

## New Mexico Office of Superintendent of Insurance Presentation, LHHS, 7/25/13

### **Update on Qualified Health Plan review:**

- For the individual exchange, New Mexico Office of Superintendent of Insurance (NM OSI) received 59 plans from 5 carriers. NM OSI also received stand-alone dental plans from 8 dental plan issuers. Plans will upload to the federal platform.
- For the SHOP exchange, NM OSI received 57 plans from 4 carriers. Plans will upload to the New Mexico Health Insurance Exchange SHOP platform.

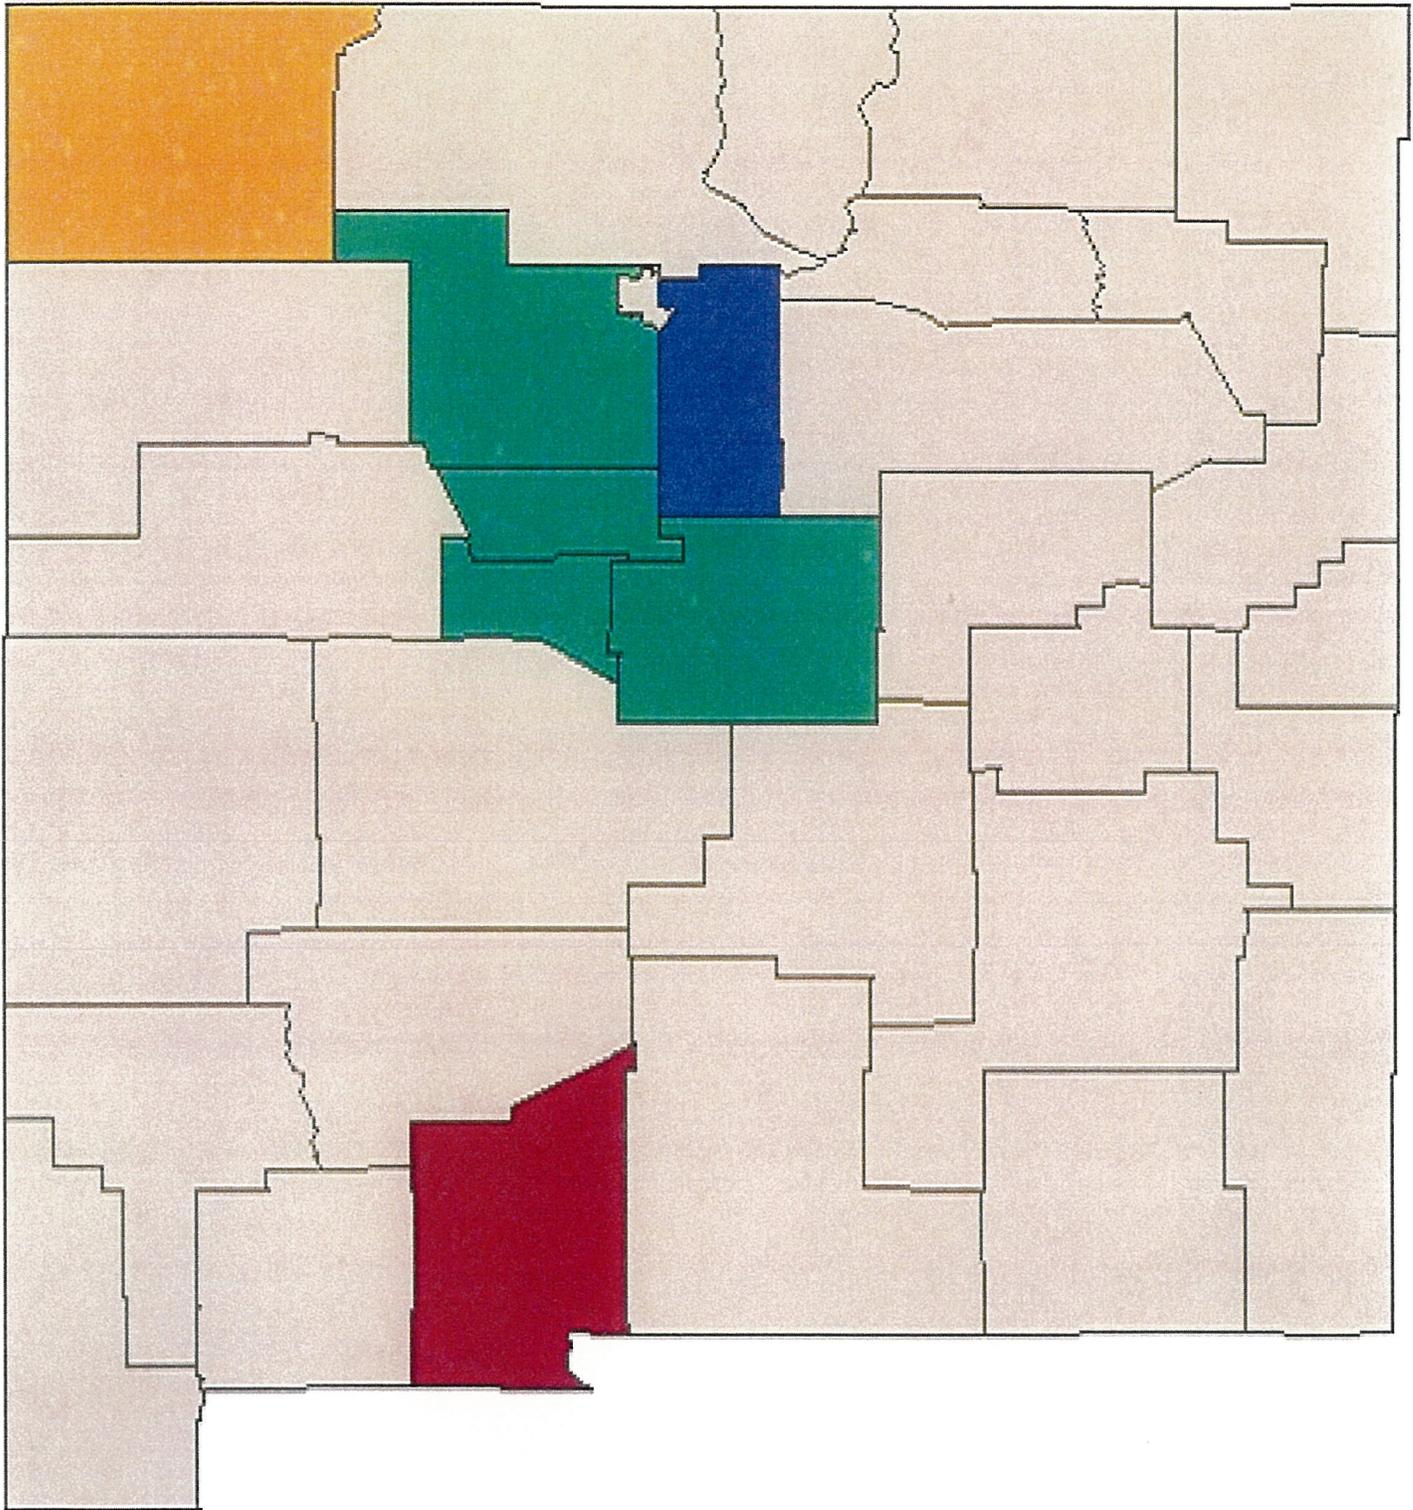

NM OSI has conducted on-going review of the Qualified Health Plans for the past several months. Review of the individual plans is almost complete. The open comment period on the plans ends on August 6, 2013. (Comment period delayed due to federal last-minute changes.) NM OSI will transmit conditionally approved individual health and dental plans to CCIIO on July 29, 2013 with the caveat that we still have open comment and reserve the right to make changes if important issues are raised in the last week of comment; again, the NM OSI individual plan review is virtually complete. NM OSI will then transmit approved SHOP plans to the vendor as they are approved, to be complete in August, 2013.

CCIIO has indicated that they will post plans for carrier review on August 8, 2013.

According to the New Mexico Health Insurance Exchange statute, passed in the 2013 NM Legislative session, all plans approved by NM OSI must be eligible for sale through the individual Exchange and the SHOP Exchange.

### **Evaluation of rates:**

- Updated premium rates are in the committee's packet. (Final rates changes for one carrier have not been received yet.)
- In a rough evaluation of pre- and post-ACA premium rates, it appears that Qualified Health Plan rates are approximately 5% higher than previous rates. Please note that because there will no longer be pre-existing condition exclusions, because there are requirements to include the 10 Essential Health Benefits, and because limits on those benefits have been disallowed – comparing the pre- and post-ACA rates is complex.
