has had it under consideration and reports same with recommendation that it DO PASS, amended as follows:

1. The following senate finance committee amendments be DISAPPROVED:

No. 1.

2. The following senate finance committee amendments be APPROVED:

Nos. 2 and 3.

and that the bill be amended further as follows:

- 3. On page 6, between lines 7 and 8, insert the following subsection:
- "P. Notwithstanding the requirement in the General Appropriation Act of 2004 to follow the modified accrual basis of accounting for governmental funds, in the transition period of converting to the modified accrual basis, upon the review of the legislative finance committee, the department of finance and administration may extend the period for expending an appropriation made in the General Appropriation Act of 2004 beyond June 30, 2005 by approving a budget for all or a portion of the unexpended amount of that appropriation in fiscal year 2006 if the secretary of finance and administration finds that:
- (1) there are likely to be unpaid costs and expenses covered by binding written obligations to third parties as of June 30, 2005; or
- (2) the purpose of the appropriation will not be satisfied by the goods and services delivered as of June 30, 2005; there is no money appropriated for fiscal year 2006 to complete the purpose of the appropriation; and the state will suffer a pecuniary loss if the purpose of the appropriation is not satisfied.".
 - 4. Reletter the succeeding subsection accordingly.

The general fund appropriation to the developmentally disabled community services program of the department of health in the other financing uses category includes five million dollars (\$5,000,000) to offset changes in the federal medical assistance percentage for existing developmental disabilities medicaid waiver services. The disbursement to the agency is contingent upon certification from the secretary of the human services department and the secretary of the department of health to the department of finance and administration and review by the legislative finance committee that the funding in the base budget for this purpose has been expended and additional funds are required to offset changes in the federal medical assistance percentage for existing developmental disabilities medicaid waiver services.

The general fund appropriation to the developmentally disabled community services program of the department of health in the other financing uses category includes two million dollars (\$2,000,000) for expenditure in fiscal years 2006 and 2007 for anticipated services allotted for individual service plans, annual resource allocations and associated services for developmental disabilities medicaid waiver clients that may be encumbered by the department of health. If Senate Bill 600 of the first session of the forty-seventh legislature or similar legislation allowing a thirty-day good behavior sentence reduction for technical parole violators is not enacted, two hundred seventy-seven thousand four hundred dollars (\$277,400) is appropriated from the general fund operating reserve to the corrections department.

The general fund appropriations to the inmate management and control program of the corrections department include thirty million four hundred forty-nine thousand nine hundred dollars (\$30,449,900) for medical services, a comprehensive medical contract and other health-related expenses.

The appropriations in the inmate management and control program allow for the implementation of the federal Fair Labor Standards Act provisions allowing the payment of overtime after eighty-four hours in a fourteen-day period for correctional officers.

Seven hundred fifty thousand dollars (\$750,000) is appropriated from the appropriation contingency fund to the state board of finance for disbursement to the corrections department. Disbursement is contingent upon certification by the department to the board of finance that inmate population growth exceeded the growth assumed within the fiscal year 2006 appropriation. The corrections department shall present to the secretary of finance and administration justification for requesting disbursement of funds from this appropriation and demonstrate that all austerity measures have been taken to internally manage inmate population growth.

The general fund appropriations to the inmate and management control program of the corrections department include six hundred thousand dollars (\$600,000) to provide a salary increase inclusive of employee benefits and associated administrative costs for correctional officers employed by private contractors housing a population of not less than ninety percent state male or female inmates.

J. HIGHER EDUCATION

On approval of the commission on higher education, the state budget division of the department of finance and administration may approve increases in budgets of agencies, in this section, with the exception of the policy development and institutional financial oversight program of the commission on higher education, whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended or unencumbered balance remaining at the end of fiscal year 2006 shall not revert to the general fund.

COMMISSION ON HIGHER EDUCATION:

(1) Policy development and institutional financial oversight:

The purpose of the policy development and institutional financial oversight program is to provide a continuous process of statewide planning and oversight within the commission's statutory authority for the higher education partners to ensure both the efficient use of state resources and progress in implementing the public agenda.

The purpose of public school support is to carry out the mandate to establish and maintain a uniform system of free public schools sufficient for the education of, and open to, all the children of school age in the state.

(1) State equalization guarantee distribution:

Appropriations: 1,967,762.3 1,300.0 1,969,062.3

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit

value determined by the secretary of the public education department. The secretary of the public education department shall establish a preliminary unit value to establish budgets for the 2005-2006 school year and then, upon verification of the number of units statewide for fiscal year 2006 but no later than January 31, 2006, the secretary of the public education department may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution includes fifty-one million eight hundred thousand dollars (\$51,800,000) to implement the forty thousand dollar (\$40,000) minimum salary for level two and level three-A teachers. To allocate to each school district and charter school the amount needed to provide the required minimum salary for all eligible level two and level three-A teachers, the secretary of the public education department shall establish a unit value for fiscal year 2006 without including the fifty-one million eight hundred thousand dollars (\$51,800,000) in the calculation. After verifying the amount needed by each school district and charter school, the secretary of the public education department shall use the fifty-one million eight hundred thousand dollars (\$51,800,000) to adjust program cost to allocate the verified amount to each school district and charter school.

The secretary of the public education department, in collaboration with the department of finance and administration office of educational accountability, shall ensure all level two and level three-A teachers receiving salary increases under the three-tiered minimum salary have been evaluated under the tiered licensure evaluation system and have the professional competencies of level two and level three-A teachers. The secretary of the public education department shall withhold from the public school district distribution funding for minimum salaries for any teacher that has not been evaluated. The secretary of the public education department shall report the findings to the legislative education study committee and legislative finance committee by July 1, 2005.

The general fund appropriation for the state equalization guarantee distribution includes one million nine hundred thousand dollars (\$1,900,000) for raising the minimum salaries of educational assistants to twelve thousand dollars (\$12,000) effective July 1, 2005. If House Bill 137 or similar legislation of the first session of the forty-seventh legislature is enacted, the one million nine hundred thousand dollars (\$1,900,000) will be applied to the implementation of the tiered licensure system for educational assistants.

To fund elementary fine arts programs for fiscal year 2006, the public education department shall distribute the general fund appropriation based on a cost differential of .05 multiplied by a 0.8 full-time-equivalent MEM.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

For the 2005-2006 school year, the state equalization guarantee distribution contains sufficient funding for school districts implementing a formula-based program for the first time. Those districts shall use current year membership in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenues pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et seq., and formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Prior to the approval of school district and charter school budgets for fiscal year 2006, the secretary of the public education department shall verify that each local school board is providing a one and one-quarter percent salary increase for teachers not receiving an increase as a result of the three-tiered minimum salaries, all instructional staff and all other certified and noncertified employees, and bringing all level two and three-A teachers and those teachers moving from level one to level two to a minimum salary increase of forty thousand dollars (\$40,000).

The general fund appropriation to the state equalization guarantee distribution includes six million two hundred fifty-two thousand five hundred dollars (\$6,252,500) for a one and one-quarter percent salary increase for teachers not receiving an increase as a result of the three-tiered minimum salaries and two million three hundred eighty-one thousand nine hundred dollars (\$2,381,900) for instructional staff and five million three hundred seventy-two thousand seven hundred dollars (\$5,372,700) for all other certified and noncertified employees effective July 1, 2005.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2006 from appropriations made from the general fund shall revert to the general fund.
