SUMMARY

  Synopsis of Bill

House Bill 467 recompiles existing emergency acts relating to emergency management and combines them into one emergency powers code.

PERFORMANCE IMPLICATIONS

DPS reports the recompilation and establishment of the emergency powers code will facilitate references, procedures and processes during an emergency or disaster. They state this will be a benefit to emergency management.

EMNRD states the proposed legislation would bring together disaster relief funding, interstate compacts on emergency management assistance, civil preparedness, public health emergency response, energy emergency powers, and riot control and hazardous materials law.

ADMINISTRATIVE IMPLICATIONS

DPS reports the existing plans and procedures referencing statute will need revision to reflect new cites.

EMNRD states the recompilation would not have administrative implications due to current computer technology allowing for efficient access to needed statutory information.
