

Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

## FISCAL IMPACT REPORT

**ORIGINAL DATE** 1-22-07  
**LAST UPDATED** 2-6-07     **HB** \_\_\_\_\_

**SPONSOR** Feldman

**SHORT TITLE** Native Animal Species Conservation Funding     **SB** 176a/SFC

**ANALYST** Woods

### APPROPRIATION (dollars in thousands)

Appropriation		Recurring or Non-Rec	Fund Affected
FY07	FY08		
NFI	NFI		

(Parenthesis ( ) Indicate Expenditure Decreases)

Duplicates HB83

### SOURCES OF INFORMATION

LFC Files

Responses Received From

Department of Game and Fish (DGF)

### SUMMARY

#### Synopsis of SFC Amendment

Senate Finance Committee amendment to Senate Bill 176 amends to legislation to reflect the following language:

1. On page 6, line 9, before the semicolon, insert “; to pay for depredation caused by any of the native animal species”.

#### Synopsis of Original Bill

Senate Bill 176 provides for the authority to expend money from the game protection fund, the habitat management fund, and other sources for habitat conservation of native animal species. It additionally reconciles multiple amendments to the same section of law in Laws 2005.

## **FISCAL IMPLICATIONS**

The Department of Game and Fish (DGF) indicates that this bill will provide an opportunity for the department to be eligible for federal funding leveraging and native wildlife grants. These funds will assist the agency in improving conservation programs by extending key conservation practices to all native wildlife species.

## **SIGNIFICANT ISSUES**

DGF notes that this bill will ensure that all native wildlife species are clearly contained within Game Commission authority to conduct a full range of habitat management and information programs to promote their conservation. This bill will not extend regulatory authority to additional species not already regulated by statute.

Under current statutory authority, the State Game Commission has the authority to expend funds only to conduct studies, conduct management programs, and acquire habitat for wildlife species that are under specific regulatory authority. This includes game animals and threatened or endangered wildlife species only. Current approaches to wildlife management recognize the holistic or ecosystem approach to management as being beneficial to a suite of species without specific focus on any individual species. Even in cases where a specific species is emphasized, it is widely recognized that many benefit.

DGF adds that New Mexico's recent effort to complete a Comprehensive Wildlife Conservation Strategy for New Mexico reflects the "comprehensive" approach where habitats are the focus rather than the specific species. To adequately support this approach under the State Wildlife Grant program, the State Game Commission requires the ability to put resources toward all native wildlife species in New Mexico. Also, efforts to pass a Land, Wildlife, and Clean Energy Act further emphasize the need to ensure that the state wildlife agency has clear authority to implement the conservation actions provided for in that Act. Additional regulatory authority may be considered controversial governmental action by agricultural, industrial, and commodity interests.
