SENATE BILL 29

54TH LEGISLATURE - STATE OF NEW MEXICO - SECOND SESSION, 2020

INTRODUCED BY

Mimi Stewart and Matthew McQueen

AN ACT

RELATING TO TAXATION; CREATING THE NEW SOLAR MARKET DEVELOPMENT INCOME TAX CREDIT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

SECTION 1. A new section of the Income Tax Act is enacted to read:

"[NEW MATERIAL] NEW SOLAR MARKET DEVELOPMENT INCOME TAX CREDIT.--

A. For taxable years prior to January 1, 2030, a taxpayer who is not a dependent of another individual and who, on or after January 1, 2020, purchases and installs a solar thermal system or a photovoltaic system in a residence, business or agricultural enterprise in New Mexico owned by that taxpayer, may apply for, and the department may allow, a credit against the taxpayer's tax liability imposed pursuant to the .216017.2GLG
Income Tax Act in an amount provided in Subsection C of this section. The tax credit provided by this section may be referred to as the "new solar market development income tax credit".

B. The purpose of the new solar market development income tax credit is to encourage the installation of solar thermal and photovoltaic systems in residences, businesses and agricultural enterprises.

C. The department may allow a new solar market development income tax credit of ten percent of the purchase and installation costs of a solar thermal or photovoltaic system.

D. The new solar market development income tax credit shall not exceed six thousand dollars ($6,000). The department shall allow a tax credit only for solar thermal and photovoltaic systems certified pursuant to Subsection J of this section.

E. The department may allow a maximum annual aggregate of ten million dollars ($10,000,000) in new solar market development income tax credits per calendar year. Completed applications for the credit shall be considered in the order received by the department.

F. A taxpayer may claim a new solar market development income tax credit for the taxable year in which the taxpayer purchases and installs a solar thermal or photovoltaic
system. To receive a new solar market development income tax
credit, a taxpayer shall apply to the department on forms and
in the manner prescribed by the department within twelve months
following the calendar year in which the system was installed.
The application shall include a certification made pursuant to
Subsection J of this section.

G. That portion of a new solar market development
income tax credit that exceeds a taxpayer's tax liability in
the taxable year in which the credit is claimed may be carried
forward for a maximum of five consecutive taxable years.

H. Married individuals filing separate returns for
a taxable year for which they could have filed a joint return
may each claim only one-half of the new solar market
development income tax credit that would have been claimed on a
joint return.

I. A taxpayer may be allocated the right to claim a
new solar market development income tax credit in proportion to
the taxpayer's ownership interest if the taxpayer owns an
interest in a business entity that is taxed for federal income
tax purposes as a partnership or limited liability company and
that business entity has met all of the requirements to be
eligible for the credit. The total credit claimed by all
members of the partnership or limited liability company shall
not exceed the allowable credit pursuant to this section.

J. The energy, minerals and natural resources
department shall adopt rules establishing procedures to provide
certification of solar thermal and photovoltaic systems for the
purposes of obtaining a new solar market development income tax
credit. The rules shall address technical specifications and
requirements relating to safety, code and standards compliance,
solar collector orientation and sun exposure, minimum system
sizes, system applications and lists of eligible components.
The energy, minerals and natural resources department may
modify the specifications and requirements as necessary to
maintain a high level of system quality and performance.

K. A taxpayer allowed a tax credit pursuant to this
section shall report the amount of the credit to the taxation
and revenue department in a manner required by that department.

L. The taxation and revenue department shall
compile an annual report on the new solar market development
income tax credit that shall include the number of taxpayers
approved by the department to receive the credit, the aggregate
amount of credits approved and any other information necessary
to evaluate the credit. The department shall present the
report to the revenue stabilization and tax policy committee
and the legislative finance committee with an analysis of the
cost of the tax credit.

M. As used in this section:

(1) "photovoltaic system" means an energy
system that collects or absorbs sunlight for conversion into
electricity; and

(2) "solar thermal system" means an energy system that collects or absorbs solar energy for conversion into heat for the purposes of space heating, space cooling or water heating."

SECTION 2. APPLICABILITY.--The provisions of this act apply to taxable years beginning on or after January 1, 2020.
