AN ACT

RELATING TO HEALTH; REVISING DEADLINES FOR PUBLICATION OF THE
COMPREHENSIVE STRATEGIC PLAN FOR HEALTH AND FOR UPDATES AND
AMENDMENTS TO THE PLAN.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. Section 9-7-4.1 NMSA 1978 (being Laws 2004,
Chapter 51, Section 1) is amended to read:

"9-7-4.1. COMPREHENSIVE STRATEGIC PLAN FOR HEALTH.--

A. The department, in conjunction with the New
Mexico health policy commission and other state agencies,
pursuant to Section 9-7-11.1 NMSA 1978, shall develop a
comprehensive strategic plan for health that emphasizes
prevention, personal responsibility, access and quality.

B. The department shall publish the comprehensive
strategic plan for health by September 1, 2008 and every four
years thereafter. By September 1 of each even-numbered year,
the department shall review and update or amend the plan in
response to changes and developments.

C. The department shall include the legislature,
health care providers, consumer and patient advocates, health
care financing organizations, managed care organizations,
major insurers in the state, the human services department,
the children, youth and families department, the aging and
long-term services department, pharmaceutical manufacturers

1 and other stakeholders in its development of the
2 comprehensive strategic plan for health so as to give
3 geographic representation to all areas of the state. The
4 department shall ensure that public participation and public
5 input are integrated into the planning process. The
6 department shall convene regional meetings on the proposed
7 plan to allow public review and comment, including oral and
8 written testimony, pursuant to the Open Meetings Act.

9 D. The department shall consult with the
10 governments of Indian nations, tribes and pueblos located
11 wholly or partially within New Mexico to include Indian
12 nations, tribes and pueblos in the development of the
13 comprehensive strategic plan for health.

14 E. The department shall report its findings,
15 recommendations and goals in its comprehensive strategic plan
16 for health. The plan shall address the following areas and
17 others that the governor and the legislature may from time to
18 time request:

19 (1) a summary of the state's health care
20 system that includes the financial, administrative and
21 delivery structure in both the public and private sector;

22 (2) the diseases, injuries and risk factors
23 for physical, behavioral and oral health that are the
24 greatest cause of illness, injury or death in the state, with
25 special attention to and recognition of the disparities that

1 currently exist for different population groups;

2 (3) key indicators of and barriers to health
3 care coverage and access, with specific emphasis on reducing
4 the number of uninsured New Mexicans;

5 (4) the role of the department, other state
6 agencies and the private sector in identifying strategies and
7 interventions to provide health care coverage, access and
8 quality;

9 (5) a continuum of care model that
10 emphasizes prevention, early intervention and health
11 promotion and that includes public health services, emergency
12 medical services, primary care, acute care, specialized care,
13 tertiary care and long-term care;

14 (6) health education, wellness, nutrition
15 and exercise initiatives that emphasize personal health
16 responsibility;

17 (7) workforce initiatives to identify,
18 recruit and retain health care professionals;

19 (8) health care facility infrastructure,
20 capacity, capitalization and financial viability in both the
21 public and private sector;

22 (9) licensing, credentialing, oversight and
23 tracking initiatives designed to improve health care quality
24 and outcome measurements;

25 (10) programs, services and activities

1 designed to address the needs of the disabled, elderly and
2 other special-needs populations;

3 (11) anticipated demands and challenges on
4 the health care system as the need for long-term care
5 services increases;

6 (12) data and information addressing key
7 health status and system indicators, statistics, benchmarks,
8 targets and goals for the state and comparing it nationally,
9 regionally and to other states of similar size and
10 demographics; provided that individually identifiable health
11 information and other proprietary information is protected as
12 required by state or federal law; and

13 (13) planning and response to public health
14 emergencies, including bioterrorism, pandemic flu, disease
15 outbreaks and other situations that will require a coordinated
16 response by the health care system."
