The purpose of public school support is to carry out the mandate to establish and maintain a uniform system of free public schools sufficient for the education of, and open to, all the children of school age in the state.

Appropriations:	2,536,958.2	5,000.0		2,541,958.2

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary of public education shall establish a preliminary unit value to establish budgets for the 2018-2019 school year and then, on verification of the number of units statewide for fiscal year 2019 but no later than January 31, 2019 the secretary of public education may adjust the program unit value.

Notwithstanding the provisions of the School Personnel Act, the secretary of public education shall ensure that no full-time level one teacher receives a base salary less than thirty-six thousand dollars (\$36,000), no full-time level two teacher receives a base salary less than forty-four thousand dollars (\$44,000) and no full-time level three-A teacher receives a base salary less than fifty-four thousand dollars (\$54,000) during fiscal year 2019.

The final program cost calculation of a first-year charter school shall use membership reported on the first reporting date of the current fiscal year in the calculation of program units.

For fiscal year 2019, if the program cost made available is insufficient to meet the level of state support required by the special education maintenance of effort requirements of Part B of the federal Individuals with Disabilities Education Act, the public education department shall reduce the program cost in an amount that equals the projected shortfall and distribute that amount to school districts and charter schools in the same manner and on the same basis as the state equalization guarantee distribution to meet the level of support required by Part B of the federal Individuals with Disabilities Education Act for fiscal year 2019 and shall reset the final unit value to account for the reduction.

After considering those elementary physical education programs eligible for state financial support and the amount of state funding available for elementary physical education, the secretary of public education shall annually determine the programs and the consequent numbers of students in elementary physical education that will be used to calculate the number of elementary physical education program units, provided that no school district or charter school shall generate elementary physical education program units in fiscal year 2019 in excess of the total average number of elementary students enrolled on the second and third reporting dates of the 2017-2018 school year multiplied by the cost differential factor of six one-hundredths as established in Section 22-8-23.7 NMSA 1978.

The general fund appropriation to the state equalization guarantee distribution includes sufficient funding to increase the cost differential factor of the at-risk index from 0.106 to 0.13 for purposes of calculating at-risk program units pursuant to Section 22-8-18 NMSA 1978. The public education department shall monitor and evaluate the ways in which school districts and individual schools use funding generated through the additional at-risk program units and the intended outcomes pursuant to Section 22-8-23.3 NMSA 1978 for fiscal year 2019 and report its findings to the legislative education study committee and the legislative finance committee on or before February 1, 2019.

The public education department shall not approve the operating budget of any school district or charter school to operate a four-day school week during the 2018-2019 school year that did not provide a four-day school week during the 2017-2018 school year.

The department shall not approve nor certify an operating budget of any school district or charter school with a proportion of spending for direct instruction and instructional support services lower than the average proportion of spending for direct instruction and instructional support services of comparable school districts or charter schools with similar student membership unless that school district or charter school demonstrates the proportion of spending for direct instruction and instructional support services is sufficient to provide a free and appropriate public education to students that is uniform with all other students in the state.

Funds appropriated from the general fund to the state equalization guarantee distribution or any cash balances derived from appropriations from the general fund to the state equalization guarantee distribution in any year shall not be used to fund any litigation against the state unless or until a court issues a final decision in favor of a plaintiff school district or charter school and all legal remedies have been exhausted.
