| 10 | AN ACT  |
| 11 | MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW              |
| 12 | BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:  |
| 13 | Section 1. SHORT TITLEThis act may be cited as the "General Appropriation Act of 2002".                   |
| 14 | Section 2. DEFINITIONSAs used in the General Appropriation Act of 2002:                                   |
| 15 | A. "agency" means an office, department, agency, institution, board, bureau, commission,                  |
| 16 | court, district attorney, council or committee of state government;                                       |
| 17 | B. "efficiency" means the measure of the degree to which services are efficient and                       |
| 18 | productive and which is often expressed in terms of dollars or time per unit of output;                   |
| 19 | C. "expenditures" means costs, expenses, encumbrances and other financing uses, other than                |
| 20 | refunds authorized by law, recognized in accordance with generally accepted accounting principles for the |
| 21 | legally authorized budget amounts and budget period;  |
| 22 | D. "explanatory" means information that can help users to understand reported performance                 |
| 23 | measures and to evaluate the significance of underlying factors that may have affected the reported       |
| 24 | information;  |
| 25 | E. "federal funds" means any payments by the United States government to state government or              |
|    |   |

agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;

F. "full-time equivalent" or "FTE" means one or more authorized positions that together receive compensation for not more than two thousand eighty-eight hours worked in fiscal year 2003. The calculation of hours worked includes compensated absences but does not include overtime, compensatory time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;

G. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal Mineral Lands Leasing Act receipts and those payments made in accordance with federal block grants and the federal Workforce Investment Act, but excludes the general fund operating reserve and the appropriation contingency fund;

H. "interagency transfers" means revenue, other than internal service funds, legally
transferred from one agency to another;

I. "internal service funds" means:

(1) revenue transferred to an agency for the financing of goods or services to another agency on a cost-reimbursement basis; and

(2) unencumbered balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2002;

J. "other state funds" means:

(1) unencumbered, nonreverting balances in agency accounts, other than in internal service funds accounts, appropriated by the General Appropriation Act of 2002;

(2) all revenue available to agencies from sources other than the general fund, internal service funds, interagency transfers and federal funds; and

(3) all revenue, the use of which is restricted by statute or agreement;

K. "outcome" means the measure of the actual impact or public benefit of a program;

L. "output" means the measure of the volume of work completed, or the level of actual services or products delivered by a program;

HAFC/H 2, 3, 4, 5 AND 6 – Page 2

1 2

3

4 5

6 7

8

M. "performance measure" means a quantitative or qualitative indicator used to assess a program;

3 4 or

1

2

5

6

7

8 9 N. "program" means a set of activities undertaken in accordance with a plan of action organized to realize identifiable goals and objectives based on legislative authorization;

0. "quality" means the measure of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a program;

P. "revenue" means all money received by an agency from sources external to that agency, net of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or as agent or trustee for other governmental entities or private persons;

15

16

17

18

[bracketed material] = deletion

Q. "target" means the expected level of performance of a program's performance measures; and R. "unforeseen federal funds" means a source of federal funds or an increased amount of federal funds that could not have been reasonably anticipated or known during the second session of the forty-fifth legislature and, therefore, could not have been requested by an agency or appropriated by the

legislature.

## Section 3. GENERAL PROVISIONS.--

A. Amounts set out under column headings are expressed in thousands of dollars.

B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" indicate an intergovernmental transfer and do not represent a portion of total state government appropriations. All information designated as "Totals" or "Subtotals" are provided for information and are not appropriations.

C. Amounts set out in Section 4 of the General Appropriation Act of 2002, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2003 for the objects expressed.

D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2002 shall

revert to the general fund by October 1, 2002, unless otherwise indicated in the General Appropriation Act of 2002 or otherwise provided by law.

E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2003 shall revert to the general fund by October 1, 2003, unless otherwise indicated in the General Appropriation Act of 2002 or otherwise provided by law.

F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.

G. Except as otherwise specifically stated in the General Appropriation Act of 2002, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2003. If any other act of the second session of the forty-fifth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2002 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.

H. In August, October, December and May of fiscal year 2003, the department of finance and administration, in consultation with the staff of the legislative finance committee and other agencies, shall prepare and present revenue estimates to the legislative finance committee. If these revenue estimates indicate that revenues and transfers to the general fund, excluding transfers to the general fund operating reserve, the appropriation contingency fund or the state-support reserve fund are not expected to meet appropriations from the general fund as of the end of fiscal year 2003, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.

