, hampering workforce recovery.</li> </ul>	Less severe recession in first half of 2020 followed by a quicker recovery.  The spread of COVID-19 is less threatening than the baseline forecast as stay-at-home orders are gradually lifted and social distancing guidelines are properly observed.  Potential for discovery of an effective treatment for the virus.  Increased consumer confidence leads to more rapid rebound in spending.  Fiscal and monetary policy measures are more effective in mitigating the economic damage, allowing for a more expedient recovery in private sector demand.						
Oil and Gas:	<ul> <li>U.S. oil prices average in the \$30s in second half of 2020, and average in the \$40s in 2021 and 2022.</li> <li>Permian production begins declines in 2020-Q2; rig counts drop sharply in April and May, then continue slow declines through end of 2020 before beginning to recover in 2021.</li> <li>Shut-in wells come back online as prices gradually recover, but low rig counts and limited new drilling causes New Mexico oil production to fall 28 percent in FY21. In FY22, new drilling is unable to offset decline rates and production falls another 12 percent.</li> <li>Declines in Permian oil production and shut-in of uneconomical wells leads to significant declines in associated natural gas production.</li> </ul>	<ul> <li>Second wave causes another collapse in U.S. oil prices.</li> <li>Permian rig counts drop below lowest levels in 2016 downturn and remain low for longer.</li> <li>Severe limitations on new drilling spurs New Mexico production to follow the natural rate of decline.</li> <li>New Mexico oil production in FY21 falls to FY17 levels and limited new drilling leads to continued production declines into FY22.</li> <li>Greater declines in associated natural gas production.</li> </ul>	<ul> <li>Faster recovery of oil prices than the baseline, with U.S. oil prices averaging in the \$40s in second half of 2020 and recovering into the \$50s by 2022.</li> <li>Permian rig counts continue decline into 2020-Q3 but bottom-out higher than in the baseline and then begin recovery.</li> <li>Reduced capital spending still leads to New Mexico oil production declines, but FY21 declines are less severe than the baseline.</li> <li>Investment in new drilling is higher than the baseline, with oil production growing in FY22, but still below peak levels.</li> </ul>						
Employment:	<ul> <li>New Mexico unemployment reaches 14 percent to 17 percent in 2020-Q2, with jobs losses concentrated in retail, leisure &amp; hospitality, administrative services, mining and construction.</li> <li>Job recovery begins in the late summer and fall, but unemployment remains high throughout FY21, recovering to about 8.5 percent by FY22.</li> <li>Total wages and salaries remain below peak levels through end of FY22. Employment below peak levels through end of 2024.</li> </ul>	<ul> <li>Similar to baseline in 2020-Q2 job losses, but with a weaker recovery.</li> <li>Still takes 5+ years for jobs to recover to previrus levels.</li> <li>Recovery concentrated in low-wage sectors, taking over 5 years for total wages and salaries to return to previous peaks.</li> </ul>	<ul> <li>Job losses in 2020-Q2 and Q3 are not as steep as the baseline but recover at a similar rate.</li> <li>Employment and total wages and salaries reach pre-pandemic levels slightly faster than the baseline.</li> </ul>						
NM Gross Receipts:	<ul> <li>Social distancing restrictions and low consumer spending have significant effects on 2020-Q2 gross receipts, leading to overall declines in FY20 receipts from Bernalillo and other counties excluding Eddy and Lea.</li> <li>Drop-off in rig counts and drilling activity causes sizeable declines in gross receipts in Eddy and Lea counties and out-of-state receipts, which leads to reduced growth in FY20 and receipts falling considerably in FY21.</li> <li>The state benefits from a bump in online sales that is stronger than originally estimated, but it fails to offset declines in out-of-state receipts.</li> <li>Slow recovery of consumer spending furthers declines in FY21 with a modest recovery in FY22 that is still below 2019 levels.</li> </ul>	<ul> <li>Prolonged pullback in drilling activity leads to even greater declines in Eddy and Lea counties and out-of-state receipts.</li> <li>Slower economic recovery and potential second wave of infections causes greater FY21 declines in receipts in the rest of New Mexico and limited recovery of gross receipts in FY22.</li> <li>Total net GRT collections fall near FY16 levels by FY21, a drop of nearly a billion dollars below the December 2019 forecast.</li> </ul>	<ul> <li>Gross receipts decline less in 2020-Q2 and Q3 than the baseline.</li> <li>Increased consumer spending leads to stronger statewide growth in gross receipts than the baseline.</li> <li>Less severe declines in rig counts lessens the drop in Eddy and Lea counties and out-of-state receipts in FY21, and faster rebound in oil investment causes stronger growth in FY22.</li> </ul>

