Re: Sacred Sites

Dear Mr. Killback

I agree that Sacred Sites should be protected, but, in the process we should take into account the value of all the resources of the mountain. Also, the uses of the mountain such as recreation and economic development for all of the people and not just Native Americans.

The process should also take into account the protection of private property rights of the people that own land and all the Land Grants surrounding the area.

The footprint of these Sacred sites should be realistic and not include the whole mountain.

Respectfully yours,

Senator David Ulibarri
