Dental Care Use

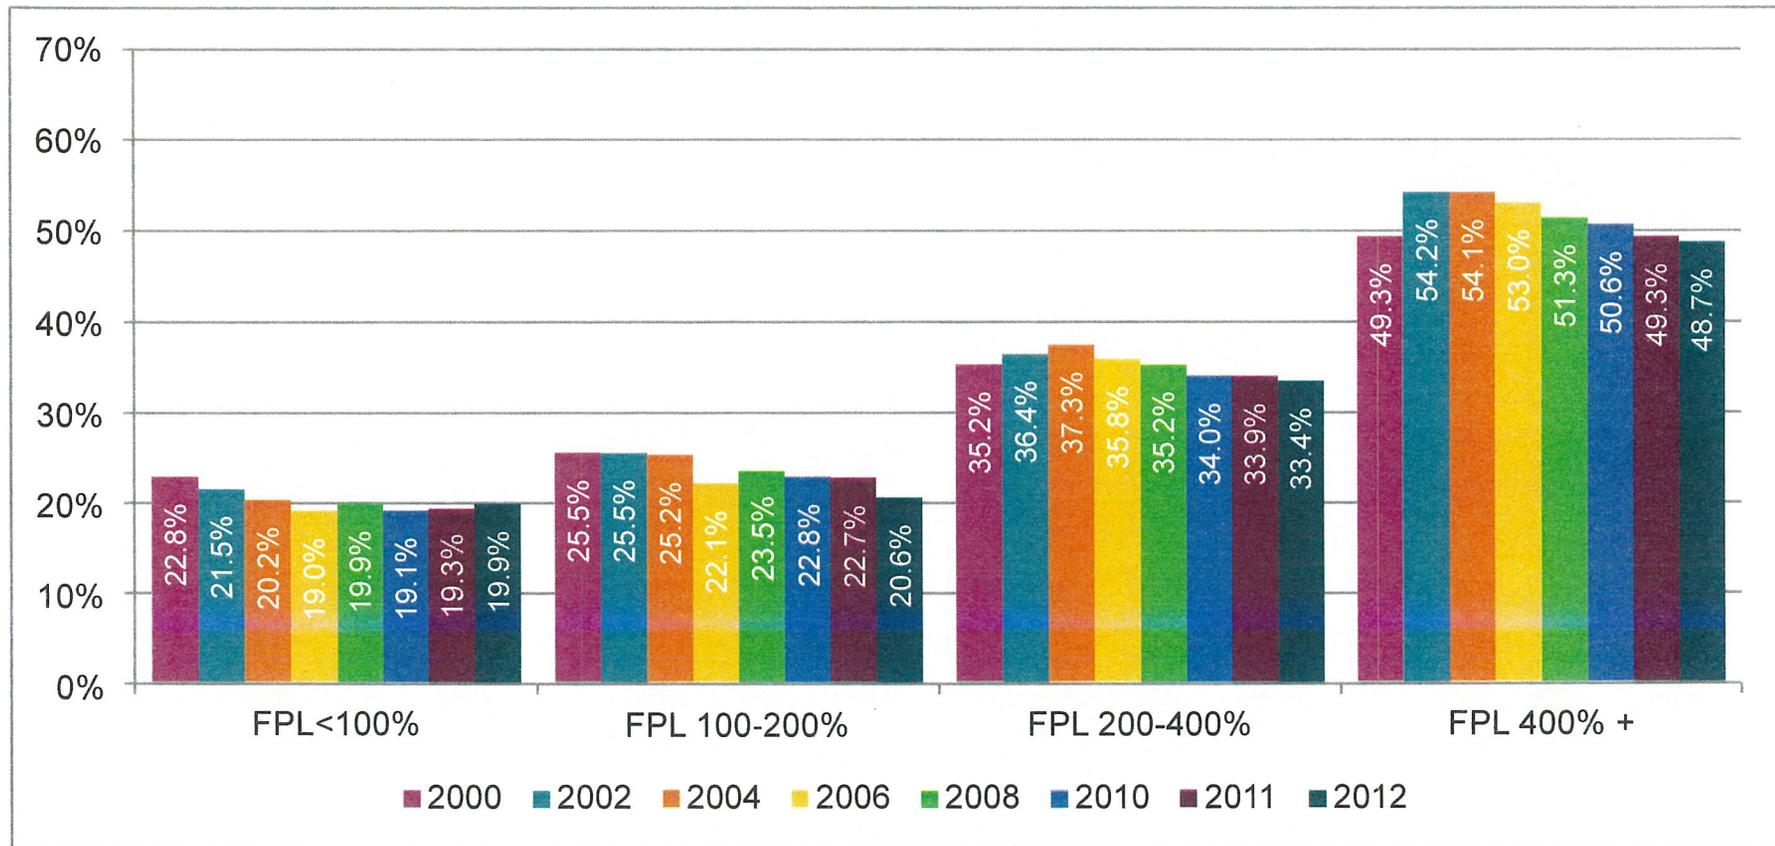

Figure 7: Percentage of Adults Ages 19-64 with a Dental Visit in the Year by Dental Benefits Status, 2000-2012

Source: Medical Expenditure Panel Survey, AHRQ. **Notes:** Changes are significant at the 1% level for private (2004-2012) and the uninsured (2000-2012). Changes are significant 5% level for public (2000-2012).

