SECTION III: NARRATIVE

BILL SUMMARY

Synopsis: Senate Joint Resolution 14 proposes a constitutional amendment question be included in the next general election or any special election prior to that date that will be called for that purpose. The question asks voters to approve or reject proposes an amendment to Article 1 of the Constitution of New Mexico to establish procedures for the state to consent to the secession of three of more contiguous counties.

FISCAL IMPLICATIONS

If the bill passes, the constitutional amendment might be decided by the voters in the next general election which is in FY25. It might also be decided by a special election prior to that time. In either case, for the purposes of determining the costs involved, the Secretary of State (SOS) wishes to inform legislators that, pursuant to NMSA 1978, Section 1-16-4, and Article 19 Section 1 of the New Mexico Constitution, the SOS is required to publish the ballot question for each proposed constitutional amendment, in both Spanish and English.

The SOS is constitutionally required to publish the ballot question of each proposed constitutional amendment once a week for four consecutive weeks preceding the election in one newspaper in every county in the state. The cost will vary based on the length of the ballot question. Historically, the estimated publication cost per amendment was approximately \$142,000; however, due to recent legislative changes, the publication costs have significantly decreased to approximately \$75,000 - \$85,000 per amendment.

The SOS also produces a general election voter guide that includes information about proposed constitutional amendments as well general information about voting. The office provides it to voters at polling locations throughout the state. The cost of producing the voter guide will change depending upon the number and length of the constitutional amendments passed and the number of registered voters. However, as a reference, the 2022 Voter Guide cost approximately \$41,500 from GSD State Printing.

The number of constitutional amendments that pass may also impact the page size of the ballot, or if the ballot size is caused to become greater than one page, front and back, which will increase the cost of producing the ballots for the general election. In addition to the cost of the ballot, there

may be time added to the voting process, which would require additional ballot printing systems to ensure a smooth and efficient voting process within the bounds of national best practices.
