SUMMARY

Synopsis of Senate Floor Amendment

The Senate floor amendment defines "cave" as "any natural geologically formed void or cavity beneath the surface of the earth, not including any mine, tunnel, aqueduct or other manmade excavation."

Synopsis of Bill

Senate Bill 17 (SB17) clarifies that cave exploration is included among recreational activities addressed in the duty of care language in Section 17-4-7 NMSA 1978. The statute relates to liability of landowners and SB17 adds cave exploration as an activity that the owner/lessee/person in control does not (1) extend assurance that the premises are safe for such purpose; (2) assume any duty of care to keep such lands safe for entry or use; (3) assume responsibility or liability for injury or damage to or cause by such person or group; or (4) assume any greater responsibility, duty of care or liability to such person or group than if permission had not been granted and the person or group were trespassers.

FISCAL IMPLICATIONS

No fiscal impact.

SIGNIFICANT ISSUES

Current statute provides that landowners who, without charge or other consideration, grants permission to use of their land for recreational activities have a defined duty of care to individuals using the land for such purposes. Hunting, fishing, trapping, camping, hiking, sightseeing, and the operation of aircraft are specifically listed along with “any other recreational use.” While cave exploration could be interpreted as an “other recreational use,” SB17 expressly adds it to the list.