Dental Care Use

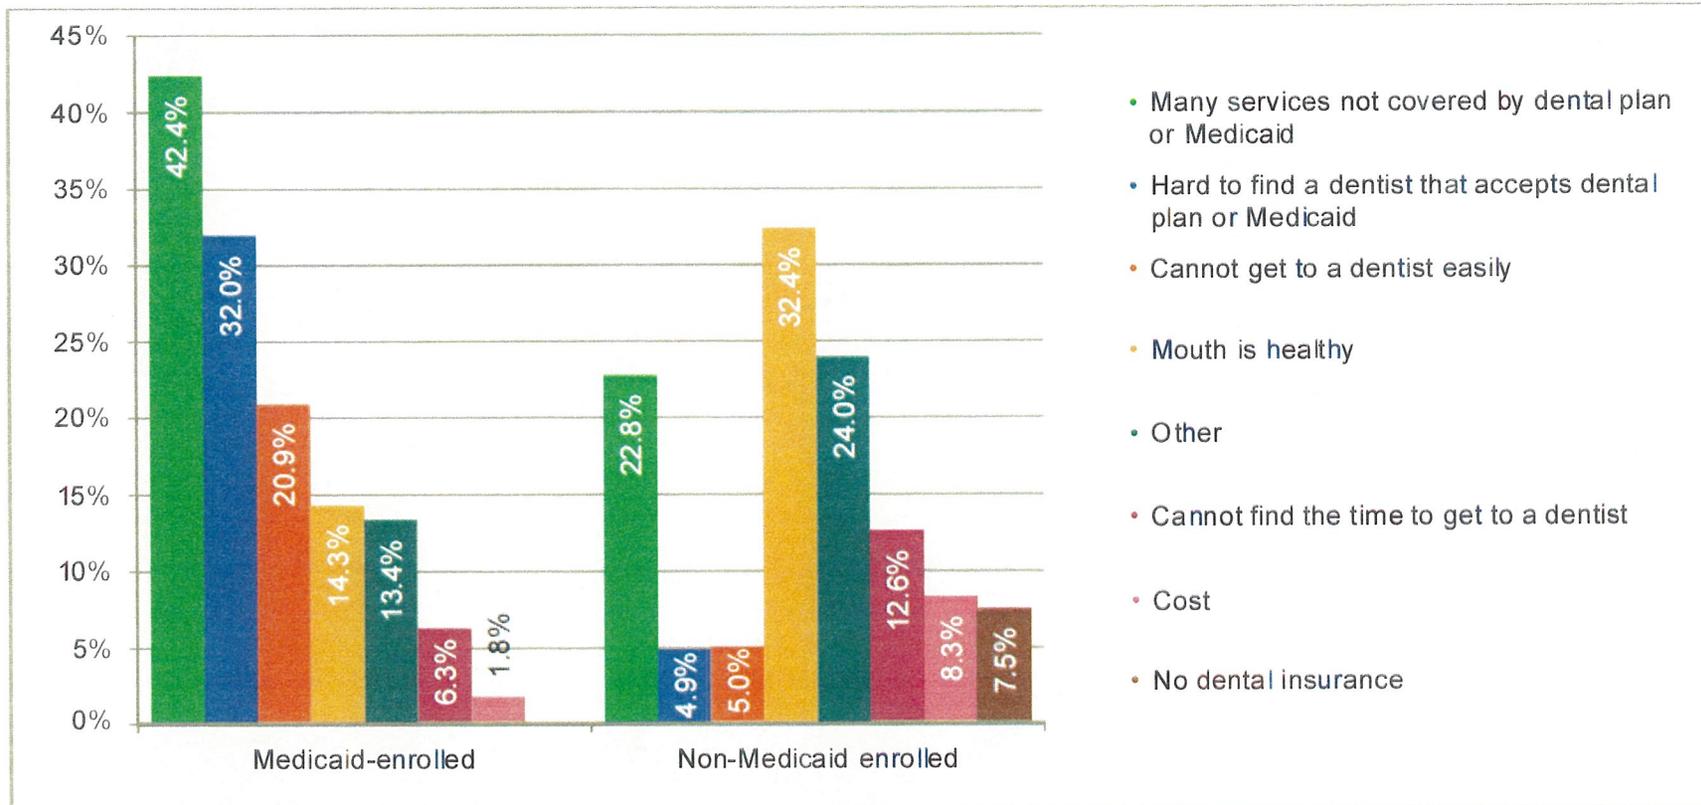

Figure 4: Percentage of Adults Ages 19-64 with a Dental Visit in the Year for Select Income Groups, 2000-2012

Source: Medical Expenditure Panel Survey, AHRQ. **Notes:** Changes are significant at the 5% level for FPL 200-400% and at the 1% level for FPL 100-200% and FPL 400% + (2002-2012).

Dental Care Use

Figure 8: Reasons Why Adults Do Not Plan to Visit a Dentist in the next 12 Months

Source: ADA HPI analysis of Harris Poll survey data. Notes: Results for non-Medicaid enrolled adults based on 462 observations. Results for Medicaid-enrolled adults based on 73 observations. Respondents were asked this question if they indicated that they would not visit the dentist in the next 12 months, or if they were unsure whether they would visit the dentist in the next 12 months. All survey results are weighted by general population weights provided by Harris Poll.
