## HOUSE BILL 2 45TH LEGISLATURE - STATE OF NEW MEXICO - FIRST SESSION, 2001 INTRODUCED BY

Max Coll

## AN ACT

MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW. BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

- Section 1. SHORT TITLE. -- This act may be cited as the "General Appropriation Act of 2001".
- Section 2. **DEFINITIONS**.--As used in the General Appropriation Act of 2001:
- A. "agency" means an office, department, agency, institution, board, bureau, commission, court, district attorney, council or committee of state government;
- B. "efficiency" means the measure of the degree to which services are efficient and productive and which are often expressed in terms of dollars or time per unit of output;
- C. "expenditures" means costs, expenses, encumbrances and other financing uses, other than refunds authorized by law, recognized in accordance with generally accepted accounting principles for the legally authorized budget amounts and budget period;
- D. "explanatory" means information that can help users to understand reported performance measures and to evaluate the significance of underlying factors that may have affected the reported information;
  - E. "federal funds" means any payments by the United States government to state government or

agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;

- F. "full-time equivalent" or "FTE" means one or more authorized positions that together receive compensation for not more than two thousand eighty hours worked in fiscal year 2002. The calculation of hours worked includes compensated absences but does not include overtime, compensatory time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;
- G. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal Mineral Lands Leasing Act receipts and those payments made in accordance with the federal block grant and the federal Workforce Investment Act, but excludes the general fund operating reserve and the appropriation contingency fund;
- H. "interagency transfers" means revenue, other than internal service funds, legally transferred from one agency to another;
  - I. "internal service funds" means:

- (1) revenue transferred to an agency for the financing of goods or services to another agency on a cost-reimbursement basis; and
- (2) unencumbered balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2001;
  - J. "other state funds" means:
- (1) unencumbered, nonreverting balances in agency accounts, other than in internal service funds accounts, appropriated by the General Appropriation Act of 2001;
- (2) all revenue available to agencies from sources other than the general fund, internal service funds, interagency transfers and federal funds; and
  - (3) all revenue, the use of which is restricted by statute or agreement;
  - K. "outcome" means the measure of the actual impact or public benefit of a program;
- L. "output" means the measure of the volume of work completed, or the level of actual services or products delivered by a program;

- M. "performance measure" means a quantitative or qualitative indicator used to assess a program;
- N. "program" means a set of activities undertaken in accordance with a plan of action organized to realize identifiable goals and objectives based on legislative authorization;
- O. "quality" means the measure of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a program;
- P. "revenue" means all money received by an agency from sources external to that agency, net of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or as agent or trustee for other governmental entities or private persons;
  - Q. "target" means the expected level of performance of a program's performance measures; and
- R. "unforeseen federal funds" means a source of federal funds or an increased amount of federal funds that could not have been reasonably anticipated or known during the first session of the forty-fifth legislature and, therefore, could not have been requested by an agency or appropriated by the legislature.

## Section 3. GENERAL PROVISIONS . - -

- A. Amounts set out under column headings are expressed in thousands of dollars.
- B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" indicate an intergovernmental transfer and do not represent a portion of total state government appropriations. All information designated as "Totals" or "Subtotals" are provided for information and are not appropriations.
- C. Amounts set out in Section 4 and Section 5 of the General Appropriation Act of 2001, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2002 for the objects expressed.
  - D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2001 shall

revert to the general fund by October 1, 2001, unless otherwise indicated in the General Appropriation Act of 2001 or otherwise provided by law.

- E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2002 shall revert to the general fund by October 1, 2002, unless otherwise indicated in the General Appropriation Act of 2001 or otherwise provided by law.
- F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.
- G. Except as otherwise specifically stated in the General Appropriation Act of 2001, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2002. If any other act of the first session of the forty-fifth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2001 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.
- H. In August, October, December and May of fiscal year 2002, the department of finance and administration, in consultation with the staff of the legislative finance committee and other agencies, shall prepare and present revenue estimates to the legislative finance committee. If these revenue estimates indicate that revenues and transfers to the general fund, excluding transfers to the general fund operating reserve, the appropriation contingency fund or the state-support reserve fund, as of the end of fiscal year 2002, are not expected to meet appropriations from the general fund, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.
  - I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from

unforeseen federal funds, from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds, or payments into revolving funds which exceed specifically appropriated amounts, may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated. In approving a budget increase from unforeseen federal funds, the director of the state budget division shall advise the legislative finance committee as to the source of the federal funds and the source and amount of any matching funds required.

- J. For fiscal year 2002, the number of permanent and term full-time equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2001 or another act of the first session of the forty-fifth legislature provides for additional employees.
- K. Except for gasoline credit cards used solely for operation of official vehicles and telephone credit cards used solely for official business, none of the appropriations contained in the General Appropriation Act of 2001 may be expended for payment of credit card invoices.
- L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2001 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline; provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.
- M. When approving operating budgets based on appropriations in the General Appropriation Act of 2001, the state budget division is specifically authorized to approve only those budgets that are in accordance with generally accepted accounting principles for the purpose of properly classifying other financing sources and uses, including interfund, intrafund and interagency transfers.
- N. No money appropriated in the General Appropriation Act of 2001 shall be used to promote the legalization or decriminalization of controlled substances.
  - Section 4. FISCAL YEAR 2002 APPROPRIATIONS. --

Upon certification by the state board of finance pursuant to Section 6-1-2 NMSA 1978 that a critical emergency exists that cannot be addressed by disaster declaration or other emergency or contingency funds, and upon review by the legislative finance committee, the secretary of the department of finance and administration is authorized to transfer from the general fund operating reserve to the state board of finance emergency fund the amount necessary to meet the emergency. Such transfers shall not exceed an aggregate amount of five hundred thousand dollars (\$500,000) in fiscal year 2002. Repayments of emergency loans made pursuant to this paragraph shall be deposited in the board of finance emergency fund pursuant to the provisions of Section 6-1-5 NMSA 1978; provided that, after the total amounts deposited in fiscal year 2002 exceed two hundred fifty thousand dollars (\$250,000), any additional repayments shall be transferred to the general fund.

