1	SENATE BILL 190
2	47TH LEGISLATURE - STATE OF NEW MEXICO - FIRST SESSION, 2005
3	INTRODUCED BY
4	Joseph A. Fidel
5	
6	
7	
8	
9	
10	AN ACT
11	MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW.
12	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:
13	Section 1. SHORT TITLEThis act may be cited as the "General Appropriation Act of 2005".
14	Section 2. DEFINITIONSAs used in the General Appropriation Act of 2005:
15	A. "agency" means an office, department, agency, institution, board, bureau, commission,
16	court, district attorney, council or committee of state government;
17	B. "efficiency" means the measure of the degree to which services are efficient and
18	productive and is often expressed in terms of dollars or time per unit of output;
19	C. "explanatory" means information that can help users to understand reported performance
20	measures and to evaluate the significance of underlying factors that may have affected the reported
21	information;
22	D. "federal funds" means any payments by the United States government to state government or
23	agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;
24	E. "full-time equivalent" or "FTE" means one or more authorized positions that alone or
25	together receives or receive compensation for not more than two thousand eighty-eight hours worked in

- fiscal year 2006. The calculation of hours worked includes compensated absences but does not include overtime, compensatory time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;
- F. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal Mineral Lands Leasing Act receipts and those payments made in accordance with the federal block grant and the federal Workforce Investment Act, but excludes the general fund operating reserve, the appropriation contingency fund, the tax stabilization reserve and any other fund, reserve or account from which general appropriations are restricted by law;
- G. "interagency transfers" means revenue, other than internal service funds, legally transferred from one agency to another;
- H. "internal service funds" means:
- (1) revenue transferred to an agency for the financing of goods or services to another agency on a cost-reimbursement basis; and
- (2) unencumbered balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2005;
 - I. "other state funds" means:
- (1) unencumbered, nonreverting balances in agency accounts, other than in internal service funds accounts, appropriated by the General Appropriation Act of 2005;
- (2) all revenue available to agencies from sources other than the general fund, internal service funds, interagency transfers and federal funds; and
 - (3) all revenue, the use of which is restricted by statute or agreement;
 - J. "outcome" means the measure of the actual impact or public benefit of a program;
- K. "output" means the measure of the volume of work completed, or the level of actual services or products delivered by a program;
- L. "performance measure" means a quantitative or qualitative indicator used to assess a program;

- M. "quality" means the measure of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a program;
- N. "revenue" means all money received by an agency from sources external to that agency, net of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or as agent or trustee for other governmental entities or private persons; and
 - O. "target" means the expected level of performance of a program's performance measures. Section 3. GENERAL PROVISIONS.--
 - A. Amounts set out under column headings are expressed in thousands of dollars.
- B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" are intergovernmental transfers and do not represent a portion of total state government appropriations. All information designated as "Total" or "Subtotal" is provided for information and amounts are not appropriations.
- C. Amounts set out in Section 4 of the General Appropriation Act of 2005, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2006 for the objects expressed.
- D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2005 shall revert to the general fund by October 1, 2005, unless otherwise indicated in the General Appropriation Act of 2005 or otherwise provided by law.
- E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2006 shall revert to the general fund by October 1, 2006, unless otherwise indicated in the General Appropriation Act of 2005 or otherwise provided by law.
- F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any

operating budget reduced pursuant to this subsection.

- G. Except as otherwise specifically stated in the General Appropriation Act of 2005, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2006. If any other act of the first session of the forty-seventh legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2005 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.
- H. The department of finance and administration will regularly consult with the legislative finance committee staff to compare fiscal year 2006 revenue collections with the revenue estimate. If the analyses indicate that revenues and transfers to the general fund are not expected to meet appropriations, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.
- I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds or payments into revolving funds which exceeds specifically appropriated amounts may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated.
- J. Pursuant to Section 6-4-2 NMSA 1978, federal funds received during fiscal year 2006 and not specifically appropriated shall be subject to future appropriation by the legislature provided, however, that an agency may request a budget increase during fiscal year 2006 from the state budget division if the agency submits documentation to the state budget division and to the legislative finance committee showing that all of the following five requirements have been met:
- (1) the requested budget increase is for federal funds the amount of which could not have been reasonably anticipated or known during the first session of the forty-seventh legislature and,