I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from

1 2

3

4 5

6

7

unforeseen federal funds, state board of finance loans, revenue appropriated by other acts of the 1 2 legislature, or gifts, grants, donations, bequests, insurance settlements, refunds, or payments into 3 revolving funds exceeds specifically appropriated amounts may request budget increases from the state 4 budget division. If approved by the state budget division, such money is appropriated. In approving a budget increase from unforeseen federal funds, the director of the state budget division shall advise the 5 legislative finance committee as to the source of the federal funds and the source and amount of any 6 7 matching funds required.

J. For fiscal year 2003, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2002 or another act of the second session of the forty-fifth legislature provides for additional employees.

K. Except for gasoline credit cards used solely for operation of official vehicles and telephone credit cards used solely for official business, none of the appropriations contained in the General Appropriation Act of 2002 may be expended for payment of credit card invoices.

L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2002 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline; provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.

M. When approving operating budgets based on appropriations in the General Appropriation Act of 2002, the state budget division is specifically authorized to approve only those budgets that are in accordance with generally accepted accounting principles for the purpose of properly classifying other financing sources and uses, including interfund, intrafund and interagency transfers.

Section 4. FISCAL YEAR 2003 APPROPRIATIONS. -- Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in this section shall file a report with the state budget division and the

|      | General | State | Funds/Inter- | Federal |              |
| Item | Fund    | Funds | Agency Trnsf | Funds   | Total/Target |

legislative finance committee analyzing the agency's performance relative to the performance measures and 1 2 targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2003 for the remaining measures. The state budget division, in consultation 3 4 with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance 5 6 based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, 7 8 shall establish standards for the reporting of variances between actual and targeted performance levels. The quarterly and year-end reports for the period ending June 30, 2003, shall be filed with the state 9 10 budget division and the legislative finance committee on or before September 1, 2003.

It is the intent of the legislature to continue to improve implementation of the Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the General Appropriation Act of 2003. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based-program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2003. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2003 and to propose targets when submitting budget requests for fiscal year 2004.

In concert with the annual agency strategic planning process required by the state budget

11

division, the state budget division shall require the state agency on aging, human services department,
 labor department, department of health, and the children, youth and families department to coordinate
 their strategic plans, including internal and external assessments and development of programs and
 performance measures.

STATE COMMISSION OF PUBLIC RECORDS:

(1) Records, information and archival management:

The purpose of the records, information and archival management program is to develop, implement and provide tools, methodologies and services for use by and the benefit of governmental agencies, historical repositories and the public, so the state can effectively create, preserve, protect and properly dispose of records; facilitate their use and understanding; and protect the interests of the people of New Mexico.

2 (1) Regulation and licensing:

The purpose of the regulation and licensing program is to regulate the practices of engineering and 3 4 surveying in the state as they relate to the welfare of the public in safeguarding life, health and property, and to provide licensed professional engineers and licensed professional surveyors to 5 consumers of engineering and surveying services so they may be assured that only qualified licensees are 6 permitted to provide these services. 7

GAMING CONTROL BOARD:

(1) Gaming control:

The purpose of the gaming control program is to provide and produce strictly regulated gaming activities and promote responsible gaming to the citizens of New Mexico so they can attain a strong level of confidence in the board's administration of gambling laws and be assured the state has honest and competitive gaming free from criminal and corruptive elements and influences.

1 million dollars (\$1,000,000) to match seventeen and one-half percent of the cost of work undertaken by the United States army corps of engineers pursuant to the federal Water Resources Development Act of 3 1986 provided that no amount of this appropriation shall be expended for any project unless the 4 appropriate acequia system or community ditch has agreed to provide seven and one-half percent of the cost from any source other than the irrigation works construction fund or improvement of the Rio Grande 5 6 income fund and provided that no more than two hundred fifty thousand dollars (\$250,000) shall be 7 appropriated to any one acequia per fiscal year; (b) two hundred fifty thousand dollars (\$250,000) for planning, design, supervision of construction, and construction of approved acequia improvement projects in cooperation with the United States department of agriculture, department of interior, department of the army corps or other engineers; and (c) one hundred fifty thousand dollars (\$150,000) for the construction, improvement, repair and protection from floods the dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state, provided that not more than sixty thousand dollars (\$60,000) of this appropriation shall be used for any one community ditch. The state engineer may enter into cooperative agreements with the owners or commissioners of ditch associations to ensure that work is done in the most efficient and economical manner and may contract with the federal government or any of its agencies or instrumentalities that provide matching funds or assistance. No state funds other than loans may be used to meet the acequia's twenty percent share of the total cost of the project.

