Commission on Higher Education (CHE)

SUMMARY

Synopsis of Amendment

This amendment replaces the term "atmospheric" with "aeronautics," a technical correction to the original bill.

Synopsis of Bill

This bill appropriates \$100.0 from the general fund to the Board of Regents of the University of New Mexico to support students participating in an education and high technology work force initiative with the National Atmospheric and Space Administration and White Sands test facility.

FISCAL IMPLICATIONS

The appropriation of \$100.0 contained in this bill is a recurring expense to the general fund. Any unexpended or unencumbered balance remaining at the end of FY01 shall revert to the general fund.

OTHER SUBSTANTIVE ISSUES

The CHE recommends that the following language be included for all new recurring higher education programs: "A plan for a program evaluation, including specific program goals and criteria for assessing program effectiveness shall be submitted to the LFC and the CHE by October 1, 2000. An assessment of the program will be completed prior to June 30, 2001 and submitted to the LFC and the CHE."
