### SIGNIFICANT ISSUES

**ENLACE**, or ENgaging LATino Communities for Education, is a collaboration of community colleges, universities, high schools and community organizations with the goal of producing more Latino and Hispanic high school and college graduates. The ENLACE vision is to seek ways to offer culturally relevant and quality higher education for Latino students. Three original **ENLACE** projects in northern, central and southern New Mexico were funded by the W.K. Kellogg Foundation Initiative for Hispanic Higher Education. A follow-up award was made to

expand the work of ENLACE statewide. Since these projects were created, they have attracted additional private and public funding.

In 2006, the New Mexico legislatures appropriated funds for existing and new ENLACE projects to be distributed by the New Mexico Higher Education Department. NMHED and the existing ENLACE leadership developed performance measures and outcomes for state-funded ENLACE projects.