341	Department of Finance & Admin		\$	12,329.0	\$ 186,361	Albuquerque received a direct allocation of \$150.4 million; BernCo received \$31.8 million (only local govt. units with populations over 500,000 are eligible for direct allocations)  Round 1 - CDBG: \$6,814,000 for state CDBG \$4,179,000 for local CDBG Round 2 - CDBG: \$5,515,000 for states
344	DFA (Special Approps)					
350	General Services Department					
418	Tourism					
419	Economic Development Dept.				\$ 2,200,983.7	First round of PPP = \$1.4 billion in Small Business Administration (SBA) emergency grants. Second round of PPP as of May 30th (ongoing)= \$776.5 million
	Public Regulation Commission					1% of \$100 million for PPE for first responders through the assistance to firefighters grants, administered by the state fire marshal's office. PRC did not apply for the \$1 million, due to lack of fudning to cover match.
	Cultural Affairs Department	\$ 622.4				National Endowment for the Arts grants (\$433k), Institute of Museum and Library Services (\$189k)
	Energy, Minerals & Natural Res Dept.		_			DOE received funding but unclear if any will go to state agencies.
	State Engineer					Bureau of Reclamation received funding for "water and related resources" but unclear if any will go to state agencies.
_	Early Childhood Education & Care Dept.					Funding accounted for in CYFD in FY20 but could carryforward in to FY21
624	Aging & Long-Term Care Dept.	\$ 1,479.0				Home-delivered & congregate meals
630	Medicaid & Medicaid BH	\$ 132,000.0	\$	132,000.0	\$ 196,800.9	\$132M 6.2% FMAP increase for 2 quarters during federally-declared emergency in FY20 so far, \$2M SAMHSA, NM Hospital & HC providers-\$196.8M
630	Other Human Services	\$ 71,500.0				Fed Funding designated so far in FY20-\$2.5M Food bank commodities, \$7.2M emergency food TEFAP, approx \$55M for SNAP, Note-\$6.8M CDBG
631	Workforce Solutions Dept.	\$ 5.3			\$ 3.0	UI base & supplement - \$5.3 million Dislocated Worker Grant - \$3 million

