Upon certification by the state board of finance pursuant to Section 6-1-2 NMSA 1978 that a critical emergency exists that cannot be addressed by disaster declaration or other emergency or contingency funds, and upon review by the legislative finance committee, the secretary of the department of finance and administration is authorized to transfer from the general fund operating reserve to the state board of finance emergency fund the amount necessary to meet the emergency. Such transfers shall not exceed an aggregate amount of five hundred thousand dollars (\$500,000) in fiscal year 2002. Repayments of emergency loans made pursuant to this paragraph shall be deposited in the board of finance emergency fund pursuant to the provisions of Section 6-1-5 NMSA 1978; provided that, after the total amounts deposited in fiscal year 2002 exceed two hundred fifty thousand dollars (\$250,000), any additional repayments shall be transferred to the general fund.

The general fund appropriation to the big brothers and big sisters programs includes fifty thousand dollars (\$50,000) to support the big brothers and big sisters programs in Chaves and Eddy counties.

(b) Emergency supplemental	990.6				990.6
(c) Emergency capital outlay	479.0				479.0

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the superintendent of public instruction. The superintendent of public instruction shall establish a preliminary unit value to establish budgets for the 2001-2002 school year; and then upon verification of the number of units statewide for fiscal year 2002 but no later than January 31, the superintendent of public instruction may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funds to provide an eight percent salary increase for teachers, and a six and one-half percent increase for other instructional staff, certified and noncertified staff. Prior to the approval of a district's budget, the state superintendent of public instruction shall verify that each local school board is providing the eight percent increase for teachers. The appropriation for the transportation distribution contains sufficient funding to provide a statewide average six and one-half percent salary increase for transportation employees.

The general fund appropriation for the state equalization guarantee distribution includes three million five hundred thousand dollars (\$3,500,000) for expenditure in fiscal year 2002. The appropriation is contingent on House Appropriations and Finance Committee Substitute for House Bill 949 or similar legislation of the first session of the forty-fifth legislature, becoming law and on the certification, before September 1, 2001, by the superintendent of public instruction that the federal government has allowed the state to calculate disparity on the unit value.

The general fund appropriation for the state equalization guarantee distribution includes three million five hundred dollars (\$3,500,000) for the state department of public education in fiscal year 2002 to conduct the rapid response intervention program pilot project. The appropriation is contingent on House Appropriations and Finance Committee Substitute for House Bill 949 or similar legislation of the first session of the forty-fifth legislature, becoming law, and shall be expended only if the superintendent of public instruction does not make the certification pursuant to the previous paragraph of this subsection pertaining to the calculation of disparity.

The general fund appropriation for the state equalization guarantee distribution includes four million dollars (\$4,000,000) for enrollment growth, contingent on House Bill 23 or similar legislation of the first session of the forty-fifth legislature, becoming law; and one million two hundred thousand dollars (\$1,200,000) for the at-risk factor, contingent on House Bill 49 or similar legislation of the first session of the forty-fifth legislature, becoming law.

The general fund appropriation in the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et. seq., formerly known as "PL 874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

For the 2001-2002 school year, the state equalization guarantee contains sufficient funding for districts implementing a formula-based program for the first time. Those districts shall use current year MEM in the calculation of program units for the new formula-based program.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2002 from appropriations made from the general fund shall revert to the general fund.

finance committee, each agency for which appropriations are made or for which performance measures are established in this section shall file a report with the state budget division and the legislative finance committee analyzing the agency's performance relative to the performance measures and targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2002 for the remaining measures. The state budget division, in consultation with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels. The reports filed with the state budget division and the legislative finance committee analyzing agency performance shall include a detailed listing and summary of changes in fees imposed by the agency and a detailed listing and summary of all changes of rules by the agency. Each of the summaries must include the agency's justification for the change in addition to any relevant meeting notes from the public hearing where the action occurred. The quarterly and year-end reports for the period ending June 30, 2002, shall be filed with the state budget division and the legislative finance committee on or before September 1, 2002.

It is the intent of the legislature to continue to improve implementation of the Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the General Appropriation Act of 2001 and the Supplemental Performance Measures and Targets Act. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2002. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2002 and to propose targets when submitting budget requests for fiscal year 2003.

In concert with the annual agency strategic planning process required by the state budget division, the state budget division shall require strategic plans, including internal and external assessments and development of programs and performance measures, be coordinated among the state agency on aging, human services department, labor department, department of health and the children, youth and families department.

Section 8. DATA PROCESSING APPROPRIATIONS.—The following amounts are appropriated from the computer systems enhancement fund, or other funds as indicated, for the purposes specified. Unless otherwise indicated, the appropriations may be expended in fiscal years 2001 and 2002. Unless otherwise indicated, any unexpended or unencumbered balances remaining at the end of fiscal year 2002 shall revert to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies benefits that can be quantified and nonrecurring costs and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon receiving certification from the chief information officer that identifies compliance with the information architecture and individual information and communication systems plans and the statewide information technology strategic plan. If the funds are to continue on a project, the documentation shall include certification and written report by the chief information officer that the project is on schedule,