- 1 therefore, could not have been requested by the agency or appropriated by the legislature;
 - (2) the federal law authorizing the disbursement of the federal funds to the state requires the funds to be expended for specific programs or specific governmental functions without leaving a policy choice to the state of how the funds are to be expended;
 - (3) the state has no discretion as to the programs or governmental functions for which the federal funds will be expended;
 - (4) the executive branch has had no input into the selection of the programs or governmental functions for which the federal funds are required to be expended; and
 - (5) due to the emergency nature of the purpose of the federal funds or the likelihood that the federal funds will be unavailable in the future, the funds need to be budgeted and expended before the second session of the forty-seventh legislature.
 - K. For fiscal year 2006, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2005 or another act of the first session of the forty-seventh legislature provides for additional employees.
 - L. Except for gasoline credit cards used solely for operation of official vehicles, telephone credit cards used solely for official business and procurement cards used as authorized by Section 6-5-9.1 NMSA 1978, none of the appropriations contained in the General Appropriation Act of 2005 may be expended for payment of agency-issued credit card invoices.
 - M. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2005 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.
 - N. For the purpose of administering the General Appropriation Act of 2005, the state of New Mexico shall follow the modified accrual basis of accounting for governmental funds in accordance with the

manual of m	manual of model accounting practices issued by the department of finance and administration.							
	O. When approving budge	ets based on appropriation	s in the General Appropriation Act of 2005,					
the state b	udget division is specif	ically authorized to appro	ve budgets in accordance with generally					
accepted ac	counting principles and	the authority to extend th	e availability period of an appropriation					
through the	use of an encumbrance s	hall follow the modified a	ccrual basis of accounting for governmental					
funds in ac	cordance with the manual	of model accounting pract	ices issued by the department of finance and					
administrat	ion.							
Secti	on 4. FISCAL YEAR 2006	APPROPRIATIONSFor those	agencies in this section not providing					
quarterly r	eports pursuant to 6-3A-	9 NMSA 1978, the state bud	get division, in consultation with the					
legislative	finance committee, shou	ld develop a schedule and	procedures for reporting performance results.					
Unless expl	icitly stated otherwise,	each of the program measu	res and the associated targets contained in					
this section	n reflect performance to	be achieved for fiscal ye	ar 2006. In cases where there are no targets					
for output,	outcome, efficiency or	quality measures, agencies	are expected to develop baseline data during					
fiscal year	2006 and to propose tar	gets when submitting budge	t requests for fiscal year 2007.

Funds

The other state funds appropriation to the educational retirement board in the contractual services category includes five hundred twenty five thousand dollars (\$525,000) for payment of custody services associated with the fiscal agent contract to the state board of finance upon monthly assessments. Any unexpected or unencumbered balance in the state board of finance remaining at the end of the fiscal year

category includes fourteen million eight hundred eight thousand dollars (\$14,808,000) to be used only for

2006 from this appropriation shall revert to the educational retirement board fund.

The appropriations to the irrigation works construction program of the state engineer include grants, in such amount as determined by the interstate stream commission, for construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state on Indian land, whether pueblo or reservation.

The interstate stream commission's authority to make loans for irrigation improvements includes five hundred thousand dollars (\$500,000) for loans to acequias, irrigation and conservancy districts. The interstate stream commission's authority also includes five hundred thousand dollars (\$500,000) for loans to irrigation districts, conservancy districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements.

The appropriations to the income support program of the human services department include twelve million eight hundred thousand dollars (\$12,800,000) from the federal temporary assistance for needy families block grant for administration of the New Mexico Works Act.

The appropriations to the income support program of the human services department include eighteen million five hundred fifty-three thousand one hundred dollars (\$18,553,100) from the general fund and fifty-six million seven hundred ninety-six thousand nine hundred dollars (\$56,796,900) from the federal temporary assistance for needy families block grant to provide cash assistance grants to participants as defined in the New Mexico Works Act, including education grants, clothing allowances, wage subsidies, one-time diversion payments and state-funded aliens payments.

The appropriations to the income support program of the human services department include thirteen million ninety thousand dollars (\$13,090,000) from the federal temporary assistance for needy families block grant for support services, including nine million seven-hundred fifty thousand dollars (\$9,750,000) for job training and placement, one million six hundred thirteen thousand eight hundred dollars (\$1,613,800) for a domestic violence program, nine hundred thousand dollars (\$900,000) for transportation services and eight hundred twenty-six thousand two hundred dollars (\$826,200) for a family-strengthening and fatherhood program.

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

The appropriations to the income support program of the human services department include thirty-nine million four hundred twenty-two thousand two hundred dollars (\$39,422,200) from the temporary assistance for needy families block grant for transfers to other agencies, including one million three hundred thousand dollars (\$1,300,000) to the public education department for teen pregnancy education and prevention, two hundred fifty thousand dollars (\$250,000) to the commission on higher education for adult basic education programs, two hundred fifty thousand dollars (\$250,000) to the children, youth and families department for childcare training, two million dollars (\$2,000,000) to the children, youth and families department for adult protective services, thirty-two million four hundred seventy-two thousand two hundred dollars (\$32,472,200) to the children, youth and families department for childcare programs, six hundred thousand dollars (\$600,000) to the children, youth and families department for domestic violence programs, eight hundred fifty thousand dollars (\$850,000) to the department of health for substance abuse programs, one million two hundred thousand dollars (\$1,200,000) to the commission on the status of women for the teamworks program, and five hundred thousand dollars (\$500,000) to the aging and long term care services department for the gold mentor program.