						Federal	Emergency Funding FY20-FY21
665	Department of Health	\$	42,223.0	\$ 7	77,284.0		<1% of CDC \$4.3 billion for public health preparedness and response including funding to state and local public health responders and reimbursements.  This is really unknown, since there is little developed guidance has been developed how this funding will be granted. Rural health care could get \$13 million (not captured in DOH \$35) but already seing signifincant revenue decline due to inability to provide non-emergency healthcare services.
667	Environment Department						EPA received funding but unclear if any will go to state agencies.
690	Children, Youth & Families Dept.	\$	29,433.0	\$	545.0	\$	Childcare assistance (ECECD) - \$29 million Child Welfare Services - \$245 Family Violence Prevention - \$300
							Youth Services (Runaway, Transitional Living and RHY ED) - \$586
705	Department of Military Affairs					\$ 14,911.7	1 percent estimate of total additional funding for army and air national guards in CARES Act for personnel, operation, and maintenance to prevent, preapre for, and respond to coronavirus, domestically or internationally. Additional available federal funding and federal emergency declaration may allow the New Mexico National Guard to undertake operations that would otherwise require state emergency funding.
770	Department of Corrections						No specific funding. Eligible for expanded Byrne justice assistance grants via DPS, but did not apply in the spring 2020 application cycle. May be eligible for disaster relief funds via DHSEM/FEMA.
790	Department of Public Safety	\$	605.9			\$ 8,845.1	Expanded Byrne justice assistance grants (\$850 million total). DPS will be administering about \$6.1 million of these funds through an application process available to all criminal-justice-involved entities (including state and local government agencies). DPS is using \$605.9 thousand for expenses related to grant administration (some is being expended in FY20 but will likely carry over into FY21, as grants will be ongoing and department anticipates conducting two application cycles (one was completed this spring and one is anticipated in early 2021). Additionally, FFIS reports local government entities will be receiving about \$3.4 million in grants directly from DOJ. DPS may also be eligible for Disaster Relief Funding via DHSEM.
/45	Department of Homeland Security and Emergency Management	\$	959.8			\$ 25,069.4	FEMA has obligated \$24.9 million for public assistance funding to New Mexico, including state agencies and local government entities; leveraging these funds may require a 25 percent local match. FEMA has awarded a \$1.1 million FFY2020 supplemental emergency management performance grant to New Mexico; based on prior allocations, this estimate allocates 85 percent of the grant funds to DHSEM for direct agency expenditure and 15 percent for indirect awards to other entities, but DHSEM has not announced how it will be allocating these funds. DHSEM, along with other state and local government entities, may be able to leverage more of the \$95 billion in disaster relief funding allocated by the federal emergency declaration and CARES Act.
	All Other Agencies^					\$ 1,500,000.0	1% of \$150B grants to local & state authorities to fight covid-19
370	Secretary of State	\$	3,889.0				To prevent, prepare for, and respond to the coronavirus for the 2020 federal election cycle
805	Department of Transportation	\$	126,600.0				The \$126 million will be distributed through existing formulas on a reimbursement basis to make transit opperators whole. The funding has numerous restrictions on use. It is likely DOT will use the funds to pay the local government match for federal money in coming years. The additional federal funding is worth approximately 2.8 times the annual approtionment for these purposes.
							Total of \$150B grants to "state and local authorities" to fight covid-19
	Emergency Food and Shelter Program					\$ 1,825.2	Funding is granted to nonprofits and government entities providing human services via a national board chaired by FEMA in partnership with several large nonprofit groups. Funds can be used for a broad range of services, including mass shelter; mass feeding; food distribution through food pantries and food banks; one-month assistance with rent or mortgage payments, and/or utility payments, to prevent evictions; and transition assistance from shelters to stable living conditions. Actual awards under the CARES Act expanded funding for this program exceed FFIS estimate of \$1.6 million.
	Coronavirus Relief Fund small state minimum	\$	1,250,000.0				For COVID19 expenditures incurred 3/1/20-12/30/20. Cannot use for revenue gaps due to <state \$="" \$750.0="" appropriated="" backfill="" e.g.="" emergency="" funds="" funds<="" governor="" or="" state="" td="" to=""></state>

#### **Compensation Appropriations**

The LFC scenario reduces total compensation appropriations from \$157.3 million to \$30 million. The reduction provides sufficient funding to fund an increase of 1.5 percent for those earning less than \$40 thousand per year and 0.5 percent for those earning \$40 thousand or more per year. The alterations to compensation appropriations made in the 2020 GAA are as follows:

	GAA Amount	Reduction	Amended Amount
Total	63,085.1	49,935.2	13,149.9
Legislaure	523.5	414.1	109.4
Judicial	7,831.9	6,097.5	1,734.4
Judges	1,179.3	1,031.9	147.4

#### **Road Fund Cut and Swap Scenario**

Over the past two legislative sessions, \$580 million in nonrecurring general fund appropriations have been made to the NMDOT including \$530 million for state projects and \$50 million for local infrastructure initiatives. Of this amount, \$430 million was appropriated for major investment projects. Only \$13 million of these funds have been expended or encumbered to date. The 2020 special session solvency legislation would reduce these appropriations as follows:

- The \$180 million appropriated in 2020 would be reduced by \$45 million and funding would be made available at the discretion of NMDOT to enable these monies to be expended in the next 12 months.
- The \$250 million appropriated in 2019 would be reduced by \$75 million.
  - The solvency legislation includes authority for NMDOT to issue \$75 million in bonds to fund projects authorized under Section 9 of the 2019 GAA.
  - Staff estimate the cost of servicing the additional debt to be approximately \$10 million per year over a 10-year period.
  - The impact of the additional bond payment on NMDOT revenues is shown in the table below:

#### Notes:

1) Laws 2019, Chapter 271 (HB2) contained \$31 million in appropriations contingent on the consensus forecast amount presented in August 2019 for FY19 exceeding \$7.62 billion. Contingent appropriations include up to \$15 million to the Economic Development Department for LEDA projects, up to \$11 million to the Department of Transportation for road projects, and up to \$5 million to the Higher Education Department to replenish the college affordability endowment fund.