The appropriations to the irrigation works construction program of the state engineer include (a) grants, in such amounts as determined by the interstate stream commission, for construction, improvement, repair and protection from floods the dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state located on Indian land whether pueblo or reservation; (b) five hundred thousand dollars (\$500,000) for loans to irrigation districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements; and (c) five hundred thousand dollars (\$500,000) for small loans to acequias and community ditches for construction of improvements.

- Appropriations: 4,805.0 4,805.0

None of the money appropriated to the state engineer for operating or trust purposes shall be expended for primary clearing of vegetation in a phreatophyte removal project, except insofar as is required to meet the terms of the Pecos river compact between Texas and New Mexico. However, this prohibition shall not apply to removal of vegetation incidental to the construction, operation or maintenance of works for flood control or carriage of water or both.

The general fund and other state funds appropriations to the state engineer in the contractual services category are contingent upon the state engineer including performance measures in its contracts to increase contract oversight and accountability.

Revenue from the sale of water to United States' government agencies by New Mexico resulting from litigation settlement between New Mexico and the United States implemented by the conservation water agreement dated June 29, 2001, for calendar years 2001, 2002 and 2003 is appropriated to the state engineer for use as required by the conservation water agreement.

block grant to provide cash assistance grants to participants as defined in the New Mexico Works Act, including education grants, clothing allowances, in-plant training, temporary assistance for needy families, state-funded aliens and one-time diversion payments.

The appropriations to the income support program include fourteen million seven hundred fifty thousand dollars (\$14,750,000) from the temporary assistance for needy families block grant for support services, including ten million dollars (\$10,000,000) for job training and placement, two million five hundred thousand dollars (\$2,500,000) for a domestic violence program and two million two hundred fifty thousand dollars (\$2,250,000) for transportation services.

The appropriations to the income support program include thirty-eight million six hundred eightytwo thousand five hundred dollars (\$38,682,500) from the temporary assistance for needy families block grant for transfers to other agencies, including one million three hundred thousand dollars (\$1,300,000) to the state department of public education for teen pregnancy education and prevention, two million four hundred eighty-two thousand five hundred dollars (2,482,500) to the state department of public education for early childhood development, two hundred thousand dollars (\$200,000) for teen pregnancy programs, one million dollars (\$1,000,000) to the state department of public education for adult basic education, one million two hundred thousand dollars (\$1,200,000) to the commission on the status of women for the teamworks program, two million dollars (\$2,000,000) to the children youth and families department for adult protective services, twenty-nine million dollars (\$29,000,000) to the children youth and families department for child-care programs, five hundred thousand dollars (\$500,000) to the children youth and families department for child-care training services and one million dollars (\$1,000,000) to the department of health for substance abuse.

The general fund appropriations to the income support program of the human services department include five million dollars (\$5,000,000) for general assistance.

The human services department shall provide the department of finance and administration and the legislative finance committee quarterly reports on the expenditures of the federal temporary assistance

|      | General | State | Funds/Inter- | Federal |              |
| Item | Fund    | Funds | Agency Trnsf | Funds   | Total/Target |

The general fund appropriation to the child and adult protective services program of the children, youth and families department in the personal services and employee benefits category includes one million dollars (\$1,000,000) contingent on reducing the vacancy rate for the social and community service coordinator series to below eight percent.

Performance Measures:

| (a) Output:  | Number of children in foster care for twelve months with no |       |
|--------------|---|-------|
|              | more than two placements                                    | 2,400 |
| (b) Output:  | Number of children adopted within twenty-four months of     |       |
|              | entry in the foster care system                             | 95    |
| (c) Outcome: | Percent of children with repeat maltreatment                | 7%    |
| (d) Outcome: | Percent of children in care twelve months with no more than |       |
|              | two placements  | 90%   |
| (e) Outcome: | Percent of children adopted in less than twenty-four months |       |
|              | from entry into foster care                                 | 35%   |
| (f) Output:  | Number of adults with repeat maltreatment                   | 360   |
| (g) Output:  | Percent of adults with repeat maltreatment                  | 12%   |
|              |   |       |

(3) Prevention and intervention:

The purpose of the prevention and intervention program is to provide behavioral health, quality childcare and nutrition services to children so they can enhance physical, social and emotional growth and development and can access quality care.

Authorized FTE: 318.00 Permanent; 2.00 Term

The internal service funds/interagency transfers appropriation to the community offender management program of the corrections department includes five hundred thousand dollars (\$500,000) from the tobacco settlement program fund for a residential evaluation and treatment center as a sentencing alternative to incarceration for selected nonviolent prisoners and parole violators.

No more than one million dollars (\$1,000,000) of the general fund appropriation to the community offender management program of the corrections department shall be used for detention costs for parole violators.

