registered to vote in that county.

B. The request shall not reveal the name or address
of the voter-participant. In place of a voter-participant's
name and address, the administrator shall provide the

If the random identifier appears in both places, the appropriate county clerk shall verify that the verification code assigned to that random identifier for that election matches the verification code provided by the voter-participant under the privacy flap in lieu of the voter's signature. If the verification code is on the list provided by the administrator for use in that election and matches the random identifier assigned by the administrator to identify the voter-
participant, the ballot shall be qualified and processed in the same manner as mailed absentee ballots or mailed ballots received and qualified in that election.

    C. any election, precinct or polling place that is the subject of
the contest or other judicial inquiry.

B. Following the retention period, paper ballots

preserved in the county may be destroyed at a time and in a
manner as determined by the county clerk; provided that the
county clerk shall use one of the destruction methods approved
by the state records administrator for destruction of public
records. Any interested person shall be permitted to be
present during the destruction of paper ballots marked by a
voter and records related to voting by the county clerk. At
least seven days prior to a destruction, the clerk shall post
on the county website a notice of destruction of paper ballots
and records related to voting and shall provide notice to the
county chair of each political party participating in that
election. The notice shall include information regarding the
election that is the subject of the records destruction and the
date, time and place where marked ballots and records related
to voting will be destroyed.

C. During the retention period, the county clerk
may determine that paper ballots marked by voters and physical records related to voting from an election should be retained and preserved by the state records administrator. The state records administrator shall receive for storage paper ballots marked by voters and physical records related to voting and, following the retention periods required by this section, may destroy the ballots and physical records pursuant to the procedures used by the state records administrator for destruction of public records following a retention period. The state records administrator may enter into a memorandum of understanding with the secretary of state to cover the costs of storage through the state election fund. The county clerk shall post on the county website a notice at least seven days prior to sending ballots and physical records related to voting to the state records administrator.

D. Paper ballots marked by voters, their digitized equivalents and records related to voting are exempt from third-party inspection except as otherwise provided in the Election Code until the later of sixty days following adjournment of the state or county canvassing board for that election or sixty days following any recount, contest or other judicial inquiry for any election, precinct or polling place that is the subject of the recount, contest or judicial inquiry. Thereafter, during the retention period and prior to destruction of the ballots or records, a third-party inspection

SECTION 77. Section 1-14-13.2 NMSA 1978 (being Laws 2009, Chapter 233, Section 1, as amended) is amended to read:

"1-14-13.2. POST-ELECTION DUTIES--VOTING SYSTEM CHECK.--

A. At least ninety days prior to each [general] statewide election or as soon as practicable prior to an election to fill a vacancy in the office of United States representative, the secretary of state shall contract with an
auditor qualified by the state auditor to audit state agencies
to oversee a check on the accuracy of precinct electronic vote
tabulators, alternate voting location electronic vote
tabulators and absent voter precinct electronic vote
tabulators. The voting system check shall be conducted for all
federal offices, for governor and for the statewide elective
office, other than the office of the governor, for which the
winning candidate won by the smallest percentage margin of all
candidates for statewide office in New Mexico. The voting
system check is waived for any office for which an
automatic recount is conducted.

B. For each selected office, the auditor shall
publicly select a random sample of precincts from a pool of all
precincts in the state no later than twelve days after the
election. The random sample shall be chosen in a process that
will ensure, with at least ninety percent probability for the
selected offices, that faulty tabulators would be detected if
they would change the outcome of the election for a selected
office. The auditor shall select precincts starting with the
statewide office with the largest winning margin and ending
with the precincts for the statewide office with the smallest
winning margin and then, in the same manner, select precincts
from each congressional district. The size of the random
sample for each office shall be determined as provided in Table
1 of this subsection. When a precinct is selected for one
office, it shall be used in lieu of selecting a different
precinct when selecting precincts for another office in the
same congressional district, or for any statewide office. If
the winning margin in none of the offices for which a voting
system check is required is less than fifteen percent, a voting
system check for that general election shall not be required.

C. After selecting the random sample of precincts pursuant to Subsection B of this section or as required for a regular local election, the auditor shall also randomly select one precinct from each county where a precinct was not selected.
in the random sample.

[C.] D.  The auditor shall notify the appropriate county clerks of the precincts that are to be included in the voting system check upon their selection. The auditor shall direct the appropriate county clerks to open the locked ballot boxes and remove ballots from the selected precincts and:

(1) in a primary or general election, the auditor shall direct the appropriate county clerks to compare the original machine count precinct vote totals [including early absentee and absentee by mail machine count vote totals] for candidates for offices subject to the voting system check from the selected precincts for each office with the respective vote totals of a hand recount of the paper ballots from those precincts;

(2) in a regular local election, the size of the random sample shall be the largest number of precincts that were used for the random sample in the previous general election. The auditor shall direct the appropriate county clerks to compare the original machine count precinct vote totals for the three contests with the closest margin between the two candidates receiving the greatest number of votes affecting the final outcome for an office from each of the selected precincts with the respective vote totals of a hand recount of the paper ballots from those precincts; provided that if there are fewer than three contested contests in a
precinct, the auditor shall randomly select one or more
contests so that three contests are included in the sample from
that precinct; and

(3) in an election called to fill a vacancy in
United States representative, the auditor shall direct the
appropriate county clerks to compare the original machine count
precinct vote totals for candidates for United States
representative from the selected precincts with the respective
vote totals of a hand recount of the paper ballots from those
precincts.