<sup>(1)</sup> Other net reserve changes include: investment gains/losses on tobacco settlement permanent fund and tax stabilization reserve, prior appropriations to reserve accounts, appropriation contingency fund revenues and disaster allotments. Also includes any transfer per HB 341 to maintain minimum balance in operating reserve.

# **Scenario Summary**

	Scenario 1 - HB6 Internet Sales Tax Methodology	Scenario 2 - GRT Support + Per Capita	Scenario 3 - GRT Support + COVID Impact + Per Capita	Scenario 4 - Federal Stimulus Package #4
Largest 25 Municipalities*	97,583,127	90,394,639	95,208,485	86,918,483
All Other Municipalities	21,381,005	17,652,899	18,326,710	8,081,517
Municipality Subtotal	118,964,132	108,047,538	113,535,195	95,000,000
County Subtotal**	71,403,081	41,989,242	51,501,584	95,000,000
TOTAL for Municipalities and Counties	190,367,213	150,036,779	165,036,779	190,000,000
*Excluding Albuquerque in Scenarios 1, 2, and 3				
**Excluding Bernalillo in Scenarios 1, 2, and 3				

Scenario 1 - HB6 Internet Sales Tax Methodology Allocation	- Divides funding based on population, per 2019 HB6 Internet Sales Tax distribution scenario (37.5% to counties, 62.5% to municipalities) - Individual municipality and county shares differ from Internet Sales Tax distribution scenario due to removal of Bernalillo County and Albuquerque in this model. Los Alamos is included in HB6 scenario as a city and a county, but only as a county in this model, which uses DFA data (Los Alamos is an incorporated city-county)	+ GRT Support	- Per capita allocation of \$70.5 million, with 60% to municipalities and 40% to counties) - Funding to replace a total of 10% of GRT (state + local share), in aggregate
Scenario 3 - Per Capita + GRT Support + COVID-19 Impact Allocation	- Per capita allocation of \$70.5 million, with 60% to municipalities and 40% to counties) - Funding to replace a total of 10% of GRT (state + local share), in aggregate - \$15 million 'set aside' for counties and municipalities most affected by COVID-19. The set aside is divided between McKinley, San Juan, and Cibola counties based on the proportion of COVID-19 cases per 100,000 (as of May 27). The total county share is then allocated between the county and municipalities within the county on a per capita basis (county populations are exclusive of municipality populations).	Scenario 4 - Federal Stimulus Package #4	Based on proposed fourth federal stimulus package (per U.S. House leadership letter from May 4): - County fund awarded directly to counties on the basis of population, with all counties receiving an award - Municipality fund awarded to cities based on the Community Development Block Grant (CDBG) formula (using FY20 allocation to NM cities) - 70% awarded directly to cities with a population of 50,000 or more using the CDBG formula - Remaining 30% awarded to municipalities with populations less than 50,000 on the basis of population - Because the CDBG formula includes a direct allocation to Farmington, it is included with cities with 50,000+ populations

#### CARES ACT FUNDING FOR TRIBAL GOVERNMENTS

The LFC has conducted some preliminary research and analysis on available CARES Act funding for tribal governments and other tribal entities, and (where available) funding for New Mexico tribes and pueblos.

Funding for tribal governments in the CARES Act comprises a number of funding streams:

- \$8 billion in Coronavirus Relief Funds (CRF), to be distributed directly to tribal governments for COVID-19 response (for "necessary expenditures" restrictions are similar to restrictions on CARES Act funding for states and local governments). Sixty percent (Round 1 \$4.8 million) will be distributed based on population, and 40 percent based on tribal expenditures and other economic activity (Round 2 \$3.2 million). Funds must be spent by 12/30/2020.
  - Round 1 went out in May. Sen. Udall's office told us that they do not have a list of Round 1 allocations by tribe, and attempts to calculate amounts using the formula haven't proven very accurate (a Harvard study found that the formula produced overand under-representations of populations)
  - See below for our rough, initial estimate of how much New Mexico tribes may have received in Round 1 (note that this is an estimate based on very limited information from the U.S. Treasury).
  - o Round 2 is due to go out this week. There is no detailed information available yet about how it will be allocated.
  - There is also pending litigation related to whether Alaska Native Corporations (ANCs) can receive Tribal CRF funds. Resolution of this litigation could result in amounts currently withheld for ANCs being redistributed to tribes.
- \$453 in direct allocations to tribal governments from the BIA. New Mexico tribes will receive approx. \$28 million in aggregate. Please let us know if you'd like more detail on this allocation.
- \$1.73 billion in aid to tribal entities such as health services, nutrition programs, and community development programs. We do not have information on how much New Mexico tribes/tribal entities will receive.
- \$854.8 in additional funding is available, for which many tribal governments/entities/businesses may be eligible, but is not specifically targeted to tribes.

