(6) provide for the engagement of rural communities;

4 (7) ensure, by using the integrated water 5 data and information platform developed pursuant to the Water 6 Data Act and collaborating with the bureau of geology and mineral resources of the New Mexico institute of mining and 7 technology and the water resources research institute, that 8 the best science, data and models relating to water resource 9 10 planning are available to the regional water planning entities and are used with scientific integrity and adherence 11 to principles of honesty, objectivity, transparency and 12 professionalism in developing, vetting and prioritizing 13 proposals; 14

(8) report, by October 31 of each year, to
the appropriate legislative interim committee dealing with
water and natural resources and, by October 31 of each year,
distribute the report to the appropriate state agencies
dealing with water and natural resources on regional water
planning implementation that includes:

(a) approved regional water security
plans with prioritized projects, programs and policies for
state funding;

24 (b) outcomes of regional water security25 plan implementation; and

SCONC/SB 337 Page 4

1 the status of regional water (c) 2 planning expenditures; and 3 (9) support regional water planning entities 4 by: (a) providing technical and local 5 capacity development support, including commission staff and 6 funding; 7 8 (b) providing statewide objectives for 9 regional water security plan development, including compliance with interstate compacts, the federal Endangered 10 Species Act of 1973 and congressionally authorized tribal 11 water settlement acts; 12 supporting the development of a 13 (c) proposal for alternative administration through active water 14 15 resources management, if prioritized by the region, that may be submitted to the state engineer and affected Indian 16 nations, tribes and pueblos for approval; and 17 identifying funding sources and (d) 18 supporting the acquisition of funds for implementation of 19 20 approved regional water security plans. SECTION 5. REGIONAL WATER PLANNING ENTITIES.--21 A. An entity shall not be made a part of a 22 proposal for planning funds under this section without that 23 entity's consent. 24 The outcomes sought by each regional water B. 25

SCONC/SB 337 Page 5

1 planning entity shall: 2 be established through broad public (1) 3 input; 4 (2) consider public welfare values, 5 balancing water uses and the needs of future generations of 6 New Mexicans; (3) be grounded in state water law; 7 8 (4) be developed using the best available science; 9 10 (5) recognize and respect federally recognized or reserved tribal water rights; 11 (6) consider access to water for domestic 12 use; and 13 comply with applicable federal water (7) 14 15 law. Each regional water planning entity shall: 16 C. be composed of regional stakeholders as 17 (1) identified in the entity's guidelines; 18 ensure opportunities for participation 19 (2) 20 by Indian nations, tribes or pueblos located within the water planning region; 21 (3) obtain public input in the development, 22 vetting and prioritization of regional water planning 23 activities and proposals; 24 assist in the funding, development and (4) 25