Unexpended or unencumbered balances remaining in the governor's career development conference fund

Upon approval of the commission on higher education, the state budget division of the department of finance and administration may approve increases in budgets of agencies in this subsection whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended or unencumbered balance remaining at the end of fiscal year 2002 shall not revert to the general fund.

14	(b) Emergency supplemental	1,200.0				1,200.0
15	(c) Emergency capital outlay	479.3				479.3

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the superintendent of public instruction. The superintendent of public instruction shall establish a preliminary unit value to establish budgets for the 2001-2002 school year; and then upon verification of the number of units statewide for fiscal year 2002, but no later than January 31, the superintendent of public instruction may adjust the program unit value.

The general fund appropriation for the state equalization guarantee contains sufficient funds to provide an eight percent salary increase for teachers, with the intent to begin to address the career ladder program recommended for beginning teachers by the education initiatives and accountability task force; and a seven percent increase for other instructional staff, certified and noncertified staff, including transportation employees.

end of fiscal year 2002 shall revert to the appropriate fund.

Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which appropriations are made or for which performance measures are established in this section shall file a report with the state budget division and legislative finance committee analyzing its performance relative to the performance measures established for fiscal year 2002. The report shall be submitted quarterly for the performance measures established in this section and annually for the remaining performance measures stated in the performance-based budget request submission and shall contain a comparison of actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division shall establish standards for the reporting of variances between actual and targeted performance levels. The annual and quarterly reports for the period ending June 30, 2002 shall be filed with the state budget division and the legislative finance committee on or before September 1, 2002.

In concert with the annual agency strategic planning process required by the state budget division, the state budget division shall require strategic plans, including internal and external assessments and development of performance measures, be coordinated among the state agency on aging, human services department, department of and health and the children, youth and families department.

#### A. JUDICIAL

### ADMINISTRATIVE OFFICE OF THE COURTS:

(1) Administrative support:

The purpose of the administrative support program is to provide administrative support to the chief justice, all judicial branch units and the administrative office of the courts so that they can effectively administer the New Mexico court system.

## Appropriations:

(a) Personal services and

Section 8. DATA PROCESSING APPROPRIATIONS.--The following amounts are appropriated from the computer systems enhancement fund, or other funds as indicated, for the purposes specified. Unless otherwise indicated, the appropriations may be expended in fiscal years 2001 and 2002. Unless otherwise indicated, any unexpended or unencumbered balances remaining at the end of fiscal year 2002 shall revert to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies benefits that can be quantified and nonrecurring costs and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon receiving certification from the chief information officer that identifies compliance with the information architecture and individual information and communication systems plans and the statewide information technology strategic plan. If the funds are to continue on a project, the documentation shall include certification and written report by the chief information officer that the project is on schedule, approved project methodology has been followed, independent validation and verification contractor recommendations have been implemented, all funds previously allocated have been expended properly and additional funds are required. All hardware and

(2) one million seven hundred eighty thousand eight hundred dollars (\$1,780,800) to provide the correctional officer and correctional officer specialists series of the corrections department a fifty cent per hour salary increase. The salary increase shall be effective the first full pay period following July 1, 2001; and

- (3) six hundred forty thousand dollars (640,000) to provide the tax account auditor series at the taxation and revenue department with a compa-ratio to compa-ratio salary increase based on new salary grades adopted by the personnel board in 1999. The salary increase shall be effective the first full pay period following July 1, 2001.
- C. Thirty-three million eight hundred ninety-eight thousand seven hundred dollars (\$33,898,700) is appropriated from the general fund to the commission on higher education for expenditure in fiscal year 2002 to provide faculty and other staff of four- and two-year post-secondary educational institutions with a seven percent salary increase. The salary increase shall be effective the first full pay period following July 1, 2001.

The department of finance and administration shall distribute a sufficient amount to each agency to provide the appropriate increase for those employees whose salaries are received as a result of the general fund appropriations in the General Appropriation Act of 2001. Any unexpended or unencumbered balance remaining at the end of fiscal year 2002 shall revert to the general fund.

For those state employees whose salaries are referenced in or received as a result of non-general fund appropriations in the General Appropriation Act of 2001, the department of finance and administration shall transfer from the appropriate fund to the appropriate agency the amount required for the salary increases equivalent to those provided for in this act, and such amounts are appropriated for expenditure in fiscal year 2002. Any unexpended or unencumbered balance remaining at the end of fiscal year 2002 shall revert to the appropriate fund.

Section 10. SEVERABILITY.--If any part or application of this act is held invalid, the remainder or its application to other situations or persons shall not be affected.