New Mexico's \$1.25 billion CRF allocation was split between the state, the City of Albuquerque (\$150 million), and Bernalillo County (\$32 million). This funding stream did not include any assistance for businesses, and tribal governments will receive CRF distributions separately from state distributions (the \$8 billion in CRF funding referenced above).

# **CARES Act CRF Distributions to New Mexico Tribes and Pueblos**

**Note**: This is a **rough estimate** based on tribes' HUD FY20 HUD allocations. The CARES Act uses a HUD formula to distribute \$4.8 billion based on population. These estimates assume the same allocation breakdowns by tribe (tribal allocation as a % of total allocations to all tribes nationally).

Tribe/Pueblo	CRF Population Distribution
Acoma Pueblo	7,911,462
Cochiti Pueblo	1,844,849
Isleta Pueblo	7,407,530
Jemez Pueblo	3,663,596
Jicarilla Apache Nation	10,683,244
Kewa Pueblo (Santo Domingo)	5,708,446
Laguna Pueblo	12,121,373
Mescalero Apache Tribe	16,410,669
Nambe Pueblo	2,643,049
Navajo Nation*	543,326,028
Ohkay Owingeh Pueblo	6,137,030
Picuris Pueblo	673,822
Pojoaque Pueblo	884,805
San Felipe Pueblo	3,983,924
San Ildefonso Pueblo	2,717,882
Sandia Pueblo	1,810,431
Santa Ana Pueblo	1,449,749
Santa Clara Pueblo	5,697,832
Taos Pueblo	3,918,197
Tesuque Pueblo	979,521
Zia Pueblo	1,908,973
Zuni Tribe	21,120,233
Ute Mountain Tribe of the Ute Mountain Reservation	Unknown
TOTAL	663,002,647

<sup>\*</sup>Navajo Times reported total expected allocations of \$600 million+

#### Severance Tax Bond Capacity, Super sweep and STB swap

#### **Decline in STB capacity**

• The 2020 session estimate of severance tax bond capacity for FY20 was approximately \$560 million. Due to lower oil and gas revenue the current estimate is about \$400 million. A significant portion of 2020 STB appropriations likely will be unissued.

#### STBF revenue

- A way to boost STB capacity is a "super sweep." Statutes provide that only 89.4 percent of prior year can be used for debt service on severance tax bonds with the remainder transferred to the severance tax permanent fund. A super sweep, authorized by a statutory change, would allow 100 percent of STBF revenue to be used for debt, typically for sponge bonds. "Sponge bonds" are very short-term notes with a maturity of a week or less.
- Board of Finance estimated that the super sweep will increase FY20 STB capacity for FY20 by \$120 million to \$140 million. Still, DFA estimates \$70 to \$110 million of 2020 STB appropriations can't be issued in FY20.

#### **Swap General Fund Capital for STBs**

- A past practice in the face of a solvency crisis is to void General Fund capital appropriations and reauthorize the same projects from severance tax bonds. The executive proposes a swap of \$100 million for the special session.
- This proposed swap would increase authorized unissued to \$170 million to \$210 million. Board of Finance estimates FY21 and FY22 STB capacity at \$175 million in the high scenario but zero in FY21 and FY22 in the low scenario.
- Under the current solvency proposals for the special session the new money outlook for FY22 is -\$1.2 billion. The LFC staff recommendations have sought to preserve the non-recurring STB bond swap option to address the FY22 shortfall.

