WHEREAS, the bank of North Dakota functions in a role
similar to a central bank or wholesale bank, buying and selling federal funds, providing check clearing, liquidity and bond accounting safekeeping; and

WHEREAS, the bank of North Dakota invests its funds back into the state through student loans, business development loans, state bonds and municipal bonds that are guaranteed by the general fund and the taxpayers of the state; and

WHEREAS, the bank of North Dakota's model allows it to encourage different economies to grow within the state and to provide loans to businesses in times of disaster; and

WHEREAS, the bank of North Dakota provides dividends back to the general fund of the state, which are used to offset taxes or aid in funding public sector needs; and

WHEREAS, while private sector banks lost millions of dollars in the economic crash of 2008, the bank of North Dakota made a profit and avoided the credit freeze by leading the nation in establishing state economic sovereignty and creating its own credit;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NEW MEXICO that the model established by the bank of North Dakota, its economic attributes and contributions to the economic health of the state be worthy of study; and

appropriate interim legislative committee by October 1, 2016;
and

BE IT FURTHER RESOLVED that copies of this memorial be
transmitted to the president of the bank of North Dakota and
the co-chairs of the New Mexico legislative council.
