## A MEMORIAL

REQUESTING THE PUBLIC EDUCATION DEPARTMENT TO STUDY AND DEVELOP A NEW AT-RISK INDEX FOR THE PUBLIC SCHOOL FUNDING FORMULA.

WHEREAS, the at-risk index is a critical component of the state equalization guarantee distribution; and

WHEREAS, the at-risk index is meant to target funds toward the education of the most vulnerable students; and

WHEREAS, the at-risk index is currently calculated at the school district level and does not account for the wide intra-district variances in demographics and enrollment at the public school level; and

WHEREAS, the legislature has prioritized at-risk students by tripling the at-risk factor over the last three years, but there is no way to ensure that the at-risk funds are being delivered to the public schools that the intended beneficiaries attend;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NEW MEXICO that the public education department, with the assistance of outside experts, be requested to study and develop a new at-risk index in the public school funding formula that provides for its calculation at the public school level and takes into account demographic data for subgroups associated with the district
