Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

House Bill 372/aHCPAC/aHAFC - Page 2

SUMMARY

Synopsis of HAFC Amendment

The House Appropriations and Finance Committee amended House Bill 372 changing the appropriation to the Low-Income Home Energy Assistance Program (LIHEAP) from \$9 million to \$6 million. This appropriation is identical to the appropriation for Senate Bill 323 that has passed the Senate.

Synopsis of HCPAC Amendment

The House Consumer and Public Affairs Committee amended House Bill 372 which makes the appropriation a nonrecurring appropriation and reverts the balance at the end of FY2007 to the general fund.

Synopsis of Original Bill

House Bill 372 appropriates \$9 million from the general fund to the gasoline and home heating relief fund for expenditure in FY07 and subsequent years. The money in the fund is to be used for the low-income home energy assistance program (LIHEAP), a program administered by Human Services Department (HSD) with state and federal funds.

HSD:

LIHEAP is a grant from US Department of Health and Human Services (HHS) that helps NM low-income families meet the costs of home heating and cooling one time per year and increase energy self-sufficiency and reduce vulnerability resulting from energy needs. HB372 adds general fund to supplement the federal funds available for this purpose.

This bill has an emergency clause and so will take effect immediately upon signing.

FISCAL IMPLICATIONS

As amended, the appropriation of \$9 million contained in this bill is a NONRECURRING expense to the GENERAL FUND. Any unexpended or unencumbered balance remaining at the end of each fiscal year shall revert to the GENERAL FUND.

SIGNIFICANT ISSUES

In the 2005 special session, \$25 million was appropriated to Human Services Division (HSD) to administer LIHEAP. The session also created the Gasoline and Home Heating Relief Fund as a vehicle for contributions, appropriations and gifts but the fund has never had a non-zero balance.

Two important features of the LIHEAP program is that HSD will capture 10 percent of the appropriation for administration and 15 percent of the appropriation will be expended for weatherization

HSD:

According to 2006 Fisher, Sheehan & Colton publications, the Home Energy Affordability Gap for low income households is \$600. Although only 71,794 NM households received

House Bill 372/aHCPAC/aHAFC - Page 3

LIHEAP in FFY 2006, there are approximately 180,530 households that meet the LIHEAP income eligibility limit of 150% of Poverty (2000 Decennial Census 2/2005). Using the Home Energy Affordability Gap of \$600, the total approximate energy need for 180,530 households is \$108,318,000. Receiving an undetermined amount in general funds would help to reduce the un-met need.

HSD has provided a table of the payments shown below. HB372 would fit between the \$8 million and the \$10 million columns and depending on the level of "point value option" HSD could serve 33 thousand to over 100 thousand households. At the FY06 level of benefit of \$65 per point, the program would serve 36,449 to 40,709 households in FY08. A point value is based on the available funding and a household's points are determined by income and family size.

ADMINISTRATIVE IMPLICATIONS

HSD reports that it will cost \$175.1 thousand to re-configure their systems to accommodate anticipated changes. \$101.6 thousand can come from federal funds and \$73.5 thousand from the general fund through the appropriation process. Their analysis also includes a request for 10 percent of the appropriation for administrative costs or \$900 thousand. The executive recommendation for general appropriations included \$1 million and the LFC recommendation included \$2 million for LIHEAP.

CONFLICT, DUPLICATION, COMPANIONSHIP, RELATIONSHIP

The Legislative Finance Committee recommendation for the general appropriation act included a \$4 million appropriation to HSD (\$2 million in the base budget and \$2 million as a special appropriation) for LIHEAP and the Executive recommended \$1 million in HSD's budget.

House Bill 372/aHCPAC/aHAFC - Page 4

Senate Bill 323, an identical bill, appropriates \$9 million to HSD for LIHEAP to the gasoline and home heating relief fund, a fund already established for distribution of heating assistance.

House Bill 121 creates a distribution from oil and gas emergency school severance tax and creates a new fund for the same purposes.

Senate Joint Memorial 3 calls on the Federal government to maintain and increase funding for LIHEAP.

OTHER SUBSTANTIVE ISSUES

HSD reports that some of the LIHEAP payments are made directly to recipients and may be considered income for the purposes of other social assistance programs, particularly the food stamp program.

HSD is concerned that the appropriation is to the Gasoline and Home Heating Relief fund which is administered by the department of finance and administration rather than directly to HSD.
