1 relating to purchasing insurance coverage for the defined
2 essential health services;

3 (9) the implementation of a program that
4 partners public health coverage programs with private health
5 coverage plans to provide health insurance coverage that meets
6 affordability standards;

7 (10) the design of measures to make health
8 insurers and health benefit plans accountable to the public and
9 to state government;

10 (11) the assessment of strategies for reducing
11 racial and ethnic health care disparities and identifying
12 underserved populations;

13 (12) the evaluation of incentives for
14 providers to utilize information technology to deliver
15 efficient, safe and quality health care and to encourage the
16 development of individual electronic medical records that
17 protect patient privacy;

18 (13) the evaluation of the feasibility of
19 implementing programs to deliver local community-based health
20 care services;

21 (14) the examination of measures, targeted at
22 local and statewide levels as appropriate, to improve health
23 care outcomes while containing costs; and

2 B. The authority's staff is subject to the
3 provisions of the Personnel Act.

4 Section 6. REPORTING AND USE OF DATA.--

5 A. Health insurers, providers and employers shall
6 report to the authority data about health coverage, services
7 delivered, incident and infection rates and outcomes achieved
8 in a format required or approved by the authority after
9 consultation with other state entities authorized to collect
10 related data.

11 B. Data reported shall be in aggregate form except
12 where patient-specific data is necessary to provide
13 unduplicated information. Data shall be reported
14 electronically to the extent possible. The authority shall use
15 and report data received only in aggregate form and shall not
16 use or release any individual-identifying information or
17 corporate proprietary information for any purpose except as
18 provided by state or federal law or by court order.

19 C. In developing data reporting requirements, the
20 authority shall seek and consider input from health insurers,
21 providers, employers, advisory councils created pursuant to
22 Section 4 of the Health Care Authority Act and the public
23 regarding the format, timing and method of transmission of data
24 to prevent duplicative reporting and to make the reporting of
25 data the least burdensome possible.