E. The county clerks shall report their results to
the auditor within [ten] fourteen days of the notice to conduct
the voting system check unless a county clerk is aware of a
recount in any office that includes one or more precincts in
the county, in which case the county clerk shall report the
results of the post-election audit to the auditor within [ten]
fourteen days following the conclusion of the recount.

[D-1] F. Based on the results of the voting system
check and any other auditing results, the auditor shall
determine the error rate in the sample for each office. If the
winning margin decreases and the error rate based on the
difference between the vote totals of hand recounts of the
paper ballots and the original precinct vote totals exceeds
ninety percent of the winning margin for an office, another
sample equal in size to the original sample shall be selected
and the original precinct vote totals compared to the vote
totals of hand recounts. The error rate based on the first and
second sample shall be reported, and if it exceeds ninety
percent of the winning margin for the office, the state
canvassing board shall order that a full hand recount of the
ballots for that office be conducted.

[E] G. The auditor shall report the results of the
voting system check to the secretary of state upon completion
of the voting system check and release the results to the
public.

[F] H. Persons designated as county canvass
observers may observe the hand recount described in Subsection
[G] D of this section. Observers shall comply with the
procedures governing county canvass observers as provided in
Section 1-2-31 NMSA 1978.

[G] I. If a recount for an office selected for a
voting system check is conducted pursuant to the provisions of
Chapter 1, Article 14 NMSA 1978, the vote totals from the hand
count of ballots for that office in precincts selected for the
voting system check may be used in lieu of recounting the same
ballots for the recount.

[H] J. All costs of a voting system check or
required hand recount shall be paid in the same manner as
automatic recounts."

SECTION 78. Section 1-14-15 NMSA 1978 (being Laws 1978,
Chapter 48, Section 1, as amended) is amended to read:

"1-14-15. RECOUNTS--RECHECKS--COST OF PROCEEDINGS.--

A. An applicant for a recount shall deposit with the proper canvassing board or, in the case of an office for which the state canvassing board issues a certificate of nomination or election, with the secretary of state sufficient cash, or a sufficient surety bond, to cover the cost of a recount for each precinct for which a recount is demanded. An applicant for a recheck shall deposit with the proper canvassing board or, in the case of an office for which the state canvassing board issues a certificate of nomination or election, with the secretary of state sufficient cash, or a sufficient surety bond, to cover the cost of the recheck for each voting machine to be rechecked. The state canvassing board shall determine the estimated actual cost of a recount per polling place and for mailed ballots and a recheck per voting machine no later than March 15 of even-numbered years. The secretary of state shall post the recount and recheck cost determinations on the secretary of state's website when the state canvassing board issues its cost determinations.

B. The deposit or surety bond shall be security for the payment of the costs and expenses of the recount or recheck in case the results of the recount or recheck are not sufficient to change the results of the election.
C. If it appears that error or fraud sufficient to change the winner of the election has been committed, the costs and expenses of the recount or recheck shall be paid by the state upon warrant issued by the secretary of finance and administration supported by a voucher of the secretary of state, or shall be paid by the county upon warrant of the county clerk from the general fund of the county, as the case may be.

D. If no error or fraud appears to be sufficient to change the winner, the costs and expenses for the recount or recheck shall be paid by the applicant. Costs shall consist of any docket fees, mileage of the sheriff in serving summons and fees and mileage of [precinct] election board members, at the same rates allowed witnesses in civil actions. If error or fraud has been committed by [a precinct] an election board, the board members shall not be entitled to such mileage or fees."

SECTION 79. Section 1-14-24 NMSA 1978 (being Laws 2008, Chapter 41, Section 1, as amended) is amended to read:

"1-14-24. AUTOMATIC RECOUNTS--[ELECTIONS FOR STATE AND FEDERAL OFFICES] PROCEDURES.--

(3) one percent of the total votes cast in that election or five or fewer votes between the two candidates receiving the greatest number of votes for that office in the case of any other office.
B. For an office for which ballots were cast in more than one county, the secretary of state shall file notice with the state canvassing board upon the completion of the state canvass that an automatic recount is required, and the state canvassing board shall order a recount of the ballots for the specified office. For an office in which ballots were cast solely within one county, the secretary of state shall file notice with the state canvassing board within seven days after receiving notice from the county clerk following the completion of the county canvass that an automatic recount is required, and the state canvassing board shall order a recount of the ballots for the specified office.
