SUMMARY

Synopsis of Bill

HB 486 would allow racetrack casinos to increase the hours of operations at their casinos from 12 hours to 16 hours per day, not to exceed 100 hour per week. The 100 hours per week cap could be exceeded for holidays.

Significant Issues

The racetrack casinos would be allowed to increase their weekly hours of operations by 19% from current levels.

FISCAL IMPLICATIONS

Analysts have assumed a 19% increase in operations will translate into a 10 % increase revenues. A risk to this estimate is the competition from the gaming tribes. People have only a fixed amount of leisure. At a certain point, they will have enough opportunity to satiate their desire to gamble.