The appropriations to the income support program of the human services department include four million five hundred sixty-five thousand five hundred dollars (\$4,565,500) from the general fund and five hundred thousand dollars (\$500,000) other state funds for general assistance.

The human services department shall provide the department of finance and administration and the legislative finance committee quarterly reports on the expenditures of the federal temporary assistance for needy families block grant and the state maintenance-of-effort expenditures.

The federal funds appropriation to the income support program includes five million dollars (\$5,000,000) prior year carry-over from the federal temporary assistance for needy families block grant. If some or any part of this fund balance is unavailable, then an amount equal to the unavailable portion up to a maximum of five million dollars (\$5,000,000) may be transferred from the appropriation contingency fund to the income support program of the human services department after certification of need to and

Funds

The general fund appropriation to the developmentally disabled community services program of the department of health in the other financing uses category includes nine million two hundred sixty-eight thousand four hundred dollars (\$9,268,400) to offset changes in the federal medical assistance percentage for existing services. The disbursement to the agency is contingent upon certification from the secretary of the human services department and the secretary of the department of health to the department of finance and administration that the funding in the base budget for this purpose has been expended and additional funds are required to offset changes in the federal medical assistance percentage for existing services.

Performance measures:

Item

(a) Outcome:	Rate of abuse, neglect and exploitation per one hundred	
	clients in community-based long-term care programs as

Funds

By September 1, 2005, the commission on higher education shall report time series data to the office of the governor, public education department, department of finance and administration and legislative finance committee on performance measures and targets for recruitment, enrollment, retention and graduation rates for Native American and Hispanic students. The commission on higher education shall provide an action plan by institution to achieve targeted results.

Any unexpended or unencumbered balance in the policy development and institutional financial oversight program remaining at the end of fiscal year 2006 from appropriations made from the general fund shall revert to the general fund.

Performance measures:

Item

(a) Efficiency:	Percent of properly completed capital infrastructure draws	
	released to the state board of finance within thirty days	
	of receipt from the institutions	90%
(b) Output:	Number of outreach services and events provided to	
	secondary schools and students related to college	
	readiness, college preparation curriculum and financial aid	100

(2) Student financial aid:

The purpose of the student financial aid program is to provide access, affordability and opportunities for success in higher education to students and their families so that all New Mexicans can benefit from postsecondary education and training beyond high school.

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary shall establish a preliminary unit value to establish budget for the 2005-2006 school year and then, upon verification of the number of units statewide for fiscal year 2006 but no later than January 31, 2006, the secretary of public education may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funding to provide a one and one-quarter percent salary increase for teachers except those receiving salary increases from minimum salary requirements of three-tiered licensure, other instructional staff, and other certified staff and noncertified staff, effective July 1, 2005.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funding to provide a three-quarter percent increase in the employer contribution to the education retirement fund.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenues pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et seq., and formerly known as "PL874 funds".

1	The general fun	d appropriation to the public school fund shall be reduced by the amounts	transferred				
2	to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act						
3	receipts otherwise unappropriated.						
4	Any unexpended	or unencumbered balance in the distributions authorized remaining at the ϵ	end of fiscal				
5	year 2006 from appro	priation made from the general fund shall revert to the general fund.					
6	The purpose of	public school support is to carry out the mandate to establish and maintai	n a uniform				
7	system of free public schools sufficient for the education of, and open to, all the children of school age						
8	in the state.

- (8) seventy-six thousand two hundred dollars (\$76,200) to provide teachers in the department of health, corrections department, children, youth and families department and commission for the blind with a one and one quarter percent salary increase; and
- (9) one hundred and twenty-two thousand six hundred dollars (\$122,600) to provide permanent legislative employees, including permanent employees of the legislative council service, legislative finance committee, legislative education study committee, legislative maintenance department, the house and senate, and house and senate leadership staff with a one and one quarter percent salary increase.
- B. Thirteen million eight hundred ninety three thousand four hundred dollars (\$13,893,400) is appropriated from the general fund to the commission on higher education for expenditure in fiscal year 2006 to provide faculty and staff of four- and two-year post-secondary educational institutions with a two percent salary increase. The salary increase shall be effective the first full pay period after July 1, 2005.
- C. The department of finance and administration shall distribute a sufficient amount to each agency to provide the appropriate increase for those employees whose salaries are received as a result of the general fund appropriations in the General Appropriation Act of 2005. Any unexpended or unencumbered balance remaining at the end of fiscal year 2006 shall revert to the general fund.
- D. For those state employees whose salaries are referenced in or received as a result of non-general fund appropriations in the General Appropriation Act of 2005, the department of finance and administration shall transfer from the appropriate fund to the appropriate agency the amount required for the salary increases equivalent to those provided for in this section, and such amounts are appropriated for expenditure in fiscal year 2006. Any unexpended or unencumbered balance remaining at the end of fiscal year 2006 shall revert to the appropriate fund.
 - Section 9. SEVERABILITY. - If any part or application of this act is held invalid, the remainder or
