

A JOINT MEMORIAL

REQUESTING THAT THE GOVERNOR DESIGNATE SEPTEMBER 23, 2007 AS
"NATIVE PLANT DAY" IN NEW MEXICO.

WHEREAS, the state of New Mexico contains a greater number of plant habitats than nearly any other state in the United States, from Chihuahuan desert to alpine tundra; and

WHEREAS, New Mexico also supports a larger number of native plant species than nearly any other state in the United States; and

WHEREAS, some of these species are found nowhere else on earth; and

WHEREAS, these native plants support a great variety of birds and animals, both native and domestic; and

WHEREAS, the modern way of life inadvertently destroys natural habitats and introduces noxious weeds, which in turn replace native forage, which is the state's natural heritage; and

WHEREAS, in every season, New Mexicans enjoy the beauty and variety of these native plants, from sunflowers and purple asters to cacti and exotic yucca plants; and

WHEREAS, there is increasing concern that many of these native plants may be destroyed or eradicated because they are not well-known;

NOW, THEREFORE, BE IT RESOLVED BY THE LEGISLATURE OF THE

STATE OF NEW MEXICO that the governor be requested to designate September 23, 2007 as "Native Plant Day" in New Mexico to showcase the natural heritage of plants that New Mexico provides for its residents and visitors; and

BE IT FURTHER RESOLVED that copies of this memorial be transmitted to the governor and to the president of the native plant society of New Mexico.