# PROPOSED CAPITAL PROJECT VOIDS Methodology and Criteria June 3, 2020

#### **METHODOLOGY**

- DFA and LFC staff jointly evaluated 2019 and 2020 capital funding and reauthorizations authorized from the general fund, including like-projects appropriated in previous years.
- This review considered executive directives issued on May 6 and May 8, 2020.
  - The May 6 directive suspended capital transactions specific to Laws of 2019 and Laws of 2020, except for those projects related to water and public health and safety.
  - The May 8 directive amended allowable transactions to include capital related to emergencies, critical agency operations, COVID-19 response, and adjustments to federal funds.
- The project and data reviewed were updated as of May 11, 2020, to reflect information derived from the SHARE financial data system, Capital Projects Monitoring System, Infrastructure Capital Improvement Plans (ICIP), and information provided by state and local entities.

#### **CRITERIA APPLIED TO ELIMINATE PROJECTS**

- Eliminate select 2019 general fund appropriations with no expenditures, notices of obligation, or encumbrances,
- Retain projects funded with state, local or federal funds, or a combination thereof, to avoid loss of matching funds,
- Retain projects tied to 2020 and previous year funding,
- Eliminate projects excluded by the executive directives,
- Eliminate projects not included or prioritized in ICIP and requiring additional funds to proceed.
- Eliminate projects for entities non-compliant with audits in accordance with Executive Order #2013-06.

#### PROPOSED 2019 GENERAL FUND PROJECTS Amended as of June 15, 2020

- Eight (8) capital projects totaling \$1,245,000 removed from void list between 6/10/2020 LFC virtual meeting and 6/15/2020.
- Removal based on updated documentation received from grantees and confirmed by the Department of Finance and Administration (DFA) SHARE system.
- Project Titles and justification as follows:
  - **1. Questa Business Park Utility Infrastructure Improvements (\$300,000);** \$52,000 encumbered in SHARE as of 6/15/2020.
  - 2. Questa Roads Improve (\$300,000); project tied to utility infrastructure.

The Village of Questa contracted North Central NM Economic Development District for project oversight of water and road projects; Village of Questa provided late notification of substantial EPA federal funds, CDBG grant, Chevron grant, and Village of Questa match funds tied to both projects.

#### 3. Elida Street Improvements (\$100,000)

Recently received documentation indicating the project is tied to a water project; quote received 5/8/2020; approved by Board of Trustees on May 13; water project completed and ready to proceed with road repairs.

#### 4. Gallup Intertribal Indian Ceremonial Building Improvements (\$50,000)

Project omitted in Office of the Navajo Nation letter dated 5/27/2020 requesting the retention of funds to renovate additional space for emergency use due to COVID-19; funds encumbered and expenditures total \$4,517.16 as of 6/15/2020.

- **5.** Alameda Boulevard NW Medians Improvements (\$150,000); full amount encumbered as of 6/15/2020.
- **6.** Atrisco Drive Construction (\$250,000); \$208,648.24 encumbered as of 6/15/2020.
- 7. Tower Road Median (\$25,000); \$24,939.68 encumbered as of 6/15/2020.
- **8.** Sandoval County Fair Board Building Purchase and Construction (\$70,000); full amount encumbered as of 6/15/2020.

DFA reports funds were encumbered and obligated prior to executive directive freezing project transactions; SHARE indicates expenditures drawn and projects in progress.

# NEW MEXICO FINANCE AUTHORITY SOLVENCY FUNDS SUMMARY June 3, 2020

- New Mexico Finance Authority (NMFA) proposed a sweep of its funds totaling approximately \$9.8 million.
- \$5.3 million is from the 2019 general fund appropriation for the Water Project Fund. According to NMFA, \$6 million was appropriated in HB2 to "repay" the Water Project Fund for prior Severance Tax Bond (STB) sweeps. The Office of the State Engineer receives 10% of all monies in the Water Project Funds, and \$100 thousand was committed to projects. NMFA recommends sweeping the balance. NMFA expects that loan repayments in the Water Trust Board will be available to backfill this appropriation. NMFA states that the \$5.3 million can be swept without impairing any projects.
- The other \$4.5 million is from the Public Project Revolving Fund to Local Government Planning Fund and the state match for the Drinking Water State Revolving Loan Fund (DWSRLF). NMFA proposed that Local Government Planning Fund is swept of \$2 million. This Fund has not been used for an appropriation in two years, and NMFA expects demand for planning projects to remain low. NMFA also proposed that DWSRLF is swept of its \$2.5 million balance. NMFA reports that it can use interest earnings on Tier II (loan repayment) funds to backfill the DWSRLF for one year.
- NMFA approved the request to share these proposed sweeps with Legislative Council Services for initial legislative drafting
