Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

SUMMARY

Synopsis of SPA Amendment

The Senate Public Affairs Committee makes the following amendment.

1. On page 1, line 20, strike the second "of" and strike line 21 in its entirety.

Senate Bill 940/aSPAC – Page 2

This change removes the specific rate of pay increase but leaves the appropriation. This would allow for more flexibility in the increase to help maintain budgetary integrity. Including a mandated \$13.94 per hour could create a situation making the \$3.9 million appropriation insufficient to pay for the additional expenditures.

Synopsis of Original Bill

Senate Bill 940 appropriates \$3.9 million from the general fund to the Human Services Department for to implement a single reimbursement rate of \$13.94 per hour for Personal Care Option (PCO) services.

FISCAL IMPLICATIONS

The appropriation of \$3.9 million contained in this bill is a recurring expense to the general fund. Any unexpended or unencumbered balance remaining at the end of Fiscal Year 2008 shall revert to the general fund.

SIGNIFICANT ISSUES

The PCO program has two service delivery models, Consumer-Delegated and Consumer-Directed. The Consumer-Delegated model is the only model which has a tiered reimbursement rate structure. Providers offering services under the Consumer-Delegated model bill \$13.50 per hour for the first 100 hours of personal care services provided to a consumer in a month, and \$11.50 per hour for 101 + hours of personal care services provided to a consumer in a month. SB 940 proposes eliminating this tiered reimbursement rate structure and reimbursing providers at a rate of \$13.94 per hour for services under the Personal Care Option (PCO) program. Providers under the Consumer-Directed model bill at a rate of \$12.50 per hour for personal care services provided to consumers.

It is assumed the single rate of reimbursement would apply to both the Consumer-Delegated and Consumer-Directed models.

The appropriation would be federally matched at 71.26% for a total of program increase of approximately \$13.6 million.

The PCO program currently enrolls about 114 new consumers per month. This equates to slightly more than a 1% program growth rate per month. The \$3,900.0 may not be adequate to re-price the per-hour basis for both models if the growth of PCO continues at the present rate.

PCO is a Medicaid benefit for individuals that are Medicaid eligible and meet the nursing home level of care by requiring assistance with two or more activities of daily living. As with any other Medicaid benefit that is medically necessary, the individual is entitled to receive that benefit. SB 940 appropriates a specified amount of funding for a single provider rate increase may not fully take into account the growing number of recipients that are entitled to utilize PCO program benefits.

Currently in FY 07, 10,325 unduplicated persons have received PCO services. Approximately 9,000 persons are served each month. The average annual "Plan of Care" cost for PCO services is \$20,412. The aggregate budget projection for FY 07 is approximately \$205.0 million.