The internal service funds/interagency transfers appropriation to the community offender management program of the corrections department includes two hundred fifty thousand dollars (\$250,000) from the tobacco settlement program fund for alternative sentencing treatment beds for women with substance abuse problems Performance Measures:

## J. HIGHER EDUCATION

On approval of the commission on higher education, the state budget division of the department of finance and administration may approve increases in the budgets of agencies in this section, with the exception of the commission on higher education, whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended or unencumbered balance remaining at the end of fiscal year 2003 shall not revert to the general fund.

COMMISSION ON HIGHER EDUCATION:

(1) Policy development and institutional financial oversight:

The purpose of the policy development and institutional financial oversight program is to provide a continuous process of statewide planning and oversight within the commission's statutory authority for

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2003 from appropriations made from the general fund shall revert to the general fund.

to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies benefits that can be quantified and nonrecurring costs and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon receiving certification from the chief information officer that identifies compliance with the information architecture and individual information and communication systems plans and the statewide information technology strategic plan. If the funds are 8 to continue on a project, the documentation shall include certification and written report by the chief information officer that the project is on schedule, approved project methodology has been followed, independent validation and verification contractor recommendations have been implemented, all funds previously allocated have been expended properly and additional funds are required. All hardware and software purchases funded through the base budget and the information technology funding recommendations shall be procured using consolidated purchasing led by the chief information officer to achieve economies of scale and to provide the state with the best unit price. The state chief information officer shall, no later than July 1, 2002, prepare a statewide architecture plan with input from major stakeholders, determine how the state's existing and proposed computer systems will fit into the plan and provide a five-year strategy for systems to comply with the proposed architecture. Appropriations for any development project shall include a turn-key solution with associated warranty that the state's need will be met upon implementation and acceptance of the system. The department of finance and administration shall provide a copy of the certification and all supporting documentation to the legislative finance committee.

One million dollars (\$1,000,000) is appropriated from cash balances remaining in the computer systems enhancement fund to provide a single statewide, centralized telecommunication backbone for state government based on asynchronous transfer mode technology. Funding is contingent on the state chief information officer coordinating with the general services department office of communications and preparing a statewide architectural plan and a network architecture plan no later than July 1, 2002. The state-owned digital microwave telecommunication system shall be used at all locations possible to enhance statewide telecommunications and leverage state-owned resources without incurring additional costs. The department of finance and administration shall require the state chief information officer to establish a separate account from which funds can be drawn to pay for expenditures after approval by the information technology commission. Funds shall not be released unless the state chief information officer has completed and the information technology commission has approved the statewide architectural plan and the network architectural plan. The state chief information officer shall provide monthly written reports to the information technology commission, information technology oversight committee, and the legislative finance committee.

(8) DEPARTMENT OF FINANCE AND

ADMINISTRATION:

To plan, design and implement a statewide New Mexico portal that will allow citizens query capabilities about government information and services followed by transaction capabilities from a central location.

1 The department of finance and administration shall establish a special account from which funds can be 2 drawn to pay for expenditures after approval by the information technology commission. The information 3 technology commission shall approve expenditures for implementation only after approving the project 4 plan, the design of the statewide portal and the statewide architectural plan. The state chief 5 information officer shall provide monthly written reports to the information technology commission, 6 information technology oversight committee, and the legislative finance committee.

## (9) DEPARTMENT OF FINANCE AND

ADMINISTRATION:

9 The period of time for expending the one million five hundred thousand dollars (\$1,500,000) appropriated
0 from the computer systems enhancement fund contained in Item (5) of Section 8 of Chapter 64 of Laws 2001
1 to create a virtual one-stop workforce information and service delivery center is extended through
2 fiscal year 2003.

(10) DEPARTMENT OF FINANCE AND

ADMINISTRATION:

The period of time for expending the five hundred thousand dollars (\$500,000) appropriated from the computer systems enhancement fund contained in Item (8) of Section 8 of Chapter 64 of Laws 2001 to develop a nonvendor specific statewide integrated, interoperable and interactive state immunization information system capable of sharing data with all entities that gather and maintain health-related data is extended through fiscal year 2003. The project shall comply with state technology standards and open architecture standards. Any balances remaining at the end of the project may be used for the Health Insurance Portability and Accountability Act technology requirements for state health agencies. (11) EDUCATIONAL RETIREMENT BOARD: 2,000.0 2,000.0 To complete implementation of an off-the-shelf solution for managing educational retirement membership information. The appropriation is from the educational retirement fund. The period of time for expending the three million dollars (\$3,000,000) appropriated from the educational retirement fund

classes; may request budget increases from internal service funds/interagency transfers in excess of the four percent limitation as stated in Laws 2001, Chapter 64, Section 11 (D) to implement the mandates of Laws 2001, Chapter 330; and may request budget increases from internal service funds/interagency transfers in excess of the four percent limitation as stated in Laws 2001, Chapter 64, Section 11 (D) for costs associated with the inmate forestry work camp;

(KK) the department of public safety may request transfers to and from the contractual services category for all programs to address employee relocation expenses, medical and psychological examinations, crime lab accreditation requirements, personal services and employee benefits shortfalls, telecommunications expenses and administrative support; and may request budget increases from state forfeitures and forfeiture balances to address the enforcement of the controlled substance act; and

(LL) the state highway and transportation department may request program transfers of up to two million two hundred and sixty-three thousand dollars (\$2,263,000) of local government road fund from the maintenance program to the construction program, and may request the transfer of two million nine hundred twenty-nine thousand eight hundred dollars (\$2,929,800) and four million three hundred fiftynine thousand one hundred dollars (\$4,359,100) from program support to the construction program and maintenance program, respectively.

## Section 9. CERTAIN FISCAL YEAR 2003 BUDGET ADJUSTMENTS AUTHORIZED. --

A. As used in this section:

(1) "budget category" means an item or an aggregation of related items that represents the object of an appropriation. Budget categories include personal services and employee benefits, contractual services, other and other financing uses;

(2) "budget increase" means an approved increase in expenditures by an agency from a specific source;

1

2

|      |         | Other | Intrnl Svc   |         |                     |
|------|---------|-------|--------------|---------|---------------------|
|      | General | State | Funds/Inter- | Federal |                     |
| Item | Fund    | Funds | Agency Trnsf | Funds   | <u>Total/Target</u> |

 (3) "category transfer" means an approved transfer of funds from one budget category to another budget category, provided that a category transfer does not include a transfer of funds between divisions;

(4) "division transfer" means an approved transfer of funds from one division of an agency to another division of that agency, provided that the annual cumulative effect of division transfers shall not increase or decrease the appropriation to any division by more than seven and one-half percent;

(5) "program transfer" means an approved transfer of funds from one program of an agency to another program of that agency, provided that the annual cumulative effect of program transfers shall not increase or decrease the appropriation to any program by more than seven and one-half percent; and

(6) "federal funds" means any payments by the United States government to state government or agencies except those payments made in accordance with the federal Mineral Lands Leasing Act and except those payments made in accordance with the federal temporary assistance for needy families block grant and the federal Workforce Investment Act of 1998.

B. Budget adjustments are authorized pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978 for fiscal year 2003.

C. Except as otherwise provided, all agencies, including legislative agencies, may request category transfers among personal services and employee benefits, other and other financing uses.

D. An agency with internal service funds/interagency transfers appropriations or other state funds appropriations that collects money in excess of those appropriated may request budget increases in an amount not to exceed four percent of its internal service funds/interagency transfers or other state funds appropriation contained in Section 4 of the General Appropriation Act of 2002.

E. In order to track the four percent transfer limitation outlined in Subsection D of this section, agencies must report cumulative budget adjustment request totals on each budget adjustment

|      | General | State | Funds/Inter- | Federal |              |
| Item | Fund    | Funds | Agency Trnsf | Funds   | Total/Target |

internal services funds/interagency transfers in excess of the four percent limitation contained here within for costs associated with the inmate forestry work camp;

(28) the department of public safety may request budget increases from other state funds and internal service funds/interagency transfers, and may request budget increases from state forfeitures and forfeiture balances to address the enforcement of the controlled substance act; and

(29) The deficiencies corrections unit may request transfers to and from the contractual services category.

G. The department of military affairs, the department of public safety and the energy, minerals and natural resources department may request budget increases from the general fund as required by an executive order declaring a disaster or emergency.

Section 10. TRANSFER AUTHORITY.--If revenues and transfers to the general fund, excluding transfers to the general fund operating reserve, appropriation contingency fund, tax stabilization reserve and public school state-support reserve, as of the end of fiscal year 2002, are not sufficient to meet appropriations, the governor, with state board of finance approval, may transfer at the end of that year the amount necessary to meet the year's obligations from the unencumbered balance remaining in the general fund operating reserve in a total not to exceed one hundred fifteen million dollars (\$115,000,000).

Section 11. **SEVERABILITY.**--If any part or application of this act is held invalid, the remainder or its application to other situations or persons shall not be affected.
